#### 116M.01 CITATION.

This chapter may be cited as the Minnesota Energy and Economic Development Authority Act.

**History:** 1984 c 583 s 31,36 subd 2

#### 116M.02 ENERGY AND ECONOMIC DEVELOPMENT AUTHORITY; PURPOSES.

The legislature finds that certain public needs can best be met by the public and private sectors working in close cooperation. Two of the specific areas in which this cooperation is most needed are small business development and energy program management and financing. The energy and economic development authority created by section 116M.06 is the mechanism for cooperation in these two areas. By providing an efficient arrangement to pool financing, personnel, information, and technological knowledge, the authority, as a partnership between the public and private sectors, will promote job creation, business development, and energy policies more effectively than would be the case if these sectors acted independently.

**History:** 1983 c 289 s 62; 1984 c 583 s 36 subd 2

The authority shall utilize the development company program to stimulate the state's economic activity.

The development company and its directors and officers shall comply with the organizational, operational, regulatory, and reporting requirements as promulgated by the United States small business administration and the guidelines contained in the bylaws, articles of incorporation, and standard operating procedure prescribed by the small business administration.

Subd. 2. **Capital, loan limits; membership requirements.** The capital for a certified state development company shall be derived from corporate holders or members, each of whom shall not have more than ten percent of the voting control of the certified state development company. The company shall have a minimum of ten members. Membership shall be, to the greatest extent practicable, in proportion to the population of each economic development region to the total population of the state. The loan limit of each member shall be established at the time of its acceptance as a member and shall be computed on the basis of the financial information contained in or made a part of its application for membership. All loan limits shall be established at the thousand dollar amount nearest the amount computed in accordance with the provisions of the articles of incorporation and this section.

Subd. 3. **Members.** Members shall be representatives of local government, community organizations, financial institutions, and businesses in Minnesota and which, upon application, have been accepted for membership by a majority vote of the members of the board of directors present at any regular or special meeting of the board at which there is a quorum. A "financial institution" is a business organization recognized under Minnesota or federal law as a banking institution, trust company, savings and loan association, insurance company, or a corporation, partnership, foundation or other institution licensed to do business in the state of Minnesota and engaged primarily in lending or investing money.

Subd. 4. **Membership applications.** Applications for membership shall be submitted to the board of directors on forms provided by the corporation and accompanied by additional information as the form may require. Application forms shall provide that if the application is approved, and the applicant accepted for membership by the board of directors prior to withdrawal of the application, the applicant agrees to become a member upon the acceptance and to assume all of the rights and obligations of a member as set forth in the corporation's bylaws, the articles of incorporation, and chapter 301 and sections 116J.58 to 116J.61, 116J.68 to 116J.873, and 116M.02 to 116M.12. Notice of approval or rejection of an application shall be forwarded, by certified or registered United States mail, to the applicant for the attention of the person signing the application, within 15 days following the date upon which the approval or rejection is made. Approval of the application constitutes acceptance of the applicant as a member of the corporation.

Subd. 5. **Officers.** The executive officers of the corporation shall be a president, one or more vice presidents including the executive vice president, a secretary, and a treasurer. None of the officers, except the president, need be directors. One person may hold the offices and perform the duties of any two or more of the offices. The board of directors by majority vote may leave unfilled for any period it may fix any office except that of president, treasurer, or secretary.

**Subd. 6. Energy and economic development authority assistance.** The energy and economic development authority shall make available the professional staff of the energy and economic development authority to provide services to the certified state development company including, but not limited to, accounting, legal and business assistance services. The staff shall have the capability to package, process, close and service loans made through the development company.

**Subd. 7. Reports.** The development company shall submit to the small business administration annual reports on its operation. When requested by the small business administration, interim reports of a similar nature will be provided. The reports shall be provided in accordance with the instructions and attachments set forth by the small business administration. The development company shall comply with all regulations issued under the small business investment act of 1958, as amended, as well as applicable state and federal laws affecting its operation.

**Subd. 8. Revolving fund.** The certified state development company may charge a one time processing fee up to the maximum allowed by the small business administration on a debenture issued for loan purposes. In addition, a fee for servicing loans may be imposed up to the maximum allowed by the small business administration based on the unpaid balance of each debenture. There is created in the state treasury a dedicated fund to receive these fees and into which these fees shall be deposited. Moneys in the dedicated fund are appropriated to the energy and economic development authority to pay the costs of administration of the program, compensate members of the board of directors pursuant to section 15.0575, subdivision 3, and to create and operate a pool of funds for investment in projects which further the purposes of this section.

**History:** 1981 c 356 s 248; 1982 c 641 art 1 s 13; 1983 c 289 s 61,115 subd 1; 1984 c 583 s 36 subd 2; 1984 c 604 s 4

## **116M.06 MINNESOTA ENERGY AND ECONOMIC DEVELOPMENT AUTHORITY.**

**Subdivision 1. Creation; successor status.** The small business finance agency created by Laws 1980, chapter 547, is renamed the Minnesota energy and economic development authority and may act on behalf of the state within the scope of the powers granted to it in this chapter to implement loan programs and to provide financial assistance under the funds by which, the authority alone or in cooperation with cities, towns, counties, and private or public lenders, may provide adequate funds or incentives to financing such as guarantees or insurance on sufficiently favorable terms to assist and encourage the establishment, maintenance, and growth of eligible small businesses or employment opportunities in Minnesota, and to reduce to a manageable level the cost of the control of pollution and disposal of waste resulting from the operations of businesses and to improve the efficiency of energy use by businesses and to encourage businesses to provide a reliable and economic supply of energy for use by the state's households, business establishments, and municipalities, through energy conservation, the production or recovery of energy from alternative or renewable energy resources, or the production of equipment or products which conserve, produce, or recover energy.

The authority so named is the legal successor in all respects of the small business finance agency as originally named and constituted and all bonds, resolutions, contracts, and liabilities of that original agency are the bonds, resolutions, contracts, and liabilities of the authority as so renamed and reconstituted.

Because of its ability to pool or combine loans to be funded from one or more issues of bonds, whether or not the interest on the bonds is exempt from federal income taxes, the authority will be able to spread its financing costs among the

recipients of its financial assistance, thereby reducing the costs to the recipients of the authority's financial assistance.

**Subd. 2. Use of funds.** The authority may use the energy loan insurance fund as provided in section 116M.11. The authority may use the economic development fund in connection with small business loans, pollution control loans, and farm loans to provide financial assistance to eligible small businesses; it may use the economic development fund in connection with business loans when the loans are made as a part of the special assistance program under section 116M.07, subdivision 11; and the authority may use the energy development fund in connection with energy loans to provide financial assistance to businesses; as follows:

(a) to provide loan guarantees or insurance, in whole or in part, to businesses in connection with business loans, small business loans, energy loans, farm loans, or pollution control loans;

(b) to provide direct loans to businesses in connection with business loans, small business loans, energy loans, farm loans, or pollution control loans;

(c) to participate in other investment programs as appropriate under the terms of this chapter and chapters 472 and 474;

(d) to purchase loan packages made to businesses by financial institutions in the state in connection with business loans, small business loans, energy loans, farm loans, or pollution control loans;

(e) to enter into or to pay fees on insurance contracts, letters of credit, municipal bond insurance, surety bonds, or similar obligations and other agreements or contracts with financial institutions or providers of similar services;

(f) to guarantee or insure bonds and notes issued by the authority, in whole or in part;

(g) to make interest subsidy payments on behalf of eligible small businesses to be applied to the payment of interest on bonds or notes of the authority equal to the difference in interest payable on loans and the interest payable on bonds or notes of the authority where the proceeds of these bonds or notes are used to make or participate in making these loans;

(h) for any legal purpose or program of the authority, including without limitation the payment of the cost of issuing authority bonds and notes and authority administrative costs and expenses.

In addition, the authority may use the economic development fund to purchase, lease, or license technology-related products for education or training or to participate in programs where technology-related products are purchased, leased, or licensed.

The authority may create separate accounts within any of the funds for use in accordance with the separate purposes listed in this section and may irrevocably pledge and allocate moneys on deposit in any of the funds to the accounts for the purposes. The authority may make contracts with note and bond holders, trustees for them, financial institutions, or other persons interested in the disposition of moneys in the funds or their accounts with respect to the conditions upon which money in any fund or its accounts is to be held, invested, applied, and disposed of and the use of the fund and its accounts and the termination of accounts. The authority may determine to leverage amounts in accounts to be used to guarantee or insure bonds and notes of the authority or loans to businesses and may covenant as to the rate of leveraging with holders of the authority's bonds and notes or any trustee for them, financial institutions, or other persons. Money in the funds and their accounts shall, consistent with contracts with holders of the authority's bonds and notes or any trustee for them, financial institutions, or other interested persons, be invested in accordance with section 116M.08, subdivision 15, and the investment

income from them, absent contractual provisions to the contrary, shall be added to and retained in the funds or their accounts if provided by the authority. The repayments to the authority of any direct loans made by the authority from money in the funds or their accounts shall be paid by the authority into the particular fund that was used in conjunction with the loan being repaid, or, as provided by the authority, into an account. The authority may collect fees, initially or from time to time, or both, with respect to any direct loan it extends or any insurance or guarantee it grants. The authority may enter into contracts and security instruments with businesses, with bond and note holders or any trustee for them, or financial institutions or other persons to provide for and secure the repayment to the authority of money provided by the authority from the funds or their accounts for direct loans or which have been paid by the authority from the fund or accounts pursuant to an authority guarantee or insurance.

The state covenants with all holders of the authority's bonds and notes, financial institutions, and other persons interested in the disposition of money in the funds or their accounts, which money the authority has irrevocably pledged and allocated for any authorized purpose described in this subdivision, that the state will not take any action to limit the effect of the pledge and allocation and will not take any action to limit the effect of contracts entered into as authorized in this subdivision with respect to the pledge and allocation and will not limit or alter the rights vested in the authority or the state to administer the application of money pursuant to the pledge and allocation and to perform its obligations under the contracts. The authority may include and recite this covenant of the state in any of its bonds or notes benefitting from the pledge and allocation or contracts or related documents or resolutions.

**Subd. 3. Economic development funds; preferences.** (a) The following eligible small businesses have preference among all business applicants for financial assistance from the economic development fund:

(1) businesses located in areas of the state that are experiencing the most severe unemployment rates in the state;

(2) businesses that are likely to expand and provide additional permanent employment;

(3) businesses located in border communities that experience a competitive disadvantage due to location;

(4) businesses that have been unable to obtain traditional financial assistance due to a disadvantageous location, minority ownership, or other factors rather than due to the business having been considered a poor financial risk;

(5) businesses that utilize state resources, thereby reducing state dependence on outside resources, and that produce products or services consistent with the long-term social and economic needs of the state;

(6) businesses located in designated enterprise zones, as described in section 273.1312, subdivision 4; and

(7) business located in federally designated economically distressed areas.

(b) Except in connection with the issuance of authority bonds or notes, the authority may not invest the funds in a program that does not have financial participation from the private sector, as determined by the authority.

**Subd. 4. Creation of economic development fund.** There is created the economic development fund to be administered by the authority. All money in the fund is appropriated to the authority to accomplish the authority's purposes.

The money in the economic development fund must be used as provided in this chapter and chapters 472 and 474, to provide financial assistance to businesses, eligible small businesses, targeted small businesses, and farm businesses. This

financial assistance includes business loans, pollution control loans, small business loans, and farm loans and the purchasing, leasing, or licensing of technology-related products or rights to the products.

**Subd. 5. Waste tire recycling account.** There is created within the economic development fund a waste tire recycling account for the purpose of making waste tire recycling loans and grants.

**Subd. 6. Public purposes.** This chapter is enacted to promote the welfare and prosperity of the state by maintaining and increasing the career and job opportunities of its citizens; by reducing, controlling, and preventing environmental pollution and waste of energy and other resources; and by protecting and enhancing the tax base on which state and local governments depend for the financing of public services.

**Subd. 7.** Neither the state nor any other agency or political subdivision of the state shall be liable on any bond, note or other obligation of the authority, and no bond, note, or other obligation of the authority shall constitute a debt or loan of credit of the state or any political subdivision or any individual member of the authority.

**Subd. 8.** The state pledges and agrees with all holders of obligations of the authority that it will not limit or alter the rights vested in the authority to fulfill their terms, and will not in any way impair the rights or remedies of the holders, until all of the obligations and interest on them, with interest on any unpaid installments of interest and all costs and expenses in connection with any action or proceeding by or on behalf of such holders to enforce the payment and other provisions of the obligations, are fully met and discharged. The authority is authorized to include and recite this pledge and agreement of the state in any obligation or related document.

**Subd. 9.** The provisions of this section do not affect the power of the state to supervise and control the authority or to discontinue its operation or alter its organization, programs or activities or transfer its powers to a successor agency, provided that the action of the state is consistent with the provisions of subdivision 4 and that title to all property then owned by the authority will remain or vest in the agency, its successor or the state, as the case may be.

**Subd. 10.** The property of the authority and its income and operation shall be exempt from all taxation by the state or any of its political subdivisions.

**Subd. 11. Membership.** The members and governing body of the authority shall be the commissioner and ten other members appointed by the governor. The governor shall designate the chairman from among the members. The board shall elect a secretary and other officers as it deems fit from among its members. On July 1, 1983, the governor shall have authority to appoint new members. The terms of the current members shall expire, respectively, when they are replaced and new members are appointed by the governor and qualified. Section 15.0575 governs the terms, compensation, removal and filling of vacancies in the offices of members other than the commissioner.

**Subd. 12. Exercise of powers.** The powers of the authority are vested in the members. A majority of the members, excluding vacant memberships, is a quorum. When a quorum is present at any meeting of which notice has been given to or waived by all absent members in the manner provided in bylaws adopted by the vote of a majority of all members, any action of the authority may be taken by the vote of a majority of the members present. Fewer than a quorum may hear reports and adjourn from time to time.

**Subd. 13. Staffing.** The commissioner shall appoint permanent and temporary employees necessary for the administration of the authority. The commissioner may enter into agreements under which staff from private corporations, agencies, or

In connection with a loan to a lender, the authority may adopt a plan for the various loan-to-lender programs it may determine to pursue. In connection with a loan-to-lender program, in addition to any other powers the authority has, the authority has the following powers:

(a) The authority may limit the type of loan to be included within a loan-to-lender program and may specify the necessary characteristics of loans to be included in the program.

(d) The authority may make loans and commitments for loans-to-lenders.

(e) The authority may require that no loan or interest in a loan purchased from a lender is eligible for purchase or commitment to purchase by the authority unless, at or before the time of transfer of the loan to the authority, the lender certifies that in its judgment the loan would in all respects be a prudent investment at the purchase price paid.

(f) The authority may require, as a condition of a loan to a lender, that the lender invests the proceeds of the loan to a lender in loans of a given type, nature, and purpose and upon the terms and conditions and secured as the authority may require.

(g) The authority may require, as a condition of purchase or commitment to purchase loans or interest in loans, that these loans are made upon the terms and conditions and secured as the authority may require, and that the proceeds of the purchase, or their equivalent, be invested in loans upon the terms and conditions and secured as the authority may require.

(h) In conjunction with the purchase of these loans or interest in these loans from lenders, the authority may require the lender to furnish collateral security in an amount as the authority shall determine to be necessary to assure the payment of these loans and interest in these loans as the loans become due. This collateral security may consist of obligations, mortgages, or security interests satisfactory to the authority.

(i) The authority may require that each loan to a lender is a general obligation of the lender and may be additionally secured as to payment of both principal and interest by a pledge of and lien upon collateral security in an amount and of the types as the authority determines to be necessary to assure the payment of these loans and the interest on these loans as the loans become due and payable.

(j) Subject to any agreement with holders of bonds, the authority may collect, enforce the collection of, and foreclose on any collateral required by (h) and (i) of this subdivision and acquire or take possession of the collateral and sell it at public or private sale, with or without public bidding, and otherwise deal with the collateral as may be necessary to protect the interest of the authority in the collateral.

(k) In addition to the other powers granted by (j), the authority may, with respect to loan purchases and loans-to-lenders, collect and pay reasonable fees and charges and establish the terms and conditions of loan purchases and loans-to-lenders, including, without limitation, terms and conditions as to:

(1) reinvestment and commitments to reinvest by lenders of the proceeds of loan purchase or loans;

(2) the type, term, interest rate, purchase price, and conditions of loans to be purchased by the authority and of loans to be made by lenders;

(8) other matters related to the purchases of loans and loans-to-lenders deemed necessary by the authority to accomplish the purposes of this subdivision.

(l) The authority may require in the case of a lender that any required collateral is lodged with a bank or trust company, located either within or outside the state, designated by the authority as custodian for the collateral. In the absence of this requirement, the authority may require that each lender enters into an agreement with the authority, that contains provisions as the authority deems necessary to identify, maintain, and service the collateral, and that provides that the lender holds the collateral as trustee for the benefit of the authority and is held accountable as the trustee of an express trust for the application and disposition of the collateral, including the income and proceeds from the collateral, solely for the uses and purposes as provided in the agreement. A copy of the agreement and any revisions or supplements to it, which revisions or supplements may, among other things, add to, delete from, or substitute items of collateral pledged by the agreement, must be filed with the secretary of state to perfect the security interest of the authority in the collateral. No filing, recording, possession, or other action under article 9 of the uniform commercial code, or any other law of this state may be required to perfect the security interest of the authority in the collateral. The security interest of the authority in the collateral is deemed perfected, and the trust for the benefit of the authority so created is binding on and after the time of the filing with the secretary of state against all parties having prior unperfected or subsequent security interests or claims of any kind in tort, in contract, or otherwise against the lender. The authority may also establish additional requirements as it deems necessary with respect to the pledging, assigning, setting aside, or holding of collateral and the making of substitutions for the collateral or additions to the collateral and the disposition of income and receipts from the collateral.
