88.01 DEFINITIONS. Subdivision 1. **Words, terms, and phrases.** Unless the language or context clearly indicates that a different meaning is intended, the words, terms, and phrases defined in subdivisions 2 and 3, for the purposes of chapters 88 to 91, shall be given the meanings subjoined to them; the word defined in subdivision 4, for the purposes of sections 88.02 to 88.21 and 88.28 to 88.53, shall be given the meaning subjoined to it; the word defined in subdivision 5, for the purposes of sections 88.02 to 88.21 and 88.47 to 88.53, shall be given the meaning subjoined to it; the words, terms, and phrases defined in subdivisions 6 to 8, for the purposes of sections 88.02 to 88.21, shall be given the meanings subjoined to them; the words, terms, and phrases defined in subdivisions 9 to 13, for the purposes of sections 88.23 to 88.26, shall be given the meanings subjoined to them; the words, terms, and phrases defined in subdivisions 14 to 16, for the purposes of sections 88.28 to 88.46, shall be given the meanings subjoined to them; the words, terms, and phrases defined in subdivisions 17 to 21, for the purposes of sections 88.47 to 88.53, shall be given the meanings subjoined to them; the words, terms, and phrases defined in subdivisions 22 and 23, for the purposes of sections 88.54 to 88.63, shall be given the mean-

ings subjoined to them; and the word defined in subdivision 24, for the purposes of sections 88.64 to 88.72, shall be given the meaning subjoined to it.

Subdivision 2. **Division.** "Division" or "the division" means the division of forestry in the department of conservation.

Subdivision 3. **Director.** "Director" or "the director" means the director of the division of forestry in the department of conservation.

Subdivision 4. **Person.** "Person" means and includes a natural person acting either for himself or in any representative capacity, a corporation, a firm, a copartnership, or an association of any nature or kind.

Subdivision 5. **Timber.** "Timber" means and includes trees, saplings, bushes, and sprouts from which trees may grow, of every size, nature, kind, and description.

Subdivision 6. **Forest areas.** Every county now or hereafter having within its boundaries any tract or area of 1,000, or more, contiguous acres of standing or growing timber or of unbroken prairie land or of cut-over timber land not cleared or otherwise denuded of combustible or inflammable growth, is hereby declared to be a forest area; and every other county is hereby declared not to be such forest area.

Subdivision 7. **Forest or forest-land.** "Forest" or "forest-land" means and includes swamps, peat-bogs, cut-over lands, and every other area where timber grows and exists.

Subdivision 8. **Back-fire.** "Back-fire" means a fire intentionally started ahead of, or in the path of, an approaching forest or prairie fire for the purpose of burning back toward that forest or prairie fire so that when the two fires meet both will die for lack of fuel.

Subdivision 9. **Cultivated black currants.** "Cultivated black currants" means the plants, roots, cuttings, or scions of *Ribes nigrum* L.

Subdivision 10. **Currants and gooseberries.** "Currants and gooseberries" means the plants, roots, cuttings, or scions belonging to the genera *Ribes* L. and *Grossularia* (Tourn.) Mill.

Subdivision 11. **Blister-rust control area.** "Blister-rust control area" is an area established by state authority wherein the planting or possession of currants and gooseberry plants is prohibited for the purpose of protecting the white pines on such area from damage by white pine blister-rust.

Subdivision 12. **White pine.** "White pine" means plants of any species belonging to the genus *Pinus* which bear their needles in clusters of five.

Subdivision 13. **White pine blister-rust.** "White pine blister-rust" means the fungus disease caused by *Cronartium ribicola* Fischer.

Subdivision 14. **County board and town board.** The term "county board" means the board of county commissioners; and the term "town board" means the board of town supervisors.

Subdivision 15. **Improvement.** The term "improvement" means and includes any act or thing done, or which may be done, and any construction made or structure erected or which may be made or erected, and any removal from any land of trees, brush, stumps, or other debris, which reasonably tend to prevent or abate forest fires.

Subdivision 16. **Forest.** The term "forest" means every area where coniferous or evergreen trees, at any time, are growing or existing, including swamps, peat-bogs, and cut-over lands.

Subdivision 17. **Auxiliary forest.** The term "auxiliary forest" is used in relation to state forests, and it means and includes any privately-owned tract of land set apart for, and chiefly devoted to, the production of timber or forest products under the restrictions, and subject to the provisions, of sections 88.53 to 88.59.

Subdivision 18. **Forest products.** The term "forest products" means and includes all products derived from timber.

Subdivision 19. **Merchantable timber.** "Merchantable timber" means and includes all timber and all forest products having any commercial value.

Subdivision 20. **Owner.** The word "owner" means and includes the person or persons owning the fee title to any tract of land, but does not include an owner of timber thereon or of minerals or any other thing therein when such ownership is separate from the ownership of the surface.

Subdivision 21. **Register of deeds.** The term "register of deeds" means and includes the register of deeds of the county in which the land referred to is situate, or the registrar of titles in case the title to the land has been registered.

Subdivision 22. **Taxes.** The word "taxes" shall be held to include taxes of every kind, including special assessments of every kind.

Subdivision 23. **Bonds or bonded indebtedness.** The words "bonds" or "bonded indebtedness" include bonds and accumulated interest thereon of every nature issued to finance or refinance the construction, maintenance, or repair of public drainage ditches.

Subdivision 24. **Person.** The term "person" includes a copartnership, corporation, or association, wherever appropriate.

[1925 c. 263 s. 22; 1925 c. 407 ss. 1, 2; 1927 c. 247 s. 13; 1929 c. 218 s. 1; 1933 c. 402 s. 2; 1933 c. 331 s. 12] (4031-1) (4031-2) (4031-35½) (4031-57) (4031-72) (4031-76) (5887-42)

88.02 CITATION. Sections 88.02 to 88.21 may be cited as the Forestry Act.
[1925 c. 407 s. 1] (4031-1)

88.03 CODIFICATION OF FORESTRY ACT. Sections 88.02 to 88.21 shall be deemed and construed as a codification, revision, and expansion of, and as supplementary to, and taking the place of, the laws which existed at the time of the passage of Laws 1925, Chapter 407, relating to forestry and to forest and prairie fires, including Laws 1911, Chapter 125, and acts amendatory thereof and supplemental thereto; Laws 1913, Chapter 159; Laws 1915, Chapter 325; Extra Session Laws 1919, Chapters 32 and 33, but without abridging or destroying any rights, obligations, liabilities, or penalties from, or under, any of such laws prior to the taking effect of Laws 1925, Chapter 407. Sections 88.02 to 88.21 shall apply only to the forest areas of this state. In the prosecution of any civil or criminal action or proceeding thereunder, it shall not be necessary to prove that any county comes within the purview thereof, but the contrary may be proven by any party to such action or proceeding.

[1925 c. 407 s. 1] (4031-1)

88.04 FIRE-BREAKS; TOWNS, CITIES, VILLAGES; POWERS; TAX LEVIES; FIRE FUND. The director shall cooperate with the state highway authorities and with the supervising officers of the various towns, cities, and villages in the construction of fire-breaks along section lines and public highways.

All cities and villages in the state situated in any forest area are hereby authorized to clear off all combustible material and debris and create at least two good and sufficient fire-breaks of not less than ten feet in width each, which shall completely encircle such municipalities at a distance of not less than 20 rods apart, between which back-fires may be set or a stand made to fight forest fires in cases of emergency.

All towns, villages, and cities are hereby authorized and directed to take necessary precautions to prevent the starting and spreading of forest or prairie fires and to extinguish the same; and are hereby further authorized to levy a tax of not more than five mills annually upon the taxable property of such municipalities, but in no municipality to exceed a total of \$3,000 in any one year, which tax when collected shall be known as the fire fund and kept separate and apart from all other funds and used only in paying all necessary and incidental expenses incurred in enforcing the provisions of sections 88.02 to 88.21. Not to exceed \$500.00 shall be expended in any one year from any such fire fund for the support of any municipal fire department. No such municipality shall make any levy for its fire fund at any time when the same contains \$5,000 or more, consisting of cash on hand or uncollected taxes not delinquent or both.

In all towns constituted within any of the forest patrol districts which may be established by the director, the respective town and village officers and employees shall cooperate with, and be under the general supervision and direction of, the director.

[1925 c. 407 s. 11] (4031-11)

88.05 DIRECTOR MAY CLEAN UP ROADSIDES. All highways, roads, and trails within forest areas are declared to be established fire-breaks and for that purpose the state, through the division, is authorized to clean up all dead and down timber, all underbrush, rotting logs, stumps, and all other inflammable refuse and debris along each side of these highways, roads, and trails for a distance of 200 feet on each side from the center thereof, all of this material to be burned or disposed of under the supervision of a forestry officer in such manner as not to injure the growing timber.

All dead and usable timber taken out of these roadsides shall be piled for the immediate removal thereof by the owners of the land from which the same was removed.

[1933 c. 320 s. 1; 1937 c. 113 s. 1] (4031-11½)

88.06 REMOVAL OF DEAD OR DOWN TIMBER; PERMIT. The director may permit, under his direct supervision and control, any civilian conservation corps, works progress administration, or other state or federal relief agency actually engaged in the improvement and conservation of state trust fund lands within the boundaries of any state forest to clean up and remove all dead or down timber, underbrush, rotting logs, stumps, and all other inflammable refuse and debris which is deemed to be a fire hazard, or the removal of any trees in forest stand improvement and cultural operations which is advisable in the interest of good forest management; and to use so much of these cuttings for firewood and other forest development needs while these camps are thus actively engaged in the improvement and care of these forests.

[1933 c. 320 s. 1; 1937 c. 113 s. 2] (4031-11½a)

88.07 FIRE CONTROL; SALARIES, EXPENSES, AUDIT. It shall be the duty of the director to audit and inspect all bills for salaries and expenses incurred by the district rangers and by fire patrolmen and other employees for the prevention, suppression, checking, and control of fires and to recommend the amounts justly due and which should be paid.

[1925 c. 407 s. 13] (4031-13)

88.08 PATROL DISTRICTS. The director may create and establish patrol districts, including all lands of both state and private ownership, upon which there is a probability of forest and brush fires starting, and establish rangers and patrolmen over these districts. These rangers and patrolmen may cooperate with aeroplane patrolmen acting under authority of sections 380.19 to 380.23. All such patrol districts heretofore established and now in existence are hereby continued until and unless hereafter abolished by the director.

[1925 c. 407 s. 14] (4031-14)

88.09 MAY ACQUIRE LANDS FOR FIRE PROTECTION. Subdivision 1. **May accept gifts.** The director is hereby authorized on behalf of the state to accept as gifts to the state the title to any tract of land, not exceeding 40 acres in area, or to accept any easement in or upon any tract of land, which he deems necessary or convenient for the use of the state as locations for watch towers, warehouses, or other buildings of any kind, or as locations for fire-breaks, or for other use in connection with his duties.

Subdivision 2. **May purchase or condemn.** The director is also authorized on behalf of the state to purchase small tracts or parcels of lands, not exceeding 40 acres in area, or costing more than \$400.00 for any single tract, to be used as locations for watch towers, warehouses, or other buildings of any kind, or as locations for fire-breaks, or for any other use in connection with his duties; also to acquire by condemnation any tract of land, not exceeding 40 acres, for these purposes; also to acquire, by gift, purchase, or condemnation, any easement or right of way that may be necessary to provide access to any tract of land so acquired.

[1927 c. 329 ss. 1, 2; 1929 c. 220 ss. 1, 2; 1933 c. 302 ss. 1, 2; 1935 c. 332] (4031-14a)
(4031-14b)

88.10 DISTRICT RANGERS AND PATROLMEN. Under the direction of the director the district rangers are charged with preventing and extinguishing forest fires in their respective districts and the performance of such other duties as may be required by him. They may arrest without warrant any person found violating any provisions of sections 88.02 to 88.21, take him before a magistrate, and there make complaint. When the district rangers shall have information that such violation has been committed they shall without delay make similar complaint and have the same prosecuted. The district rangers and other forest officers shall not be liable in civil action for trespass committed in the discharge of their duties.

Any district ranger or patrolman may serve any warrant for the arrest of any person violating any provision of sections 88.02 to 88.21 and for that purpose all district rangers and patrolmen are hereby vested with the same powers as constables or other similar officers of the courts issuing such warrants.

[1925 c. 407 s. 15] (4031-15)

88.11 FIRE PATROLMEN; AID FOR FIGHTING FIRES; REFUSAL; COMMANDEERING PROPERTY. At any time district rangers, with the approval of the director, may employ suitable persons to be known as fire patrolmen, permanently to remain upon and patrol any territory, whether comprising public or private lands, or both, as may be assigned to them as long as required to prevent and extinguish any fires. Each fire patrolman so employed shall be supplied with the necessary equipment. The director, or any district ranger or fire patrolman, may summon any male person of the age of 18 years and upward to assist in stopping any fire burning in the district under the care of such state employee and may incur any other necessary and reasonable expense for this purpose, but shall promptly report the matter to his next superior officer or other state employee over him.

Any able-bodied person so summoned who refuses or neglects or otherwise fails to assist in extinguishing such fire or who fails to make all reasonable efforts to that end, until released by the state employee who summoned him, shall be guilty of a misdemeanor and punished by a fine of not less than \$10.00, and not more than \$50.00, and the costs of prosecution, or by imprisonment in the county jail for not less than ten, nor more than 30, days. The director, ranger, or patrolman, as the case may be, shall have power to commandeer, for the time being, any team, automobile, tools, appliances, or other property in the possession of any person either summoned to assist in extinguishing the fire or in the vicinity thereof, and himself to use, and to require the persons summoned to his assistance to use, the commandeered property in the fighting and extinguishing of the fire. The owner of any property so commandeered shall be promptly paid just compensation for the use thereof and all damages done to the commandeered property while in this use by the director, ranger, or patrolman from any money available for these expenses under sections 88.02 to 88.21.

[1925 c. 407 s. 16] (4031-16)

88.12 COMPENSATION OF FIGHTERS OF FOREST FIRES; EMERGENCY EXPENSES. Subdivision 1. **Limitation.** The wages and expenses of men employed to fight forest fires shall be fixed and paid by the director, and the labor reckoned and paid for at not more than 35 cents per hour. The director is authorized to draw from the state treasury out of any money at any time appropriated for the purposes of sections 88.02 to 88.21 a reasonable sum, not to exceed \$5,000 at any one time, and to place the same in the hands of the director to be used by him in paying emergency expenses, including just compensation for services rendered by persons summoned and for private property used, damaged, or appropriated under sections 88.02 to 88.21. The state auditor is authorized to draw his warrant for this sum when duly approved by the director. The director shall take proper sub-vouchers or receipts from all persons to whom these moneys are paid, and after these sub-vouchers have been approved by him they shall be filed with the state auditor. The sum of \$5,000, or such lesser amount as may be placed in the hands of the director at any one time, shall be deposited, subject to withdrawal by check or otherwise by the director at any time, in some bank authorized and bonded to receive state deposits; and the bond of this bank to the state shall cover and include this deposit. Any part of the money forwarded by the director to any ranger or other employee shall likewise be deposited in some such bonded bank, if practicable, and deemed covered by the bond of such bank.

Subdivision 2. **Contracts for services for forestry or fire prevention work; commissions to persons employed.** The director is hereby authorized and empowered to contract for or accept the services of any and all persons whose aid is available, temporarily or otherwise, in forestry or fire prevention work, either gratuitously or for compensation not in excess of the limits provided by law with respect to the employment of labor by him. He may issue a commission, or other written evidence of authority, to any such person whose services are so arranged for; and may thereby empower such person to act, temporarily or otherwise, as fire warden, patrolman, or in any other capacity, with such powers and duties as may be specified in the commission or other written evidence of authority, but not in excess of the powers conferred by law on district rangers.

[1925 c. 407 s. 17; 1927 c. 280 s. 1] (4031-17) (4031-17a)

88.13 NOTICES OF CUTTING OF TIMBER; POSTING; FAILURE TO POST. Before any person shall cut, or cause to be cut, any timber upon any land in, upon,

or adjoining any forest or wild land area within this state, such person shall post in a conspicuous place in some camp building on the premises where the cutting is to be done or, if there be no such building, on and at the northwest corner of each 40-acre governmental subdivision or at the nearest corresponding point in each fractional subdivision of such lands, a notice in the English language containing the name and post-office address of such person and containing a full description of all the lands upon which the cutting is to be done, designating the same by each 40-acre governmental subdivision or fraction thereof with the proper section, town, and range; which notice shall be kept continuously so posted during the entire time that the cutting is being done. Each year, before any such timber is cut, such person shall send a true and correct copy of each such notice, together with a statement of the kind of products proposed to be cut, and who is to be responsible for the disposal of slashings and debris resulting from the cutting, by registered letter, properly enveloped, sealed, postage prepaid, and addressed to the Director of Forestry, Department of Conservation, State Capitol, St. Paul, Minnesota.

Any person who fails to post and send the notice, as in this section required shall be guilty of a misdemeanor; and, upon conviction thereof, fined not less than \$25.00, or imprisoned in the county jail for not less than 20 days. The provisions of this section shall not apply to any person who shall be engaged in cutting cord-wood or other fuel wood upon his own land or engaged in cutting timber for clearing any land actually owned and occupied by him.

Any person who, and any municipality or political subdivision of this state which, cuts or fells timber or brush of any kind in clearing land for any public road-bed or right of way, or for any other purpose, shall before starting such operations notify the director in writing describing the intended operations, which notice shall be sent by registered letter, properly enveloped, sealed, postage prepaid, and addressed to the Director of Forestry, Department of Conservation, State Capitol, St. Paul, Minnesota.

[1925 c. 407 s. 18] (4031-18)

88.14 DIRECTOR MAY REQUIRE DISPOSAL OF SLASHINGS AND DEBRIS.

Where and whenever in the judgment of the director of any district ranger there is or may be danger of starting and spreading of fires from slashings and debris from the cutting of timber of any kind and for any purpose, or from any accumulation of sawdust, shavings, chips, bark, edgings, slabs, or other inflammable refuse from the manufacture of lumber or other timber products the director, or district ranger, shall order the person by or for whom the timber or timber products have been or are being cut or manufactured to dispose of such slashings, debris, or refuse as the state employee may direct. Where conditions do not permit the burning of the slashings, debris, or refuse over the entire area so covered, the director may require such person to dispose of the same in such a way as to establish a safe fire-line around the area requiring such protection, the fire-line to be of a width and character satisfactory to the director, or otherwise to dispose of the same so as to eliminate the fire hazard therefrom.

When any person who has been directed by the director, or district rangers, to dispose of such slashings, debris, or refuse fails to comply with these directions he shall be deemed guilty of a misdemeanor; and, on conviction thereof, punished by a fine of not less than \$25.00, and not exceeding \$100.00, and costs of prosecution; and each day during which the failure to comply with the requirements of the director continues shall be deemed a separate and distinct violation of sections 88.02 to 88.21; but any number of these offenses may be prosecuted as separate counts of one charge or information.

When any such slashings, debris, or refuse are not disposed of or are left unattended contrary to the instructions of the director, or district ranger, the director, or any district ranger or patrolman, may go upon the premises with such force of men as may be necessary and burn or otherwise dispose of the same and the expense thereof shall be a lien upon the land on which they are situated and upon all contiguous lands of the same owner, and also upon all logs and other timber products cut or manufactured upon all these lands. This lien shall have the same effect and may be enforced in the same manner as a judgment in favor of the state for money. An itemized statement verified by the oath of the director, or district ranger, of the amount of the costs and expenses incurred in burning or otherwise disposing of these slashings, debris, or refuse shall be filed, within 90 days from the time the disposal thereof is completed, in the office of the register of

deeds of the county in which the timber or timber products were cut or manufactured; and the amount of the lien shall be a valid claim that may be collected in a civil action from the person who cut or manufactured the wood, timber, or timber products from which the slashings, debris, or refuse were produced. Any moneys so collected shall be paid into the state treasury and credited to the forest service fund.

Any person who cuts or fells trees or bushes of any kind in clearing land for any road-bed or right of way for any railroad, highway, or trail shall, in the manner and at the time as above prescribed, burn the slashings and all combustible material, except fuel and merchantable timber, which shall be promptly removed.

Any person who cuts or fells trees or bushes of any kind in clearing land for any purpose is hereby prohibited from setting fire to any slashings, brush, roots, or excavated stumps or other combustible material on such land and letting the fire run; but the same must be disposed of pursuant to the regulations or directions of the director.

Any contractor who enters into a contract for the construction of a public road or other work, which involves the cutting or grubbing of woods, standing timber, or brush, shall pile in the middle of the right of way all the slashings and debris so cut or grubbed therefrom and burn and dispose of such slashings and debris without damage to adjoining timber or woods, which burning shall be done in a manner and at a time satisfactory to the director. The foregoing provisions shall not prevent the leaving of such trees along roads as will be useful for ornamental and shade purposes and which will not interfere with travel.

Every contract made by or on behalf of any municipality or political subdivision of this state which involves the cutting of any timber on the right of way of a public highway shall provide in terms for compliance with the foregoing provisions, but the failure to include this provision in the contract shall not relieve the contractor from the duty to burn and dispose of these slashings.

In all cases not herein provided for, where timber is cut in, upon, or adjoining any forest land and no specific directions are given by the director, or district ranger, for the disposal of slashings and debris resulting therefrom, all such slashings and debris within 200 feet of any adjoining timber land or any public highway, railroad, portage, or lake shore, shall nevertheless be piled in separate and compact piles ready for burning, which piling shall be done by the person by or for whom the timber was cut within 15 days after such timber was cut and such person shall thereafter make such further disposition of such slashings and debris as the director, or district ranger, may direct.

No sawdust, shavings, chips, bark, edgings, slabs, or other inflammable refuse from the manufacture of lumber or other timber products shall be made or deposited upon any public highway, portage, railroad, or lake shore, or within 100 feet thereof.

[1925 c. 407 s. 19; 1929 c. 360] (4031-19)

88.15 CAMP FIRES. Subdivision 1. **Extinguishment.** Any road overseer or assistant of a road overseer or other local officer having charge of any highway, or any highway patrolman, who finds that any person has left a camp fire burning in his district shall extinguish the same and take prompt measures to prosecute the person who so left the fire.

Subdivision 2. **Not to be left burning.** Every person who when the ground is not covered with snow starts a fire in the vicinity of forest or prairie land shall exercise every reasonable precaution to prevent the fire from spreading and shall before lighting the same clear the ground of all branches, brushwood, dry leaves, and other combustible material within a radius of five feet from the fire, and keep the fire under his immediate personal supervision and control at all times, and carefully extinguish the fire before quitting the place.

[1925 c. 407 ss. 20, 21; 1929 c. 261 s. 1] (4031-20) (4031-21)

88.16 STARTING FIRES; WHERE UNLAWFUL WITHOUT PERMISSION; FIRE-BREAKS; REPORTS OF UNAUTHORIZED FIRES. It shall be unlawful, when the ground is not snow-covered, in any place where there are standing or growing native coniferous trees, or in areas of ground from which native coniferous trees have been cut, or where there are slashings of such trees, or native brush, timber, slashings thereof, or excavated stumps, or where there is peat or peat roots excavated or growing, to start or have any open fire, except for domestic purposes, or any back-fire, without the written permission of the director, or other

authorized forest officer, unless a fire-break sufficient to check the spread of the fire shall have been freshly made or plowed around the place or area wherein the fire is set.

Furrows plowed in peat lands or bogs shall not be deemed a sufficient fire-break as required by this section.

The occupant of any premises upon which any unauthorized fire is burning in the vicinity of forest lands, whether the fire was started by him or otherwise, shall promptly report the fire to the director, or to the nearest district ranger, patrolman, or fire warden. Failure to make this report shall be deemed a violation of sections 88.02 to 88.21 and the occupant of the premises shall be deemed prima facie guilty of negligence if the unreported fire spreads from the premises to the damage, loss, or injury of the state or any person.

[1925 c. 407 s. 22] (4031-22)

88.17 PERMISSION TO START FIRES; PROSECUTION FOR UNLAWFULLY STARTING FIRES; EVIDENCE; BURDEN OF PROOF. Permission to set fire to any grass, stubble, peat, brush, slashings, or woods for the purpose of clearing and improving land or preventing other fire shall be given whenever the same may be safely burned, upon such reasonable conditions and restrictions as the director may prescribe, to prevent same from spreading and getting beyond control. This permission shall be in the form of a written permit signed by a regular forest officer or a member of the town board, designated by the director, or some other suitable person to be designated by him, as town fire warden, these permits to be on blanks furnished by the director. The director, or any of his assistants or the town fire warden, may at his discretion in cases of extreme danger refuse, revoke, or postpone the use of permits to burn when such act is clearly necessary for the safety of life and property. Any person setting any fire or burning anything under such permit shall keep the permit on his person while so engaged and produce and exhibit the permit to any district ranger, patrolman, or other employee of the forestry service, or town fire warden, when and as often as requested so to do by any of them.

In any prosecution under sections 88.02 to 88.21 for unlawfully starting or setting or having or permitting the continuation or spread of any fire or back-fire, proof upon the part of the prosecution that such fire or back-fire originated upon, or was permitted to burn upon, or that it spread from, lands or premises occupied by the person charged with the offense, and that this person had knowledge of the fire and made no effort to put it out, shall be prima facie evidence that he is guilty. The burden of proof as to any matter in refutation of this prima facie guilt, or in extenuation or excuse, shall be and rest upon the person so appearing prima facie to be guilty.

[1925 c. 407 s. 23] (4031-23)

88.18 FIRE WARDENS. The director may appoint supervisors, constables, and clerks of towns, mayors of cities, and presidents or presiding officers of village councils to be fire wardens for their respective districts; and they shall do all things reasonably necessary to protect the property of such municipalities from fire and to extinguish the same.

[1925 c. 407 s. 24] (4031-24)

88.19 NEGLECT OR REFUSAL TO PERFORM DUTY. Every forestry employee of the state who shall unjustifiably refuse or neglect to perform his duty; every person who shall kindle a fire on or near forest, brush, or prairie land and leave it unquenched, or be a party thereto, or who shall set fire to brush, stumps, dry grass, field stubble, or other material, and fail to extinguish the same before it has endangered the property of another; every person who shall negligently or carelessly set on fire, or cause to be set on fire, any woods, prairie, or other combustible material, whether on his own land or not, by means whereof the property of another shall be endangered, or who shall negligently suffer any fire upon his own lands to extend beyond the limits thereof; every person who shall use other than incombustible wads for firearms, or carry a naked torch, firebrand, or exposed light in or near forest land, or who, upon any such land or in the vicinity thereof, or on or along any public or private road, trail, path, railroad right of way or road-bed, or other public or private way of any kind running over or along or in the vicinity of any such land, shall throw or drop any burning match, ashes of pipe, lighted cigar, or cigarette, or any other burning substance, and who fails to extinguish the same immediately; every person who drives upon or over forest lands in a motor

vehicle with an open cut-out or without a muffler on the exhaust pipe; and every person who shall deface, destroy, or remove any notice posted under sections 88.02 to 88.21, shall be guilty of a misdemeanor; and, on conviction thereof, punished by a fine of not less than \$25.00, and not exceeding \$100.00, and costs of prosecution, or by imprisonment in the county jail for not less than ten, and not exceeding 90, days.

[1927 c. 407 s. 25; 1929 c. 261 s. 2] (4031-25)

88.20 RAILROAD COMPANIES TO PROVIDE PATROLMEN. When in the judgment of the director there is danger of the setting and spreading of fires from locomotive engines he shall order any railroad company to provide patrolmen to follow each train throughout such fire patrol district or districts as he deems necessary to prevent fires. From and after April 1, 1939, these patrolmen shall be equipped with a patrol-speeder or other suitable conveyance, and each railroad patrolman shall carry with him on such conveyance when performing patrol duty one number two shovel and a suitable container with a double-acting pump attached thereto, commonly called a "pump tank," holding at least five gallons of water, the pump tank to be kept filled with water ready for use and maintained in such condition at all times that under normal operation of the pump a stream of water can be forced through a three-sixteenths inch diameter nozzle a distance of at least 20 feet. When the director has so notified a railroad company to provide such patrol after trains the railroad company shall immediately comply with the requirements of this notice throughout the territory designated; and, upon its failure so to do, the director may employ patrolmen with the necessary equipment to patrol the rights of way of the railroad, and the expense of the same shall be charged to the railroad company and may be recovered in a civil action in the name of the State of Minnesota; and in addition thereto the company shall be guilty of a misdemeanor. All moneys so recovered shall be paid into the state treasury and credited to the appropriation from which these expenses were paid.

The director may prescribe such other measures as are considered by him to be essential for the immediate control of fire.

It is made the duty of any railroad company, acting independently of the director, to patrol its right of way after the passage of each train when necessary to prevent the spread of fires and to use the highest degree of diligence to prevent the setting and spread of fire, to cause the extinguishment of fires set by locomotives or found existing upon their respective rights of way; and any failure of the railroad company, its officers and patrolmen, to comply with this section shall be a misdemeanor and punishable by a fine of not less than \$50.00, nor more than \$100.00, and costs, and in addition thereto the railroad company shall be liable for all expenses and damages caused by or resulting from such failure of duty.

[1925 c. 407 s. 26; 1939 c. 427 s. 1] (4031-26)

88.21 REPORTS BY RAILROAD COMPANIES. Subdivision 1. **Copies.** When the director has reason to believe that a certain locomotive caused a fire he can order the railroad company to forward to him at once by mail a written report covering the inspection of the fire-protective appliances of such locomotive made next after the occurrence of the fire. Such written report shall be copied from the inspection book required to be kept by the railroad company under sections 88.02 to 88.21. Every person operating a railroad for any purpose shall equip and use upon each locomotive engine a practical and efficient ash-pan and spark-arrester device, which the master mechanic or corresponding skilled employee of the operator shall cause to be inspected each time before the locomotive leaves the roundhouse or starts on any trip, between the dates of March first and November thirtieth, both dates inclusive, each year. It shall not be required to make more than one such inspection of any one engine within a period of 24 hours. Between the dates of December first and February twenty-eighth, both dates inclusive, each year, this inspection shall be made at intervals of not more than seven days. Where spark-arresters are equipped with a manhole door, such door shall be removed at the time of inspection and replaced before an engine goes on any trip. Such ash-pan and spark-arrester device shall be constructed and operated in conformity and in compliance with all the following specifications and rules:

(1) Except when the ash-pan is being cleaned, the hopper opening for removal of cinders on ash-pans constructed with hoppers shall be kept closed while the engine is in use by a cast slide supported by cast guides; and there shall be no opening greater than five-sixteenths of an inch between the slide and hopper; or

such openings in hoppers for removal of cinders may be closed by what is known as the "radial type of hopper bottom," the general design of which shall be approved, in writing, by the director;

(2) Ash-pans commonly known as solid or swipe pans shall have the ends, if open, covered either with a substantially constructed solid damper or screen damper, which shall extend at least one and one-fourth inches inside or outside the pan when closed, leaving no opening greater than five-sixteenths of an inch in width, so arranged that it can be fastened down, and kept fastened down when the engine is in use; if a screen is used, it shall conform to the specifications for use in spark-arresters, as contained in sections 88.02 to 88.21;

(3) Openings in ash-pans for draught purposes shall be protected by screens bolted firmly and securely over such openings or by the use of deflector plates in place of screens; provided, that any deflector plate used for such purpose shall extend above or below, as the case may be, the opening to be protected a distance at least equal to the width of such opening; and, provided, further, that any such deflector plate so used shall be closed in at each end thereof; (all screens so used and the bolting in place thereof shall conform to the specifications for spark-arresters, as contained in sections 88.02 to 88.21);

(4) On locomotive engines where there is an opening between ash-pan and the foundation ring, protection shall be furnished by a flare brought up level with the bottom of the foundation ring, such flare being either an integral part of the pan or attached to the body of the pan by bolts, rivets, or hinges; where hinges are used the flare shall have suitable locking devices and the hinges and locking devices shall be so spaced and maintained in such condition as to hold the flare securely in place, and the opening between the bottom of the foundation ring and flare of pan, measured horizontally, shall not be greater than eight inches at any point; provided, that for any distance the flare of pan extends above the bottom of foundation ring, the flare may be extended out horizontally an equal distance in excess of eight inches; or such opening between ash-pan and foundation ring may be protected by deflector plates; provided, that any deflector plates used for such purposes shall extend above or below, as the case may be, the opening to be protected a distance at least equal to the width of such opening and that any such deflector plate so used shall be closed in at each end thereof;

(5) Openings in ash-pans for entry of grate connections must be fully protected; and the openings around the rods where they enter the ash-pan must not be greater than five-sixteenths of an inch in width, or the grate connections outside the ash-pan must be boxed in for their full length so that no sparks or cinders can possibly escape;

(6) Plates and angle-irons used in ash-pans, including all fire-protective devices attached thereto, shall not be less than one-fourth of an inch in thickness, and the ash-pans, including all fire-protective devices attached thereto, shall be so constructed and maintained in such condition that there shall be no opening in excess of five-sixteenths of an inch in width;

Material used in construction or repair of ash-pans shall be of iron or steel securely bolted or riveted or welded in place. No cement, putty, asbestos, or other material or substance other than iron or steel shall be applied to, laid on, attached to, or used in any way in connection with or made a part of ash-pans;

From and after May 1, 1933, the spacing of bolts, rivets, studs, and other fastening devices in sheet-iron and steel plates, whether fastened to other plates, castings, forgings, or other parts when used in the construction or repair of ash-pans and all fire-protective appliances attached thereto, shall not be greater than three and three-fourths inches center to center;

The spacing of bolts, rivets, studs, and other fastening devices in castings, used in the construction of ash-pans and all fire-protective appliances attached thereto, shall be such as to hold the casting securely in place;

(7) Such ash-pans shall be equipped with swipes, injector overflow or other sprinkling devices, and ashes and coals therein shall be kept extinguished and dampened at all times between April fifteenth and October thirty-first, both dates inclusive, each year, and during such additional period, in any particular territory, as may be specified, in writing, by the director;

(8) Spark-arrester screens shall be either square mesh wire screen or oblong mesh wire screen or perforated plate, and conform to the following specifications:

SQUARE MESH WIRE SCREEN

Mesh per lineal inch in either direction	Least diameter of wire when new	Condemning limit of opening in mesh in either direction
2½ by 2½	0.134 inch	19/64 inch
2¾ by 2¾	0.134 inch	19/64 inch
3 by 3	0.105 inch	17/64 inch
4 by 4	0.092 inch	0.204 inch
5 by 5	0.072 inch	0.164 inch
6 by 6	0.063 inch	0.1355 inch
7 by 7	0.063 inch	0.1115 inch

Fractional mesh shall not be used except as specified.

OBLONG MESH WIRE SCREENS

Size of opening mesh	Least diameter of wire when new	Condemning limit of opening in mesh
⅜ by ¼ inch	0.134 inch	¼ by ⅜ inch
½ by ¼ inch	0.134 inch	⅜ by ⅜ inch

The openings in perforated plates when new shall be oblong, not exceeding three-sixteenths of an inch in width or three-fourths of an inch in length, and there shall not be less than one-eighth of an inch in width of plate between the meshes, and such plate shall not be less than 0.085 of an inch in thickness; the condemning limit of the openings in perforated plate shall be one-fourth of an inch in width and thirteen-sixteenths of an inch in length;

(9) The spark-arrester screen shall have a manhole door with a substantial rigid frame, large enough to allow the entry for purposes of inspection and repair;

(10) All angle-irons and plates used for the purpose of attaching or supporting any part of the spark-arrester device shall be so placed as to fit closely and continuously to the smoke arch, plates, angle-irons, and other parts;

(11) Plates used in the construction or repair of spark-arresters, wherever attached, shall not be less than three-sixteenths of an inch in thickness;

From and after May 1, 1931, angle-irons used in spark-arresters shall be of sections in size not less than one-fourth of an inch by two inches by two inches, on all locomotive engines unless otherwise authorized, in writing, by the director. The spacing of rivets, bolts, studs, and other fastening devices used in spark-arresters shall not be greater than set forth in the following specifications:

Fastening screens—three and one-half inches center to center;

Fastening angle-irons to smoke arch—eight inches center to center;

Fastening plates—five inches center to center;

Fastening angle-irons to flue sheet—eight inches center to center.

Material used in the construction or repair of spark-arresters shall be of iron or steel securely bolted or riveted or welded in place. No cement, putty, asbestos, or other material or substance other than iron or steel shall be applied to, laid on, attached to or used in any way in connection with or made a part of spark-arresters except upon written approval of the director. No opening anywhere in the spark-arrester device, other than the openings herein specified for wire screen and perforated plate, shall be larger than one-fourth of an inch in width;

(12) Devices and appliances differing from those specified in this subdivision may be used for experimental purposes only by written permission of the director during such limited periods and upon such terms and conditions as he may prescribe; this written permission shall be subject to revocation by the director at any time, and such experimental devices or appliances shall not be permanently adopted unless authorized by law;

(13) Permission is hereby given to use as a spark-arrester on all types of engines using wood, coal, oil, or other fuels the so-called "Cyclone spark-arrester"; this arrester shall consist primarily of a drum with entrance so arranged that the products of combustion shall be given a rotary motion within the drum to the extent that all sparks shall be sufficiently cooled before leaving the stack as to preclude such sparks reaching the ground alive; the drum shall be constructed of iron or steel at least one-fourth inch in thickness. The number of fastenings shall be such as to hold the plates and other parts securely in position, and all parts of the spark-arrester which are essential to its proper operation shall be maintained in a safe and serviceable condition at all times.

Permission is hereby given to use as a spark-arrester on all types of engines using wood, coal, oil, and other fuels the so-called "Anderson spark-eliminator." This spark-eliminator shall consist primarily of a top ring set horizontally and attached to the extension stack, a bottom ring set horizontally and attached to the exhaust pipe, deflector plates set vertically in between the two rings, such deflector plates being arranged suitably around the exhaust nozzle. Plates used in the construction of the spark-eliminator shall be of iron or steel at least one-fourth inch in thickness and the number of fastenings shall be such as to hold the plates and other parts securely in position. All parts of the spark-eliminator which are essential to its operation shall be maintained in a safe and suitable condition at all times.

Subdivision 2. Record of examination. A record shall be kept of all examinations required by this section, in a book to be furnished, by every person operating a railroad for any purpose, showing:

- (1) The place and number of each engine inspected;
- (2) The date and hour of day of such inspection;
- (3) A detailed statement, signed by the employee making the inspection, giving location and size of openings greater than permitted by sections 88.02 to 88.21 and of any and all defects found in the ash-pan or spark-arrester device, and of the condition thereof; and
- (4) A detailed statement, signed by the employee making the same, of any and all repairs, replacements, or renewals made at any time on, or in connection with, the ash-pan or spark-arrester device.

The book shall always be open for inspection by the director or other authorized officer appointed by him.

Subdivision 3. Responsibility. The master mechanic, or corresponding employee, shall be held responsible for the good condition of the ash-pan and spark-arrester device, but without relieving the person owning or operating the locomotive engine from his responsibility hereunder.

Any locomotive inspector appointed by the director is authorized to inspect any locomotive engine operated in the vicinity of forest, brush, peat or grass lands, and to enter upon any property for such purpose when he may deem it necessary in order to see that all the provisions of law relating to the subject matter are duly complied with. When the inspector requests the person in immediate charge of the locomotive that he be accompanied while making the inspection by a representative of the person owning or operating the locomotive, this request shall be immediately complied with, and either the roundhouse foreman, assistant roundhouse foreman, boiler foreman, or corresponding employee shall accompany the inspector during the time he is making the inspection. The inspector shall have access to the records of every person operating a railroad for any purpose, and authority to make copies thereof, showing the locations and movements of all locomotive engines within this state and is authorized to use such methods as he may deem advisable in making up his records and substantiating his findings. No locomotive shall be operated in the vicinity of forest, brush, peat or grass lands after being found defective by the inspector and after notice of such condition has been given to the person in charge thereof, until the repairs specified by the inspector have been made, except where a locomotive is found defective on the line it may proceed to the first terminal or point where repairs can be made.

Any violation of the provisions of this subdivision shall be a gross misdemeanor. The provisions of this subdivision shall not relieve any one from any duty or liability under any provision of any statute.

Subdivision 4. Right of way, duties. Every person operating a railroad for any purpose shall keep its right of way clear of grass, brush, combustible materials, logs, poles, lumber, and wood, except ties and material for shipment and other material necessary for the maintenance and operation of the road, from March fifteenth to December first. During particularly dry and dangerous periods the director may prohibit any and all burning along part or all of any railroad right of way for a definite period.

Subdivision 5. Fire-breaks. Every person operating a railroad for any purpose shall establish and maintain such fire-breaks along the route of its railway as can be constructed and maintained at not excessive expense. The intention shall be to adjust the protective measures to the local conditions, and to make the expense proportionate to the fire risk and the possible damage.

Subdivision 6. Engines; operation, when forbidden. Except when the ground is covered with snow, no donkey engine, tractor engine, sawmill engine, threshing engine, steam shovel, railroad ditcher, railroad wrecker, or portable engine or other engine or boiler, except any locomotives conforming to all the requirements of sections 88.02 to 88.21, shall be operated in the vicinity of forest, brush, peat or grass lands, unless and until the same is provided with a practical and efficient spark-arrester device.

No gas tractor or internal combustion engine shall be operated in the vicinity of peat roads or loose peat lands, unless and until the same is provided with a practical and efficient spark-arrester device.

The person in charge of such engine or boiler shall be held responsible for the good condition of the spark-arrester device, but without relieving the person owning or operating the engine from his responsibility hereunder. Any locomotive inspector appointed by the director is authorized to inspect any donkey engine, tractor engine, sawmill engine, threshing engine, steam shovel, railroad ditcher, railroad wrecker, or portable engine, or other engine or boiler operated in the vicinity of forest, brush, peat or grass lands, and also gas tractors and internal combustion engines operated in the vicinity of peat roads or peat lands, and to enter upon any property for such purpose whenever he may deem it necessary in order to see that all the provisions of the laws relating to the subject matter are duly complied with, and is authorized to use such methods as he may deem necessary in making up his records and substantiating his findings.

No donkey engine, tractor engine, sawmill engine, threshing engine, steam shovel, railroad ditcher, railroad wrecker, or portable engine or other engine or boiler, shall be operated in the vicinity of forest, brush, peat or grass lands, and no gas tractor or internal combustion engine shall be operated in the vicinity of peat roads or loose peat lands, after being found defective by the inspector and after notice of such condition has been given the person in charge thereof, until the repairs specified by the inspector have been made. Any violation of the provisions of this paragraph shall be a gross misdemeanor; provided, that the provisions of this paragraph shall not relieve any one of any duty or liability under any other provisions of any statute.

No person operating a donkey engine, tractor engine, sawmill engine, threshing engine, steam shovel, railroad ditcher, railroad wrecker, or portable engine, or other engine or boiler, shall leave a deposit of fire, live coals, or ashes in the immediate vicinity of forest lands or lands liable to be overrun by fire.

Subdivision 7. Deposit of fire, live coals, or ashes forbidden. No person operating a railroad for any purpose shall leave a deposit of fire, live coals, or ashes in the immediate vicinity of forest lands or lands liable to be overrun by fire; and every engineer, conductor, or trainman discovering a fire adjacent to the track shall report the same promptly to the agent at the first telegraph or telephone station reached by him, whose duty it shall be, as representative of such company, at once to take necessary steps to put out such fire.

Subdivision 8. Instructions for fire prevention. Every person operating a railroad for any purpose shall give its employees particular instructions for the prevention and extinguishment of fires, and cause warning placards such as are approved by the director to be conspicuously posted at every station in the vicinity of forest, peat, brush, and grass lands, and when a fire occurs on the right of way of its road, shall immediately concentrate such help and adopt such measures as shall be available for its extinguishment.

Subdivision 9. Reports of fires, when. Any person operating a railroad for any purpose shall make written report to the director, in such form as the director may prescribe, covering each fire in the open on or adjacent to the right of way of the railroad, within one week after the occurrence of the fire, unless such time shall be extended by written permission of the director; provided, that the provisions of this subdivision shall not be construed to relieve any person from the duty of reporting such fire as required by any other law.

Subdivision 10. Combustible material near railroad. When any combustible material shall be left in proximity to any railroad, either without proper protection or so as to constitute a fire menace, it shall be the duty of the owner of the material, upon being notified, in writing, by the director, or any forest ranger, as to the nature and extent of the protection required, forthwith to comply with all the terms of the notice so as properly to protect the material, or remove the same; and upon

default of the owner, this protection or removal may be accomplished under the direction of the director and the expense thereof collected from the owner.

Subdivision 11. Safety devices on engines. Every person operating a railroad for any purpose who shall fail to equip and use upon each locomotive engine a practical and efficient ash-pan and spark-arrester device, constructed and operated in conformity with all the specifications and requirements set forth in sections 88.02 to 88.21, shall be liable to a penalty of \$500.00 per day for each and every day on which such defective locomotive is run within this state. Upon receipt of duly verified information disclosing that a violation has occurred, the attorney general may bring suit in the district court of Ramsey county, or of any other county, at his election, for the recovery of these penalties, which, when so collected, shall be credited to the general revenue fund of the state.

Subdivision 12. Approval of forms, notices. All forms, records, placards, and notices of any kind required to be printed by the companies under sections 88.02 to 88.21, shall be approved by the director every two years, beginning May 1, 1939, and these forms can be ordered changed at such periods. Any new forms, records, placards, and notices of any kind so ordered shall be put in use at once unless written permission is given by the director for the use of the old form until the supply then on hand is exhausted.

[1925 c. 407 s. 27; 1939 c. 427 s. 2] (4031-27)

88.22 DIRECTOR MAY CLOSE ROADS AND TRAILS IN FOREST AREAS. When the director shall determine that conditions conducive to forest fire hazards exist in the forest areas of the state and that the presence of persons in the forest areas tends to aggravate forest fire hazards, render forest trails impassable by driving thereon during wet seasons and hampers the effective enforcement of state timber trespass and game laws, he may by written order, with the approval of the commissioner, close any road or trail which may have been constructed by the division over tax delinquent land or state trust fund lands or where easements granting such authority have been obtained, on privately-owned lands; provided, that any of the above roads and trails may not be legalized as town or county roads except as provided in section 89.18.

[1937 c. 114 s. 1] (4031-34a)

88.23 CERTAIN DISEASES DECLARED PESTS. The fungus disease commonly known as the white pine blister-rust, *Cronartium ribicola* Fischer, is hereby declared to be a dangerous forest pest in all its stages; and it shall be the duty of the director to prosecute the measures specified in sections 88.24 to 88.26 for the control of this pest.

[1929 c. 218 s. 2] (4031-35½a)

88.24 DISEASED PLANTS MAY BE DESTROYED. Any white pines or currants or gooseberries within the state which are found to be infected with white pine blister-rust are hereby declared to be a public menace, and any such diseased plants and any and all wild plants of the genera *Ribes* and *Grossularia* may be destroyed forthwith by the order of the director or his agents. Any currants, gooseberries, or white pines not infected with white pine blister-rust may be destroyed by the director or his agents where necessary for carrying out the purposes of sections 88.23 to 88.26.

[1929 c. 218 s. 3] (4031-35½b)

88.25 DIRECTOR TO PROMULGATE INFORMATION. **Subdivision 1. Methods.** The director is hereby authorized and empowered to promulgate, by letter, publication, poster, or other means, information concerning the white pine blister-rust, and to designate by these means of promulgation blister-rust control areas within the state in which control measures are necessary or advisable. It shall be the duty of every landowner within such designated area to carry out such control measures as are ordered by the director, including the removal and destruction of any or all wild cultivated currants and gooseberries or white pines, and no currants or gooseberries shall be planted within such blister-rust control area without written permission from the director. If the owner fails to destroy the above named plants within the specified time, the director shall cause these plants to be destroyed, and the expense thereof shall be a lien upon the owner's land. This lien shall have the same effect and may be collected in the same manner as taxes on the land. Any moneys so collected shall be paid into the state treasury and credited to the fund provided for this work.

Subdivision 2. **Payment for plants not infected.** If currants, gooseberries, or white pines which are not infected with white pine blister-rust are destroyed by the specific order of the director or his agents, the owner may be compensated therefor, the damages to be assessed by the director or his agents at and not to exceed the actual value of the material destroyed and paid to the owner by the state treasurer upon authorization of the director; provided, that any and all wild currants and gooseberries are hereby declared noxious weeds and no compensation shall be paid therefor.

Subdivision 3. **Entry upon private and public lands.** The director and his agents shall have the right to enter upon any private or public lands to determine the presence or absence of the white pine blister-rust in any of its stages and to carry out measures for its control.

[1929 c. 218 ss. 4, 5, 6] (4031-35½c) (4031-35½d) (4031-35½e)

88.26 DIRECTOR, STATE INSPECTOR OF NURSERIES. Subdivision 1. **Purposes.** The director may cooperate with the departments of the federal government, the state department of agriculture, the agricultural experiment station, and with counties, towns, associations, and individuals in the state generally for the suppression and control of white pine blister-rust and for carrying out such investigations of the disease and its control as are deemed advisable by the director.

Subdivision 2. **State inspector of nurseries to have same powers as director.** The state inspector of nurseries and his agents, under direction of the commissioner of agriculture, dairy, and food, shall have the same power and duties for suppression and control of the white pine blister-rust on land within or contiguous to any nursery in the state as are vested in the director and his agents. The expense necessary for carrying out the provisions of this section shall be paid from the appropriation for nursery inspection or other funds of the department of agriculture, dairy, and food.

Subdivision 3. **Inspection to regulate importation or exportation.** The state inspector of nurseries is hereby authorized and empowered to prohibit and prevent or regulate the entry into or movement within the state, from any part thereof to any other part, of any white pines or any plants of the genera Ribes or Grossularia when such plants are to be shipped into blister-rust control areas, and may be enforced in like manner to that prescribed in section 18.03.

[1929 c. 218 ss. 7, 8, 9] (4031-35½f) (4031-35½g) (4031-35½h)

88.27 FISHING RESTRICTIONS; BROOK TROUT. When after investigation the director shall determine that conditions conducive to forest fire hazards exist at any place in the forest areas of the state in the vicinity of any waters frequented by persons taking or attempting to take brook trout and that the presence of persons attracted by the opportunities for taking brook trout in such vicinity tends to aggravate fire hazards he may by written order with the approval of the director of game and fish, prohibit or restrict, upon such conditions as the director of forestry and the director of game and fish may prescribe, the taking of brook trout in such waters during such period in any year as they may deem necessary for the purpose of reducing such fire hazards.

Every such order, together with the written approval of the director of game and fish appended thereto, shall be filed in the office of the director of forestry and a duplicate thereof filed in the office of the director of game and fish. The director of forestry shall cause a copy of the order and approval to be published at least once in a qualified legal newspaper published at the county-seat of each county affected by the order, or in some other legal newspaper of the county, if there be none published at the county-seat, and the order shall take effect and be in force in each such county from and after the date of publication therein.

After the taking effect of any such order it shall be unlawful to take or attempt to take brook trout in violation thereof and any person who shall do so shall be guilty of a misdemeanor.

Any such order may be modified or rescinded at any time.

This section shall not be deemed to supersede or repeal any existing law relating to the taking of brook trout, but shall be construed as supplementary thereto. No law relating to the taking of brook trout hereafter enacted shall be construed as inconsistent herewith unless it is expressly provided therein that this section

shall be superseded, amended, modified, or repealed, in whole or in part, or unless the future law specifically relates to the subject matter of this section.

[1931 c. 372 ss. 1, 2] (4031-35½j) (4031-35½k)

88.28 LAW DIVIDED INTO PARTS. Sections 88.28 to 88.46 are hereby divided into three parts. Sections 88.28 to 88.41 relate exclusively to counties. Sections 88.42 and 88.43 relate exclusively to towns, cities, and villages. Sections 88.44 to 88.46 contain provisions relating both to counties and to towns, cities, and villages.

[1925 c. 263 s. 1] (4031-36)

88.29 COUNTY BOARDS; JURISDICTION, POWERS. It is hereby proposed to grant to the county boards of the several counties of this state jurisdiction within their respective counties to exercise all the powers and authority of sections 88.28 to 88.46 relative to the prevention and abatement of forest fires and the clearing and improvement of land by the removal from such land of trees, brush, stumps, and all other similar substances which contribute to the danger of forest fires; including the power to make any given area of improvement under sections 88.28 to 88.46 impervious to fire by any means now known or hereafter invented or discovered.

[1925 c. 263 s. 2] (4031-37)

88.30 CLEARING AND IMPROVEMENT OF LANDS. Before any improvement authorized by sections 88.28 to 88.46 shall be ordered or caused to be constructed by the county board of any county, there shall first be filed with the auditor of the county a petition signed by two or more parties owning land in the county, which land shall be described in the petition. The petition shall describe each tract of land, of which any portion is to be improved, by 40-acre tracts or by number of lots as designated under government survey; specify the number of acres of each tract that it is proposed to improve, which shall be not less than five, nor more than 20, acres in each 40-acre tract and a proportionate amount in smaller subdivisions; and set forth the nature of the title of the petitioners to each particular tract, in general terms, specifying whether the land is held by the petitioners as owners or under contract, and if the latter, with whom, and the balance remaining unpaid of the purchase price. The lands described in the petition must be situated in the same locality or part of the county, but not more than 40 acres in any quarter-section owned by the same petitioner shall be improved under sections 88.28 to 88.46 except by unanimous consent of the members of the county board. The petition shall further set forth a general description of the proposed improvement. Upon the filing of the petition, duly verified, with the auditor of the county, together with a bond by the petitioners, or by one or more of them, or some one in their behalf, with sufficient security, in a sum of not less than \$500.00, conditioned to hold the county harmless from all expense in the event the improvement petitioned for is not granted, the auditor shall designate the proceeding as "County Land Improvement No.....," and in all subsequent proceedings in relation thereto the same may be designated and referred to by such title and number.

Any petition heretofore filed under Laws 1921, Chapter 155, and any proceedings taken thereunder, may be continued and completed in conformity with the provisions of sections 88.28 to 88.46, at the discretion of the county board. No lands shall be so improved under sections 88.28 to 88.46 except upon petition of the owner or owners thereof.

[1925 c. 263 s. 3] (4031-38)

88.31 SURVEYS AND PLATS. Upon the filing of the petition and bond, as provided in section 88.30, with the auditor of any county, he shall notify the county board of the county, and the county board shall, within 30 days thereafter, appoint a competent civil engineer and direct him to proceed to examine the land described in the petition and make the necessary surveys to enable him to report and file with the auditor a plat, therein describing each 40-acre tract or governmental lot covered by the petition and marking thereon the portion of the land proposed to be cleared and improved. The engineer shall, as a part of his report, describe the kind of trees, brush, stumps, or other similar materials or debris located upon the land and proposed to be removed by the proceedings, together with his estimate of the cost thereof, and the probable value of the material, if any, when removed, and shall accompany his report with specifications as to the manner of performing and completing the improvement. He shall specifically describe the nature of the soil of each tract and any other conditions affecting the value, location, or use of the land. This report shall be in tabulated form and furnish the county board with an estimate of the cost of the improvement of each particular tract of land described,

which report by the engineer shall be filed with the auditor within 30 days after his appointment, unless for good cause shown further extension of 30 days is granted him by the auditor. This engineer before entering upon his duties shall execute to the county board a bond in the sum of \$1,000, conditioned for the faithful performance of his duties.

[1925 c. 263 s. 4] (4031-39)

88.32 APPRAISERS; ASSESSMENT OF BENEFITS AND DAMAGES; STATEMENTS AND REPORTS. At the time of the appointment of the engineer, as provided in section 88.31, by the county board, or within 30 days thereafter, the board shall appoint three appraisers, residents of the state, but not interested in any of the land described in the petition or affected by the proposed improvement, who, upon the filing of the engineer's report, or within ten days thereafter, shall be furnished by the auditor with a copy of the report; and, after taking oath as such appraisers to faithfully perform their duties in making these appraisals and report, shall personally visit the several tracts of land and examine the trees, brush, timber, or similar material thereon to be removed, and especially examine the nature and quality of the soil and the benefits or damages resulting or to result from the improvement. These appraisers, within 30 days from the date of their appointment or from the date of filing the engineer's report, shall make and file in the office of the auditor a tabulated statement and report, therein describing each 40-acre tract or governmental lot described in the petition, reporting the condition thereof and the amount thereof already cleared or under cultivation; the amount proposed to be cleared; the value of the land at the time of the appraisal; the value after the completion of the improvement; and the aggregate benefits or damages that will result to each 40-acre tract or governmental lot in consequence of the improvement; and shall, by their report, show the total cost of the improvement and the total benefits or damages that will result therefrom, together with any other facts affecting the value or use of the land or the advisability of the proposed improvement.

[1925 c. 263 s. 5] (4031-40)

88.33 HEARING; NOTICE; SERVICE; DATE; ADJOURNMENTS. Upon the filing of this report with the auditor, he shall, within ten days thereafter, fix a date for a final hearing on the petition and the engineer's and appraisers' reports and call a special meeting of the county board for that date by giving notice, as required by law therefor, which hearing shall be not less than 30 days from the date of the notice. The notice shall specify the time and place for the hearing upon the petition and the reports of the engineer and the appraisers, and shall notify and require all parties in any manner interested to show cause before the county board, at the time and place specified in the notice, why an order should not be made confirming the reports of the engineer and the appraisers and ordering and directing that the improvement petitioned for be made, and fixing and determining the amount and extent of the improvement and the amount and value of the benefits or damages resulting to any land in consequence of the improvement. This notice shall contain the names of the owners of the land as shown in the petition, together with a description of the land by 40-acre tracts or governmental lots, the amount of the estimated benefits and damages to each tract or parcel, and state that the engineer's and the appraisers' reports have been filed in the office of the auditor subject to inspection by any parties interested. Copies of this notice shall be mailed by the auditor to all parties named in the petition, if their addresses are known to him, at least 15 days prior to the date of the hearing. This notice shall also be served by publication for three successive weeks in any legal newspaper published in the county, which newspaper shall be designated by the auditor. In all cases in which for any cause the notice shall not be given or is legally defective, as given, the auditor shall fix another date for hearing in accordance with sections 88.28 to 88.46, so that the hearing upon the petition and the engineer's and the appraisers' reports may be held at the earliest possible date, at either a special or a regular meeting of the county board. When any final order of the county board in any case shall have been set aside, annulled, or declared void by any court by reason of failure to give proper notice of the hearing, the county board may, at any time within one year after the rendering of such judgment, upon application of the petitioners, order a special hearing before it upon the petition and the reports; and, thereupon the auditor shall cause a new and proper notice to be published and mailed, as

hereinbefore specified, for rehearing upon the petition and these reports. At the rehearing the county board may proceed as in cases of original hearing.

Any hearing may be adjourned from day to day until completed.

[1925 c. 263 s. 6] (4031-41)

88.34 HEARING ON PETITION; ELIMINATION OF LANDS. Upon due publication and mailing of notice of hearing, the county board shall have jurisdiction of all matters named or referred to in the petition as originally presented, or as afterwards amended, and of each tract of land and of all parties in any manner interested therein, as named or described in the petition and in the engineer's and the appraisers' reports. The county board may, at the time and place specified in the notice, receive all evidence offered relative to matters contained in the petition and these reports, including the amount of benefits and damages reported by the appraisers; and the county board shall have authority to amend or modify these reports, and may amend or permit the amendment of the petition to conform to any requirements of the statute, and may order stricken therefrom, and from the reports of the engineer and the appraisers, any land found by the county board not suitable for the required purposes or for other reasons not suitably adapted to the improvement. The elimination of any such land or the names of any such petitioners or the withdrawal thereof shall not in any manner affect the jurisdiction of the county board; but the original petitioners, at any time before the date of hearing, may cause the dismissal of the proceedings upon the payment of all costs and expenses.

[1925 c. 263 s. 7] (4031-42)

88.35 RE-REFERENCE OF PETITION. If, at such hearing, after the presentation of the evidence on behalf of all parties interested, it shall appear to the satisfaction of the county board that the appraisers have made unequal or improper assessments or estimates of benefits or damages, or for any reason the estimates of benefits or damages, as reported by the appraisers, are not fair and just, or are not in the proper proportion, or that the engineer's report is incorrect or for any reason not according to facts, it may refer back to the appraisers and to the engineer, or to either of them, their reports for correction and amendment; or, at the hearing, it may order them amended to conform to the facts and, upon the amendments being made, the amended reports shall be treated as the final reports of the engineer or the appraisers, as the case may be.

[1925 c. 263 s. 8] (4031-43)

88.36 ORDER FOR IMPROVEMENTS. If, at the final hearing, or adjournment thereof, the county board, after due consideration of the original or amended reports of the engineer and the appraisers and of such other evidence as may be produced, shall find that the proposed improvements will be of public benefit and aid in preventing or abating forest fires, it may order such improvements to be made in accordance with the petition and these reports. This order shall fix and determine the rights of all persons connected with or affected by the proposed improvements, subject to the right of appeal, as provided in section 88.37.

[1925 c. 263 s. 9] (4031-44)

88.37 APPEALS FROM ORDERS FOR IMPROVEMENTS. Any person aggrieved thereby may appeal from any such order of the county board upon any of the following matters:

- (1) The amount of benefits to any property in which such person so appealing is interested;
- (2) The amount of any damages allowed in which such person so appealing is interested; or
- (3) The refusal of the county board to establish or order the improvement to be made.

The appeal shall be made and taken to the district court in and for the county, under the conditions and in the manner provided by law for like appeals in county ditch proceedings, particular reference being made to General Statutes 1923, Section 6687, and the appeal shall be determined with like effect as provided therein.

[1925 c. 263 s. 10] (4031-45)

88.38 CONTRACTS FOR IMPROVEMENTS; DUTIES OF COUNTY AUDITOR; SEEDING OF CLEARED LANDS. Within ten days after the filing in the office of the auditor of the order of the county board establishing and ordering any improvement under the provisions of sections 88.28 to 88.46, the auditor shall give notice of a time and place for receiving bids for the making of the improvement in accord-

ance with the provisions of General Statutes 1923, Section 6689, and the provisions of that section, so far as applicable, shall govern the receiving of bids and the letting of contracts for the making of the improvement. The auditor may let separate contracts for each separate tract upon which any part of the improvement is to be made, or may let one contract for the whole thereof, or for the clearing of land on the whole or on any number of such tracts. The contract shall specifically provide for the removal of the trees, brush, stumps, and other similar material located on the tracts of land covered by the contract, and shall specify what disposition shall be made of all such clearing debris in accordance with the direction of the county board. The county board may order and require that the contract shall contain provisions for the burning or destruction of all such debris or materials, or for the removal thereof, or for the use of that material where use can be made thereof. Where the material removed from any tract of land can be utilized for any purposes that will result in advantage to the owner of the land, the county board in the contract may provide for making such use of the trees or other products, and the assessments against such tract of land shall be lessened accordingly. To prevent the return of the land to its wild state and the consequent danger of forest fires, the county board may require that the land so cleared shall be seeded to grasses and clover, when it appears that the owner does not contemplate cropping the land so cleared at the next planting season following the completion of the clearing thereof.

[1925 c. 263 s. 11] (4031-46)

88.39 WORK OF IMPROVEMENT; DUTIES OF ENGINEER; PAYMENTS TO CONTRACTORS. It shall be the duty of the engineer from time to time as occasion may require to visit the premises and examine the work performed by the contractor and when and as often as ten per cent or more of the work is completed the engineer may issue a certificate to the contractor and a duplicate to the county auditor, therein certifying the amount of work that has been done by the contractor and the value thereof. Upon the filing by the contractor of such certificate with the county auditor, he may draw his warrant in favor of the contractor for a sum not to exceed 75 per cent of the contract price of the work done since the last report. When the contractor shall have notified the engineer that he has completed the work, the engineer shall make careful examination and report to the county auditor the facts as he finds them; and, if he finds the contract to be completed in accordance with the terms thereof, he shall so certify. Thereupon the county auditor shall notify the owners of the land that a hearing will be had upon the report of the engineer that the contract is completed, which hearing shall be held by the county board at the next meeting following the filing of the report, if not less than 15 days thereafter; otherwise, as soon as possible. At the hearing all parties interested may appear before the county board; and, if the county board shall find the contract fully completed, it shall order payment of the balance owing under the contract.

[1925 c. 263 s. 12] (4031-47)

88.40 BOND ISSUES TO PAY FOR IMPROVEMENTS. The county board of each county wherein any improvement is ordered constructed under the provisions of sections 88.28 to 88.46 is hereby authorized to issue the bonds of the county in such amount as may be necessary to defray, in whole or in part, the expense incurred or to be incurred in establishment and completion of the improvement, together with all expenses incidental thereto; and the provisions of General Statutes 1923, Section 6696, shall apply thereto and the county board is hereby authorized to exercise all the authority specified in General Statutes 1923, Section 6696, in providing the funds for the completion of any improvement authorized by the provisions of sections 88.28 to 88.46; and where the term "drainage ditch" or "drainage bond" appears in General Statutes 1923, Section 6696, the same, for the purposes of sections 88.28 to 88.46, shall be construed as reading "improvement" or "land improvement bond," as the case may be. In the event the bonds authorized under the terms of sections 88.28 to 88.46 are not sold at advertised sale, the county board may let contracts as herein provided when the contractor is willing to accept payment for the contract in bonds at par; provided, that no county may incur any indebtedness for the purposes of sections 88.28 to 88.46 in excess of five per cent of its taxable valuation, exclusive of money and credits.

[1925 c. 263 s. 13] (4031-48)

88.41 COUNTY AUDITORS; TABULAR STATEMENTS; POWERS AND DUTIES. At as early a date as possible after letting the contract or contracts under any improvement authorized by sections 88.28 to 88.46, and as soon as the cost of the improvement and expenses connected therewith can be ascertained, the auditor of the county shall make in tabular form a list and statement as provided by General Statutes 1923, Section 6703, and the cost of making the improvement of each tract, together with its proportionate share of the total expense, shall be assessed against such tract, and the provisions of General Statutes 1923, Section 6703, so far as applicable, shall govern the proceedings under sections 88.28 to 88.46. The auditor is hereby authorized to exercise all the rights and authority granted by General Statutes 1923, Section 6703, and in all places where the term "ditch" or "drainage ditch" shall appear therein, the same, for all purposes of sections 88.28 to 88.46 shall be construed as reading "improvement," and General Statutes 1923, Section 6703, used and applied accordingly. The auditor, after preparing this statement, shall cause a duplicate thereof to be filed in the office of the register of deeds in and for the county, as provided in General Statutes 1923, Section 6705, and the provisions thereof shall apply to the proceedings under sections 88.28 to 88.46. The auditor and register of deeds are hereby authorized to exercise the rights and authority and perform the duties here specified, and the provisions of General Statutes 1923, Sections 6712 and 6713, shall apply to and govern the proceedings under sections 88.28 to 88.46. The county auditor, the county treasurer, and the register of deeds are each hereby authorized and required to perform in all proceedings under sections 88.28 to 88.46 the duties specified in General Statutes 1923, sections 6712 and 6713; and in all cases where the term "ditch" or "ditches" or any other similar term appears therein, the same, for all purposes of sections 88.28 to 88.46, shall be construed as reading "improvement."

[1925 c. 263 s. 14] (4031-49)

88.42 IMPROVEMENTS BY TOWNS, CITIES, AND VILLAGES; LIMITATION OF INDEBTEDNESS. All towns, cities, and villages are hereby authorized and empowered to contract debts and pledge the public credit for, and to engage in, any work reasonably tending to prevent or abate forest fires; provided, that the amount of the indebtedness so contracted or assumed shall never be such as to increase the total public indebtedness of any such town, city, or village beyond the limits now or hereafter fixed by the laws specifically relating thereto, except in case of actual emergency to be declared at or subsequent to the time by resolution or other appropriate action of the town board, city or village council, or other governing body, as the case may be. For such emergencies the total public indebtedness shall never be increased at any time so as to be more than five per cent in excess of the maximum provided by general law.

[1925 c. 263 s. 15] (4031-50)

88.43 FIRE-BREAKS; CLEARING LANDS. Subdivision 1. **Distance.** The governing body of any town, village, or city may construct and continuously maintain good and sufficient fire-breaks for the protection of life and property within such municipality. For such purposes any village or city may completely clear all land and remove all combustible or inflammable materials therefrom within 1,000 feet next beyond and outside of the boundary lines of the village or city whenever and wherever such improvement will reasonably tend to prevent or abate forest fires.

Subdivision 2. **Benefits; assessment; lien.** If any clearing or other improvement of land made by any town, village, or city benefits any person, or benefits some and damages others, then the amount of both such benefits and damages shall be ascertained in the same manner as provided by law with respect to damages in condemnation proceedings by right of eminent domain. All provisions of law relating to the determination of the amount of damages in condemnation proceedings shall apply to the determination of the value of benefits under this section, as far as practicable. Any benefits so found shall be assessed against, and be a lien upon, the real property so benefited and shall be noted upon the public records and collected upon the same terms and in substantially the same manner as now provided by sections 108.20 to 108.33, particular reference being made to sections 108.26 and 108.27, relating to ditch and drainage assessments.

[1925 c. 263 ss. 16, 17] (4031-51) (4031-52)

88.44 ACQUISITION OF PROPERTY. Subdivision 1. **Certificates of indebtedness; bond issues; tax levies.** For any of the purposes authorized in sections 88.28 to 88.46 and within the limits therein fixed, any county, town, city, or village may

borrow money and issue bonds for the payment thereof, with the approval of a majority of the voters, as provided by the general laws relating to bond issues; may make all necessary, proper, and convenient provisions for sale of such bonds at not less than par, for payment of interest thereon at not more than six per cent per annum, and of the principal thereof at maturity, or contingently at an earlier date; may issue promissory notes or certificates of indebtedness as far as reasonably necessary to procure funds in case of emergency not affording time to submit the matter to the voters; and for such purposes may levy and collect taxes annually upon all taxable property of such municipalities. As to counties, the powers conferred by this section shall be deemed supplementary to, but in no way lessening or detracting from, the powers and authority conferred by section 88.40.

Subdivision 2. **How acquired.** When necessary in the exercise of the powers and authority conferred by sections 88.28 to 88.46, any county, town, city, or village may acquire property or property rights by gift, by purchase, or by condemnation, in any manner now or hereafter provided by law.

[1925 c. 263 ss. 18, 19] (4031-53) (4031-54)

88.45 MUNICIPALITIES TO COOPERATE. Counties doing anything under this section shall act by and through county boards; towns, by and through town boards; and cities and villages, by and through their councils or other governing bodies. It shall be the duty of all such municipalities and their officials and employees to cooperate, as far as possible, with the director and other employees in the forestry service. In all cases where forest fires are actually burning the orders and directions of the director and district rangers shall be binding upon, and must be obeyed by, all officials and employees of any municipality until the fires shall have been extinguished.

[1925 c. 263 s. 20] (4031-55)

88.46 LAWS APPLICABLE. Where in sections 88.28 to 88.46 it is provided that any section or provision of General Statutes 1913 or 1923, or any session laws or general laws, shall be deemed applicable in sections 88.28 to 88.46 for any purpose, the sections and provisions of these other laws so incorporated in sections 88.28 to 88.46 by such reference shall include all existing amendments thereto made prior to the year 1925, but not thereafter. If any such law so incorporated by reference shall be hereafter repealed, the same shall nevertheless be and remain a part of sections 88.28 to 88.46, unless the repeal expressly and explicitly provides to the contrary through direct reference to sections 88.28 to 88.46.

[1925 c. 263 s. 21] (4031-56)

88.47 AUXILIARY FORESTS; APPLICATION BY OWNER TO COUNTY BOARD; TAXATION. Subdivision 1. **Created.** Any tract of land in this state containing not less than 160 acres generally suitable for the planting, culture, and growth of trees for the production of timber or forest products and having an actual or market value, exclusive of timber thereon and of minerals or anything under the surface thereof, not in excess of \$10.00 per acre, nor less than \$3.00 per acre, may be made an auxiliary forest, subject to taxation only in accordance with the provisions of sections 88.47 to 88.53.

Subdivision 2. **Wood lots.** Any tract of land in this state containing not less than 20, nor more than 40, acres generally suitable for the planting, culture, and growth of trees for the production of timber or forest products, being in the nature of wood lots guarded or protected by the owners or their tenants actually living on the land or immediately adjacent thereto, may, regardless of value, be made an auxiliary forest, subject to limited and special taxation only in accordance with the provisions of sections 88.47 to 88.53.

Subdivision 3. **Form and contents of application.** The owner of any tract or contiguous tracts of land that he deems suitable for an auxiliary forest may make written application to the county board of the county in which the land is situate, setting forth the description thereof by governmental subdivisions or other proper survey, the estimated value per acre thereof, exclusive of timber thereon and all minerals or anything under the surface thereof, a brief statement of the facts showing its suitability for the production of timber or forest products, a statement of the kinds of timber growing and proposed to be grown thereon and the kind and quality of merchantable timber thereon, the methods of timber culture proposed to be followed, and a request that the land be made an auxiliary forest under and subject to the provisions of sections 88.47 to 88.53.

Subdivision 4. **Verification.** The application shall be upon a form prescribed by the director and shall be verified by the applicant.

[1927 c. 247 ss. 1, 2] (4031-60) (4031-61)

88.48 APPLICATION. Subdivision 1. **Filing.** Such application shall be filed with the auditor of the county in which the land described therein is situate, who shall present the same to the county board at its first meeting held after the lapse of a period of ten days after such filing.

Subdivision 2. **Notice.** The county auditor shall, upon receipt of the application and prior to the meeting of the county board at which it is presented, published once in the official newspaper of the county notice of the presentation at the expense of the applicant and mail a copy of the notice to the clerk of the town in which lies the land therein described.

Subdivision 3. **Hearing and determination.** Upon the presentation to it of the application, the county board shall consider the same and hear any matter that may be offered in support of or in opposition to the application. It shall then determine whether the land covered by the application is suitable for the planting, culture, and growth of trees for the production of timber or forest products, the actual or market value thereof, exclusive of timber thereon and of minerals or anything under the surface thereof, and the amount of annual tax provided for in section 88.51, subdivision 1, and make an itemized estimate of the kinds and quantities of merchantable timber growing or standing thereon.

Subdivision 4. **Proceedings upon determination.** The county board shall make proper record of its action upon the application.

If the application be rejected, the county auditor shall endorse the rejection on the application and return it to the applicant within 30 days by registered mail at the address given by him in the application; or, if the application is disapproved as to a part only of the lands described therein, the county auditor shall in like manner notify the applicant, who may within 60 days after the mailing of the notice amend his application accordingly. If it be not so amended the application shall be deemed rejected.

If the application be accepted, the county auditor shall in like manner notify the applicant thereof and transmit the application, with the record of the approval thereof, to the director. It shall be the duty of the director to approve or disapprove the application within 90 days from receipt thereof, to make proper record of his action, and to give notice thereof to the applicant in the manner hereinbefore provided and to the county board.

Subdivision 5. **Abstract of title.** Within 60 days after the mailing of notice of acceptance by the director, the applicant shall furnish to the county attorney of the county in which the lands described in the contract lie an abstract of the title to these lands, or a certificate of title, if the same be registered, including certificates by the county auditor and county treasurer that there are no unpaid taxes thereon, and a certificate of judgment search by the clerk of the district court. The county attorney shall examine the abstract and certify to the director the name of the owner of the fee title thereto and the names of all other persons having any interest therein or lien thereon. The applicant shall pay the county attorney a reasonable fee for the examination, not exceeding \$5.00 for each 640 acres, or fraction thereof, of contiguous lands included in any one abstract.

[1927 c. 247 s. 3] (4031-62)

88.49 CONTRACTS WITH OWNERS OF LAND ACCEPTED AS AUXILIARY FORESTS. Subdivision 1. **Execution.** When it shall have been determined that any land may be made into an auxiliary forest, the director shall prepare a contract therefor, which contract shall be executed by the director in behalf of the State of Minnesota and by the owner of the fee title and by all other persons having any interest therein or lien thereon and witnessed and acknowledged as provided by law for the execution of recordable deeds of conveyance. Notices sent by registered mail to the owner in fee at the address given by him in the application shall be deemed notice to all persons executing such contract.

Subdivision 2. **Form and specifications.** The contract shall be prepared by the director and the chief of the division of forestry of the University of Minnesota on a form approved by the attorney general and prescribe such terms and conditions as will reasonably tend to produce merchantable timber upon the lands described therein and specify the kind or species of seeds to be planted or seedlings to be set out and the quantity or number thereof, or other acts or steps that the director shall

deem necessary in respect of afforestation or reforestation of the lands; the time or times when the same shall be done; the kind and amount, if any, of culture or other attention to be given in aid of the growth of timber thereon; the uses, if any, which may be made of the land while the same remains an auxiliary forest; the period of time, not exceeding 50 years, during which the land may continue to be an auxiliary forest, with privilege of renewal by mutual agreement between the owner and the state acting through the director, with the approval of the county board and the executive council, for an additional period not exceeding 50 years; the rate of taxation which may be levied annually on the land, exclusive of merchantable timber growing thereon at the time of the making of the contract and exclusive of mineral or other things of value thereunder, the rate to be determined as hereinafter provided; and such other conditions, provisions, and stipulations as the director, in the exercise of his scientific knowledge and business judgment, may deem necessary or proper. Every such contract shall be approved by the executive council.

As far as practicable all contracts shall be uniform and equal in respect to all lands or classes of lands substantially similar in capacity for, or adaptability to, any particular kind or species of tree culture or forest growth.

Subdivision 3. Recording. The director shall submit such contract to the owner of the land covered thereby. If the owner shall indicate to the director his unwillingness to execute the same, or if he or any of the persons having an interest therein or lien thereon fail to execute it within 60 days from the time of its submission to the owner, all proceedings relating to the making of this land into an auxiliary forest shall be at an end.

When the contract shall have been executed it shall forthwith be recorded in the office of the register of deeds at the expense of the owner in a permanent book or record which shall be designated "record of auxiliary forests" and shall always be open to public inspection; and, if the title to the land be registered, there shall in addition to such record be filed with the registrar of titles a duplicate of the contract. At the time the contract is filed with the register of deeds for record the owner shall furnish to the register of deeds a certificate from the county attorney to the effect that no change in record title thereof has occurred, that no liens or other encumbrances have been placed thereon, and that no taxes have accrued thereon since the making of his previous certificate. It shall be the duty of the county attorney to furnish this certificate without further compensation.

All the provisions of the contract shall be deemed covenants running with the land from the date of the filing of the contract for record.

Subdivision 4. Effect. Upon the filing of the contract for record the land therein described shall become and, during the life of the contract, remain and be, an auxiliary forest entitled to all the benefits and subject to all the restrictions of sections 88.47 to 88.53, all of which shall be deemed a part of the obligation of the contract and shall be inviolate, subject only to the police power of the state, to the right of eminent domain, and to the right of the parties thereto by mutual agreement to make applicable to the contract any laws of the state enacted subsequent to its execution and filing. This provision shall not be so construed as to prevent amendatory or supplementary legislation which does not impair these contract rights of the parties thereto, or as to prevent amendatory or supplementary legislation in respect of the culture, care, or management of the lands included in any such contract.

Subdivision 5. Cancellation. Upon the failure of the owner faithfully to fulfill and perform such contract or any provision thereof, or any requirement of sections 88.47 to 88.53, or any rule or regulation adopted by the director thereunder, the director may cancel the contract in the manner herein provided. The director shall give to the owner, in the manner prescribed in section 88.48, subdivision 4, 60 days' notice of a hearing thereon at which the owner may appear and show cause, if any, why the contract should not be canceled. The director shall thereupon determine whether the contract should be canceled and make an order to that effect. Notice of his determination and the making of the order shall be given to the owner in the manner provided in section 88.48, subdivision 4. If the director determines that the contract should be canceled and no appeal therefrom be taken, the director shall send notice thereof to the auditor of the county and to the town clerk of the town affected and file with the register a certified copy of the order, who shall forthwith note the cancellation upon the record thereof, and thereupon the land therein described shall cease to be an auxiliary forest and, together with the timber thereon,

become liable to all taxes and assessments that otherwise would have been levied against it had it never been an auxiliary forest from the time of the making of the contract, any provisions of the statutes of limitation to the contrary notwithstanding, less the amount of taxes paid under the provisions of section 88.51, subdivision 1, together with interest on such taxes and assessments at six per cent per annum, but without penalties.

The director may at his discretion in like manner and with like effect cancel the contract upon written application of the owner.

When the execution of any contract creating an auxiliary forest shall have been procured through fraud or deception practiced upon the county board or the director or any other person or body representing the state, it may be canceled upon suit brought by the attorney general at the direction of the executive council. This cancellation shall have the same effect as the cancellation of a contract by the director.

Subdivision 6. Assessment after cancellation. For the purpose of levying such taxes, the county auditor shall, immediately upon receipt of notice of the cancellation of any contract creating an auxiliary forest, direct the local assessor to assess the lands within the forest, excluding the value of merchantable timber and minerals and other things of value taxed under the provisions of section 88.51, subdivision 2, as of each of the years during which the lands have been included within the auxiliary forest. The local assessor shall forthwith make the assessment and certify the same to the county auditor. The county auditor shall thereupon levy a tax on the assessable value of the land as fixed by section 273.13, for each of the years during which the land has been within an auxiliary forest, at the rate at which other real estate within the taxing district was taxed in those years. The tax so assessed and levied against any land shall be a first and prior lien upon the land and upon all timber and forest products growing, grown, or cut thereon and removed therefrom. These taxes shall be enforced in the same manner as other taxes on real estate are enforced and, in addition thereto, the lien of the tax on forest products cut or removed from this land shall be enforced by the seizure and sale of the forest products.

No person shall, after the mailing by the director, as provided in subdivision 5, of notice of hearing on the cancellation of a contract making any lands an auxiliary forest, cut or remove from these lands any timber or forest products growing, grown, or cut thereon until all taxes levied under this subdivision shall have been paid, or, in the event such levy shall not have been completed, until the owner shall have given a bond payable to the county, with sureties approved by the county auditor, in such amount as the county auditor shall deem ample for the payment of all taxes that may be levied thereon under this subdivision, conditioned for the payment of such taxes.

Any person who shall violate any of the provisions of this subdivision shall be guilty of a felony.

Subdivision 7. Appeal. The owner may appeal from any cancellation order of the director to the district court of the county wherein the land is situate, by serving notice of appeal on the director and filing the same with the clerk of the district court within 30 days after the date of mailing of notice of such order.

The appeal shall be tried between the State of Minnesota and the owner by the court as a suit for the rescission of a contract is tried, and the judgment of the court shall be substituted for the cancellation order of the director, and shall be final.

Subdivision 8. Proceedings in lieu of cancellation. If cause for the cancellation of any contract shall exist, the director may, in lieu of canceling such contract, perform the terms and conditions, other than the payment of taxes, required, by the contract or by law or by the rules and regulations of the director, to be performed by the owner, and may for that purpose use any available moneys appropriated for the maintenance of his division and any other lawful means. The director shall, on December first each year, certify to the auditor of each county the amount of moneys thus expended and the value of services thus rendered in respect of any lands therein since December first of the preceding year. The county auditor shall forthwith assess and levy the amount shown by this certificate against the lands described therein. This amount shall bear interest at the rate of six per cent per annum and shall be a lien upon the lands described therein, and the collection thereof enforced in the same manner as taxes levied under section 88.52, subdivision 1; and, if such

tax be not sooner paid, it shall be added to, and the payment thereof enforced with, the yield tax imposed under section 88.52, subdivision 2.

[1927 c. 247 s. 4] (4031-63)

88.50 TAXATION. Every auxiliary forest in this state shall be taxed in the manner and to the extent hereinafter provided and not otherwise. Except as expressly permitted by sections 88.47 to 88.53, no auxiliary forest shall be taxed for, or in any manner, directly or indirectly made to contribute to, or become liable for the payment of, any tax or assessment, general or special, or any bond, certificate of indebtedness, or other public obligation of any name or kind, made, issued, or created subsequent to the filing of the contract creating the auxiliary forest. In any proceeding for the making of a special improvement under the laws of this state by which any auxiliary forest will be benefited, the owner thereof may subject the lands therein to assessment therefor in the manner provided by law, by filing his consent in writing to the making of the assessment in the tribunal in which the proceeding is pending, whereupon the lands shall for the purposes of the improvement and assessment be treated as lands not in an auxiliary forest; but the lien of any assessment so levied on lands in any auxiliary forest shall be subject to the provisions of the contract creating the auxiliary forest and subordinate to the lien of any tax imposed under the provisions of sections 88.47 to 88.53.

[1927 c. 247 s. 5] (4031-64)

88.51 TAX RATE AND SPECIAL TAXES RELATING TO AUXILIARY FORESTS. Subdivision 1. **Annual tax of five cents per acre.** From and after the filing of the contract creating any tract of land an auxiliary forest under sections 88.47 to 88.53, the surface of the land therein, exclusive of merchantable timber thereon at the time of making such contract and of mineral or any thing of value thereunder, shall be taxed annually at the rate of five cents per acre. This tax shall be levied and collected and the payment thereof enforced in the same manner as other county taxes and shall be credited to the funds of the taxing districts affected in the proportions of their interests in the taxes on this land if it had not been so made an auxiliary forest. Failure to pay when due any tax so levied shall be cause for cancelation of the contract.

The levy upon the land of the taxes provided for by section 88.49, subdivision 5, upon the cancelation of a contract, shall discharge and annul all unpaid taxes levied or assessed thereon.

Subdivision 2. **Merchantable timber taxed separately.** Merchantable timber standing or being upon the land at the time it is made into an auxiliary forest shall be taxed separately from the surface as standing timber separately owned is taxed. Minerals, mineral reservations, or any other thing of value under the surface of the land in any auxiliary forest shall not be included within the terms of sections 88.47 to 88.53 and shall be taxed separately in the same manner as mineral interests or minerals separately owned are taxed.

Subdivision 3. **Fire protection tax of three cents per acre.** In addition to the foregoing taxes, each auxiliary forest, except those in the nature of wood lots guarded or protected by resident owners or their tenants actually living on the land or immediately adjacent thereto, shall be assessed and pay a special state tax of three cents per acre annually for fire protection of the auxiliary forest. This special tax shall be levied and collected in the same manner as other state taxes, transmitted to and paid into the state treasury intact, and there constitute and be a special fund hereby created and designated as the auxiliary forest fire fund. All moneys accruing to this fund are hereby appropriated for and made available to the director for fire protection work and used by the director as far as practicable for patrol work and similar protective service pro rata in or about the auxiliary forests created under sections 88.47 to 88.53. Failure to pay the tax when due shall be cause for cancelation of the contract.

Subdivision 4. **Full and true value, what is.** In determining the assessed value of property within any taxing district the value of the surface of lands within any auxiliary forest therein, as determined by the county board under the provisions of section 88.48, subdivision 3, shall, for all purposes except the levying of taxes on lands within any such forest, be deemed the full and true value thereof.

[1927 c. 247 s. 6; 1929 c. 245 s. 1] (4031-65)

88.52 CUTTING TIMBER; TAXATION. Subdivision 1. **When timber to be cut.** The merchantable timber in any auxiliary forest, other than merchantable timber growing thereon at the time of the filing of the contract creating the auxiliary forest,

may be cut at any time during the life of the contract at the election of the owner; and, in any event, the merchantable timber shall either be cut, or the yield tax next hereinafter mentioned shall be paid upon its value as standing timber, at the expiration of the period fixed in the contract for the duration of the auxiliary forest; or at the expiration of any renewal of the contract.

Subdivision 2. Special tax on timber when cut. When the merchantable timber shall be cut or otherwise removed from the land, the owner shall pay a special tax thereon, which is hereby designated as a yield tax, equal to ten per cent of the full and true value of the merchantable timber on the stump at the time of the cutting or removal.

Subdivision 3. Examination. When any timber growing or standing in any auxiliary forest shall have become suitable for merchantable forest products, the director shall, at the written request of the owner, a copy of which shall at the time be filed in the office of the county auditor, make an examination of the timber and designate for the owner the kind and number of trees most suitable to be cut if in the judgment of the director there be any, and the cutting and removal of these trees so designated shall be in accordance with the instructions of the director. He shall inspect the cutting or removal and determine whether it or the manner of its performance constitutes a violation of the terms of the contract creating the auxiliary forest or of the laws applicable thereto, or of the instructions of the director relative to the cutting and removal. Any such violation shall be ground for cancelation of the contract by the director; otherwise the contract shall continue in force for the remainder of the period therein stated, regardless of the cutting and removal.

Upon the filing of the notice the county board shall, with the assistance of the director, determine the kinds, quantities, and value on the stump of timber proposed to be cut, such kinds and quantities to be determined in accordance with rules adopted by the director for the measurement or scaling of forest products, which rules shall determine the log rule and method of scaling logs and the grades and sizes of ties, poles, posts, dimensions of cords, and other units of measurement in which forest products so cut and removed shall be measured.

The county board shall, before the cutting is to begin, file with the county auditor a report showing the kinds, quantities, and value of the timber proposed to be cut or removed. The county auditor shall assess and levy the yield tax thereon, make proper record of the assessment and levy in his office, and notify the owner of the auxiliary forest of the amount thereof. The owner shall, before any timber in the forest is cut or removed, give a bond in a sum equal to the amount of the tax, plus 25 per cent thereof, payable to the State of Minnesota, conditioned for the payment of all taxes on the timber to be so cut or removed. The county board shall, either while the timber is being cut or after the cutting is completed, check the scale made thereof and file a report thereof in the office of the county auditor; and, if the value shown in the report of the timber cut or removed is either greater or less than that assessed, the county auditor shall make a supplemental assessment so as to increase or reduce the original assessment to conform to the value of the timber actually cut or removed and notify the owner of the amount thereof. The county auditor shall certify each assessment to the county treasurer, who shall collect all taxes so assessed and credit the proceeds thereof to the funds of the taxing districts affected in the proportions of their interest in the taxes on the land, if it had not been so made an auxiliary forest, unless otherwise provided in the contract whereby the same was made an auxiliary forest.

The owner shall, on or before the fifteenth day of January each year, file with the county auditor on a form prepared by the director a report showing the quantity of each kind of forest products cut or removed from any auxiliary forest during the next preceding calendar year. The auditor shall compare such reports with the records in his office; and, if he finds that any timber so cut or removed has not been assessed, he shall forthwith assess the same as hereinbefore provided, certify the assessment to the county treasurer for collection, and notify the owner of the amount thereof. This tax shall be paid on or before March first next following; and, if not so paid, shall be levied and collected in the same manner as taxes imposed under the provisions of section 88.51, subdivision 1. No such report shall be required of timber cut and used by the owner for his own domestic uses, such as for fuel, fencing, or building when the same is so used on land owned by him and contiguous to or within the limits of the auxiliary forest from which the timber is cut.

The owner of any land or timber upon which a yield tax is assessed and levied as provided in this section may, within 15 days after mailing of notice of the amount of the tax, file with the county auditor a demand for hearing thereon before the county board. The county auditor shall thereupon fix a date of hearing, which shall be held within 30 days after the filing of the demand, and mail to the owner notice of the time and place of the hearing. The owner may appear at the hearing and present evidence and argument as to the amount of the tax and as to any matter relating thereto. The county board shall thereupon determine whether the tax as levied is proper in amount and make its order thereon. The county auditor shall forthwith mail to the owner a notice of the order. If the amount of the tax is increased or reduced by the order, the county auditor shall make a supplemental assessment and levy thereof, as in this subdivision provided.

Subdivision 4. Yield tax a prior lien. Throughout the life of any such auxiliary forest the yield tax accruing thereon shall constitute and be a first and prior lien upon all the merchantable timber and forest products growing or grown thereon; and, if not paid when due, this yield tax, together with interest thereon at one per cent per month and all expenses of collecting same, shall continue to be a lien upon the timber and forest products and every part and parcel thereof wherever the same may be or however much changed in form or otherwise improved until the yield tax is fully paid.

Subdivision 5. Removal of timber. The owner may at any time, having given 30 days' notice in writing to the auditor of the county in which the land is situate, cut and remove from an auxiliary forest any timber standing or being thereon which was merchantable timber at the time of the filing of the contract creating the auxiliary forest; subject to the provisions of sections 272.38, 272.39, and 272.40.

[1927 c. 247 s. 7] (4031-66)

88.53 LAND HELD AS AUXILIARY FOREST; AMOUNT, DISPOSAL AFTER CEASING TO BE AUXILIARY FOREST. **Subdivision 1. Time for disposal.** Any corporation, association, or organization may acquire and hold any amount of land without restriction and without limit as to acreage or quantity for the purpose of including same within and holding same as an auxiliary forest under the provisions of sections 88.47 to 88.53. When the same shall cease to be an auxiliary forest the owners shall have five years within which to dispose of the land, any provisions of general law to the contrary notwithstanding.

Subdivision 2. Rules and regulations. The director shall make rules and regulations and adopt and prescribe such forms and procedure as shall be necessary in carrying out the provisions of sections 88.47 to 88.53; and the director and every county board, register of deeds, registrar of titles, assessor, tax collector, and every other person in official authority having any duties to perform under or growing out of sections 88.47 to 88.53 are hereby severally vested with full power and authority to enforce such rules and regulations, employ help and assistance, acquire and use equipment and supplies, or do any other act or thing reasonably necessary to the proper performance of his duties under or arising from the administration and enforcement of sections 88.47 to 88.53. It shall be the duty of the director to cause periodic inspections to be made of all auxiliary forests for the purpose of determining whether contract and statutory provisions relative thereto are being complied with.

Subdivision 3. Application. Auxiliary forests shall be subject to all applicable provisions of sections 88.02 to 88.21, except as expressly provided otherwise in sections 88.47 to 88.53.

[1927 c. 247 ss. 8, 9, 10] (4031-67) (4031-68) (4031-69)

88.54 STATE REFORESTATION PROJECTS ESTABLISHED. For the purpose of vesting and revesting the state with title to lands suitable primarily for the development of forests and prevention of forest fires, and for experimenting in and practically advancing afforestation and reforestation, and for the purpose of impounding, controlling, and regulating the water of meandered lakes and the flow of natural streams of the state, and for the purpose of creating and establishing wild game and fishing reserves, or for either or any of these purposes, or for any other public state purpose, the board of county commissioners of any county within which such lands are located, and in which, on January 1, 1933, the taxes on more than 25 per cent of the acreage of the lands in any town in the county, as shown by the tax books thereof, are delinquent, and in which, on January 1, 1933, the taxes or ditch assessments on more than 50 per cent of the acreage of the lands included in

the area or project herein provided for, as shown by the tax books of the county, are delinquent, and of which, on January 1, 1933, the bonded ditch indebtedness of any county wherein any of the lands are located equals or exceeds 15 per cent of the assessed value of the county for the year 1932, as fixed and determined by the Minnesota tax commission, exclusive of money and credits, may by resolution duly adopted propose to the State of Minnesota that any "area in the county consisting of one or more townships, or part of any township, containing such lands be taken over by the state for afforestation, reforestation, flood control projects, wild game and fishing reserves, or other public state purpose, to be managed, controlled, and used for the development of forests and prevention of forest fires, and for the purpose of experimenting in and practically advancing afforestation, reforestation, or for the purpose of impounding, controlling, and regulating the waters of meandered lakes and the flow of natural streams, or for the purpose of creating and establishing wild game and fishing reserves, or for either or any such purposes," or for any other public state purpose, on lands to be acquired by the state within such projects, as herein set forth. Each such area shall include lands which have been assessed for all or part of the cost of the establishment, construction, or repair of public drainage ditches under the laws of this state, and on which the assessments or instalments thereon are overdue, delinquent, and unpaid. A duly certified copy of the resolutions of the county board shall be submitted to and filed with the department, or such department as shall be established in lieu thereof, and considered and acted upon by the department; if approved by the department, it shall then be submitted to, considered and acted upon by the executive council; or such department as shall be established in lieu thereof, and, if approved by the executive council, the proposition shall be formally accepted by the governor and his acceptance shall be communicated in writing to and filed with the auditor of the county. State school, swamp, indemnity, and institutional lands which have heretofore been, or shall hereafter be, sold as provided by law and for which certificates of sale have been issued at the time of the passage of the resolution by the county board, and all lands owned by the conservator of rural credit shall be considered taxable lands, within the meaning of this section; and, if the taxes or ditch lien instalments on such lands or the interest of the purchaser therein are delinquent, shall be considered lands on which the taxes are delinquent within the meaning of this section.

[1933 c. 402 s. 1] (4031-75)

88.55 FOREST TO BE UNDER MANAGEMENT OF DEPARTMENT. Subdivision 1. **Rules and regulations.** Each of such projects so approved and accepted shall be under the management and control of the department, which shall have full power and authority to make, establish, promulgate, and enforce all necessary rules and regulations not inconsistent with the laws of this state for the care, preservation, protection, and development of forests and for experimenting in and practically advancing afforestation and reforestation therein, and impounding, controlling, and regulating the waters of meandered lakes and the flow of natural streams, or for other public state purposes, and for the prevention of forest fires therein, and for the sale of merchantable timber from lands acquired by the state therein when and where, in the opinion of the department, the same may be sold and removed without damage or injury to the purposes of such projects. No such rules or regulations shall in any manner interfere with, destroy, or damage any privately-owned property without just compensation being made to the owner of the private property by purchase or in condemnation proceedings duly instituted pursuant to the laws of this state. The rules and regulations may relate to the care, preservation, protection, breeding, propagation, and disposition of any and all species of wild life therein and the regulation, issuance, sale, and revocation of special licenses or special permits for hunting, fishing, camping, or other uses of these areas not inconsistent with the terms of any laws of the state now or hereafter applicable thereto. The department may provide for the policing of each of the projects in such manner as may be needful for the proper development, use, and protection thereof, and of its purpose, and all supervisors, guards, custodians, and caretakers assigned to duty in any such project shall have and possess the authority and powers of peace officers while in its employ. All lands within the boundaries of such project shall be subject to these rules and regulations, whether owned by the state, or privately, consistent with the constitutional rights of the private owners or with the laws of this state now or hereafter applicable thereto. The department may exclude from the operation of

any such rules or regulations any lands owned by private individuals upon which taxes are delinquent for three years or less. All these rules and regulations shall be published once in the official newspaper of each county affected and shall take effect 30 days after the publication, and shall be, in addition thereto, posted on each of the four corners of each township of each project affected. In the management, operation, and control of such areas as may be taken for afforestation, reforestation, flood control projects, and wild game and fishing reserves, nothing shall be done which will in any manner, directly or indirectly, obstruct or interfere with the operation of any ditches or drainage systems existing within such areas, nor shall anything be done which will in any manner, directly or indirectly, damage or destroy any of the existing roads or highways within these areas or projects, unless the ditches, drainage systems, roads, or highways be first taken under the right of eminent domain and compensation made to the property owners and municipalities affected and damaged. Each such area or project shall contribute from the funds and moneys of the project, in proportion of the state land within the project, for the construction and maintenance of such roads and highways as may be necessary within such areas and projects in order to give the settlers therein and owners of privately-owned lands within such areas access to their land. The department may construct and maintain such roads and highways within such areas and projects as it may deem necessary.

Subdivision 2. Proceeds paid into state treasury. The proceeds of all certificates of indebtedness issued under sections 88.54 to 88.63, all moneys received from redemption as provided in sections 88.56 to 88.63, all moneys received as gifts to the state for the purpose of any such projects, and all income which may be received from the operation, development, management, and use of such projects, including fees received from the sale of all birds, animals, fish, and flora therefrom, and the sale of all lands and timber thereon owned by the state within such area, other than university, school, swamp, indemnity, or institutional lands, and state forests set apart pursuant to the Constitution of the State of Minnesota, Article 8, Section 7, and state lands acquired under the system of rural credit, and all moneys of the state which may hereafter be transferred thereto under any law of this state, shall be paid into the state treasury and credited to the project to which the same pertains, and the same are hereby annually appropriated for the purposes thereof; provided, that, under the provisions of sections 88.54 to 88.63, the aggregate or total of all certificates of indebtedness issued shall not exceed the sum of \$750,000.

[1933 c. 402 ss. 3, 4] (4031-77) (4031-78)

88.56 COUNTY AUDITORS TO CERTIFY TAX DELINQUENT LANDS. As soon as practicable after the approval and acceptance of any such project, the auditor of each county in which the same is situated shall certify to the state auditor a list of all lands within the boundaries of any such project, except lands lying within the boundaries of any incorporated city or village, upon which taxes are delinquent for three years or more, which have been bid in for the state at any delinquent tax sale heretofore or hereafter held in the non-payment of taxes, and which have not been redeemed or assigned to any actual purchaser, and which certificates shall contain the following information:

- (1) The legal description of each parcel of such land;
- (2) The name and number of the ditch and the amount of the principal and interest of each delinquent drainage assessment as it appears on the tax books of the county for all years prior to the date of such certificate against each such parcel of land, together with interest thereon at six per cent per annum since the due date of the instalment.

On or before the fifteenth day of June in each year thereafter, the county auditor shall certify to the state auditor a list of all lands within the boundaries of any such project, except lands lying within the boundaries of any city or village, and except lands which have been described in any previous certificate, and upon which taxes are delinquent for three years or more and which have been bid in for the state at any delinquent tax sale heretofore or hereafter held for the non-payment of taxes, and which have not been redeemed or assigned to an actual purchaser, and which certificate shall contain the following information:

- (1) The legal description of each parcel of such land, contained in any prior certificate upon which all taxes have been redeemed;
- (2) The legal description of each parcel of such lands which, on May fourteenth of the year in which the certificate is furnished, is delinquent for three years or more;

(3) The name and number of the ditch and the amount of the principal and interest of each delinquent ditch assessment instalment as it appears on the tax books of the county for all years prior to the date of such certificate against each such parcel of land, together with interest thereon at the rate of six per cent per annum since the due date of each instalment; provided, that the certificate shall not contain the delinquent drainage assessment instalments included in any certificate theretofore furnished.

When the delinquent drainage assessment instalment on any such parcel of land included in any such certificate of the county auditor is redeemed, paid, or assigned to any person the county auditor shall forthwith report the same to the state auditor and the county treasurer shall forthwith remit to the state treasurer the amount so paid in the county treasury on account of any such delinquent drainage assessment instalment or instalments.

Forthwith upon the approval and acceptance of any such project and thereafter, after each distribution has been made of the tax collections for the June and November tax settlements, such county auditor shall certify to the state auditor the following information relating to bonds issued to finance or refinance public drainage ditches lying wholly or partly within such projects, and the collection of assessments levied on account of such ditches:

(1) The amount of principal and interest to become due on such bonds prior to the next ensuing tax settlement and distribution;

(2) The amount of moneys collected from such drainage assessments and credited to the funds of such ditches, not already transmitted to the state treasurer as provided in sections 88.54 to 88.63;

(3) The amount of the deficit in the ditch fund of the county chargeable to such ditches.

Forthwith upon the approval of this certificate of the county auditor by the state auditor, he shall draw a warrant or warrants on the state treasurer, payable out of the fund herein provided for, and transmit the same to the county treasurer of the county, and these moneys shall be credited to the proper ditch of the county and placed in the ditch bond fund of the county, which is hereby created, and used to pay the ditch bonded indebtedness of the county assumed by the state under sections 88.54 to 88.63, and for no other purpose. The total amount of such warrants so to be drawn by the state auditor shall not exceed in any one year the total amount of the deficit hereinafter provided for under this section.

The state shall be subrogated to all title, right, interest, or lien of the county in or on the lands so certified within these projects.

As to all public drainage ditches which lie wholly within any such project, the maximum amount of money which shall be paid to, or for the benefit of, the county, in the manner above provided, shall never exceed the principal and interest of the bonds issued to finance or refinance any such ditch outstanding at the time of the passage and approval of sections 88.54 to 88.63, less moneys on hand in the county ditch fund to the credit of any such ditch, and these liabilities shall be reduced from time to time by the amount of any and all payments of assessments hereafter extended made by the owners of lands heretofore assessed for benefits on account of such ditches. As to all public drainage ditches which lie partly within and partly without the boundaries of any such project the maximum amount which shall be paid from the fund pertaining to such project to or for the benefit of the county shall never exceed the percentage of bonds issued to finance and refinance any such ditch so outstanding, less moneys on hand in the county ditch fund to the credit of any such ditch at the time of the passage and approval of sections 88.54 to 88.63, which bears the same proportion to the whole amount of such bonds as the original benefits assessed against these lands within the project bear to the original total benefits assessed to the entire system for any such ditch, and this liability shall be reduced from time to time by the payments of all assessments hereafter extended made by the owners of lands within the project of assessments for benefits heretofore assessed on account of any such ditch.

The state auditor shall have authority to provide and prescribe the forms for any reports required to be made to him and to require any further and additional information from any officials of any such county which he deems necessary for the proper administration thereof.

[1933 c. 402 s. 5] (4031-79)

88.57 STATE AUDITOR TO SELL CERTIFICATES OF INDEBTEDNESS.

For the purpose of anticipating the annual revenues of the fund pertaining to any such project, the state auditor is hereby authorized and directed, upon the acceptance and approval of each such project and upon there being certified to him the information relating to bonds contemplated by section 88.56, to issue and sell certificates of indebtedness in an aggregate sum not exceeding the maximum amount of money payable to or for the benefit of the county in which such project is located, as prescribed in section 88.56, payable from the fund pertaining to such project, such certificates to be numbered serially and to be of such denominations and bear such dates of issue and of maturity and bear interest at such rate, not to exceed five per cent per annum, as the state auditor shall determine; provided, that none of such certificates of indebtedness shall run beyond the tax settlement dates for the next annual tax levy thereafter to be made by such auditor as hereinafter required in anticipation of the collection of which such certificates of indebtedness are issued, except that such certificates of indebtedness as are required by sections 88.54 to 88.63 to be issued during the calendar years 1933 and 1934, shall bear maturity dates subsequent to the last settlement date for the annual tax levy for the year 1935, and no taxes shall be levied pursuant to sections 88.54 to 88.63 in either of the years 1933 or 1934, other than for such amounts as shall be sufficient, together with the funds otherwise available under sections 88.54 to 88.63 for the payment of interest which shall become due and payable on these certificates during the years 1933 and 1934, respectively. In the year 1935 there shall be levied, in the manner provided by sections 88.54 to 88.63, an amount sufficient for the payment of the principal of these certificates of indebtedness and interest to accrue and become payable thereon, in addition to such other amounts as shall be required under sections 88.54 to 88.63 to be levied, in that year. These certificates shall be so issued, from time to time, as the proceeds thereof are needed for the demands of the fund. The interest on these certificates of indebtedness shall be payable with the principal thereof. These certificates shall be in such form and upon such terms and conditions not inconsistent with the terms of sections 88.54 to 88.63 as the state auditor shall determine, shall be signed by the governor, attested by the state auditor, and sold for not less than par. These certificates may be purchased by the state board of investment for the permanent school fund, swamp land fund, internal improvement fund, or any other trust fund of the State of Minnesota, and shall be deemed "authorized securities" within the provisions of section 50.14 and acts supplemental thereto.

[1933 c. 402 s. 6] (4031-80)

88.58 TAX LEVIES. When the state auditor shall approve the certificate of the county auditor, as specified in section 88.56, he shall compute the portion thereof which will exceed cash on hand in the fund pertaining to any such project available for its payment and shall make an entry in this record that this excess, plus the amount required to pay interest on certificates of indebtedness, to be issued to provide money for the payment thereof, is to be extended upon the tax rolls for the next succeeding tax year, and there is hereby levied for the year in which the entry is made the aggregate of the sums so entered for collection up to the time of the certification of state taxes for such year and for each year thereafter, until the maximum state liability prescribed by section 88.56 has been exhausted, the aggregate of the entries made since the last preceding certification of state taxes, which taxes shall be extended and collected in the same manner as other state taxes, and the proceeds of such levies are hereby appropriated and pledged to the payment of the principal and interest of the certificates of indebtedness issued pursuant to sections 88.54 to 88.63.

[1933 c. 402 s. 7] (4031-81)

88.59 LANDS TO BE HELD BY STATE IN FEE. The title to all parcels of land lying within any such project, except lands lying within the boundaries of any city or village, which shall be acquired by the state under the provisions of sections 280.13 and 280.17, shall be held by the state free from any trust in favor of the taxing districts specified therein and shall be held and used or disposed of in accordance with the provisions of any law of this state.

[1933 c. 402 s. 8] (4031-82)

88.60 STATE AUDITOR TO CERTIFY LIST TO DEPARTMENT. Upon receipt by the state auditor of the reports of the county auditor specified in section 88.56, he shall certify a copy thereof to the department, which shall classify all such lands as to their suitability for agriculture or for afforestation, reforestation,

or for the purpose of impounding, controlling, and regulating the waters of meandered lakes and flow of natural streams, or for other public state purposes; and, after the title to any such land has been acquired by the state in the manner herein provided, such lands may be reclassified from time to time. All such lands which become the absolute property of the state under the provisions of sections 88.54 to 88.63 which have been classified as suitable for agriculture, and timber from any lands so acquired, shall be subject to sale or rental by the state, as provided by law.

[1933 c. 402 s. 9] (4031-83)

88.61 DEPARTMENT TO RECEIVE GIFTS. The department is hereby authorized and empowered to receive for and in behalf of the state and to make suitable acknowledgment thereof any gift, bequest, devise, or grant of land, or interests in lands, in any such project, or of money or personal property of any kind, which it may deem suitable for use in connection with the operation, control, development, or use of any or all such projects.

[1933 c. 402 s. 10] (4031-84)

88.62 DEPARTMENT SHALL HAVE RIGHT OF EMINENT DOMAIN. The department is hereby authorized and empowered to acquire by exercise of the right of eminent domain, which right is hereby given it, to be exercised in the manner provided in chapter 117, or by purchase, any privately-owned lands or interests in lands within the boundaries of any such project which it shall deem necessary for state ownership, use, or development for the purposes of sections 88.54 to 88.63; provided, that no moneys shall be used for the purposes specified in this section until and unless the department and the state auditor shall have determined that such moneys will not be required to meet the requisitions of the counties authorized under section 88.56 or for the payment of certificates of indebtedness and interest thereon herein provided for.

[1933 c. 402 s. 11] (4031-85)

88.63 COUNTY MAY ASSUME BONDS. Any county wherein any such project or portion thereof is located may voluntarily assume, in the manner hereinafter specified, the obligation to pay that portion of the principal and interest of the bonds issued before the approval and acceptance of the project and remaining unpaid at maturity, of any school district or town situated in the county and wholly or partly lying within the project, which portion bears the same proportion to the whole of the unpaid principal and interest as the last assessed valuation, prior to the acceptance of the project, of lands then acquired by the state pursuant to sections 88.54 to 88.63 in such school districts or towns bears to the total assessed valuation for the same year of the school district or town. This assumption shall be evidenced by a resolution of the county board of the county, a copy of which shall be certified to the state auditor within one year after the acceptance of the project; and thereafter, if any such bonds shall remain unpaid at maturity, the county board shall, upon demand of the governing body of the school district or town or of the holder of any such bond, provide for the payment of the portion thereof so assumed, and the county shall levy general taxes on all the taxable property of the county therefor, or issue its bonds to raise such sum as may be needed, conforming to the provisions of law respecting the issuance of county refunding bonds. The proceeds of such taxes or bonds shall be paid over by the county treasurer to the treasurer of the school district or town; provided, that no such payments shall be made by the county to the school district or town until such time as the moneys in the treasury of the school district or town, together with the moneys so to be paid by the county, shall be sufficient to pay in full each of the bonds as it may become due.

In the event that any such county shall fail or neglect so to adopt and certify such resolution, the state auditor shall withhold from the payments to be made to the county under the provisions of section 88.55 a sum equal to that portion of the principal and interest of such outstanding bonds which bears the same proportion to the whole thereof as the above determined assessed valuation of lands acquired by the state within the project bears to the total assessed valuation for the same year of the school district or town. Moneys so withheld from the county shall be set aside in the state treasury and not paid to the county until the full principal and interest of the school district and town bonds shall have been paid.

In the event that any such bonds remain unpaid at maturity, upon the demand of the governing body of the school district or town, or the holder of any such bonds, the state auditor shall issue to the treasurer of the school district or town a warrant

on the state treasurer for that portion of the past due principal and interest computed as in the case of the county's liability hereinbefore authorized to be voluntarily assumed. All moneys received by any school district or town pursuant to this section shall be applied to the payment of such past due bonds and interest.

[1933 c. 402 s. 12] (4031-86)

88.64 SHIPPING OF EVERGREENS OR CONIFEROUS TREES PROHIBITED; EXCEPTIONS. Subdivision 1. **Tags.** Except as otherwise authorized by sections 88.64 to 88.72, no person shall remove, ship, transport, offer for sale, sell, purchase for re-sale, or have in possession for transportation or sale, and no common carrier shall transport or receive or have in possession for transportation any green pine, cedar, spruce, balsam, fir, hemlock, or other evergreen or coniferous tree intended for use as a Christmas tree, for decorations, or for other purposes, unless the same has attached thereto an official tag issued by the director, as provided by sections 88.64 to 88.72. The provisions of sections 88.64 to 88.72 shall not apply to nursery stock nor to trees cut or used by the state or federal government for any lawful public purpose. Any person may cut within the state or import from without the state and may transport and possess within the state for his own use not to exceed three such trees in a single lot in one year without having the same tagged, as provided in sections 88.64 to 88.72. Permits may be issued to dealers in such trees, as provided in subdivision 2, in which case the provisions hereof, except those contained in subdivision 2, shall not apply to such permittees or trees handled by them.

Subdivision 2. **Permits; fees.** Any person engaged in the business of cutting, processing, shipping, or selling evergreen, or other coniferous trees, intended for use as Christmas trees, for decorations, or for other purposes, may apply to the director for a permit as dealer in such trees, which permit shall expire on December thirty-first of the year in which issued. At the time of applying for the permit the applicant shall give such information as to the proposed manner of conducting the business and the number, kind, and character of trees intended to be dealt in as may be required by the director. With the application the applicant shall submit a fee of \$200.00, payable to the state treasurer. In addition to the permit fee required hereby, the permittee shall be required to purchase tags and labels or stickers, and affix the same to all trees or shipments sold or transported by him, except trees shipped out of the state. Under this section, the time and method of the attachment, use, and the kind of tag, label, or sticker, are to be prescribed by the director. The permittee shall pay a fee at the rate of two cents for each tree required to be tagged under this section. The term "processed" means the treatment of any tree by a chemical bath, either through dipping or spraying, for the purpose of fixing, intensifying, or changing the color thereof or to prevent the falling off of needles therefrom. Each permittee shall display, on all vehicles used in the transportation of trees handled by him from the place of cutting to the place where the trees are processed, a copy of his permit as a permittee; he shall affix to each tree, crate, or carton, for which a fee is required, such tag, label, or sticker before the tree is sold, shipped, or transported by him.

[1935 c. 331 s. 1; 1937 c. 470 s. 2] (5887-31)

88.65 TREES. All tops cut from trees of the kinds mentioned in section 88.64 and all bushes, shrubs, saplings, and seedlings of such kinds, when wholly or partly untrimmed, shall be deemed to be trees within the meaning of the provisions of sections 88.64 to 88.72, but slashings or side branches cut from such trees shall not be so regarded. The fact that any such tree has been removed in a wholly or partly untrimmed condition from the immediate premises where cut shall be prima facie evidence that it is intended for transportation or sale and for use as a Christmas tree, for decorations, or for other purposes, and the burden of proving the contrary shall be upon the defendant or other party so asserting in any criminal or civil action involving the provisions of sections 88.64 to 88.72.

[1935 c. 331 s. 2; 1937 c. 470 s. 3] (5887-32)

88.66 TAGS. Subdivision 1. **Printing on tags.** Every such tag shall have printed thereon the words "State of Minnesota, Director of the Division of Forestry, Department of Conservation, Evergreen Tree Tag," together with the year of its issue, in prominent figures, and shall have space for the name and address of the person attaching the same, and may otherwise be in such form and may have printed thereon such appropriate statements or devices as the director may prescribe, subject to the provisions of sections 88.64 to 88.72.

Subdivision 2. Issuance of tags. These tags shall be issued by the director, or by any officer or agent authorized by him, to any person required or entitled to obtain and use the same, as herein provided, upon written application made by such person, or by his authorized agent, as herein provided, and upon payment of a fee of two cents per tag. The application shall be in such form as the director may prescribe, subject to the provisions hereof. It shall state the name and address of the applicant and the number and kind of trees to be tagged, and shall state generally how and where the same are to be disposed of. In the case of trees cut or to be cut within the state, the application shall set forth a description of the premises whereon the trees are located and the name of the owner thereof. In the case of trees cut without the state, the application shall state the place from which the trees were shipped or transported into this state and the name and address of the person from whom obtained. The application shall give such other pertinent information as the director may require. The applicant shall submit with the application proof that he is the lawful owner of the trees therein referred to and has lawful authority to dispose of the same as proposed, and that all the provisions of the laws of this state relating thereto have been complied with; and, in the case of imported trees, that all the provisions of the laws of the state or country wherefrom the same were obtained relating thereto have been complied with. The director or authorized officer or agent receiving the application may make such further investigation as he deems necessary for the purpose of verifying the statements of the application and determining the sufficiency of the proof submitted therewith. The applicant may be required to verify, upon oath, the statements of the application or accompanying proof, or any part thereof. If the director or authorized officer or agent receiving the application is satisfied that the facts therein stated are true and that the proof submitted therewith is sufficient and that the applicant is entitled to receive the tags applied for under the provisions of sections 88.64 to 88.72, he shall issue to the applicant the tags applied for, upon payment of the fee hereinbefore prescribed.

[1935 c. 331 ss. 3, 4; 1937 c. 470 s. 4] (5887-33) (5887-34)

88.67 OWNER TO AFFIX TAGS. Subdivision 1. When affixed. Before any such tree cut within the state is removed from the premises where cut, whether intended for transportation, sale, or use within or without the state, it shall be the duty of the owner of the tree to affix, or cause to be affixed, one of these tags thereto, and to have his name and address plainly written, printed, or stamped upon the tag.

Subdivision 2. Imported trees, when tags affixed. Before any such tree imported from without the state is shipped or transported within the state after arrival at its initial destination whereto it was imported, or is separated from the original lot shipment or consignment in which it was imported, or is offered for sale, or is used, the owner shall affix or cause to be affixed one of these tags thereto; provided, that by written permission of the director or of any officer or agent authorized to issue tags hereunder, any unbroken lot, shipment, or consignment of imported trees may be reshipped or transported from its initial destination to any other point within the state without tags, which permission shall be granted without charge upon like application and showing as herein provided for the issuance of tags, but this permission shall not relieve the owner from the obligation to tag these trees as herein provided after the termination of the reshipment or transportation.

Subdivision 3. How affixed. Each tag shall be affixed, as herein provided, by securely fastening the same to the trunk or stem of the tree with wire at a point above the lowest branch or branches, unless some other method shall be prescribed by the director by instructions printed upon the tag, in which case the method so prescribed shall be followed.

Subdivision 4. Removal. No person shall remove any such tag from any tree until the tree has actually been placed in use by the ultimate purchaser or user thereof, or until it is no longer required or available for such use, or, in the case of a tree shipped or transported out of the state, until it has left the state.

Subdivision 5. Contraband, when declared. All trees which do not conform with the provisions of sections 88.64 to 88.72 are declared to be contraband and subject to seizure and confiscation.

[1935 c. 331 s. 5; 1937 c. 470 s. 5] (5887-35)

88.68 DIRECTOR, FOREST RANGERS; POWERS, DUTIES. In addition to other powers and duties prescribed in sections 88.64 to 88.72, the director, and any forest ranger, forest patrolman, game warden, or other officer of the department, and any peace officer, shall have the following powers and duties:

(1) To arrest with or without a warrant any person who is discovered to have committed any offense under sections 88.64 to 88.72 or who is believed upon reasonable grounds to have committed any such offense;

(2) To inspect any such trees, wherever found, and to make such investigation with reference thereto as may be necessary for the purpose of determining whether the provisions of any law relating to these trees have been complied with;

(3) To enter with or without a warrant for the purpose aforesaid, any premises whereon these trees are being or have been cut or wherein these trees are kept for transportation or sale, including the premises, cars, or other transportation facilities of common carriers, and to stop any vehicle or other means of conveyance found carrying any such trees upon any public highway of this state, and to seize and confiscate in the name of the state any evergreen or coniferous trees taken or had in possession or under control, or sold or transported in violation of the provisions of sections 88.64 to 88.72, and to seize, confiscate, and dispose of all trees unlawfully used or had in possession in violation of the provisions of sections 88.64 to 88.72, as the director may prescribe. All confiscated trees may be retained by the director or sold at the highest price obtainable by the director, or forest officers, or by an agent of the director, under written authority and supervision of the director. The net proceeds of these sales, after deducting the expense of seizure and sale and any such commissions, shall be promptly remitted by the forest officer by whom and under whose authority and supervision the sales were made, to the director and by him paid into the state treasury; the remittances to be accompanied by the complete and certified report of the sales supported by vouchers covering all deduction made for expenses and commissions, to be filed for record in the office of the division. All net proceeds from these sales are hereby appropriated as under section 88.71.

Confiscation of coniferous trees under sections 88.64 to 88.72 may include two or more trees when packed, bundled, fastened together, or contained in the same bag, crate, box, or other receptacle or otherwise commingled, and when one or more thereof are contraband, then and in such case the whole bundle or parcel thereof shall be deemed contraband, although a part of the trees in the bundle or parcel may have tags affixed thereto.

[1935 c. 331 s. 6; 1937 c. 470 s. 6] (5887-36)

88.69 SEARCH WARRANTS. Subdivision 1. **When issued.** Any court or magistrate having authority to issue warrants in criminal cases may issue a search warrant, in like manner as provided by law for search warrants, for stolen property to search for and seize any trees alleged upon sufficient grounds to have been affected by or involved in any offense under sections 88.64 to 88.72. The warrant may be directed to and executed by any officer authorized to make arrests and seizures by sections 88.64 to 88.72.

Subdivision 2. **Officers may make complaints.** Any officer discovering or having knowledge of any offense under sections 88.64 to 88.72 shall forthwith make complaint against the offender before a court or magistrate having jurisdiction to issue warrants of arrest in such cases, and submit to the jurisdiction of the court or magistrate, or of such other court or magistrate as may take cognizance of the case, any trees affected by or involved in the offense and seized as herein provided.

[1935 c. 331 ss. 7, 8; 1937 c. 470 s. 7] (5887-37) (5887-38)

88.70 RECORDS. Records shall be kept by the director and by every officer and agent authorized by him to issue tags under sections 88.64 to 88.72 by showing the dates of issuance of all such tags, the persons to whom issued, the number issued, the amount of fees received, and such other pertinent information as the director may prescribe. The director may require these reports from such officers and agents as he deems necessary. These records and reports shall be filed in the office of the director.

[1935 c. 331 s. 9] (5887-39)

88.71 FEES PAID INTO STATE TREASURY. All fees received from the issuance of such tags, labels, or stickers and the sale of permits shall be promptly transmitted through the director to the state treasurer. All these fees are hereby

appropriated to the director for salaries and other expenses incurred in connection with the enforcement of the provisions of sections 88.64 to 88.72.

[1935 c. 331 s. 10; 1937 c. 470 s. 8] (5887-40)

88.72 APPLICATION. Sections 88.64 to 88.72 shall not be deemed to supersede any existing provision of law relating to any matter within the scope thereof, but shall be construed as supplementary to any such existing provision. Any offense which is punishable both under sections 88.64 to 88.72 and under some other provision of law may be prosecuted and punished under either, at the election of the prosecuting attorney, but not under both.

[1935 c. 331 s. 13] (5887-43)

88.73 ADMINISTRATION; DELEGATED POWERS AND DUTIES. The director is hereby empowered and directed to administer and enforce sections 88.02 to 88.21; and, to that end, he may make and enforce all necessary or convenient rules and regulations not inconsistent with the provisions and purposes of these sections. In every case the powers delegated to, and the duties imposed upon, the director, and other state or municipal representatives by sections 88.02 to 88.21 shall be exercised and performed in good faith, without undue oppression, and in a manner as reasonable as the exigencies of the situation will permit.

Nothing in sections 88.02 to 88.21 shall be construed as abrogating the laws specifically governing state parks or other public parks, or state or municipal forests. The provisions of all such laws and of sections 88.02 to 88.21 shall be harmonized and both given effect wherever possible.

Nothing in sections 88.02 to 88.21 shall be construed as restricting the state, or any political subdivision thereof, in the exercise of any power, right, or privilege which may be conferred by separate enactment of the legislature under authority of the so-called forest fire prevention amendment to the State Constitution, approved by vote of the electors of this state at the general election held in November, 1924.

[1925 c. 407 ss. 32, 33] (4031-32) (4031-33)

88.74 CERTAIN RECORDS MAY BE DESTROYED. The director is authorized, with the consent and approval of the commissioner and the department of administration, to divest his files of records and other papers and documents in his office at the time and under the conditions herein specified:

(1) Claims and vouchers paid by the division more than 15 years prior to such destruction; and

(2) Miscellaneous documents, papers, and correspondence bearing dates more than 15 years prior thereto.

The director, instead of personally destroying any such claims, vouchers, miscellaneous papers, and correspondence, or any other documents, instruments, or papers which may be of historical value, shall forward the same to the Minnesota historical society, St. Paul, Minnesota, and the society is authorized to permanently preserve any matter found therein deemed by it to be of historical value and to destroy all other documents, papers, and matters so received by it.

[1939 c. 41] (53-23½v)

88.75 VIOLATIONS; PENALTIES. Subdivision 1. Any person who violates any of the provisions of sections 88.02 to 88.21 for which no specific penalty is therein prescribed shall be guilty of a misdemeanor and be punished accordingly.

Failure by any person to comply with any provision or requirement of sections 88.02 to 88.21 to which such person is subject shall be deemed a violation thereof.

Any person who violates any provisions of sections 88.02 to 88.21, in addition to any penalties therein prescribed, or hereinbefore in this section prescribed, for such violation, shall also be liable in full damages to any and every person suffering loss or injury by reason of such violation, including liability to the state, and any of its political subdivisions, for all expenses incurred in fighting or preventing the spread of, or extinguishing, any fire caused by, or resulting from, any violation of these sections. When a fire set by any person spreads to and damages or destroys property belonging to another, the person setting the fire shall be prima facie guilty of negligence in setting and allowing the same to spread.

At any time the state, or any political subdivision thereof, either of its own motion, or at the suggestion or request of the director, may bring an action in any court of competent jurisdiction to restrain, enjoin, or otherwise prohibit any violation of sections 88.02 to 88.21, whether therein described as a crime or not, and likewise to restrain, enjoin, or prohibit any person from proceeding further in, with, or at any timber cutting or other operations without complying with the provisions

of those sections, or the requirements of the director pursuant thereto; and the court may grant such relief, or any other appropriate relief, whenever it shall appear that the same may prevent loss of life or property by fire, or may otherwise aid in accomplishing the purposes of sections 88.02 to 88.21.

Subdivision 2. Any person violating any of the provisions of sections 88.23 to 88.26 shall be guilty of a misdemeanor.

Subdivision 3. Any person who wilfully or knowingly cuts or removes any timber or forest product contrary to the provisions of sections 88.46 to 88.53; or wilfully or knowingly makes any false statement or representation in any application, certificate, or other paper or document required by, or purporting to be made pursuant to, sections 88.46 to 88.53; or wrongfully and intentionally falsifies, or changes, any such application, certificate, or document; or uses any artifice, trick, scheme, or device, or who conspires with others so to do, under color of sections 88.46 to 88.53, for the purpose of wrongfully evading or escaping the levy, assessment, or payment of any taxes, assessments, or claims of the state, or any political subdivision or agency thereof, shall be guilty of a felony.

Subdivision 4. Any person who, within the limits of any project described in sections 88.54 to 88.63, shall wilfully violate, or fail to comply with, any rule or regulation of the department adopted and promulgated in accordance with the provisions of those sections shall be guilty of a misdemeanor.

Subdivision 5. Any person who shall make any false statement in any application or other statement for the purpose of obtaining any tag mentioned or described in sections 88.64 to 88.72 shall be guilty of a gross misdemeanor.

Any person who shall affix any such tag to any tree mentioned or described in sections 88.64 to 88.72 other than a tree covered by the application upon which the tag was issued, or who shall remove, ship, transport, offer for sale, sell, purchase for re-sale, or have in possession for transportation or sale, any such tree bearing any such tag other than a tag issued upon an application covering such tree, knowing that such tag was not issued upon such application, shall be guilty of a gross misdemeanor.

Any person who shall, without lawful authority, place upon any such tag any name being, or purporting to be, the name of a person authorized to receive and affix such tag, or who shall place upon any such tag any false, forged, or fictitious name purporting to be the name of a person authorized to receive and affix such tag shall be guilty of a gross misdemeanor.

Any person who, with intent that the same shall be affixed to any tree required to be tagged, shall forge or counterfeit any tag issued under sections 88.64 to 88.72, or make any tag substantially simulating, in whole or in part, any tag issued under those sections, and any person who shall affix to any such tree any such forged, counterfeit, or simulated tag, knowing such tag to be forged, counterfeit, or simulated, or who shall remove, ship, transport, offer for sale, sell, purchase for re-sale, or have in possession for transportation or sale, any such tree bearing any such forged, counterfeit, or simulated tag, knowing such tag to be forged, counterfeit, or simulated, shall be guilty of a gross misdemeanor.

Except as otherwise provided in this subdivision, any person who shall violate any provision of sections 88.64 to 88.72, or who shall fail to perform any duty required by those sections, shall be guilty of a misdemeanor.

[*Ex. 1919 c. 32 s. 3; 1925 c. 407 s. 28; 1927 c. 247 s. 11; 1929 c. 218 s. 10; 1933 c. 402 s. 13; 1935 c. 331 s. 11*] (4031-28) (4031-35½i) (4031-70) (4031-87) (5887-41)

88.76 REWARDS. Upon conviction of any person for violating any of the provisions of sections 88.02 to 88.21, the director, at his discretion, may pay, from any money placed at his disposal under those sections, a reward of not more than \$25.00 to the person or persons giving the information leading to such conviction.

[1925 c. 407 s. 31] (4031-31)

88.77 DISPOSAL OF FINES AND PENALTIES. Except as otherwise expressly provided in sections 88.02 to 88.21, all moneys received as penalties for violations of the provisions of those sections, less the cost of collection, shall be paid into the treasury of the county in which the penalties for these violations were imposed; provided, that fines collected for violations of those sections, where prosecutions are instituted upon the complaint of town, city, or village officers duly appointed by the director as fire wardens, shall be paid into the treasury of the town, city, or village where the offense was committed.

[1913 c. 159 s. 7; 1925 c. 407 s. 29] (4031-29)

88.78 APPEALS. No appeal shall be allowed from a judgment in any court of a justice of the peace, or a municipal court, or other similar court, to the district court in any prosecution under sections 88.02 to 88.21, unless the person appealing shall, within the time prescribed by law, enter into a recognizance, with sufficient sureties, or deposit cash bail in twice the amount of the fine and costs, to be approved by the justice, conditioned to appear before the district court on the first day of the next general term thereof to be held in and for the same county, and abide the judgment of the court therein.

The justice or judge may examine the proposed sureties under oath and, in such case, shall make and keep a record of their answers in respect to the kinds and amount of their property not exempt from execution, and he shall furnish a copy of the same to the director.

When an arrest shall have been made for violation of any of the provisions of sections 88.02 to 88.21, or when information of such violation shall have been lodged with him, the county attorney of the county in which the offense was committed shall prosecute the accused with diligence and energy.

[1913 c. 159 s. 6; 1925 c. 407 s. 30] (4031-30)
