19.19 LICENSES. Subdivision 1. No person shall own, possess, or operate bees without registering his bees with the commissioner. Application for such registration must be filed within 30 days of obtaining possession of bees and equipment. The commissioner shall issue a registration certificate to a person who

makes written application on forms prepared by the commissioner and who pays a registration fee of one dollar and fifty cents. 19.22 COMMISSIONER; POWERS, DUTIES. For the purpose of ascertaining the existence of any bee disease, the commissioner, or any of his authorized employees, may enter upon any private or public premises and shall have access to any apiary. If any of the bee diseases are found to exist in any apiary or in any colony in any apiary, and if the commissioner is of the opinion that such diseases can be controlled by any method, he shall cause the same to be treated. Otherwise the colony or apiary in which such bee diseases are found shall be destroyed by fire. All bee equipment found in any diseased apiary may be destroyed under the direction of the commissioner.

[1951 c 324 s 5; 1957 c 516 s 6]

19.23 CERTIFICATE OF INSPECTION; ISSUANCE, REVOCATION. The commissioner may cause such apiaries to be inspected. When an apiary has been inspected and found to be free from bee diseases, the commissioner shall issue to the owner thereof a certificate of inspection provided all the provisions of this chapter have been complied with by him. Any certificate of inspection and health may be revoked by the commissioner whenever he determines due cause exists therefor.

Such quarantine shall continue until the commissioner declares the same to be free from any such bee diseases. The commissioner may declare any such areas surrounding or adjoining those premises wherein bee diseases are found to exist to be under quarantine as he deems necessary to assist in the control or eradication of bee diseases.

[1951 c 324 s 7; 1957 c 516 s 8]

19.25 SPREAD OF DISEASE, PREVENTION. [1951 c 324 s 8; 1957 c 516 s 9]

19.26 ABANDONED APIARY, NOTICE. If he cannot be located, such notice shall be served on the owner of the land on which the apiary is located. If such apiary continues to be so abandoned for 60 days thereafter, he will seize the apiary and take such further steps as to the sale or destruction thereof as its condition warrants.

A notice specifying the time and place of such auction sale, together with a description of the abandoned apiary, shall be served upon the owner in the manner as provided for the service of process in a civil action at least 10 days prior to such public auction. Any person to whom such an apiary is sold at such public auction shall agree, as a condition of sale, to operate such apiary in a safe and proper manner and in accordance with accepted standards and the regulations of the commissioner. No such abandoned apiary shall be sold at any such public sale to the owner or operator who abandoned and neglected it. Every purchaser at such auction sale shall receive a certificate of purchase signed by the commissioner reciting the description of the apiary purchased and the amount paid therefor.

After deducting the expense of such public sale and the unpaid balance upon all encumbrances or liens existing against the abandoned apiary sold, the balance of the proceeds thereof shall be paid to the owner of the apiary so sold.

Any person keeping bees shall securely close the entrance to any hive, in any apiary in which any bee diseases are found to exist, in which bees have died, so that bees cannot obtain honey therefrom; and such entrance shall remain closed so long as such hives remain in any place where bees may gain access to them.

Before any person transports such bees into this state from any other state or country, he shall obtain from the commissioner, at least 30 days prior to the date of shipment thereof, a permit for such transportation. Immediately upon the arrival of any such bees into this state, the owner thereof shall comply with the provisions of this chapter relating to the registration of bees.
