It shall be the duty of the department of agriculture and the department of agriculture of the University of Minnesota to cooperate in all ways that may be beneficial to the agricultural interests of the state. It is intended that police and organizational powers in reference to agriculture shall be exercised by the state department of agriculture and that the department of agriculture of the University of Minnesota shall retain its present powers and duties relating to obtaining and disseminating agricultural information and conducting agricultural research, and shall retain custody of scientific collections.

Thereafter such county agent shall compile the answers and data contained in the questionnaires returned to him and shall send to the commissioner a report of such compilation. Subd. 2. **Person.** "Person" means an individual, firm, copartnership, corporation, or association.

Subd. 3. **Farm products.** The term "farm products" means and includes butter, milk, cream, butterfat, cheese, other dairy products, honey, eggs, poultry, and all livestock and products of livestock such as wool, mohair, hides, and meats.

17.15 DISCRIMINATION. Any person engaged in the business of buying any farm products for manufacture or sale thereof, who shall discriminate between different sections, localities, communities, cities, or villages, or between persons in the same community, in this state, by purchasing any farm products at a higher price or rate in one locality or from one person than is paid for farm products of the same kind, quality, and grade by such person in another section, locality, community, city, or village, or than is paid to another person of the same community, after making due allowance for the difference, if any, in the reasonable cost of transportation from the locality of purchase to the locality of manufacture or sale, or who shall fail to deduct reasonable transportation costs from the purchase price paid, or who shall fail to deduct the reasonable costs of hauling when such products are gathered by wagon or truck, or who shall pay or offer to pay in trade or in exchange for goods, wares or merchandise a higher price for such farm products than the cash price paid or offered to be paid for such farm products, shall be deemed guilty of unfair discrimination, which is hereby prohibited and declared to be unlawful. It shall not be unfair discrimination for any person to pay, in any section, locality, community, city, or village, a price equal to that actually paid on the same day by any bona fide competitor in such place for farm products of the same kind and grade, provided such price is paid in good faith effort to meet such competition, and the burden of proving such facts shall be upon the defendant.

If any corporation is adjudged by any court guilty of unfair discrimination as defined by section 17.15, such court may vacate the charter or revoke the authority of such corporation to do business in this state and may permanently enjoin it from transacting business in this state.

[1969 c 1021 s 3]

17.54 ADVISORY BOARDS; MEMBERSHIP; ELECTION; TERM. Subdivision 1. **Creation.** An advisory board is hereby created for the producers of each agricultural commodity who file with the commissioner a petition requesting that the producers of such commodity be subjected to the provisions of sections 17.51 to 17.69, which petition is signed by 1,500 or 15 percent, whichever is less, of the producers of such commodity. Such petition shall be certified by at least two producers to have been signed only by producers of the commodity involved.

Subd. 2. **Membership.** Upon petition of the required number of producers the commissioner shall, after consultation with the various producer or commodity organizations of the particular commodity petitioning for a referendum, determine the size of the board and distribution of the board membership. The advisory board may designate industry and university of Minnesota personnel, either by name or by office, to serve as consultants to the board.

Subd. 3. **Election.** Within 30 days after the filing of the petition by the required number of the producers of an agricultural commodity the commissioner shall appoint a nominating committee of five producers of that commodity who shall, within 60 days from the filing of such petition nominate at least two producer candidates for each advisory board position and certify the names of such nominees to the commissioner. Nominees shall be selected with a view to establishing a fair representation of all producers of the particular commodity throughout the area to be organized which shall comprise the entire state unless the commissioner determines that at least 95 percent of the production of the subject commodity is in a lesser area in which event he shall define such area following county lines. Upon receipt of the nominations the commissioner shall promptly arrange an election to be held at places designated by him reasonably convenient to all producers in the organized area and give at least seven days' notice of such election in legal newspapers having a general circulation in the organized area. Ballots setting forth the names of nominated candidates and providing for write in candidates shall be made available at all polling places. Only producers of the agricultural commodity involved shall be qualified to vote, and polling procedures shall be established to avoid voting by others than qualified producers. An impartial committee appointed by the commissioner shall tabulate the votes and the candidates receiving the most votes shall be

declared elected to the first advisory board. In each calendar year following the one in which the first board is elected candidates shall be selected and an election shall be held to elect a successor or successors to the board member or members whose term or terms expire in that year. Nominations shall be made and the elections shall be held in the same manner as prescribed for the first board except that the choice of nominating committee members, the time of nominations and the time and place of elections shall be fixed by the commissioner with the consent of the board.

Subd. 4. Terms. At the first meeting of the first advisory board the commissioner shall determine by lot one-third of the board members whose terms shall expire June 30 in the calendar year following the year of the first election, one-third of the board members whose terms shall expire June 30 in the second calendar year and the remaining board members whose terms shall expire June 30 in the third calendar year. In the event the commissioner has designated specific areas for representation on the board, the terms of board members in any one area shall not expire in the same year. All elected successor board members shall be elected for three year terms and each shall serve until his successor is elected and qualified. In the event a board member ceases to have any of the qualifications herein established his office shall be deemed vacant. Any interim vacancy on the board shall be filled by the board for the remainder of the term vacated.

Such notice shall include details of the promotional order to afford all producers of the subject commodity access to complete information about the promotional order. The promotional order shall become effective if approved by 55 percent or more of those voting in the referendum, and such order shall be applicable only to those producers of the subject commodity within the area of the state organized pursuant to sections 17.51 to 17.69. 17.711 CITATION. Sections 17.711 to 17.729 shall be known and cited as the "Minnesota fertilizer and soil conditioner law."

[1971 c 638 s 1]

17.712 ENFORCING OFFICIAL. The commissioner of agriculture shall administer sections 17.711 to 17.729.

[1971 c 638 s 2]

17.713 DEFINITIONS. Subdivision 1. When used in sections 17.711 to 17.729 the terms defined in this section have the meanings given them.

Subd. 2. "Brand" means a term, design, or trademark used in connection with one or several grades of commercial fertilizers or with soil conditioner materials.

Subd. 3. "Bulk fertilizer" means any commercial fertilizer material distributed in a nonpackaged form.

Subd. 4. "Commercial fertilizer" includes both mixed fertilizer or fertilizer materials.

Subd. 5. "Distributor" means any person who imports, consigns, manufactures, produces, compounds, mixes, or blends commercial fertilizer, or who offers for sale, sells, barters, or otherwise supplies commercial fertilizer or soil conditioner in this state.

Subd. 6. "Fertilizer material" means any substance containing nitrogen, phosphorus, potassium or any recognized plant food nutrient, or any compound which is used primarily for its plant nutrient content or for compounding mixed fertilizers except unmanipulated animal and vegetable manures.

Subd. 7. "Grade" means the percentage of total nitrogen, available phosphorus or phosphoric acid, and soluble potassium or soluble potash stated in whole numbers in the same terms, order and percentages as in the guaranteed analysis; provided, however, that fertilizer materials, bone meals, manures, and similar raw materials may be guaranteed in fractional units.

Subd. 8. "Guaranteed analysis": (1) Until the commissioner prescribes the alternative form of "guaranteed analysis" in accordance with the provisions of

paragraph 2 of this subdivision, the term "guaranteed analysis" shall mean the percentage of plant nutrient content, if claimed, in the following order:

- (a) Total nitrogen percent
- Available phosphoric acid percent
- Soluble potash percent

(b) For unacidulated mineral phosphatic materials and basic slag, bone, tank-age and other organic phosphate materials, the total phosphoric acid or degree of fineness may also be guaranteed.

(c) Guarantees for plant nutrients other than nitrogen, phosphorus and potas-sium may be permitted or required by regulation of the commissioner. The guar-antees for such other nutrients shall be expressed in the elemental form. The sources of such other elements, oxides, salt, and chelates, may be required to be stated on the application for registration and may be included as a parenthetical statement on the label. Other beneficial substances or compounds, determinable by laboratory methods, also may be guaranteed by permission of the commissioner and with the advice of the director of the agricultural experiment station. When any plant nutrients or other substances or compounds are guaranteed, they shall be subject to inspection and analyses in accord with the methods and regulations prescribed by the commissioner.

(d) Potential basicity or acidity expressed in terms of calcium carbonate equivalent in multiples of 100 pounds per ton, when required by regulation.

(2) When the commissioner finds, after public hearing following due notice, that the requirement for expressing the guaranteed analysis of phosphorus and potassium in elemental form would not impose an economic hardship on distribu-tors and users of fertilizer by reason of conflicting labeling requirements among the states, he may require thereafter that the "guaranteed analysis" shall be in the following form:

- Total nitrogen percent
- Available phosphorus percent
- Soluble potassium percent

The effective date of said regulation shall be not less than one year following the issuance thereof, and provided, further, that for a period of two years fol-lowing the effective date of said regulation the equivalent of phosphorus and potassium may also be shown in the form of phosphoric acid and potash. After the effective date of a regulation issued under the provisions of this section, re-quiring that phosphorus and potassium be shown in the elemental form, the guaranteed analysis for nitrogen, phosphorus, and potassium shall constitute the grade.

Subd. 9. "Guarantor" means the person who is guaranteeing the material to be as stated in the guaranteed analysis statement.

Subd. 10. "Mixed fertilizer" means any combination or mixture of fertilizer material designed for use or claimed to have value in promoting plant growth, with or without inert materials.

Subd. 11. "Mobile mechanical unit" means any portable machine or apparatus used to blend, mix, or manufacture fertilizer materials.

Subd. 12. "Official sample" means any sample of commercial fertilizer or soil conditioner taken by the commissioner or his agent according to methods pre-scribed by sections 17.711 to 17.729.

Subd. 13. "Organic" when applied to fertilizer nutrients refers only to natu-rally occurring substances generally recognized as the hydrogen compounds of car-bon and their derivatives or synthetic products of similar composition whose water insoluble nitrogen content is at least 60 percent of the total nitrogen guaranteed.

Subd. 14. "Percent" or "percentage" means the percentage by weight.

Subd. 15. "Person" includes individuals, partnerships, associations, firms, cor-porations, companies, and societies.

Subd. 16. "Registrant" means the person who registers commercial fertilizer material or soil conditioner under the provisions of sections 17.711 to 17.729.

Subd. 17. "Sell," when applied to commercial fertilizer or soil conditioner, in-cludes:

- (1) The act of selling, transferring ownership;

(2) The offering and exposing for sale, exchange, distribution, giving away, and transportation in, and into, this state;

(3) The possession with intent to sell, exchange, distribute, give away or transport in, and into, this state;

(4) The storing, carrying and handling in aid of traffic therein, whether done in person or through an agent, employee or others; and

(5) Receiving, accepting, and holding of consignment for sale.

Subd. 18. "Small package fertilizer" means fertilizer material sold exclusively in packages of 25 pounds or less.

Subd. 19. "Soil conditioner" means any aggregant or additive or any synthetic organic chemical substances, or chemically or physically modified natural substances, or naturally occurring substance, or manufacturing by-products, mixed or unmixed, which are represented as having a primary function of forming or stabilizing soil aggregants in soil to which it is to be applied and thereby improving the resistance of such soil to the slaking action of water, increasing its water and air permeability, improving the resistance of its surface to crusting, improving its ease of cultivation, or otherwise favorably modifying its structural or physical properties.

Subd. 20. "Specialty fertilizer" means any commercial fertilizer, distributed primarily for use on crops grown for noncommercial purposes such as gardens, lawns, shrubs, golf courses, municipal parks, cemeteries, greenhouses, and nurseries, and may include fertilizers used for research or experimental purposes.

Subd. 3. Application for registration of a small package fertilizer or a specialty fertilizer or a soil conditioner shall be accompanied by a label or label facsimile of each product for which registration is requested.

Subd. 4. The commissioner may require a person applying for a license or registration to manufacture or distribute a product for commercial agricultural use to submit authentic experimental evidence, or university research data, to substantiate the claims made for the product.

Subd. 5. Each registration is effective until January 1 next following the date

of issuance or approval. A product registration shall not be transferrable from one person to another or from the ownership to whom issued to another ownership; or from one location to another location.
