NOTICE

How to Follow State Agency Rulemaking Action in the State Register

State agencies must publish notice of their rulemaking action in the State Register. If an agency seeks outside opinion before promulgating new rules or rule amendments, it must publish a NOTICE OF INTENT TO SOLICIT OUTSIDE OPINION. Such notices are published in the OFFICIAL NOTICES section. Proposed rules and adopted rules are published in separate sections of the magazine.

The PROPOSED RULES section contains:

- Calendar of Public Hearings on Proposed Rules.
• Proposed new rules (including Notice of Hearing and/or Notice of Intent to Adopt Rules without A Hearing).
• Proposed amendments to rules already in existence in the Minnesota Code of Agency Rules (MCAR).
• Proposed temporary rules.

The ADOPTED RULES section contains:

- Notice of adoption of new rules and rule amendments (those which were adopted without change from the proposed version previously published).
• Adopted amendments to new rules or rule amendments (changes made since the proposed version was published).
• Notice of adoption of temporary rules.
• Adopted amendments to temporary rules (changes made since the proposed version was published).

All ADOPTED RULES and ADOPTED AMENDMENTS TO EXISTING RULES published in the State Register will be published in the Minnesota Code of Agency Rules (MCAR). Proposed and adopted TEMPORARY RULES appear in the State Register but are not published in the MCAR due to the short-term nature of their legal effectiveness.

The State Register publishes partial and cumulative listings of rule action in the MCAR AMENDMENTS AND ADDITIONS list on the following schedule:

Table with 2 columns: Issue/Range and Issue/Range. Includes: Issues 1-13, inclusive; Issues 14-25, inclusive; Issue 26, cumulative for 1-26; Issue 27-38, inclusive; Issue 39, cumulative for 1-39; Issues 40-51, inclusive; Issue 52, cumulative for 1-52.

The listings are arranged in the same order as the table of contents of the MCAR.

PROPOSED RULES

Pursuant to Minn. Laws of 1980, § 15.0412, subd. 4h, an agency may propose to adopt, amend, suspend or repeal rules without first holding a public hearing, as long as the agency determines that the rules will be noncontroversial in nature. The agency must first publish a notice of intent to adopt rules without a public hearing, together with the proposed rules, in the *State Register*. The notice must advise the public:

1. that they have 30 days in which to submit comment on the proposed rules;
 2. that no public hearing will be held unless seven or more persons make a written request for a hearing within the 30-day comment period;
 3. of the manner in which persons shall request a hearing on the proposed rules;
- and
4. that the rule may be modified if modifications are supported by the data and views submitted.

If, during the 30-day comment period, seven or more persons submit to the agency a written request for a hearing of the proposed rules, the agency must proceed under the provisions of § 15.0412, subds. 4 through 4g, which state that if an agency decides to hold a public hearing, it must publish in the *State Register* a notice of its intent to do so. This notice must appear at least 30 days prior to the date set for the hearing, along with the full text of the proposed rules. (If the agency has followed the provisions of subd. 4h and has already published the proposed rules, a citation to the prior publication may be substituted for republication.)

Pursuant to Minn. Stat. § 15.0412, subd. 5, when a statute, federal law or court order to adopt, suspend or repeal a rule does not allow time for the usual rulemaking process, temporary rules may be proposed. Proposed temporary rules are published in the *State Register*, and for at least 20 days thereafter, interested persons may submit data and views in writing to the proposing agency.

Department of Energy, Planning and Development Energy Division

Proposed Rules Governing the Petroleum Products State Set-Aside Program

Notice of Intent to Adopt Rules without a Public Hearing

Notice is hereby given that the Department of Energy, Planning and Development, hereinafter "department," intends to adopt the above-entitled rules without a public hearing. The commissioner has determined that the adoption of the rules will not be controversial and has elected to follow the procedures set out in Minn. Stat. § 15.0412, subd. 4h.

In its 1981 session, the Minnesota Legislature enacted the State Set-Aside Program, Laws of 1981, Chapter 356, Section 136, for the purpose of granting the department authority to exercise specific power to deal with shortages of refined petroleum products. The state set-aside program provides emergency petroleum supplies to relieve the hardship caused by shortages, thus minimizing the adverse impacts on the state's citizens and economy.

Temporary rules for the set-aside program were promulgated last year. Those rules were published in the *State Register* on November 23, 1981 (6 S.R. 1021-22). The department is now proposing rules which are very similar to those published on November 23, 1981. Copies of the rules as now proposed may be obtained by writing or calling Mr. Chris Gilchrist at the address or telephone number given below.

Please be advised that you have an opportunity for the 30-day period following publication of this notice and the proposed rules to submit comments in writing on the proposed rules and to object to the lack of public hearing on the proposed rules. Your written comments or request for hearings should be submitted to the Department of Energy, Planning and Development, Energy Division, c/o Chris Gilchrist, 980 American Center Building, 150 East Kellogg Boulevard, Saint Paul, Minnesota 55101. Unless seven or more persons submit written requests for a public hearing on the proposed rules within the 30-day comment period, no public hearing will be held. If seven or more persons request hearings on the proposed rules, the department will order public hearings in accordance with Minn. Stat. § 15.0412, subds. 4-4f. The department may modify the proposed rules if modification is supported by the data and views submitted in written comments and if no substantial change results from the modification.

If no hearing is required, and the department decides to adopt the rules as proposed, or as modified if written comments justify modification, the department will submit to the Attorney General for review of form, legality and substantial change the following documents: this notice with the rules as proposed, the rules as adopted, the order adopting the rules, any written comments received by the department, the department's statement of need and reasonableness supporting adoption of the

rules, and any written comments received by the department in response to the earlier notices seeking outside opinions. Any person may request notification of the date the department makes the submission to the Attorney General. If you desire to be so notified you must inform the department in writing during the 30-day comment period.

The department has prepared a statement of need and reasonableness in support of the proposed rules which is also available from the department by writing to the address indicated above or calling (612) 296-1732.

The department's authority to promulgate the proposed rules can be found in Minn. Stat. § 116H.095.

Please be advised that Minnesota Statutes ch. 10A requires each lobbyist to register with the Ethical Practices Board within five days after he/she becomes a lobbyist. Lobbying includes attempting to influence rulemaking by communicating or using others to communicate with public officials. A lobbyist is generally any individual who spends more than \$250 per year for lobbying or any individual who is engaged for pay or authorized to spend money by another individual or association and who spends more than \$250 per year or five hours per month at lobbying. The statute provides certain exceptions. Questions should be directed to the Ethical Practices Board, 41 State Office Building, St. Paul, Minnesota 55155, Telephone (612) 296-5615.

2. Second priority middle distillate users are heating customers on interruptible natural gas or another primary source of fuel. They include hospitals, multi-unit housing, nursing homes, and residences.

3. Third priority middle distillate users include government buildings, for heating; industrial and commercial activities not included in 1.; and schools.

4. Notwithstanding the priorities stated in 1. to 3., when an energy supply fuel oil emergency has been declared pursuant to Minn. Stat. § 116H.09 and 6 MCAR §§ 2.3101-2.3120, the priorities stated in 6 MCAR § 2.3111 shall apply.

B. Motor gasoline. The volume of motor gasoline available for state set-aside is a volume equal to three percent of all prime suppliers' monthly supply estimate as stated in the monthly report filed pursuant to 6 MCAR § 2.0111. The office may assign state set-aside motor gasoline volumes, when the applicant submits accurate and complete documentation, based on the following criteria.

1. Agricultural motor gasoline shortfall.

a. If the traditional supplier of an agricultural operation is unable to supply average motor gasoline use, the office may release amounts of state set-aside equal to the shortfall. The office may require the applicant to list the name, telephone number, and average motor gasoline use of the ultimate consumer.

b. If unusual weather conditions, natural disasters, or other extreme occurrences require more than average motor gasoline use, the office may make a state set-aside assignment to satisfy the greater requirement. In these cases, the applicant shall provide the office with the current monthly requirement and a justification for the request.

2. Community or area hardship.

a. If a supplier pullout produces a shortfall of motor gasoline in a local area, a wholesale purchaser-reseller in the area may apply for a state set-aside assignment. The applicant shall submit the name, address, and approximate gallons per month sold by the supplier who has pulled out.

b. State set-aside may be assigned to alleviate a shortfall caused by the closing of a motor gasoline retail outlet in a community. The applicant must certify that residents would have to drive 20 or more miles round trip to obtain motor gasoline between the hours of 7:00 a.m. and 8:00 p.m. and provide the office with the name, address, and approximate gallons per month sold of all retail outlets which have opened or closed in the last calendar year within a ten-mile radius of the retail outlet requesting the state set-aside assignment.

c. A wholesale purchaser-reseller may receive an assignment on the basis of unusual growth if the applicant can demonstrate the existence of a shortfall because of a population increase in the community of over ten percent since 1980, new business in the community employing 500 or more employees since 1980, or relocation of a highway since 1980.

d. The office may assign state set-aside motor gasoline to a retail outlet that has historically remained open 24 hours a day and provided emergency road service.

3. The office may assign state set-aside motor gasoline to alleviate a shortage of motor gasoline due to a natural disaster including: floods; blizzards; fire; high winds; and tornadoes. Applicants shall state the nature of the disaster, the number of gallons sold, and to whom.

4. The office may assign state set-aside motor gasoline to meet the requirements of certain priority vehicles because of a shortfall. Applicants may apply for state set-aside to make up the difference between 100 percent of contract volume and the amount of supply currently available for the following types of priority vehicles: emergency services, essential services, and passenger transportation services.

6 MCAR § 2.0114 Application processing procedures.

A. Investigations. The office may initiate an investigation of any statement in an application and utilize in its evaluation of the application any relevant facts obtained by the investigation. The office may solicit and accept information from third persons relevant to any application, provided that the applicant is afforded an opportunity to respond.

B. Additional information. If the office determines that the application does not have sufficient information to support a decision, it may request the necessary additional information from the applicant. If the applicant repeatedly or willfully fails to supply additional information, the office may deny the application.

C. Processing. The office shall process applications each month for that month as follows:

1. Applications made by wholesale purchaser-consumers or by wholesale purchaser-resellers on behalf of wholesale purchaser-consumers or end users shall be processed within five working days after receipt.

2. Except when the applicant applies for state set-aside under 6 MCAR § 2.0113 B.2. or 3., applications that are made by or on the behalf of retail outlets shall be processed within five working days after the 15th day of the month.

3. Applications needing additional information shall be processed within five working days after receipt of the requested information.

D. Implementation. State set-aside assignments shall be implemented as follows:

1. Upon approval or modification of a request for state set-aside product, the office shall issue an order authorizing the assignment and serve it on the prime supplier from whom the state set-aside product is to be drawn.

a. An order issued by the office is effective the date it is signed by the officer or the commissioner, unless stayed, modified, suspended, or rescinded.

b. The order represents a call upon the prime supplier's state set-aside volume for the month of issuance even if delivery cannot be made until the following month.

c. The applicant shall arrange for receipt of the product within ten days from the date of the order.

2. Upon denial of an application, the office shall notify the applicant in writing, stating the reason for denial.

6 MCAR § 2.0115 Appeals process.

A. Applicability. Within ten days after the effective date of an order or the mailing date of a denial, any person aggrieved may appeal in writing to the commissioner. The written appeal shall include:

Proposed Criteria for Waivers of Certificate of Need Review Pursuant to Laws of Minnesota 1982, Chapter 614, § 6

Notice is hereby given that the Minnesota Commissioner of Health proposes to adopt the above-entitled criteria without a public hearing. The procedure for adopting the criteria is prescribed in Laws of Minnesota 1982, Chapter 614, § 6.

This notice invites written comments on the proposed criteria for the new grounds for waivers of Certificate of Need Review which were added as clauses (c) and (d) to Minn. Stat. § 145.835, subd. 4 (1980) by Laws of Minnesota 1982, Chapter 614, § 6. These clauses authorize the commissioner to grant waivers if the construction or modification is exclusively for ambulatory care services or for an experimental or demonstration project. The proposed criteria set forth below would be used to determine when such waivers shall be granted.

Written comments to the proposed criteria must be submitted by July 1, 1982. Interested persons may submit written comments to Kent E. Peterson, Chief, Planning and Resources Development Section, Minnesota Department of Health, 717 Delaware Street Southeast, Minneapolis, Minnesota 55440. Questions may be directed to Mr. Peterson at (612) 296-5365.

Criteria and Procedures for Decisions on Granting Waiver of Certificate of Need Review for Ambulatory Care Services, Experimental Projects and Demonstration Projects.

A. A request for a waiver under Laws of Minnesota 1982, Chapter 614, § 6, clauses (c) or (d) must be submitted in writing by the applicant to the HSA in the form and according to the procedure specified in 7 MCAR §1.662 D.3., with the exception of the

requirement specified in 7 MCAR § 1.662 D.3.e. The request must also be accompanied by information relating to the criteria specified in paragraph C. that the applicant wishes to submit in support of the request.

B. The HSA shall not proceed with a recommendation until complete information is received. If any additional information is requested of an applicant, it must be relevant to the criteria specified in paragraph C.

C. The HSA recommendation and subsequent decision by the commissioner must be based upon evidence that the project for which a waiver is requested substantially fulfills the following criteria:

1. The project must be described in sufficient detail so that a determination of the appropriate type of state licensure and federal certification can be made. If state licensure is required, there must be reasonable assurance that the project would meet relevant licensure requirements. If federal certification is to be sought, there must be reasonable assurance that the project would meet the requirements.

2. The applicant must demonstrate how comparative price information on the services provided as a result of the project will be disseminated. Such information must be in a manner consistent with Laws of Minnesota 1982, Chapter 614, § 2.

3. The applicant must demonstrate that, by the end of the second full year of operation of the project, the prices for the services provided as a result of the project will be set at a level which will generate revenue sufficient to cover all expenses. This information on projected revenues and expenses must also demonstrate that any negative disparity between the expenses of providing services under the project and revenue derived from provision of those services must be obtained from profit, surplus, retained earnings, venture capital or the like, and not through direct subsidy of the project from charges to patients receiving health services other than those to be provided as a result of the project.

4. For proposed experimental or demonstration projects, the applicant shall provide evidence that the service to be provided or the method of providing the service:

a. Is a service or service delivery method which is not currently available to the patients proposed to be served by the project;

b. Is based upon successful past experience or upon a well defined theory related to the service or service delivery method, for which the experience or theory indicates a likelihood that improved economic efficiency or effectiveness will occur as a result of the project;

c. Has identified sources of funding, both capital and operating; and

d. Is accompanied by an ongoing evaluation method scientifically designed to provide conclusions about improvements in the cost and quality of, and access to, the services to be provided as a result of the project; such evaluation method must also identify qualified personnel to be responsible for designing and conducting evaluation of the project.

D. Within 30 days of the receipt of a request accompanied by complete information, the HSA must submit to the commissioner its recommendation for granting or denying the waiver or the HSA shall indicate that no recommendation to the commissioner will be made. If the HSA fails to act within 30 days or if the applicant feels that the HSA has requested information not reasonably related to the criteria in paragraph C, the applicant may petition the commissioner for the granting of the waiver without receipt of an HSA recommendation. Any recommendation must be accompanied by supporting rationale based on the criteria in paragraph C.

E. Within 30 days of receipt of the recommendation of the HSA, the commissioner must notify the applicant and the HSA of the decision.

F. Waivers granted under Laws of Minnesota 1982, Chapter 614, § 6 (c) or (d) are subject to the requirements of 7 MCAR § 1.662 D.8., 9., and 10., 7 MCAR §§ 1.664 D. and E., and Laws of Minnesota 1982, Chapter 614, § 7, subd. 4.

PROPOSED RULES

Department of Revenue Income Tax Division

Proposed Rule Relating to Subtraction for Interest on United States Government Obligations (13 MCAR § 1.6007)

Notice of Intent to Adopt a Rule without a Public Hearing

Notice is hereby given that the Department of Revenue proposes to adopt the above-entitled rule without a public hearing. The commissioner has determined that the proposed adoption of this rule will be noncontroversial in nature and has elected to follow the procedures set forth in Minnesota Statute § 15.0412, subd. 4h (1981).

Persons interested in these rules shall have thirty days to submit comments on the proposed rule. The proposed rule may be modified if the modifications are supported by the data and views submitted to the agency and do not result in a substantial change in the proposed language.

Unless seven or more persons submit written requests for a public hearing on the proposed rule within the thirty-day comment period, a public hearing will not be held. In the event a public hearing is required, the agency will proceed according to the provisions of Minnesota Statute § 15.0412, subds. 4-4f.

Persons who wish to submit such comments or a written request for a public hearing should submit such comments or requests to:

Ms. Patricia A. Lien
Attorney, Legal Research
Minnesota Department of Revenue
Centennial Office Building
St. Paul, Minnesota 55145
Telephone: (612) 296-1022

Authority for the adoption of the proposed rule is in Minnesota Statutes § 290.52. A statement of need and reasonableness that describes the need for and reasonableness of each provision of the proposed rule has been prepared and is available from Ms. Lien upon request. A copy of the proposed rule is also available from Ms. Lien.

Upon adoption of the final rule without a public hearing, the proposed rule, this notice, the statement of need and reasonableness, all written comments received, and the final rules as adopted will be delivered to the Attorney General for review as to form and legality, including the issue of substantial change. Persons who wish to be advised of the submission of this material to the Attorney General, or who wish to receive a copy of the final rule should submit a written request to Ms. Lien.

The purpose of the proposed rule is to define which obligations are obligations of the United States and qualify for the subtraction from federal adjusted gross income provided for in Minnesota Statute § 290.01, subd. 20(b)(1). Presently, no rule exists that governs the determination of which obligations qualify for the subtraction. The rule is proposed for the convenience of the taxpayer and the agency in deciding which obligations are exempt from Minnesota income tax.

Commissioner of Revenue

Rule as Proposed (all new material)

13 MCAR § 1.6007 Subtraction for interest on United States government obligations. Minn. Stat. § 290.01, subd. 20, clause (b)(1) allows an individual taxpayer, an estate, or a trust to subtract the amount of interest earned on certain obligations of the United States government from federal adjusted gross income. To qualify for this subtraction, the obligation must meet the following conditions:

A. The interest income on the obligation must have been included in federal adjusted gross income for the taxable year that the subtraction is claimed. If only a portion of the interest income on an obligation has been included in federal adjusted gross income, only the included portion may be subtracted.

B. The obligation must be an obligation of the United States of America, whether through an agency, authority, commission, or instrumentality of the United States. This means that the full faith and credit of the United States must be pledged to the payment of the underlying obligation.

C. The obligation must be in writing, bear interest, contain a binding promise by the United States to pay specified sums on

specified dates, be specifically authorized by Congress, and be supported by a pledge of full faith and credit of the United States. Open accounts and other unsettled claims or demands are not obligations of the United States for purposes of this subtraction.

D. The obligation must be a direct and primary obligation of the United States. If the primary obligor is not the United States and the United States is merely an insurer or guarantor and has only a secondary or contingent liability, the interest income is not exempt. If the primary obligor is not the United States but the United States pays all or part of the interest on the obligation, the interest income is not exempt. If the obligation was originally a private obligation and if the obligee later gives up all rights against the original obligor as part of an insurance endorsement or otherwise, and agrees to look only to the United States for payment of both principal and interest, then the obligation has become a primary obligation of the United States and the interest income from it is exempt from state taxation.

E. Exhibits.

1. Rule 13 MCAR § 1.6007 E., exhibit I contains a list of securities that have been determined to be exempt from Minnesota income tax and for which a subtraction is allowed.

2. Rule 13 MCAR § 1.6007 E., exhibit II contains a list of securities that have been determined to be taxable by the State of Minnesota and for which no subtraction is allowed.

3. Rule 13 MCAR § 1.6007 E., exhibits III and IV contain lists of various federal agencies or related organizations that either generally issue exempt obligations or generally issue taxable obligations. These lists are not intended to be conclusive on the taxable status of any particular obligation issued by or in conjunction with a listed agency or organization. Even though a listed agency generally only issues either exempt obligations or taxable obligations, it does not follow that each and every obligation carrying the name of that particular agency is either exempt or taxable. An agency may issue its own obligations that are exempt and also may handle private obligations that are not exempt. For example, the agency may administer, purchase and sell, insure, or guarantee an otherwise private obligation. Such action by the agency does not convert a private obligation into a direct and primary obligation of the United States of America and, therefore, does not make the private obligation tax exempt. The taxable status of each obligation must be determined separately in accordance with A.-D.

Department of Natural Resources

Commissioner's Order No. 2115 Relating to the Taking of Fish for Commercial Purposes and Permits for the Removal of Fish from Lake of the Woods, Superseding Commissioner's Order Nos. 1924 and 2070

Pursuant to authority vested in me by law, I, Joseph N. Alexander, Commissioner of Natural Resources, do hereby prescribe the following regulations relating to commercial fishing and to the issuance of permits for the removal of fish from Lake of the Woods.

After having determined that it would be in the best interest of the natural resources of the State of Minnesota, I have in this order incorporated those suggestions to me from the negotiated agreement between sport fishing and commercial fishing interests that was consummated February 2, 1982 at 4 P.M. Those suggestions are as follows:

1. No commercial fishing within a two-mile corridor along the Minnesota, U.S.A.-Ontario, Canada, border from Pine Island, on the south to the southern boundary of the area known as Little Traverse Bay, on the north.
2. No commercial fishing in the area known as Little Traverse Bay during July and August. During the remainder of the commercial fishing season, the number of gill net fishermen shall be not more than two (2), who shall fish not more than 3,000 feet of gill net each. The aggregate maximum of gill net being fished shall at no time exceed 6,000 feet. Holders of current commercial fishing license numbers five (5) and fourteen (14) shall be the only gill net fishermen eligible to place gill nets in the waters of Little Traverse Bay.
3. The Commissioner will extend the commercial fishing season in Little Traverse Bay to November 15.
4. In the years 1982, 1983 and 1984 commercial gill net licenses will be transferable, but in no instance shall there be more than ten (10) nor more than 30,000 feet of gill net operating in Minnesota waters.
5. All other prior existing restrictions relating to closed areas, minimum depths, size limits, etc., will remain in force.
6. In 1985, the department will have a public meeting of interested parties and re-evaluate the status of fish population, catch, fish management and matters related thereto. After the meeting the Commissioner will determine what steps are necessary to further protect the natural resources of this state which might include the changing of commercial license practices. There is no intention as of now or in the future of establishing a priority in license rights among the ten gill net license holders themselves or their assignees, or an assurance that said licenses shall be reissued or renewed at the end of any license year.

7. Periodic public meetings with sport and commercial interest groups will be held in the interim to exchange information. Data collected by the department's lake studies and the intensive population structure study in Little Traverse Bay plus voluntary harvest figures provided by resorts and launch operators will be reported.

8. It is my intention that this order remain in effect for three (3) years unless I find it not to be in the best interest of the natural resources of the State of Minnesota.

NOW THEREFORE, the following regulations shall apply:

Section 1. SPECIES.

a. No fish shall be taken by commercial fishing or permit from Lake of the Woods except as provided in this order.

c. All fish taken by commercial fishermen, or under permit, which are not within the provisions of this order shall be returned to the waters of the lake. Fish taken under this order, except inland commercial fish, shall be transported to the licensee's or permittee's regular fishing base with heads and skins intact.

Ethical Practices Board

Notice and Order Granting the 1982 Minnesota Socialist Workers Campaign Committees Limited Exemption from Campaign Finance Disclosure

Official Notice

Pursuant to Minn. Stat. § 10A.20, subds. 8 and 10, the Ethical Practices Board has granted a limited exemption from disclosure as set forth in its order adopted May 7, 1982. Minn. Stat. § 10A.20, subd. 10 provides that if the board receives a written objection from any party within 20 days after publication of its order in the *State Register*, the board shall hold a contested case hearing. Written objections shall be filed with the Ethical Practices Board, 41 State Office Building, St. Paul, MN 55155. Written objections must be submitted not later than 12 o'clock noon, on Monday, June 21, 1982.

Order

The application of the 1982 Minnesota Socialist Workers Campaign Committee, Registration Number 1-1348-0600, a principal campaign committee, and the 1982 Minnesota Socialist Workers Campaign Committee, Registration Number 2-0381-0509, a political party committee, for exemptions from the campaign financing disclosure provisions of Minn. Stat. § 10A.20, subd. 3(b) and (d) came duly before the Ethical Practices Board on May 7, 1982.

After having fully considered the material submitted by these committees, the Board makes the following:

FINDINGS

1. The pattern of ongoing harassment of members of the Socialist Workers Party noted in the Board's exemption granted in 1978 continues into the present.
 - a. On February 27 and March 2, 1982, a party member and his father were subjected to inquiries from a federal agency in St. Paul, Minn.
 - b. Repeated threats and violence toward, and vandalism and defacement of Socialist Workers Party offices in St. Paul and in Virginia, Minn. occurred from 1978 to March, 1982. In St. Paul on December 26, 1978, June 7, 1979, and April 18, 1981, vandalism occurred at Party offices. Bomb threats were made by telephone on December 2, 1980, and April 11, 1981. In Virginia on May 16 and 17, 1980, and March 13 and 27, 1982, vandalism occurred at Party offices, and in June, 1980, the home of a Socialist Workers Party candidate for U.S. Representative was defaced in Virginia.
 - c. Threats were made against the life of a Socialist Workers Party candidate for U.S. Representative in Virginia, May 15 to 31, 1980. In Virginia Socialist Workers Party members have been subjected to physical violence (August 16, 1980), harassment by hostile fellow workers (summer and fall, 1980; July 18, 19, and 21, 1980; October, 1981 to the present), and threat of loss of employment (March 31 and April 20, 1982).
 - d. Fear of public disclosure of identification with the Socialist Workers Party continues to affect members' freedom to associate with others and to receive contributions to campaigns for Socialist Workers Party candidates.
2. No Socialist Workers Party candidate has been elected to local, state, or federal office in Minnesota. In 1978, the only Socialist Workers Party candidates for statewide office sought the offices of governor and lieutenant governor. They polled 6,287 votes, .4% of the total vote cast for that office. The Socialist Workers 1978 Campaign Committees raised a total of \$4,455.79, made campaign expenditures of \$2,912.67, and reported total cash balances of \$86.12 when the committees terminated, September 5, 1978 and December 13, 1978. In 1980, three Socialist Workers Party candidates sought election in Minnesota and received 1.2% of the total votes cast for the offices they sought.

CONCLUSION

The 1982 Minnesota Socialist Workers Campaign Committees, Registration Numbers 1-1348-0600 and 2-0381-0509, have satisfied the standard of proof imposed by Minn. Stat. § 10A.20, subds. 8 and 10.

ORDER

In accordance with Minn. Stat. § 10A.20, subs. 8 and 10, the 1982 Minnesota Socialist Workers Campaign Committees, Registration Numbers 1-1348-0600 and 2-0281-0509 are hereby granted a limited exemption from the reporting requirements of Minn. Stat. § 10A.20, subd. 3(b) and (d) regarding disclosure of the names, addresses, and employers of contributors.

In lieu of these disclosure requirements, each committee shall identify and report contributions by assigning a separate number of each contributor, in correlation with each contributor, instead of listing the name, address and employer of each contributor.

Except as specially provided in this exemption, said committees shall in all respects comply with the provisions of Minn. Stat. ch. 10A.
