# Minnesota Rules: Amendments and Additions

## NOTICE: How to Follow State Agency Rulemaking in the State Register

The *State Register* is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the *State Register*. Published every Monday, the *State Register* makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific **Minnesota Rule** chapter numbers. Every odd-numbered year the **Minnesota Rules** are published. The current 1999 set is a 13-volume bound collection of all adopted rules in effect at the time. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the *State Register*.

An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as **Proposed Rules**, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules and withdrawn proposed rules are also published in the *State Register*. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the *State Register* as **Adopted Rules**. These final adopted rules are not printed in their entirety in the *State Register*, only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the *State Register*, the issue the rule appeared in as proposed, and later as adopted. For a more detailed description of the rulemaking process, see the most current edition of the *Minnesota Guidebook to State Agency Services*.

The *State Register* features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive; issue #26 cumulative for issues #1-26; issues #27-38 inclusive; issue #39, cumulative for issues #1-39; issues #40-51 inclusive; and issues #1-52 (or 53 in some years), cumulative for issues #1-52 (or 53). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the *State Register*, contact Minnesota's Bookstore, 117 University Avenue, St. Paul, MN 55155 (612) 297-3000, or toll-free 1-800-657-3757.

## Official Notices

Pursuant to Minnesota Statutes §§ 14.101, an agency must first solicit comments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, and within 60 days of the effective date of any new statutory grant of required rulemaking. The *State Register* also publishes other official notices of state agencies and non-state agencies, including notices of meetings and matters of public interest.

#### Notice Soliciting Nominations for Appointment to the State Solid Waste Advisory Committee

The Office of Environmental Assistance is soliciting names to consider for appointment to a Solid Waste Advisory Committee. #### Willmar-Paynesville 230 kV Transmission Project Exemption Granted

At a meeting on June 21, 2001, the Minnesota Environmental Quality Board granted an exemption from the full routing process for the Willmar-Paynesville 230 kV transmission project. The Willmar-Paynesville 230 kV Transmission Project proposed by Xcel Energy, Willmar Municipal Utilities and Great River Energy consists of a 230 kV transmission line, approximately 29.25 miles long, between the Willmar Substation in Kandiyohi County and the Paynesville Transmission Substation in Stearns County. The project also includes expansions and modifications at the Willmar Substation and the Paynesville Transmission Substation. The project is an upgrade of an existing 115 kV transmission line and the majority of the project will be constructed on existing right of way. The project must still comply with any applicable state and local zoning, building and land use rules, regulations and ordinances.

### Division of Labor Standards

#### Request for Comments on Planned Amendment to Rules Governing Prevailing Wage Determinations, *Minnesota Rules*, Parts 5200.1000-5200.1120

**Subject of Rules.** The Minnesota Department of Labor and Industry, Labor Standards Division, requests comments on its planned amendments to rules governing Prevailing Wage Determinations. The Department is again considering rule amendments that relate to the master job classifications for which the Department makes prevailing wage determinations, definitions, apprentices, corrections of rate determinations, and possibly the minimum number of hours of work required for a worker to be included in the wage survey process. These amendments would apply primarily to highway and heavy construction, but also would have application to commercial construction. Examples of job classification issues to be considered include, but will not be limited to, combining two or more classifications in the general class of Laborer, creating separate classifications and or rates for pieces of equipment used in highway-heavy and commercial construction; creating new classes for or altering the classifications applying to landscaping and seeding; creating new classes for or altering the classifications applying to painting and striping of roads; creating new classes for or altering the classifications applying to warning lights, warning signs and other methods of traffic control supplied to a project during construction; and, articulated haulers and off-road trucks. Examples of definitions issues to be considered include, but are not limited to, commercial construction, highway and heavy construction, and fringe benefits.

**Previous Request for Comments.** This request is a follow up to a similar request published on September 20, 1999 in the *State Register* at 24 S. R. 396. The rule amendments contemplated in the earlier request were put on hold because the departments' prevailing wage rules on trucking issues took longer than anticipated to adopt. The comments and the names of those expressing an interest to serve on an advisory committee in response to the September 1999 Request for Comments have been retained, but the department encourages interested parties to submit new comments on the issues raised and encourages anyone interested in serving on an advisory committee to reply with their interest. The Department expects to appoint an advisory committee to begin meeting in October 2001. The advisory committee meetings will be open to the public.

**Persons Affected.** The amendments under consideration to the rules would likely affect laborers and mechanics engaged in construction, unions whose members are the laborers and mechanics employed in construction, general contractors, construction managers and subcontractors, and the owners of constructions projects financed wholly or in part with state funds.

## Official Notices

**Public Comment.** Interested persons or groups may submit comments or information on these planned rules in writing or orally until **4:30 p.m. on Friday September 28, 2001**. Comments received after that date and before further notice is published in the *State Register* that the Department intends to adopt or to withdraw the rules may be considered, but comments should be received by September 28, 2001 in order to be considered in determining what rule amendments to propose. The Department does contemplate appointing an advisory committee to comment on the planned rules. Those wishing information about the advisory committee should reach the agency contact person listed below.

**Rules Drafts.** The Department has not yet prepared a draft of the planned rules amendments, but any person interested may request to receive a copy of the draft rules when it has been prepared by reaching the agency contact person listed below.
