

CHAPTER 239

WEIGHTS, MEASURES

239.33 Standard measurement of wood.

239.33 STANDARD MEASUREMENT OF WOOD.

In all contracts for sale of wood the term "cord" shall mean 128 cubic feet of wood, in four foot lengths; and if the sale is of "sawed wood," a cord shall mean 110 cubic feet when ranked, or 160 cubic feet when thrown irregularly or loosely into a conveyance for delivery to the purchaser; and if the sale is of "sawed and split wood," a cord shall mean 120 cubic feet, when ranked, and 175 cubic feet when thrown irregularly and loosely into a conveyance for delivery. If a measurement is made by weight, the term "cord" or any other term used to describe freshly cut green aspen in 100 inch or pole lengths containing $133\frac{1}{3}$ cubic feet of loosely or irregularly piled wood for transportation constitutes 4,300 pounds during the period of May 1 through October 31 and 4,500 pounds during the period of November 1 through April 30. Specified weights are based on 74 cubic feet of solid wood content per cord.
