# Minnesota Rules: Amendments and Additions

## NOTICE: How to Follow State Agency Rulemaking in the State Register

The *State Register* is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the *State Register*. Published every Monday, the *State Register* makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific **Minnesota Rule** chapter numbers. Every odd-numbered year the **Minnesota Rules** are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the *State Register*.

An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as **Proposed Rules**, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the *State Register*. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the *State Register* as **Adopted Rules**. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the *State Register*, the issue the rule appeared in as proposed, and later as adopted.

The *State Register* features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive (issue #26 cumulative for issues #1-26); issues #27-38 inclusive (issue #39, cumulative for issues #1-39); issues #40-52 inclusive, with final index (#1-52, or 53 in some years). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the *State Register*, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757.

# Commissioners' Orders

## Minnesota Pollution Control Agency (MPCA) Environmental Analysis and Outcomes Division Public Notice on Draft Supplemental Regional Haze State Implementation Plan Revision

**NOTICE IS HEREBY GIVEN** that the Commissioner has determined that a supplemental State Implementation Plan (SIP) revision must be submitted to meet Minnesota’s requirements under the federal Regional Haze Rule (40 *Code of Federal Regulations* §§ 51.300 - 51.309).

**Background.** Under the authority of Section 169(a) of the Clean Air Act (the Act), the United States Environmental Protection Agency (EPA) on July 1, 1999 promulgated visibility goals for mandatory Class I Federal areas in the federal Regional Haze Rule. Section 169(a) of the Act and the Regional Haze Rule requires each state to adopt and submit a plan to EPA that addresses the state’s contribution to visibility impairment at the mandatory Class I Federal areas. Class I areas within Minnesota are the Boundary Waters Canoe Area Wilderness and Voyageurs National Park.

**Purpose of the SIP Revision.** The MPCA submitted a Regional Haze SIP for Minnesota to the EPA in December 2009. That submittal laid out how Minnesota intends to implement the Regional Haze Rule. The previously submitted SIP includes information on the following core requirements of the Regional Haze Rule: reasonable progress goals, baseline and natural visibility conditions, long-term strategy for regional haze, monitoring strategy, and Best Available Retrofit Technology (BART). The BART requirement targets certain older emission sources that have not been regulated under other provisions of the Act for additional emission controls.

The supplemental SIP includes additional BART emission limits for the taconite facilities, set after the review of additional emission information. It also includes enforceable documents, in the form of Administrative Orders, to implement the BART emission limits for the taconite facilities. The supplemental SIP also includes a change to BART determinations for power plants. Rather than making enforceable individual BART emission limits on the subject-to-BART power plants, the supplemental SIP accepts the EPA’s proposed determination that the Cross State Air Pollution Rule (CSAPR) can substitute for BART.

The supplemental SIP also proposes a change to the long-term strategy. As part of the long-term strategy, the MPCA developed a plan to target emission reductions in Northeast Minnesota. The strategy included a plan for pilot testing of emission controls at the taconite facilities. Implementation of new ambient air quality standards should provide appropriate evolution of emission controls at these facilities, so the supplemental SIP replaces the pilot testing requirement with requirements for expeditious attainment of new ambient standards.

The MPCA will consider changing the contents of the proposed SIP revision based on comments received during the comment period. **MPCA Contact Person.** The MPCA contact person is Catherine Neuschler. Written comments, requests and petitions should be mailed to: Catherine Neuschler, Minnesota Pollution Control Agency, Environmental Analysis and Outcomes Division, 520 Lafayette Road North, St. Paul, MN 55155-4194, **telephone number:** (651) 757-2607 Voice or **toll free:** 1-800-657-3864; **facsimile number:** 651-297-8324; and **e-mail:** [catherine.neuschler@state.mn.us](mailto:catherine.neuschler@state.mn.us). **TTY** users may call the MPCA at TTY (651) 292-5332 or 1-800-657-3864.

**Availability of SIP.** A copy of the proposed SIP revision is available on the MPCA's Web site at <http://www.pca.state.mn.us/mvri4c0>. A copy of the proposed SIP is also available upon request by contacting Catherine Neuschler at 651-757-2607, or will be mailed to any interested person upon the MPCA's receipt of a written request. Materials relating to the SIP revision are available for inspection by appointment at the MPCA St. Paul Office, 520 Lafayette Road North, St. Paul, Minnesota 55155, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. To examine these materials, or for more information, please contact Catherine Neuschler.

**Public Comment Period.** Your comments must be in writing and received by the MPCA contact person by 4:30 p.m. on February 3, 2012. Written comments may be submitted to the MPCA contact person at the address, facsimile number, or e-mail address listed above.

**Citizens' Board Meeting.** As provided by *Minnesota Statutes* § 116.02, the MPCA Citizens' Board will make the decision on submitting the proposed SIP revision to the EPA. The Citizens' Board meeting will fulfill the requirement for public hearing under 40 *Code of Federal Regulations* § 51.102. The proposed Regional Haze SIP revision will be heard at the MPCA Citizens' Board Meeting on March 27, 2012. The Board meeting begins at 9 am. The Citizens' Board meeting dates and agenda can be found at <http://www.pca.state.mn.us/enzq405>

## Minnesota Pollution Control Agency (MPCA) Municipal Division Request for Comments on Possible Amendments to Rules Governing Animal Feedlots, *Minnesota Rules* 7020

**Subject of Rules.** The Minnesota Pollution Control Agency (Agency) requests comments on its planned amendments to rules governing animal feedlots.

The Agency is considering rule amendments that will administer the statutory changes that occurred in the special legislative session and remove some outdated language. Redundancies were removed and the language streamlined to be clearer and more concise.

**Persons Affected.** The amendment to the rules would likely affect animal feedlot owners.

**Statutory Authority.** *Minnesota Statutes*, section 115.03(1)(e) authorizes the Agency to adopt, issue, reissue, modify, deny, or revoke, enter into or enforce reasonable orders, permits, variances, standards, rules, schedules of compliance, and stipulation agreements, under such conditions as it may prescribe, in order to prevent, control or abate water pollution.

In addition, during the special session, the Legislature revised statute language in *Minnesota Statutes* 2010, section 116.07, subdivision 7c to streamline and clarify the statute. The rule needs to be updated to reflect these changes.

**Public Comment.** Interested persons or groups may submit comments or information on these draft rule amendments, in writing, until 4:30 p.m. on January 20, 2012.

Agencies are encouraged to publish grant and loan notices, and to provide financial estimates as well as sufficient time for interested parties to respond.

## Minnesota Department of Transportation (Mn/DOT) Research Services Section Request for Proposals (RFP) for Technology Transfer Material Development

MnDOT's Research Services Section (RSS) is one of the larger state Department of Transportation (DOT) research programs in the United States, with a history of national leadership in transportation research by example and participation at local, state and national levels. The purpose of market planning efforts is to ensure that MnDOT is aligning our services with the needs of our customer groups. Ultimately, this content will be used to inform the following goals: 1) increasing the awareness of MnDOT's RSS and the value of services provided; and 2) get the research and implementation results into the hands of our target audiences for their use. MnDOT's RSS has been operating without a strategic marketing plan. To inform this future marketing plan, RSS customer and stakeholder needs and perceptions must be captured, beginning with customer segmentation. Using this content a marketing plan will be developed. MnDOT's RSS will

follow this plan to create collateral, marketing materials reflecting the value of RSS services and needs of our customers. The plan developed under this Contract will be used to help shape marketing/communications and to a broader extent the program's customer service and RSS program over the fiscal years 2012 through 2014.
