

INDEX

The index to Minnesota Statutes 1987 Supplement includes references to general and permanent laws passed in the 1987 Regular Session and the 1987 First Special Session. References in the index are to statutory section numbers.

For newly enacted statutory sections, the index coverage is complete. For amended statutory sections, a reference is included only if the existing references in the volume 10 index are inadequate to cover the amendments. Therefore, it is suggested that the user always begin an index search with the volume 10 index.

See the User's Guide on page 599 of volume 10 for more information about the use of this index.
