

CHAPTER 480

SUPREME COURT

480.235 Trial court information system.

480.235 TRIAL COURT INFORMATION SYSTEM.

The cost of operating the trial court information system in a judicial district must be shared between the state and the participating counties of a judicial district. The state share of operating costs is limited to the following categories: computer and terminal equipment hardware, computer and terminal equipment maintenance, software acquisition and maintenance, durable supplies, communications equipment acquisition and maintenance, data communications, and new judicial district systems personnel. The participating counties of a judicial district must pay all other operating costs, including but not limited to: space rental for computer equipment, utilities, consumable supplies, postage, off-site computer disk file storage, and all personnel-related expenses, other than salaries and fringe benefits for judicial district systems personnel.
