Any such settlement shall be final and conclusive on all officers of the state, except where procured by fraud. The acceptance by the claimant of any such settlement shall be final and conclusive on the claimant and shall constitute a complete release of any claim against the state and against the employee of the state whose act of omission gave rise to the claim, by reason of the same subject matter.

Only a party to the contract may bring action against the state. The state does not waive immunity with respect to claims of patients or other inmates of state institutions.

Subd. 2. No action shall be maintained unless commenced within 90 days after the plaintiff has been furnished by the state with a final estimate under his contract, or, at the election of the plaintiff, within six months after the work provided for under his contract is completed.

Subd. 3. The action may be brought in the district court of the county in which the cause of action or some part thereof arose, or in the district court of Ramsey county. The action shall be commenced by filing a complaint with the clerk of court, and serving a summons and copy of the complaint upon the attorney general at the state capitol. [1961 c 453 s 4]

3.752 CLAIMS WHICH MAY NOT BE CONSIDERED. Unless specifically referred to it by the legislature, the jurisdiction of the state claims commission shall not extend to any claim:

(1) For loss, damage or destruction of property or for injury or death incurred by any person because of wild animals.

(2) Arising out of any contract to which the provisions of section 161.34, or section 3.751 apply, or any bid or contract negotiation in connection with such contract.

Under its rules the commission shall not be bound by the usual common law or statutory rules of evidence. (2) The clerk shall transmit a copy of the notice to the state agency concerned. If the commission finds that a claim is prima facie within its jurisdiction, it shall order the claim to be placed upon its regular docket for hearing.

(3) The commission shall so conduct the hearing as to disclose all material facts and issues of liability. Any member of the commission may examine or cross-examine witnesses. The commission may call witnesses or require evidence not produced by the parties, may stipulate the questions to be argued by the parties, and may continue the hearing to permit a more complete presentation of the claim.

(4) After the close of the hearing the commission shall consider the claim and shall make a determination thereof within 30 days, if possible.

When a claim does not arise under an appropriation for the current fiscal year, the amount claimed does not exceed \$1,000, the state agency concerned concurs in the claim, and the attorney general approves it as a claim which, in view of the purposes of sections 3.66 to 3.84, should be paid, the commission shall consider the claim informally upon the record submitted. The state agency concerned shall prepare the record of the claim to the extent required by the rules of the commission, and this record shall be filed with the clerk. If the commission determines that the claim should be entered as an approved claim and an award made, it shall so order and shall file its statements with the clerk. If the commission finds that the claim should not be paid, it shall reject the claim.

[1957 c 899 s 12]

3.78 ADVISORY DETERMINATION OF CLAIMS. The governor or the head of a state agency may refer a claim against the state or a state agency to the commission for an advisory determination. The procedure shall be substantially as follows:

(1) The record of the claim, including a full statement of the facts, the contention of claimant, and such other materials as the rules of the commission require, shall be filed with the clerk. The record shall submit specific questions for the commission's consideration.

(2) The clerk shall examine the record and determine whether it is adequate or inadequate under the rules. If he determines that the record is inadequate he shall refer it back to the officer submitting it with the request that it be altered so as to be adequate under the rules. If he determines that the record is adequate he shall place the same on a special docket.

(3) When the claim is reached on the special docket, it shall be considered informally and without hearing. After consideration the commission shall prepare a brief opinion for the information and guidance of the officer submitting the claim. No claimant may appear in connection with the consideration of any such claim.

(4) The opinion shall be filed with the clerk and a copy thereof transmitted to the officer who referred the claim.

An advisory determination does not bar a subsequent consideration of the claim if it is properly submitted by or on behalf of the claimant.

[1957 c 899 s 13]

3.79 CLAIMS NOT WITHIN JURISDICTION. The commission shall not take jurisdiction over a claim which would have been barred by existing statutes of limitation operating against said claim if not brought against the state of Minnesota except as to claim specifically referred to the commission by the legislature. No claim that has been rejected by the legislature shall be considered by the commission unless referred to the commission by the legislature. A claim shall be considered to have been rejected by the legislature if a properly authorized committee of either house of the legislature shall have disapproved said claim by motion properly adopted in such committee.

[1957 c 899 s 14]

3.80. WITNESSES. In all hearings and proceedings before the commission the evidence of witnesses and the production of documentary evidence may be required by issuance of subpoenas. Such subpoenas may be issued by the commission for the appearance at any designated place of hearing. In case of disobedience to a subpoena or other summons the commission may invoke the aid of any district court in requiring the evidence and testimony of witnesses and the production of documentary evidence. Upon proper showing the district court shall issue an order

requiring witnesses to appear before the commission, produce documentary evidence, and give testimony touching the matter in question. A person failing to obey the order may be punished by the district court as for contempt.

3.82 RECORDS OF CLAIMS, RE-EXAMINATION. The complete record of each claim considered by the commission shall be preserved by the clerk and shall be made available to the legislature, or any member thereof, for the re-examination of the claim.

[1957 c 899 s 17]

(2) Claims rejected by the commission, with the reasons therefor.

COMMITTEES ON ETHICS

3.87 PURPOSE. The legislature finds and determines that high moral and ethical standards among public officers and employees in all branches of government are essential to the conduct of free government; that the rule which forbids an agent or trustee to place himself in a position wherein his private interest may conflict with his duty to his principal applies to public service, which is a public trust; and that a need exists to define and regulate the conduct of public officials and employees to eliminate conflicts of interest in public office so as to improve standards of public service and strengthen the faith and confidence of the people of Minnesota in their government; and sections 3.87 to 3.92 shall be liberally construed to effectuate these ends.

[1961 c 558 s 1]

3.88 LEGISLATIVE CODE OF ETHICS, CONTENT. Subdivision 1. The code of legislative ethics shall be:

(a) A legislator or legislative employee should not accept other employment which will impair his independence of judgment in the exercise of his official duties.

(b) A legislator or legislative employee should not directly or indirectly receive or agree to receive any compensation for any services rendered or to be rendered either by himself or another for activity before any state board, commission, or public agency when such activity is in substantial conflict between his personal interest and his duties in the public interest so as to thereby create a possibility of undue influence or wrongful advantage.

(c) A legislator or legislative employee should refrain from acting and a legislator should refrain from voting in any matter where the interest of the public and the interest of the legislator or legislative employee are or may be in conflict.

Subd. 2. Legislative ethics committees in interpreting section 3.88, subdivision 1, shall take into consideration that most legislators and legislative employees must in most instances engage in employment outside of legislative work and in a number of instances maintain investments all of which in themselves are in no way in conflict with the code of ethics herein enunciated.

[1961 c 558 s 2]

Subd. 2. Complaints must be in writing, signed by the person making the complaint under oath. The committee shall initially investigate complaints on a confidential basis, having available all the powers herein provided, and proceedings at this stage shall not be public. He shall have 20 days after service thereof to respond in writing to the complaint and statement.

[*Ex1971 c 31 art 15 s 1*]

3.925 PURPOSE. The legislature of the state of Minnesota expresses concern over the future of elementary and secondary education in this state, its ability to meet the educational needs of the public school students, the professional growth and satisfaction of school staffs, the effectiveness and efficiency of present schools and their learning processes, continuing pupil unit cost escalation and the resulting financial crisis which this brings about. New approaches to the learning process, better utilization of professional staff and community resources, different requirements as to course offerings, course content, grading, graduation and school attendance must be researched and developed. It is believed that revised programs, innovations, new attitudes about learning and the public schools' responsibilities can be effectively achieved if such research and development are performed at the local school level by the school's staff and with involvement by the students and their community. Although funds spent now for such purposes can produce substantial educational and cost benefits in the future, such capital type funds are seldom available within any single school district's budget.

The purpose of the council on quality education is, therefore, to encourage, promote and aid such research and development in elementary and secondary schools, to evaluate the results of such programs and disseminate information about same throughout the state.

To these ends, the council through the state board of education shall establish a venture fund from which grants or loans may be made in accordance with section 3.926. Such grants or loans shall be made in support of research and development programs relating to the problems and objectives heretofore described which shall include but not be limited to:

(1) Effective utilization of community personnel and resources.

(2) Developing model personnel policies and procedures, and new staffing concepts such as differentiated staffing.

(3) Assessment and evaluation of education programs.

(4) Developing a management and unit of instructional objectives design which will provide accountability by relating time and dollars to the amount of learning produced.

- (5) Determining responsibilities to be assumed by the schools exclusively or concurrently with other agencies or individuals.
- (6) Effective dissemination of educational information.
- (7) Developing new knowledge about learning and teaching.
- (8) Developing model educational programs as alternatives to existing educational practices and curricula.
- (9) Model programs and innovations to increase equality of educational opportunities.
- (10) Research and testing of new concepts of educational efficiency, effectiveness and cost benefits.

The council shall not be limited to supporting innovations, programs or procedures supplementary to existing school structures and programs but may assist entirely new schools or concepts such as open schools, informal schools and the like. It is the legislature's intent that any supported program shall hold promise of both educational and cost benefits and that the costs and improvements in learning effectiveness introduced thereby shall be measured and related. The council shall make a report to each session of the legislature concerning all proposals received and the dispositions made thereof by the council and the state board of education.

[Ex1971 c 31 art 15 s 2]

3.926 PROPOSALS. Subdivision 1. **Requirements.** The board of any local school district or any group of such boards may develop a proposal for a grant or loan in support of a research and development program of the kind described in section 3.925. Every such proposal shall include:

- (1) a statement of the objectives of the program, and the procedures for achieving the objectives;
- (2) a description of the evaluation procedures for measuring the effectiveness of the program;
- (3) provision for such fiscal control and fund accounting procedures as are necessary to assure proper disbursement and accounting for funds paid to the applicant;
- (4) provision for administration of the program by the local school district, or in cooperation with other school districts, educational institutions, or local agencies under the supervision of the local school district; and
- (5) a description of the involvement of local school staff, students, and members of the community in planning and implementing the program.

Subd. 2. **Procedure.** Every program proposal shall be submitted to the council created by section 3.924, not less than six months before the planned commencement of the program, except that proposals for programs to commence before April 1, 1972 may be submitted prior to January 1, 1972. The council shall recommend approval or disapproval, or shall modify and then recommend such modification with respect to every proposal submitted to it. The council shall also recommend the amount and type of grant to be made in support of the proposed program in the light of the then currently available moneys in the venture fund, which information shall be provided to the council by the state board of education. The council shall also recommend what rules and regulations, if any, shall be suspended or modified in order to implement the proposal. Only such proposals as are recommended for approval shall be transmitted by the council to the state board, and all such proposals shall be approved and funded from the venture fund by the state board as recommended by the council unless the state board, within 30 days of receipt of a proposal from the council, shall make other disposition of the proposal by formal board action. One half of each grant recommended by the council and funded by the state board may be deemed an interest free loan to be repaid over a five year period.

[Ex1971 c 31 art 15 s 3]

3.927 STATE BOARD AND COMMISSIONER. The state board of education shall develop and promulgate such additional recommendatory guidelines as may be appropriate for the furtherance of sections 3.924 to 3.927 and the development and implementation of the programs contemplated herein, for its benefit and the benefit of the council and applicants. The commissioner of education

shall make available to the council at its request such staff as the council deems necessary to perform its functions. The council may also employ or contract for the services of outside consultants, and as much of the annual appropriation to the state department of education, made by Extra Session Laws 1971, Chapter 31, Article 15, Section 5, as is necessary, shall be made available to the council for this purpose. Members of the council shall be reimbursed for all actual and necessary expenses incurred in the performance of their duties.

In the event of an attack, if the legislature is not then in session, the governor shall convene a special session thereof, as soon as practicable, and in no case later than 30 days following the inception of the attack. If the governor fails to issue such a call, the legislature, on the first Tuesday after the first Monday after the expiration of 30 days following the date of the inception of the attack, shall convene without call at the place where the governor then maintains his official office.

3.96 QUORUM AND VOTE REQUIREMENTS. In the event of an attack the quorum requirement for the legislature shall be a majority of the members of each house who convene for the session. Where the affirmative vote of a specified proportion of members of the legislature would otherwise be required for approval of a bill, resolution, or for any other action, the same proportion of those members of each house convening at the session shall be sufficient.
