All such applications not filed within the time specified herein shall be denied by the retirement board.

who elect to become contributors to and prospective beneficiaries of the fund created by this chapter, and future entrants, employees who enter the service of the city subsequent to the date this chapter becomes effective therein.

Any employee in the service of any public corporation now or hereafter created in and for any two or more contiguous cities, the funds of which public corporation are in whole or in part raised by taxation on the property in such cities, may become a member of the contributing class by giving a written notice to the retirement board of his acceptance of and his desire to avail himself of the provisions of this chapter, within six months from the date of the passage of Laws 1945, Chapter 181, or of his employment, whichever is the later date.

The non-contributing class shall consist of all employees, including common laborers, whose individual pay or compensations do not exceed \$750 per annum; provided, that when the compensation of an employee who is paid on a monthly basis equals or exceeds \$62.50 per month on a 12-month basis, such employee shall be classified as a contributor and shall from and after such time contribute to the fund and assume all the obligations imposed upon and be entitled to all the benefits conferred upon members of the contributing class, specifically set forth in this chapter.

Any employee in the non-contributing class may, upon written application filed with the retirement board prior to attaining the age of 50 years, elect to become a member of the contributing class, and shall then assume all the obligations imposed upon and be entitled to all the benefits conferred upon members of the contributing class, as specifically set forth in this chapter.

The exempt class shall consist of:

All retirement allowances shall be computed and determined as provided herein, except that in determining the number of years of service, credit shall be given for time served as an elective officer or employee, as in this act defined, or member of an executive board or commission or any combination thereof. Before receiving a retirement allowance, or any other benefit, any person who claims credit for service under this section shall contribute to the fund herein provided for an amount which shall be equal to the amount of contributions to the fund which such person would have made had he been a contributor to the fund since January 1, 1922, or date of election or employment, whichever is later, in accordance with the method of contribution herein provided for, plus four percent compound interest.

Any pension due and payable to an elective officer who claims credit for service as a member of an executive board or commission shall not exceed \$200 per month computed under the single life plan but subject to the option selections provided for in section 422.08;

All retirement allowances shall be computed, determined and paid for in the same manner as for employees, as provided herein, except that in determining

the number of years of service, credit shall be given for time served as a member of an executive board or commission, employee, or elective officer, or any combination thereof.

Before receiving this retirement allowance, or any other benefit, the person who claims credit for service under this section shall contribute to the fund an amount which shall be equal to the amount of contributions to the fund which would have been made had he been a contributor to the fund since January 1, 1922, or date of becoming a member of an executive board or commission or elective officer or employee, whichever is later, in accordance with the method of contribution in this chapter provided, plus four percent compound interest.

(8) Employees of a public corporation now or hereafter created in and for two or more contiguous cities of the first class, who do not within six months from the date of the passage of Laws 1945, Chapter 181, or the date when they enter the service of said corporation, whichever is later, give written notice to the retirement board of their acceptance of and desire to avail themselves of the provisions of this chapter. Any such employee who failed to give notice to the retirement board within the six months herein required may by written application to the retirement board made within 60 days after the passage of Laws 1953, Chapter 681, become a contributing member of the retirement fund.

Any employee who makes an application as herein provided shall receive credit for service in such public corporation only upon contribution to the retirement fund of the amount which would have been contributed to such fund at the required percentage rate, plus four percent compound interest, had such application been made within the time prescribed by Laws 1945, Chapter 181, and only upon approval of the governing board or commission of such public corporation.

Subd. 5. **Supplementary allowance for persons in contributing class.** The supplementary allowance shall be the actuarial equivalent of the difference between:

(1) The net accumulated amount at the time of retirement of the contributions which such employee would have been required to make during the period for which credit is claimed, had the provisions of this chapter been in force throughout such period, and

96503 ✓ 3 Subd. 6. **Minimum retirement allowance, additional allowance.** All contributing members who, at the time of retirement, shall have fulfilled the conditions necessary to enable them to retire, shall be entitled to a combined minimum pension and supplementary allowance of \$2 per month for each year of service, which pension and supplementary allowance shall be in addition to the annuity as defined in the pension act.

The pension and supplementary allowance provided for herein shall be the actuarial equivalent of the accumulated annual installments and supplementary allowance credits, now designated by law to be now defined as normal earned credits, plus such extra credit to be furnished by the city as will produce such minimum pension and supplementary allowance of \$2 per month for each year of service. Said sum of \$2 shall be computed under the single life plan, as defined in said pension act, and subject to the same option selections as set forth in said act.

The extra credit herein provided for shall be used only for the purpose of producing such minimum pension and supplementary allowance and shall not in any other way inure to the benefit of the contributing member or his beneficiaries.

The pension, supplementary allowance and annuity provided for herein shall be first paid from the contributing member's own contributions and normal earned credits, plus interest, until such credits are exhausted, and from and after such time shall be paid from the extra credit provided for herein.

In addition to the pension, supplementary allowance and annuity provided for in Minnesota Statutes 1953, Chapter 422, and Laws 1953, Chapter 83, there shall be paid to each retired employee who retired or will retire subsequent to January 1, 1943, an additional pension equal to 25 percent of such pension, supplementary allowance and annuity, provided, that the additional pension herein provided for shall not exceed \$25 per month; and for each retired employee who retired prior to January 1, 1943, 40 percent of such pension, supplementary allowance and annuity, provided, that the additional pension shall not exceed \$25 per month. The additional pensions provided for in this paragraph shall be retroactive to January 1, 1955.

Provided however, that in lieu of the pension, supplementary allowance, annuity and additional pension herein provided for, each employee who is eligible and who ceases to be employed and who retires subsequent to July 1, 1954, shall have the option of electing to receive what shall be known as a "formula pension and annuity" equal to one-sixtieth of his arithmetic average annual salary, wages or compensation from the city for any five consecutive calendar years as selected by the employee, multiplied by his years of service with the city, the option to become effective July 1, 1955.

The formula pension and annuity shall be computed on the single life plan but subject to the option selections provided for in section 422.08.

In order to be entitled to the formula pension and annuity herein provided for, the retiring employee at the time of cessation of employment and of actual retirement must have attained the age of 60 years or have been employed by the city not less than 30 years, and must in addition thereto have contributed to the retirement fund at the percentage rate prescribed by the retirement law prior to the passage of this act on all salaries, wages, or compensation received from the city from January 1, 1922, to July 1, 1955, and at the percentage rate of six percent on all salaries, wages or compensation received from the city subsequent to July 1, 1955.

The years of service to be applied in the formula pension and annuity shall be found and determined by the retirement board.

Voluntary additions to the employee's deposits made by the employee under the provisions of section 422.10 may be withdrawn by the retiring employee or, with the approval of the retirement board, applied to the purchase of an additional annuity computed and determined by the retirement board.

**Subd. 7. Service calculated.** Except as otherwise provided in sections 422.01 to 422.23, the service of each "present incumbent" shall be calculated from the date in service from which said employee elects to claim credit and the amount of service of each future entrant shall be calculated from the date of original appointment. Said service shall include periods of service at different times and service for one or more departments, branches or independent boards of the municipality. It is further provided that in computing length of service of contributing employees for the purpose of sections 422.01 to 422.23, periods of separations from the service shall not be included, provided, that any contributing employee who has heretofore been employed by the Works Progress Administration of the United States government or heretofore or hereafter shall serve as a duly elected member of the Minnesota state legislature and who at the time of entrance into either of the services herein outlined was a contributing member of the retirement fund, shall receive credit for the time spent in such services as though actually employed by such city.

In order to receive credit as herein outlined, such employee shall contribute to the retirement fund the amount that would have been contributed by him if actually employed by the city.

The amount of salary, wages or compensation received by the employee immediately prior to entering the services herein set forth, shall be the dollar amount used in determining the contributions to be made to the retirement fund, and also the amount to be used in determining the arithmetical average annual compensation otherwise provided for in sections 422.01 to 422.23.

**Subd. 8. Payment of retirement allowances.** Retirement allowances as herein provided shall be paid in monthly instalments and checks shall be issued and mailed to the last known address of each beneficiary on the first business day of the month succeeding the month in which his or her allowance is authorized; provided, that where a beneficiary is laboring under legal disabilities said monthly instalments in such cases may be paid to the duly appointed guardian.

**422.07. DISABILITY ALLOWANCES.** Upon the application of the head of the department in which a contributing employee is employed, or upon the application of the contributing employee or of one acting in his behalf, the retirement board shall retire the contributor for disability; provided the medical board, after a medical examination of the contributor made at the place of residence of the contributor or at a place mutually agreed upon, shall certify to the retirement board that the contributor is physically or mentally incapacitated for the performance of further service to the city and that the contributor ought to be retired.

Disability of an employee resulting from injury received in the performance of the duties of the city service shall be defined as accident disability. Disability incurred as a result of injury not connected with the performance of such service shall be defined as ordinary disability. In order to be entitled to a retirement allowance for ordinary disability an employee shall have rendered ten or more years of service to the city.

The ordinary disability allowance shall be the actuarial equivalent at the age when an employee retires on such disability allowance of the net amount to which the contributions already made by the employee and the credits allowed or contributions already made by the city on his behalf would accumulate if allowed to remain at four percent compound interest until the earliest permissible date for retirement on a service allowance.

The accident disability allowance shall equal the actuarial equivalent at the age when an employee retires on such disability allowance of the net amount which would be accumulated to the credit of the employee if his annual contributions at the time of disability and the annual credits or contributions of the city were continued to the earliest permissible date for retirement on a service allowance, interest for such period being calculated at four percent compound interest.

Payment of any disability allowance shall continue throughout the full period of the disability subject to the same optional selections as are provided for service allowances; provided that when a disability beneficiary shall have attained the minimum age for retirement on a service allowance the disability allowance shall be discontinued only as provided by the terms of the option selected.

Any employee eligible to an accident disability allowance who is also entitled to an allowance under a workman's compensation act shall be entitled to receive during the period of such compensation only that portion of the retirement allowance provided by this chapter by which such retirement allowance exceeds the workmen's compensation.

Once each year the retirement board may require any disability beneficiary while still under the established age for retirement to undergo medical examination by a physician or physicians designated by the retirement board, the examination to be made at the place of residence of the beneficiary or other place mutually agreed upon. Should the medical board report and certify to the retirement board that such disability beneficiary is no longer physically or mentally incapacitated for the performance of duty, his allowance shall be discontinued and the head of the department in which said beneficiary was employed at the time of his retirement shall, upon notification by the retirement board of such report of the medical board, reemploy the beneficiary at a rate of salary not less than the amount of his retirement allowance, but after the expiration of five years subsequent to the retirement of such beneficiary his restoration to duty, notwithstanding the recommendation of the medical board, shall be optional with the head of the department.

Should any disability beneficiary while under the established age for retirement refuse to submit to at least one medical examination in any year by a physician or physicians designated by the medical board, his allowance shall be discontinued until the withdrawal of such refusal, and should such refusal continue for one year, all his rights in and to any retirement or disability allowance shall be forfeited.

Upon application of any beneficiary under the established age for retirement drawing a pension or a retirement allowance under the provisions of this chapter, approved by the retirement board, the beneficiary may be restored to active service by the head of the department in which the beneficiary was employed all the time of his retirement. Upon the restoration of a beneficiary to active service his retirement allowance shall cease.

The medical board shall consist of the city physician, a physician to be selected by the retirement board, and a physician to be selected by the employee.

## RETIREMENT ALLOWANCES, CITIES FIRST CLASS 422.09

No employee in any city to which this act applies shall be eligible to be a member of or receive benefits from more than one fund or association of such city by whatever name known, supported in whole or in part by taxes levied by such city.

Upon the death of a contributing member while still in the service of the city, and before reaching the compulsory age of retirement, there shall be paid to such person or persons as he or she shall have nominated by written designation filed with the retirement board, in such form as the retirement board shall require, the net accumulated amount of deductions from his or her salary, pay, or compensation, to his or her credit on date of death.

If the employee fails to make a designation, or if the person or persons designated by such employee pre-deceases such employee, the net accumulated amount of deductions from his or her salary, pay or compensation, to the credit of such employee on date of death shall be paid to such employee's estate.

If a contributing member dies after having been in the service ten or more years, and before actual retirement, as determined by the retirement board, the present worth of the city's annual installments of \$60 then to the credit of the contributing member, and the supplementary allowance, as defined in this act, shall be paid to a beneficiary designated by such contributing member in such form as the retirement board shall require, who shall be the surviving spouse, or surviving child, or children of such member, if there be no surviving spouse, or surviving child or children then to a person actually dependent on and receiving principal support from such member or surviving mother or father, or surviving brother or sister, or surviving children of the deceased brother or sister of such member.

If the beneficiary designated by the member is not one of the class of persons named in the preceding sentence, such benefit from the accumulation of city deposits shall be paid in the following order: (1) to the surviving spouse, the whole thereof; (2) if there be no surviving spouse, to the surviving children, share and share alike; (3) if there be no surviving spouse or child or children, to the dependent or dependents, as those terms are herein defined, of the member, share and share alike; (4) if there be no surviving spouse, child or children, or dependents, to the surviving mother and father, share and share alike; (5) if there be no surviving mother and father, to the surviving brothers and sisters of the member, in equal shares; (6) and if there be no surviving brothers and sisters, to the surviving children of the deceased brothers and sisters of the member, in equal shares; (7) and if there is no person named in the preceding sentence who survives the member, the accumulation of city deposits shall be cancelled.

If the contributing member dies after having been in the service of the city 20 or more years, and before the effective date of retirement, as determined by the retirement board, such board shall pay a monthly allowance under the option 4-five year certain life income plan of retirement, as adopted by the board to the designated beneficiary of such employee, providing such employee prior to the date of his death filed a written request therefore with the board on forms provided by such board. The monthly allowance herein provided for shall be the actuarial equivalent of a single life retirement allowance which would have been payable to the employee on the date of his death had he been eligible to retire and retired.

The beneficiary designated by the employee shall be the surviving spouse of such employee. If there is no surviving spouse, the designated beneficiary may be a dependent surviving child or dependent parent of such employee as dependency is defined in this chapter. If the beneficiary designated by the employee is not of the class of persons provided for in this paragraph, or if the designated beneficiary predeceases the employee, a refund shall be made as provided for in section 422.09, in lieu of a life income under the option 4-five year certain plan.

If the employee does not elect to designate a beneficiary to receive a life income under the option 4-five year certain plan, as herein provided, the designated beneficiary, if of the class of persons set forth in the preceding paragraph, may elect within 60 days after the date of death of the employee to receive a life income computed and determined as though the employee had retired on the date of his death under the option 2 plan of retirement, as provided for in this act, and had designated such person as his beneficiary.

Upon reinstatement of a former employee to the service, credit for such past service or for any part thereof shall be granted only upon repayment of the amount

of the separation refund, with interest, from the time of separation; provided this provision shall not apply to service rendered prior to the date that sections 422.01 to 422.23 become effective.

[1919 c 522 s 10; 1925 c 335 s 1; 1933 c 328 s 1; 1947 c 83 s 1; 1955 c 317 s 4; 1957 c 133 s 1] (1442-20)

16508 422.10 **SALARY DEDUCTIONS.** Beginning on the first day of July, 1951, and thereafter throughout the period of employment, there shall be deducted and withheld from the basic salary, pay, or compensation of each employee in the contributing class five percent of such salary, pay, or compensation, except as hereinafter provided.

Employees who are members of and contributing to the retirement fund on the first day of July, 1951, and who at said time are contributing to said fund at a rate of less than five percent, may continue to contribute at said lesser rate. Any such employee may make an application in writing to the retirement board for permission to have the lesser rate of contribution increased to five percent. Such application, when accepted, shall be final and irrevocable.

The retirement board is authorized to increase the percentage rate of contribution to the retirement fund of any employee or employees for the purpose of establishing and maintaining on an actuarial basis a plan of insurance, survivors benefits, or other type of benefit or benefits, the cost of which shall be paid out of such extra percentage so authorized and deducted from the employee's compensation, except as hereinafter provided.

Any plan or plans so established and placed in operation may be amended from time to time, or may be abandoned, but if abandoned, any surplus remaining from the operation of a plan shall be the property of the fund, and shall be credited to the reserve for loss on investment account. Any employee who engages in or has engaged in active service in time of war or other emergency declared by proper authority, in any of the military or naval forces of the state or of the United States, shall receive credit for such period of military service as though actually employed by such city, provided such employee was a member of the contributing class of the retirement fund at the time of entrance into military service. Employees of a public corporation, as defined in subdivision 19, section 422.01, who were in military service prior to the enactment of Laws 1945, Chapter 181, and who returned to the service of such public corporation and subsequently became members of the contributing class of the retirement fund, shall receive credit for such period of military service as though actually employed by such public corporation during such period of military service. Employees on leave of absence or lay-off at time of entrance into military service as herein provided shall be considered employees for the purposes of this chapter.

The retirement board shall determine and compute the amount of the contributions which said employee would have made to such fund if his employment had not been interrupted by such military service. The amount so determined and computed by the retirement board shall constitute an obligation of and be paid by the city, or public corporation, and shall be credited to the contribution account of such employee. In determining the amount of contributions that the employee would have made if he had not entered military service, consideration shall be given to the employment service of employees who did not enter military service with like classification, seniority rights, length of service, and other factors determining probable time of employment.

In the event that such employee becomes separated from the service, except by retirement or death, prior to the expiration of five years subsequent to the date on which he was reinstated as an employee, such contribution may not be withdrawn by said employee, but shall be canceled and credited to the reserve for annuities account of this fund. If an employee returns to the service after being separated as provided herein, credit shall be granted upon payment of the separation refund required by section 422.09. In determining the five year period, there shall be included only time of actual employment.

Every employee to whom this chapter applies, who shall continue in the service after the passage of Laws 1919, Chapter 522, as well as every person to whom this chapter applies who may hereafter be appointed to a position or place, shall be deemed to consent and agree to the deductions made and provided for herein, and payment with such deductions, for service, shall be a full and complete discharge

and acquittance of all claims and demands for all services rendered by such person during the period covered by such payment; except his claim to the benefits to which he may be entitled under the provisions of this chapter.

Any employee who becomes entitled to a retirement allowance and who retires without having paid into the retirement fund the full amount required by this chapter shall have the option of electing to receive such allowance on the basis of the actuarial equivalent of the net balance of debits and credits to his account at the time, or on the basis of the actuarial equivalent of the total credits at date of retirement, initial and successive installments of the allowance to be applied on any indebtedness of such employee to the retirement fund until such indebtedness is paid, any installments so credited to be treated as if actually paid to the annuitant entitled to such allowance.

No employee shall be required to contribute to the retirement fund for a period in excess of 30 years; all contributions made thereafter to this fund shall be voluntary.

Subject to such terms and conditions and to such rules and regulations as the retirement board may adopt, any contributor from time to time may:

(1) Increase or decrease his rate of contribution to the retirement fund, but in no event shall the contribution be less than the minimum contribution specified in the provisions of this chapter.

(2) Withdraw from his individual account in the retirement fund the amount in excess of the minimum accumulation resulting from the deductions specified in the provisions of this chapter.

(3) Withdraw, after having become eligible for service retirement, such part of his net accumulated contributions as shall be in excess of the amount necessary to procure the minimum annuity to which he would be entitled at the expiration of 30 years of service.

**422.11 CREDITS, INDIVIDUAL RECORD.** The city comptroller or other person having supervision of the payment of salaries to employees shall cause the deductions to be withheld from all specific appropriations for the particular salaries or compensation from which the deductions are made and from all allotments out of lump sum appropriations for payments of such salaries or compensation for each fiscal year; and a record of these sums shall be entered to the credit of the various employees from whose salaries deductions have been made. The amount of the deductions shall be deposited with the city treasury and credited to the retirement fund.

At the close of each fiscal year there shall be distributed to each contributing employee in proportion to the accumulated amount then to the credit of said employee as accumulated salary deductions the amount of the income from interest earned on the accumulated funds in possession of the board, after having deducted from the total of such income (1) the amounts otherwise required as interest for various allowances or purposes specified in this chapter and (2) an amount to be set aside to liquidate actual or to amortize prospective losses on investments. The net balance of the interest earnings to be so distributed shall be distributed at the greatest multiple of one-tenth of one percent of the total of all such accumulated amounts from salary deductions. Any excess then remaining from such interest earnings shall be credited to a reserve fund and be added to and distributed with the interest earnings of the next succeeding year. The amount that shall be set aside to liquidate past losses on investments or to create a reserve from which to liquidate future losses shall be such amount as the board may deem necessary for such purpose but not in excess of one mill on the dollar of the gross amount received as interest on the cash and investments in the fund.

At the end of each calendar year and throughout the first 300 months of actual employment there shall be entered to the credit of each employee from whose salary or compensation deductions are made, a credit of \$60 per employee, the accumulated amount of which shall be charged to the municipality and payable by the municipality. It shall be the duty of the proper authorities to levy from time to time a sufficient sum in addition to all other sums to be levied by taxation to meet the liabilities against the municipality created thereby.

**422.12 CITY TREASURER CUSTODIAN OF FUNDS; DEPOSITORIES.** The city treasurer shall be the custodian of the funds created by this chapter.

For the purpose of meeting disbursements for retirement allowances and other payments in excess of the receipts, there may be kept an available fund, not exceeding ten percent of the total amount in the several funds created by this chapter on deposit in any bank in the city, organized under the laws of the state of Minnesota or under the laws of the United States, or with any trust company incorporated under any law of the state of Minnesota; provided the bank or trust company shall furnish adequate security for the funds and that the sum so deposited in any one bank or trust company shall not exceed 25 percent of the paid-up capital and surplus of the bank or trust company.

Except as herein provided, no trustee or any person connected with the retirement board shall have any interest direct or indirect in the gains or profits of any investment made by the retirement board, nor, as such directly or indirectly receive any pay or amoluments for his services. No trustee or person connected with the retirement board directly or indirectly, for himself or as an agent or partner of others, shall borrow any of its funds or deposits or in any manner use the same, except to make such current and necessary payments as are authorized by the board of trustees; nor shall any trustee or person connected with the retirement board become an endorser or surety or become in any manner an obligor, for moneys loaned or borrowed of the retirement board.

[1919 c. 522 s. 13] (1442-23)

**422.13 CITY'S FINANCIAL RESPONSIBILITY; STATEMENT OF REQUIREMENTS; TAX LEVY.** Interest as provided in this chapter and the payment of all pensions, annuities, retirement allowances, refunds, and death benefits granted by the retirement board under the provisions of this chapter are hereby made obligations of the city. All income, interest, and dividends derived from deposits and investments authorized by this chapter shall be placed to the credit of the retirement fund.

Prior to August 31 of each successive year the retirement board shall prepare an itemized statement of its financial requirements from tax revenue for the succeeding fiscal year.

This statement shall include:

1. An estimate of the administrative expense of the retirement board less:
  - (a) Such amount as the board may charge against the interest income account of the fund as cost of handling the investment securities of the fund.
  - (b) The cost of handling the retirement benefits of any city owned public utility, improvement project, or other municipal activities supported in whole or in part by revenues other than taxes.
  - (c) The cost of handling the retirement benefits of any public corporation and its employees operating in and for two or more contiguous cities of the first class who have availed themselves of the provision of this section.
2. An estimated amount not to exceed four percent of the salaries and wages of all employees covered by the retirement fund less any amounts contributed for retirement purposes by any city owned public utility, improvement project, other municipal activities supported in whole or in part by revenues other than taxes, or any public corporation operating in and for two or more contiguous cities of the first class.
3. The estimated amount required for payment of retirement allowances and other benefits from the contingent fund.
4. The total of items 1, 2 and 3 above shall be increased by such part of the actuarial deficit as may be determined by the retirement board or decreased by the surplus of the annuity reserve fund as determined by an actuarial valuation as of the preceding June 30.

A copy of such statement shall be submitted to the board of estimate and taxation and to the city council, or other chief governing body, prior to September 15 of each successive year for their inspection.

The city council or chief governing body or any board or commission may by proper action provide for the inclusion in the cost of operating any city owned public utility and may include in the cost of any improvement project and other municipal activities supported in whole or in part by revenues other than taxes, the cost of the retirement benefits accruing under this act for employees of such

utility or employed on such improvement projects or other activities. Such costs shall be determined by the retirement board and the respective governing bodies having jurisdiction over financing such costs.

The amounts so transferred to the retirement fund shall be deducted from the tax request hereinbefore outlined insofar as such amount shall be applicable to current and accrued requirements. The council or chief governing body is hereby authorized to transfer to the retirement fund all or part of any sums now on hand which have been previously reserved for this purpose.

Except as herein and in the following paragraph set forth, no appropriation shall be made to pay the cost of retirement allowances or other benefits granted to employees of a public corporation now or hereafter created in and for two or more contiguous cities of the first class who have elected to avail themselves of the benefits of this section. The cost of retirement allowance and other benefits inuring to such employees shall be an obligation of and paid by such public corporation. At such time as the retirement board shall fix and determine, such public corporation shall pay to the retirement fund the amount certified to such corporation by the retirement board as the cost of the retirement allowances and other benefits accrued and owing for the employees of such corporation.

Any employee of a public corporation created in and for the two contiguous cities of the first class, the funds of which public corporation are in whole or in part raised by taxation on the property in such cities, who was an employee as herein defined of a city of the first class prior to his employment by such a public corporation, and who was a member of or had accrued benefits in an organized retirement fund of such city, shall be allowed credit in the retirement fund for such employment with a city in the same manner as though he had continued in the service of such city. The cost of that portion of the retirement allowance or other benefits accrued while such employee was in the service of the city shall be an obligation of the city, and a tax shall be levied and collected to discharge such obligation as herein provided.

Any contributor or retired employee who prior to entering the service of a city of the first class was an employee of a public corporation created in and for two or more contiguous cities of the first class shall be allowed credit in the retirement fund for employment by such public corporation in the same manner as though the service had been rendered to such city.

Before receiving credit for service rendered to a public corporation as herein set forth, the contributing or retired employee shall make application therefor in writing to the retirement board, and shall contribute to the retirement fund the amount which would have been contributed had the employee been a contributing member of the fund during the time such service was rendered to the public corporation, plus four percent compound interest to date of payment or date of retirement, such amount to be found and determined by the retirement board.

The retirement board in charge of operating the system is hereby authorized to re-compute the retirement allowance of any retired employee who qualified under the provisions of this act and to pay to the employee the increased pension thereby determined, providing the public corporation which previously employed such employee consents and agrees to pay the cost of the additional benefits gained by such employee as the result of the service rendered to such corporation such additional cost to be paid in the same manner as other benefits are paid for, as provided in Minnesota Statutes, chapter 422, authority being hereby granted to such corporation to pay such cost.

It shall be the duty of the city council or other chief governing body of such city, in addition to all other taxes levied by such city, to annually levy a tax for the purposes set forth in this chapter, and such tax when levied shall be extended upon the county lists and collected and enforced in the same manner as other taxes levied by such city are extended, collected and enforced. The proceeds of such taxes shall be paid into the city treasury to the credit of the retirement fund, which shall constitute and remain a special fund and shall be used only for the payment of obligation created pursuant to the provision of this chapter.

The rate of interest to be used as a basis for calculation, except as otherwise specified, shall be the average rate of interest received from the invested portion of the retirement fund, but not less than the average rate of interest paid by the banks of the city on savings deposits, calculated to the nearest one-fourth percent.

[1919 c 522 s 14; 1945 c 181 s 4; 1955 c 317 s 3; 1957 c 727 s 3] (1442-24)

The employers are hereby authorized to form an association for that purpose. The person first selected shall be chosen to serve for one year from the first of the next succeeding January after his appointment, the second for two years from the first of the next succeeding January after his appointment, after the expiration of which times the respective successors in office shall be appointed to serve for a term of two years, and each shall continue to serve until his successor is duly elected. The first two representatives chosen in any city shall be chosen during the first week of June after this chapter becomes effective therein. Thereafter, such selection shall be made by the employees during the first week of December of each year. Vacancies occurring by death, resignation, or removal of such representative shall be filled by representatives chosen by the employees.

[1919 c. 522 s. 15] (1442-25)

**422.15 RETIREMENT BOARD; TRUSTEE OF FUNDS.** The members of the retirement board shall be the trustees of the several funds created by this chapter, and shall have exclusive control and management of these funds, and shall have power to invest the same, subject to all the terms, conditions, limitations, and restrictions imposed by law upon savings banks in the making and disposing of their investments; and subject to like terms, conditions, limitations, and restrictions, these trustees shall have full power to hold, purchase, sell, assign, transfer, or dispose of any of the securities and investments in which any of the funds created by this chapter shall have been invested as well as the proceeds of the investments, and of the money belonging to these funds, except that any reserve built up from the city's contributions shall be invested in bonds of that city in preference to other bonds paying an equal or a less rate of interest.

The board shall have authority:

- (1) To make such loans and advances of credit and purchases of obligations, representing loans and advances of credit, as are insured by the federal housing administration, and to obtain such insurance;
- (2) To make such loans secured by mortgages on real property, which the federal housing administrator has insured or made a commitment to insure, and to obtain such insurance;
- (3) To enter into any and all agency agreements necessary to enable it to invest its funds in loans, advances of credit, and obligations insured by the federal housing administrator, or which he has made a commitment to insure, and to enter into any agreement or arrangement with any other of the pension and retirement systems of the city of Minneapolis for the joint handling of these securities;
- (4) To provide for the prorating of part or all the cost of making, handling or foreclosing of such mortgages against the earnings of such mortgages and to establish reserve accounts from such earnings to liquidate losses or future losses on such mortgages;
- (5) To employ and dismiss agents, attorneys, appraisers, and others necessary for the proper handling or servicing of such mortgages and to fix their compensation or fee on such basis as it may see fit for such services rendered in connection with such mortgages; and
- (6) To do any and all things necessary to carry out the provisions of this chapter in the best interest of the funds.

The board shall, upon the request of any contributing employee who has borrowed from the retirement fund under the federal housing administration insured mortgage system, provide for the repayment of such loan by deductions from such employee's monthly compensation.

All payments from the funds created by this chapter shall be made by the treasurer of the city only upon warrant signed by the executive secretary, or employee or other person appointed by the retirement board, and no warrant shall be

drawn except by order of the retirement board duly entered in the record of its proceedings, except that the retirement board is hereby authorized and empowered to create a revolving fund in such amount as may be necessary to be used for the purpose of making expenditures for loans authorized under section 422.46; withdrawals from the fund of excess contributions; refunds to employees upon their separation from the service and for such other purposes as may be determined by the retirement board. The revolving fund herein provided for shall be periodically reimbursed by warrant drawn and signed as set forth herein. It shall be kept in the same bank or trust company as the city treasurer keeps other retirement funds. It shall be subject to withdrawal upon check signed by the executive secretary, or employee or other person appointed by the retirement board. The revolving fund shall be considered funds of the city of Minneapolis insofar as it is necessary to bring them within any bond or security furnished by such bank or trust company to protect the city against loss.

The retirement board is hereby authorized and empowered in carrying out the provisions of this chapter to establish special funds supplementing individual contributions by the employees and to receive, invest, and disburse for such purpose all moneys in the form of donations, gifts, legacies, bequests, or otherwise which may be contributed by private individuals or corporations or organizations for the benefit of the city employees generally, or any special employee or class of employees of the city.

[1919 c 522 s 16; 1939 c 66 s 1; 1945 c 49 s 1; 1953 c 139 s 1] (1442-26)

Mortality tables shall be adopted as a basis of calculation for retirement allowances, which tables may be modified from time to time. Pending the action of the retirement board, McClintock's tables shall constitute the basis for all calculations.

The retirement board shall perform such other functions as are required for the execution of the provisions of this chapter.
