Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The *State Register* is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the *State Register*. Published every Monday, the *State Register* makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific **Minnesota Rule** chapter numbers. Every odd-numbered year the **Minnesota Rules** are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the *State Register*.

An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as **Proposed Rules**, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the *State Register*. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the *State Register* as **Adopted Rules**. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the *State Register*, the issue the rule appeared in as proposed, and later as adopted.

The *State Register* features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive (issue #26 cumulative for issues #1-26); issues #27-38 inclusive (issue #39, cumulative for issues #1-39); issues #40-52 inclusive, with final index (#1-52, or 53 in some years). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the *State Register*, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757. TTY relay service phone number: (800) 627-3529.

NOTICE IS HEREBY GIVEN to recipients, providers of services, and to the public of additions to the state Medical Assistance maximum allowable cost (state MAC) list for certain outpatient prescribed drugs.

Minnesota Statute 256B.0625 subd. 13e (e) gives the commissioner the authority to negotiate reimbursement rates for specialty pharmacy products. The commissioner employs a Specialty Maximum Allowable Cost (Specialty MAC) reimbursement methodology for specialty products.

Specialty pharmaceutical products include injectable and infusion therapies, biotechnology drugs, antihemophilic factor products, high-cost therapies, and therapies that require complex care.

No earlier than May 13, 2013 the Department may add the following outpatient prescribed drugs to the state MAC list:

Drug UPC Name:

RILUTEK – RILUZOLE
TEMODAR – TEMOZOLOMIDE

These additions are made to bring Medical Assistance reimbursement to pharmacists more closely in line with the actual acquisition cost of the drugs listed above. The Department estimates that there will be a state savings of \$10,000 for State Fiscal Year 2013 (July 1, 2012 through June 30, 2013).

This notice is published pursuant to *Code of Federal Regulations*, Title 42, section 447.205, which requires publication of a notice when there is a rate change in the methods and standards for setting payment rates for Medical Assistance services.

Written comments and requests for information may be sent to Pharmacy Program Manager Sara Drake R.Ph., Health Services and Medical Management Division, Health Care Administration, Minnesota Department of Human Services, P.O. Box 64984, St. Paul, Minnesota 55164-0984.

Minnesota Pollution Control Agency (MPCA)**Watershed Division****Notice of Availability of the Draft Phosphorus TMDL Assessment for the Byllesby Reservoir and Request for Comment****Public Comment Period Begins:****May 13, 2013****Public Comment Period Ends:****June 14, 2013**

The Minnesota Pollution Control Agency (MPCA) is requesting comments on the Phosphorus Total Maximum Daily Load (TMDL) Assessment for the Byllesby Reservoir. The recreational use of the Byllesby Reservoir is impaired because it does not meet state water quality standards for phosphorus. The draft TMDL Report is available for review at: <http://www.pca.state.mn.us/hqzq978>

Written comments on the draft TMDL Report must be sent to the MPCA contact person listed below by June 14, 2013 4:30 p.m. The MPCA will prepare responses to comments received, make any necessary revisions of the draft TMDL Report and submit it to the U.S. Environmental Protection Agency (EPA) for approval.

The Byllesby Reservoir (DNR Bulletin 25 Lake ID #19-0006) lies in southeastern Minnesota, near the communities of Randolph and Cannon Falls. The reservoir's watershed is large: 730,000 acres (1.3% of the state of Minnesota). The Cannon River drains sizeable areas of Le Sueur, Waseca, Steele, Rice, Goodhue and Dakota Counties before it widens to become the Byllesby Reservoir near Highway 56 at Randolph. The reservoir itself includes approximately 1,380 acres of open water. Byllesby is relatively shallow: its mean depth is estimated at 9 feet, and its max depth is 50 feet, at a small hole near the north end of the dam. At the dam near Cannon Falls, the river leaves the reservoir and drops significantly as it flows downstream toward Red Wing and the Mississippi River.

Both point and nonpoint sources of pollution contribute to the phosphorus impairment of the reservoir. Point sources refer to pollutants routed through a specific and identifiable conveyance, like a pipe. Nonpoint sources refer to pollutants that travel to surface waters via overland runoff or from near-channel erosion. Phosphorus levels can be elevated by erosion from fields and construction sites, urban runoff, eroding streambanks, and municipal and industrial wastewater discharges.

The Byllesby Reservoir Phosphorus TMDL is being developed by a collaboration of state agencies, watershed stakeholders and the Cannon River Watershed Partnership, which includes via its Board of Directors and membership body representatives from the watershed's county commissions, soil and water conservation districts and general public.

In accordance with *Minnesota Rules* 7000.1900, the MPCA will grant a petition to hold a contested case hearing if it finds that: (1) there is a material issue of fact in dispute concerning the application or draft TMDL Report; (2) the MPCA has the jurisdiction to make a determination on the disputed material issue of fact; and (3) there is a reasonable basis underlying the disputed material issue of fact or facts such that the holding of the contested case hearing would allow the introduction of information that would aid the MPCA in resolving the disputed facts in making a final decision on the draft TMDL Report. A petition for a contested case hearing must include the following information:

2. A proposed list of publications, references, or studies to be introduced and relied upon at a contested case hearing; and
3. An estimate of time required for you to present the matter at a contested case hearing.

MPCA Decision: You may submit a petition to the Commissioner requesting that the MPCA Citizens' Board consider the TMDL Report approval. To be considered timely, the petition must be received by the MPCA by 4:30 p.m. on the date the public comment period ends, identified on page 1 of this notice. Under the provisions of *Minnesota Statutes* § 116.02, subd 6(4), the decision whether to submit the TMDL Report and, if so, under what terms will be presented to the Board for decision if: (1) the Commissioner grants the petition requesting the matter be presented to the Board; (2) one or more Board members request to hear the matter before the time the Commissioner makes a final decision on the TMDL Report; or (3) a timely request for a contested case hearing is pending. You may participate in the activities of the MPCA Board as provided in *Minnesota Rules* 7000.0650.

The written comments, requests, and petitions submitted on or before the last day of the public comment period will be considered in the final decision on this TMDL Report. State Grants & Loans

In addition to requests by state agencies for technical/professional services (published in the State Contracts Section), the *State Register* also publishes notices about grants and loans available through any agency or branch of state government. Although some grant and loan programs specifically require printing in a statewide publication such as the *State Register*, there is no requirement for publication in the *State Register* itself. Agencies are encouraged to publish grant and loan notices, and to provide financial estimates as well as sufficient time for interested parties to respond.

Readers are also advised to check the Office of Grants Management (OGM) at: <http://www.admin.state.mn.us/ogm.html>
