**STATE REGISTER, MONDAY, MARCH 15, 1982 (CITE 6 S.R. 1572)**
PROPOSED RULES

Pursuant to Minn. Laws of 1980, § 15.0412, subd. 4h, an agency may propose to adopt, amend, suspend or repeal rules without first holding a public hearing, as long as the agency determines that the rules will be noncontroversial in nature. The agency must first publish a notice of intent to adopt rules without a public hearing, together with the proposed rules, in the State Register. The notice must advise the public:

1. that they have 30 days in which to submit comment on the proposed rules;
2. that no public hearing will be held unless seven or more persons make a written request for a hearing within the 30-day comment period;
3. of the manner in which persons shall request a hearing on the proposed rules; and
4. that the rule may be modified if modifications are supported by the data and views submitted.

If, during the 30-day comment period, seven or more persons submit to the agency a written request for a hearing of the proposed rules, the agency must proceed under the provisions of § 15.0412, subds. 4 through 4g, which state that if an agency decides to hold a public hearing, it must publish in the State Register a notice of its intent to do so. This notice must appear at least 30 days prior to the date set for the hearing, along with the full text of the proposed rules. (If the agency has followed the provisions of subd. 4h and has already published the proposed rules, a citation to the prior publication may be substituted for republication.)

Pursuant to Minn. Stat. § 15.0412, subd. 5, when a statute, federal law or court order to adopt, suspend or repeal a rule does not allow time for the usual rulemaking process, temporary rules may be proposed. Proposed temporary rules are published in the State Register, and for at least 20 days thereafter, interested persons may submit data and views in writing to the proposing agency.

Temporary Rules as Proposed

A. [Unchanged.]

W. Temporary program. “Temporary program” means a plan which exempts one or more utilities from one or more provisions of the Minnesota Energy Conservation Program, in whole or in part, for a specified period, determined by the agency, which may not exceed four years.

6 MCAR § 2.2314 [Temporary] Temporary programs.

A. Allowable exemptions. The agency may exempt a utility from one or more of the following provisions:

1. The requirement for taking actual measurements of the building shell as described in 6 MCAR § 2.2303 C.2.a.

2. The requirement in 6 MCAR § 2.2303 C.2. to provide cost and savings estimates for those renewable resource measures:

3. The requirement to provide cost and savings estimates for caulking and weatherstripping as described in 6 MCAR § 2.2303 C.2.:
4. The requirement to calculate the energy index for the residence as described in 6 MCAR § 2.2303 C.3.;

5. The requirement to measure and provide costs and savings estimates for duct and pipe insulation as described in 6 MCAR § 2.2303 C.2.;

6. The requirement to provide the results of the audit on site to the customer as described in 6 MCAR § 2.2303 E.1.; and

7. The requirement to provide estimates of energy savings and costs of installation by a contractor or by the customer with a 20 percent maximum range, as described in 6 MCAR § 2.2303 E.1.a.-c.

B. Eligible applicants. Proposed temporary programs may be submitted to the agency by any covered utility, nonregulated utility, or heating oil supplier.

C. Time for submission of program. A proposed temporary program may be submitted to the agency any time during the life of the program.

D. Approval. The agency shall approve or disapprove a proposed temporary program within 90 days of receiving the temporary program, or later if the person who submitted the proposed temporary program is notified before the end of the original 90-day period. Failure by the agency to approve, disapprove, or notify an applicant within the 90 days constitutes disapproval.

E. Criteria for approval. The agency shall approve a proposed temporary program only if the organization submitting the proposed temporary program demonstrates to the agency's satisfaction that the temporary program:

1. Contains adequate procedures to assure that each covered utility under the program will charge fair and reasonable prices and rates of interest to its eligible customers in connection with the purchase and installation of residential energy conservation and renewable resource measures;

2. Contains adequate procedures for preventing unfair, deceptive, or anti-competitive acts or practices affecting commerce which relate to the implementation of such programs;

3. Is likely to result in as many conservation practices or the installation of program measures in at least as many residential buildings as would have been instituted or installed had such utility not been exempt from the requirements for which the exemption is sought; and

4. Contains the following:
   a. The substitution of other data that provide measurements of eligible residences so that cost and savings estimates can be calculated;

   b. The use of a detailed inspection which includes a written report showing specific areas of the residence needing caulking, weatherstripping, and the blocking of attic bypasses;

   c. The distribution of fact sheets that provide information on renewable resource measures, and include estimated costs and savings for a typical household;

   d. A program to provide financing to eligible customers for the installation of conservation or renewable resource measures, or both;

   e. The distribution of fact sheets that include specific information regarding the insulation of ducts and pipes for that residence;

   f. The presentation of energy savings and the costs of installation of program measures by a contractor or by the customer as estimates; and

   g. The calculation of the energy index, as described in 6 MCAR § 2.2303 C.3. However, if the non-space heating consumption data are not available, the energy index shall be based on the space heating consumption data only.

SofAd-21 11 MCAR § 1.0021 Definitions. For the purposes of these rules and regulations 11 MCAR §§ 1.0020-1.0024, the following terms shall have these meanings given them:

KEY: PROPOSED RULES SECTION — Underlining indicates additions to existing rule language. Strike outs indicate deletions from existing rule language. § 1.0023 Display of certificate.

A. Certificate to be affixed. The certificate issued for each individual school bus shall be immediately affixed to such the school bus by the inspecting Highway state patrol Officer officer or LCR II.

B. Certificate must be current. Only such the certificate as that is valid for the current time period may be displayed.

C. Where displayed. The certificate shall be affixed in the lower left corner of the main windshield of the school bus.

D. Rejection sticker, display, removal. A rejection sticker shall be affixed to the lower left corner of the windshield of a school bus that fails a school bus inspection. The sticker shall be removed only upon authorization from a LCR II or officer who has determined that the defects that caused the rejection have been corrected.

§ 1.0024 Method of inspection.

A. Scheduled inspection. All school buses shall be inspected for compliance with applicable laws and with rules and regulations of the State Board of Education as stated in Chapters Thirteen and Fourteen: Education 210 279 rules EDU 240-265 of the State Board of Education.

B. Other inspections. In addition to scheduled annual inspections and reinspections scheduled for the purpose of verifying that deficiencies have been corrected, a trooper or LCR II may conduct an unannounced inspection of any school bus at the location where the bus is kept when not in operation. This paragraph shall not be construed to limit the right or duty of any law enforcement officer to inspect any vehicle upon reasonable cause.

C. Point system, passing scores. The point system contained herein in E. shall be used to assess the safety operation of all types of school buses. Each bus will start with 100 points and each defect shall be cause for points to be deducted in accordance with established point values established in E.

2. Any school bus with an inspection score of 80 to 97.95 points shall pass the inspection and receive a temporary bus inspection certificate of contrasting color or design or both. This temporary certificate will be valid for 14 days following inspection and all defects must be corrected. Pending reinspection and certification of the bus by a trooper or LCR II, a bus bearing a temporary certificate may be used to transport pupils beyond the 14-day period if the inspection sheet is signed by the owner or his designee certifying that all of the defects are corrected. The signed inspection sheet shall be carried in the first aid kit in the bus.

D. Non-passing scores. Any school bus with less than 80 points shall be deemed unsafe for the transportation of school children. Any school bus which fails the inspection shall not be used to transport school children until the defects are corrected and an inspection certificate is issued and affixed to the bus. Pending reinspection and certification of the bus by a trooper or LCR II, a bus bearing a rejection sticker may be used to transport pupils if the inspection sheet is signed by the owner or his designee certifying that all of the defects are corrected. The signed inspection sheet shall be carried in the first aid kit in the bus.

E. Point system. In accordance with C., defects in the equipment of a school bus listed in the left column will cause the number of points specified in the right column to be deducted from the starting score of 100.

Decisions Filed Friday, March 5, 1982

Compiled by John McCarthy, Clerk

The Workers’ Compensation Court of Appeals correctly construed Minn. Stat. § 176.102 (1980) in determining that a temporarily totally disabled employee seeking direct job placement in a new occupation is not entitled to receive compensation at the rate of 125% of his temporary total disability benefits and in determining that this statute does not confer upon the director of rehabilitation services and the rehabilitation review panel established thereby the power to determine the compensation due an employee subject to this provision.

The proper method of presenting issue of prejudicial conduct resulting from the alleged giving of a jury instruction outside of the courtroom without the presence of a court reporter is not by affidavits taken from jurors, but by use of a Schwartz hearing or based on the unequivocal recollections of the trial judge.

Reversed and remanded. Yetka, J.

Appeal dismissed. Yetka, J.

The record in this compensation proceeding discloses an adequate factual foundation for the opinions of the only medical witness that employee sustained an injury in the nature of an aggravation of a prior compensable injury; that both injuries contributed equally to a 10% permanent partial disability of the back; and that such disability was a substantial cause of employee’s present total disability. Findings based on these opinions therefore have substantial evidentiary support and will not be disturbed on appeal.

Affirmed in part; reversed in part. Scott, J.

A partisan political action committee (PAC), where separate funds are collected and maintained by corporations or corporate committees which not only provide all administrative support for the funds but also direct the payments out of the funds to political candidates designated by the sponsoring corporation, is not permitted by either Minn. Stat. § 210A.34 (1980) (pertaining to corporations) or Minn. Stat. § 72A.12, subd. 5 (1980) (pertaining to insurance companies) because this would be comparable to a donation direct from the corporate treasury, the very evil the legislative acts were designed to prevent.

In contrast, in political action committees commonly called “conduit” or “nonpartisan” PAC’s, wherein corporation employees specify the particular candidates to whom they wish to make a donation and the corporation provides free administrative support but exerts no influence on the members to contribute to a particular candidate, or in political action committees commonly called “independent PAC’s,” which are sponsored by an organization in name only but receive no direct or indirect subsidy from the sponsoring corporation and only support candidates designated by their contributors, there is no conflict with the intention of the legislature when it enacted the above two statutes. In the conduit PAC, while the administrative expenses are a thing of value, the expenses are not expended on behalf of a particular candidate, and in the independent PAC there is the absence of the receipt of a “thing of value” from the corporation.

The prohibition of Minn. Stat. § 210A.34 (1980), declaring it unlawful for corporations to make any contributions to promote or defeat the election of any candidate to any political office, does not apply to nonprofit corporations.

Where the parties stipulated that the arbitrator should determine whether the employer had just cause for discipline, and the arbitrator found no just cause because the facts did not support a charge of negligence, the arbitrator did not exceed his authority even though he commented on the severity of the penalty and noted that it would be overturned.

Trial court did not err in denying motion to suppress identification evidence which was claimed to be the product of a violation of the rule against unnecessary delay in taking a criminal defendant before a magistrate.

The Commissioner's determination that an employee's refusal of re-employment was for good cause was supported by substantial evidence, where the employee relocated 270 miles from the employment so as to improve her financial position and subsequently enrolled in a training program to improve her employment skills.

Decision Filed Tuesday, February 23, 1982
Convicted criminal defendant placed on probation pursuant to Sentencing Guidelines has a right to refuse probation and to execution of sentence when the conditions attached to the probationary sentence make that sentence more onerous than a prison sentence.
Remanded. Amdahl, C. J.

Decisions Filed Wednesday, February 24, 1982
Dispositional departure (execution of sentence rather than use of stayed sentence) was justified by defendant's demonstrated unamenability to probation, but length of defendant's sentence is reduced from 27 months to 24 months, which is the presumptive sentence duration established by the Sentencing Guidelines Commission.
Affirmed as modified. Amdahl, C. J.

Dispositional and durational departures from presumptive sentence established by Sentencing Guidelines Commission were proper but trial court erred in increasing sentence by an extra 6 months in order to negate the effect of jail credit provisions of Guidelines.
Affirmed as modified. Amdahl, C. J.

Notice of Special Local Need Registration for Tordon 22K Herbicide

Pursuant to Minn. Stat. § 18A.23 and 3 MCAR § 1.0338 B., the Minnesota Department of Agriculture on February 12, 1982, issued a Special Local Need Registration for Tordon 22K Herbicide manufactured by the Dow Chemical Company, Midland, MI 48640.

Within 60 days following completion of the hearing, the hearings unit shall issue its findings of fact, conclusions and an order, which shall be considered the decision of an agency in a contested case for purposes of judicial review pursuant to Minn. Stat. §§ 15.0424 and 15.0425 (1980).

Any activity that would change the course, current or cross-section of public waters or wetlands requires a permit from the Commissioner of Natural Resources. Minn. Stat. § 105.42. subd. 1 (1980). Designation as public waters or wetlands does not transfer ownership of the bed or shore, does not grant the public any greater right of access to those waters than was available prior to designation and does not prevent a landowner from utilizing the bed of those waters for pasture or cropland during periods of drought. Minn. Stat. § 105.391. subds. 10 and 12 (1980).

All petitioners may be represented by counsel or anyone else of their choosing and shall be given an opportunity to be heard orally, to present and cross-examine witnesses and to submit written data, statements or arguments. Petitioners should bring all evidence bearing on these matters including maps, records or other documents.

Failure to attend may result in the challenged waters being designated public waters or wetlands and may prejudice your rights in this and subsequent proceedings.
