For each animal slaughtered because of tuberculosis, paratuberculosis, glanders, or Bang's disease, the value of the net salvage of the carcass shall be deducted from the appraised value of the living animal; two-thirds of the remainder shall be paid to the owner by the state, except that in all cases where the federal bureau of animal industry compensates the owner for such animal, in whole or in part, then the amount of such compensation so received from the federal government shall be deducted from the amount of indemnity payable by the state; provided that in no case shall any payment be more than \$15.00 for grade females or more than \$30.00 for any purebred animal, and that no payment shall be made unless the owner has complied with all lawful rules and regulations of the board; and provided further that two-thirds of the appraised value of any horse slaughtered as provided herein shall be paid to the owner thereof by the state after disposal of the carcass of said horse as directed by the board.

(b) The owner of any animal, as provided in this act, shall be entitled to indemnity therefor as herein provided, except in the following cases:

1. Indemnity shall not be paid for steers or grade bulls.

5. Animals belonging to the United States.
6. Animals belonging to institutions maintained by state, county or municipality.
7. 11. No indemnity or compensation shall be paid for the destruction of any livestock affected with tuberculosis, paratuberculosis, glanders, or Bang's disease, unless the entire herd of which such affected livestock is a part, or from which such affected livestock has originated, shall be examined and tested under the supervision of the board, in order to determine if they are free from such disease.

12. No indemnity or compensation shall be paid for the destruction of any livestock affected with tuberculosis, paratuberculosis, glanders, or Bang's disease, unless the owner has carried out the instructions and regulations of the board relating to the cleaning, disinfection and rendering the stables and premises in a sanitary condition, within fifteen days from the time of removal of such animals from the premises, except when because of inclement weather or other extenuating circumstances, the time may be extended by the executive officer of the board.

13. No indemnity or compensation shall be paid for the destruction of any livestock affected with tuberculosis, paratuberculosis, or Bang's disease, if the owner has fed milk or milk products derived from creameries and which have not been pasteurized as required by state laws and regulations.

14. If, at any time, the annual appropriation for payment of indemnities becomes exhausted as a result of condemnation and slaughter of animals, the state livestock sanitary board shall discontinue making further official tests or to authorize such tests, with the exception that if an owner signs a waiver, on blanks to be furnished by said board, for payment of indemnity for any animals that may be condemned as the result of a test and inspection, and releasing the state from any obligation to pay indemnity from any future appropriation.

The appraisals of animals affected with or exposed to foot and mouth disease, or contact animals shall be made by an appraisal board consisting of a representative of the board, a representative of the United States Bureau of Animal Industry and the owner of the animals or his representative, such appraisals, in writing, and signed by the appraisers, to be made at the true market value of all animals.

Upon destruction and burial of such animals, and the completion of the cleaning and disinfection of the premises, the state livestock sanitary board shall certify the appraisal to the auditor of the state, who shall draw a warrant on the state treasurer for one-half the amount thereof payable to the owner, and
