# Minnesota Rules: Amendments and Additions

## NOTICE: How to Follow State Agency Rulemaking in the State Register

The *State Register* is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the *State Register*. Published every Monday, the *State Register* makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific **Minnesota Rule** chapter numbers. Every odd-numbered year the **Minnesota Rules** are published. The current 1999 set is a 13-volume bound collection of all adopted rules in effect at the time. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the *State Register*.

An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as **Proposed Rules**, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules and withdrawn proposed rules are also published in the *State Register*. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the *State Register* as **Adopted Rules**. These final adopted rules are not printed in their entirety in the *State Register*, only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the *State Register*, the issue the rule appeared in as proposed, and later as adopted. For a more detailed description of the rulemaking process, see the most current edition of the *Minnesota Guidebook to State Agency Services*.

The *State Register* features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive; issue #26 cumulative for issues #1-26; issues #27-38 inclusive; issue #39, cumulative for issues #1-39; issues #40-51 inclusive; and issues #1-52 (or 53 in some years), cumulative for issues #1-52 (or 53). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the *State Register*, contact Minnesota's Bookstore, 117 University Avenue, St. Paul, MN 55155 (612) 297-3000, or toll-free 1-800-657-3757.

### MEDICAL TRANSCRIPTION FEE

15.00

When a consultative examination provider chooses to utilize the transcription services available for use, a \$15.00 fee will be deducted from the total cost of the examination. The \$15.00 fee will not be charged for dictated reports re:

1. CEs performed by treating physicians/psychologists;
2. Limited CEs and office calls performed by regular CE providers; nor for
3. Reports from treating sources summarizing medical evidence of record.

### LABORATORY AND X-RAY FEES LABORATORY AND X-RAY FEES

The subheadings are self-explanatory. The CURRENT PROCEDURAL TERMINOLOGY CODE corresponds to the American Medical Association's Current Procedural Terminology (CPT) codes, which are used by most sources providing medical services. These may also be used for easy in-agency identification of a particular procedure. When ordering and authorizing a particular laboratory or x-ray study, however, describe the test or x-ray to be done. Do not authorize by the CPT code.

X-ray charges may be presented in two possible formats: one combines the technical (the x-ray, itself) and professional (the physician's interpretation) components when these are provided by the same facility; the other format separates the technical and professional components when these services are provided by separate facilities.

For example: For a PA Chest X-ray, single view, one would find:

71010	Chest single view, PA	\$ 55.00
-------	-----------------------	----------

This would be the acceptable maximum for an x-ray and interpretation at a single facility; however, when the **professional component** is billed separately, the procedure may be identified by adding the modifier **-26** to the usual CPT code. When the **technical component** is billed separately, the procedure may be identified by adding the modifier **-TC** to the usual CPT code.

The Minnesota Department of Human Services is soliciting proposals from qualified applicants to implement a statewide random survey of older Minnesotans. The goal of this survey is to provide the State with accurate data for (a) evaluating the effectiveness of state programs and policies directed to the welfare of older Minnesotans by measuring changes in specific indicators—replicating selected parts of descriptive studies conducted in 1988 and 1995; (b) identifying changes in population characteristics that signal the need for changes in services and/or program design, and (c) and improving the targeting of public funds.

### Notice of Potential Availability of Contracting Opportunities for a Variety of Highway Related Technical Activities (the “Consultant Pre-Qualification Program”)

This document is available in alternative formats for persons with disabilities by calling Robin Valento at (651) 284-3622 for persons who are hearing or speech impaired by calling the Minnesota Relay Service at (800) 627-3529.

Mn/DOT, working in conjunction with the Consultant Reform Committee, the Minnesota Consulting Engineers Council, and the Department of Administration, has developed the Consultant Pre-qualification Program as a new method of consultant selection. The ultimate goal of the Pre-Qualification Program is to streamline the process of contracting for highway related professional/technical services. Mn/DOT anticipates that most consultant contracts for highway-related technical activities will be awarded using this method, however, Mn/DOT also reserves the right to use RFP or other selection processes for particular projects. Nothing in this solicitation requires Mn/DOT to complete or use the Consultant Pre-qualification Program.

Mn/DOT is currently requesting applications from consultants. Refer to Mn/DOT’s Consultant Services web site, indicated below, to see which highway related professional/technical services are available at this time. Following the advertisement of particular category of services, applications will be accepted on a continual basis.

All expenses incurred in responding to this notice will be borne by the responder. Response to this notice becomes public information under the Minnesota Government Data Practices.

Consultant Pre-Qualification Program information, application requirements and application forms are available on Mn/DOT’s **web site** at: <http://www.dot.state.mn.us/consult>

It is recommended that contracts and RFPs include the following: 1) name of contact person; 2) institution name, address, and telephone number; 3) brief description of commodity, project or tasks; 4) cost estimate; and 5) final submission date of completed contract proposal.
