168C.01 POLICY STATEMENT.

The legislature of the state of Minnesota finds that the use of bicycles as a means of travel and recreation embodying physical, environmental and social benefits is already recognized by many people in the state, and will be further encouraged given the opportunity for safe, convenient and pleasant bicycle travel. The legislature further finds that dependence on the private automobile must be reduced, particularly in the light of an energy shortage and encouragement of increased bicycle usage by the provision and maintenance of bikeways and with the addition of some traffic laws designed for the orderly integration of bicycles into traffic systems, is a way of reducing this dependence. However, the growth in popularity of the bicycle as a mode of transportation and as a recreational vehicle has led to an increase in the number of bicycle thefts. To more effectively deal with the problems associated with theft and to aid in the recovery of stolen bicycles, a statewide bicycle registration system is hereby created.
