**299F.01 FIRE MARSHAL.**

Subdivision 1. All the powers and duties now vested in or imposed upon the commissioner of commerce as ex officio state fire marshal as prescribed in Minnesota Statutes, chapters 73, 74, 75, 76, and any other law, are hereby transferred to, vested in, and imposed upon the commissioner of public safety. The duties and responsibilities of the commissioner of commerce as ex officio state fire marshal as heretofore constituted are abolished.

Subd. 2. A division in the department of public safety to be known as the division

of fire marshal is hereby created, under the supervision and control of the state fire marshal, to whom shall be assigned the duties and responsibilities described in this section. The commissioner may place the fire marshal's position in the unclassified service if the position meets the criteria of section 43A.08, subdivision 1a.

Subd. 3. Upon the effective date of this act, the individual occupying the position of assistant commissioner, fire marshal division, shall retain such position for a period of at least 12 months, or until removed for cause.

**History:** 1969 c 1129 art 1 s 2; 1982 c 560 s 55; 1983 c 289 s 114 subd 1; 1984 c 655 art 1 s 92

## **299F.011 UNIFORM FIRE CODE; ADOPTION.**

Subdivision 1. The commissioner of public safety through the division of fire marshal may promulgate a uniform fire code and make amendments thereto in accordance with the administrative procedure act in chapter 14. The code and its amendments shall conform insofar as practicable to model fire codes generally accepted and in use throughout the United States, with consideration given to existing statewide specialty codes presently in use in the state of Minnesota. Statewide specialty codes and model codes with necessary modifications may be adopted by reference in accordance with section 14.07, subdivision 4.

Subd. 2. [Repealed, 1981 c 106 s 16]

Subd. 3. The commissioner shall adopt rules as may be necessary to administer and enforce the code, specifically including but not limited to rules for inspection of buildings and other structures covered by the code and conforming the code to the governmental organization of Minnesota state agencies, political subdivisions and local governments.

Subd. 4. The uniform fire code shall be applicable throughout the state and in all political subdivisions and municipalities therein. However, nothing in this subdivision shall prohibit a local unit of government otherwise authorized by law from adopting or enforcing any ordinance or regulation which specifies requirements equal to, in addition to, or more stringent than the requirements of the uniform fire code. Any ordinance or regulation adopted by a local unit which differs from the uniform fire code must be directly related to the safeguarding of life and property from the hazards of fire, must be uniform for each class or kind of building covered, and may not exceed the applicable requirements of the uniform building code adopted pursuant to sections 16B.59 to 16B.73.

Subd. 4a. **Family or group family day care home regulation.** Notwithstanding any contrary provision of this section, the fire marshal shall not adopt or enforce a rule:

- (1) establishing staff ratios, age distribution requirements, and limitations on the number of children in care;
- (2) regulating the means of egress from family or group family day care homes in addition to the egress rules that apply to the home as a single family dwelling; or
- (3) confining family or group family day care home activities to the floor of exit discharge.

For purposes of this subdivision, "family or group family day care home" means a single family dwelling in which the day care provider: (1) resides as a member of the household; and (2) provides the services referred to in section 245A.02, subdivision 5, to one or more persons.

Nothing in this subdivision prohibits the department of human services from adopting or enforcing rules regulating day care, including the subjects in subdivision 4a, clauses (1) and (3). The department may not, however, adopt or enforce a rule stricter than subdivision 4a, clause (2).

The department of human services may by rule adopt procedures for requesting the state fire marshal or a local fire marshal to conduct an inspection of day care homes to ensure compliance with state or local fire codes.

Subd. 4b. The uniform fire code shall not require stairways of existing multiple dwelling buildings of two stories or less to be enclosed. For the purposes of this subdivision the term "stories" has the meaning given it in the state building code.

Subd. 5. **Appeal policy.** Upon application, the state fire marshal may grant variances from the minimum requirements specified in the code if there is substantial compliance with the provisions of the code, the safety of the public and occupants of such building will not be jeopardized, and undue hardship will result to the applicant unless such variance is granted. No appeal to the state fire marshal for a variance from the uniform fire code shall be accepted until the applicant has first made application to the local governing body and the local unit has acted on the application. The state fire marshal shall consider the decision of the local governing body. Any person aggrieved by a decision made by the fire marshal under this subdivision may proceed before the fire marshal as with a contested case in accordance with the administrative procedure act.

Subd. 5a. **Local board of appeal.** Local governing bodies may appoint boards of appeal to hear and rule on appeals from orders issued under the fire code. An appeal from a local board of appeal may be made to the local governing body. If a board of appeal is not appointed, the appeals of orders must be made directly to the governing body. Local boards of appeal and governing bodies are not liable for damages in connection with granting variances, abateements, denials, or modifications of orders from the fire code that are made in good faith.

Subd. 5b. When considering appeals for variances from the fire code, the local appeal board or governing body, the state fire marshal, a state administrative law judge, and a court shall take into consideration the benefit to be obtained by complying with the fire marshal's orders and the effect on affordable housing, provided that the spirit of the code is complied with and public safety secured.

Subd. 6. A person who violates a provision of the uniform fire code shall be guilty of a misdemeanor. No person shall be convicted for violating the uniform fire code unless the person shall have been given notice of the violation in writing and reasonable time to comply. The notice must contain a statement explaining the right to appeal the orders.

## 299F.015 USE OF WASTE OIL BURNERS.

Subdivision 1. **Definitions.** For the purposes of this section, the following terms shall have the meanings given:

(a) "Waste oil" means a refined oil which has been used for the lubrication of an internal combustion engine or in a similar crankcase application or other applications in connection with motor vehicles and has been contaminated by impurities as a result of that use.

(b) "Approved waste oil burner" means a device designed to burn waste oil for heating purposes, which is found by a recognized independent testing laboratory to provide a degree of safety substantially equivalent to other devices approved for similar purposes under the uniform fire code or state building code.

Subd. 2. **Burners permitted.** Notwithstanding any contrary provision of sections 16B.59 to 16B.73 or 299F.011, or any rule adopted under those sections, the state fire marshal, the state building inspector, and political subdivisions may permit the installation and use of approved waste oil burners in gasoline service stations or commercial garages.

Subd. 3. **Limitations.** No person shall burn any waste oil in an approved waste oil burner if the waste oil does not conform with the specifications contained in rules of the pollution control agency adopted under section 116.07.

Subd. 2. The investigation shall be begun within two days of the occurrence of the fire and the state fire marshal shall have the right to coordinate the investigation on deeming it necessary.

Subd. 3. The officer making investigation of fires occurring in cities, statutory cities and towns shall forthwith notify the state fire marshal and shall, within one week of the occurrence of the fire, furnish to the state fire marshal a written statement of all the facts relating to the cause and origin of the fire and such further information as may be called for by the blanks furnished by the state fire marshal. ## **299F.05 EVIDENCE, TAKING OF.**

The superintendent shall cooperate with the fire marshal and local officials in further investigating the reported incident in a manner which may include supervising and directing the subsequent criminal investigation, and taking the testimony on oath of all persons supposed to be cognizant of any facts relating to the matter under investigation. If the superintendent believes that there is evidence sufficient to charge any person with a violation of sections 609.561 to 609.576, or of any other crime in connection with an investigated fire, the superintendent shall arrest or cause the person to be arrested and charged with the offense and furnish to the proper prosecuting attorney all relevant evidence, together with the copy of all names of witnesses and all the information obtained by the superintendent or the state fire marshal, including a copy of all pertinent and material testimony taken in the case.

Subd. 2. **Information systems.** The state fire marshal and the superintendent of the bureau of criminal apprehension shall maintain a record of arrests, charges filed,

The content shall include fire scene investigation and preservation of evidence, interviewing of witnesses and suspects, constitutional limits on interrogation by sworn and nonsworn officers, and other topics deemed necessary to successful criminal investigation.

**Subd. 2. Training program; locations, instructors.** The superintendent of the bureau of criminal apprehension shall provide courses at convenient locations in the state for training firefighters and peace officers in the conduct of investigations following the occurrence of a fire. For this purpose, the superintendent may use the services and employees of the bureau, the state fire marshal, and the attorney general. In addition, after consultation with the state fire marshal, the superintendent is authorized to engage part time instructors necessary and proper to furnish the best possible instruction, subject to the limitation of funds appropriated and available for expenditure. Laws 1981, chapter 210, sections 1 to 48 shall not apply to the part time instructors.

**Subd. 3. In-service training.** The state fire marshal and the superintendent of the bureau of criminal apprehension, in cooperation with the Minnesota board of peace officer standards and training, shall encourage the establishment of in-service and refresher training for firefighters and peace officers through schools administered by the state, county, school district, municipality, or joint or contractual combinations thereof. Volunteer firefighters from a political subdivision shall be reimbursed at the rate of \$35 per day plus expenses incurred in attending fire investigation training courses offered by the bureau. Reimbursement shall be made only in the event that both a peace officer and a firefighter from the same political subdivision attend the same training course. ## 299F.06 TESTIMONIAL POWERS.

Subdivision 1. **Attendance of witnesses.** In order to establish if reasonable grounds exist to believe that a violation of sections 609.561 to 609.576, has occurred, or to determine compliance with the uniform fire code or corrective orders issued thereunder, the state fire marshal, chief assistant fire marshal, and deputy state fire marshals, shall each have the power in any county of the state to summon and compel the attendance of witnesses before them, or either of them, to testify and may require the production of any book, paper, or document deemed pertinent thereto by them, or either of them. The summons shall be served in the same manner and have the same effect as subpoenas from district courts. All witnesses shall receive the same compensation as is paid to witnesses in district courts, which shall be paid out of the fire marshal fund upon vouchers signed by the state fire marshal, chief assistant fire marshal, or deputy fire marshal before whom any witnesses shall have attended and this officer shall, at the close of the investigation wherein the witness was subpoenaed, certify to the attendance and mileage of the witness, which certificate shall be filed in the office of the state fire marshal. All investigations held by or under the direction of the state fire marshal, or any subordinate, may in the state fire marshal's discretion be private and persons other than those required to be present by the provisions of this chapter may be excluded from the place where the investigation is held, and witnesses may be

kept separate and apart from each other and not allowed to communicate with each other until they have been examined.

**Subd. 2. Oaths administered.** The state fire marshal, chief assistant state fire marshal, and deputy state fire marshals are each hereby authorized and empowered to administer oaths and affirmations to any persons appearing as witnesses before them; and false swearing in any matter or proceeding aforesaid shall be deemed perjury and punished as such.

**Subd. 3. #### **299F.08 PREMISES, WHEN ENTERED.**

**Subdivision 1. Immediate entry.** In the performance of the duties imposed by the provisions of this chapter, the state fire marshal and subordinates, during and within a reasonable time after a fire has been extinguished, may enter any building or premises where a fire has occurred and other buildings and premises adjoining or near thereto to investigate and gather evidence. In determining whether a search is reasonable within the meaning of this subdivision, the need for investigatory search for the cause of the fire shall be balanced against the privacy rights of the occupant or owner of the building or premises.

**Subd. 2. Administrative search warrant.** After the reasonable time prescribed by subdivision 1 for an investigatory search has expired, subsequent entries to the building or premises to investigate and gather evidence may be made only if there is consent from the owner or occupant of the building or premises or pursuant to an administrative search warrant issued by a judge.

In determining whether to issue an administrative search warrant for the purposes of this subdivision, the judge, in conforming the decision to constitutional doctrine governing warrant procedures for administrative searches, shall consider but not be limited to the following factors:

- (a) Scope of the proposed search;
- (b) Number of prior entries by fire officials;
- (c) Time of day when the search is proposed to be made;
- (d) Lapse of time since the fire;
- (e) Continued use of the building; and
- (f) The owner's or occupant's efforts to secure the building against intruders.

**Subd. 3. Criminal search warrant.** If during the course of an investigatory search under an administrative search warrant issued in accordance with subdivision 2, the fire marshal or subordinates find probable cause to believe arson has occurred and

require further access to the building or premises to gather evidence for possible prosecution, a criminal search warrant must be obtained from a judge.

**Subd. 4. Securing the scene.** In order to prevent the loss, destruction, or alteration of evidence at a fire scene, fire officials may secure fire scenes for up to 48 hours after having extinguished the fire while warrants are obtained or while the investigation authorized in this section is conducted. Fire scene security may be accomplished by preventing any person from entering the fire scene or from removing property from the fire scene. An individual may enter the fire scene if accompanied by the fire official conducting the investigation, or if the individual obtains the fire official's written permission. Persons not complying with the fire security measures under this subdivision are guilty of obstructing legal process as defined in section 609.50. Nothing in this subdivision shall be construed to increase the civil liability of fire officials or to decrease municipal or state immunities as set forth in section 3.736 or 466.03.

As soon as practicable after disclosure of nonpublic data is made by emergency response personnel, the circumstances necessitating the disclosure and the actual or estimated extent of the disclosure must be described in writing by the personnel and provided to the employer.

Subd. 2. **Classified information.** When the notification required in section 299F.094 involves classified information, the employer shall, without revealing the classified information, attempt to provide the local fire department with that information necessary to protect the department, emergency response personnel, and the public in an emergency. The employer is also responsible for requesting changes in the classification of classified information or declassification of that material when it is considered necessary by a local fire department in advance of an emergency to protect emergency response personnel or the public. An employer is not required to reveal classified information, except in an emergency, without prior governmental approval, and in an emergency, an employer shall disclose to emergency response personnel appropriate elements of classified information that are reasonably necessary to protect human life. An employer may choose to make classified information available to the local fire department or emergency response personnel if necessary for emergency preplanning purposes. In those cases, classified information (1) may be made available to a local fire department or emergency response personnel only after it has been demonstrated that the personnel intended to have access to the classified information

meet access requirements applicable to the facilities and to personnel having access to classified information, and (2) must be protected from disclosure by the local fire department and emergency response personnel in accordance with applicable rules and statutes.

## **299F.10 BUILDINGS REPAIRED OR TORN DOWN, ENTRANCE TO.**

The state fire marshal may condemn, and by order direct the destruction, repair,

or alteration of, any building or structure which, by reason of age, dilapidated condition, defective chimneys, defective electric wiring, gas connections, heating apparatus, or other defect is especially liable to fire and which building or structure in the judgment of the state fire marshal, is so situated as to endanger life or limb or other buildings or property in the vicinity. In case the order requires the repair of a building, the owner, lessee, or other person upon whom rests the duty to keep the structure in repair and upon whom the order is served shall make such repairs as thereby directed and the order may direct that the structure be closed and not further used or occupied until the repairs are made. Any person who shall willfully disobey the order directing the closing of the building pending the making of these repairs shall be guilty of a misdemeanor.

**History:** (5961) 1913 c 564 s 12; 1917 c 469 s 1

#### **299F.11 STRUCTURES REPAIRED OR DEMOLISHED.**

Subdivision 1. The state fire marshal is hereby authorized to petition the district court of any county for an order of condemnation directing the destruction, repair, or alteration of any building or structure located on land owned by, or on land held in trust by, the state which is especially liable to fire and dangerous to life and limb within the purview of the provisions of section 299F.10. In case the petition is for an order requiring repairs, the person authorized by law to make the repairs and upon whom the order is served, shall make these repairs as thereby directed and the order may direct that the building or structure be closed and not further used or occupied until the repairs are made. Upon the filing of the petition with the district court wherein any such building or structure is located, the court shall make a temporary order directing the state fire marshal to serve a copy of the petition and a copy of the temporary order upon the commissioner of revenue and the county board of the county wherein the lands are situated; and, if the lands are situated in a city of the first class, then upon the assessor of this city of the first class, within such time as may be fixed by the court in its order. If, within 20 days, no objections are filed to the petition by the parties so served, the court may require the state fire marshal to present sufficient proof to sustain the allegations set forth in the petition, and thereupon the court may or may not, as the case may require, make an order of condemnation and direct the state fire marshal to proceed with the destruction of the building or structure; but if objections are filed and a copy of the objections have been duly served upon the state fire marshal within 20 days of the service of the copy of the temporary order and copy of the petition hereinbefore referred to, the court upon application by the state fire marshal shall make its order fixing the time and place for hearing of the matter, which place may be at any convenient point, at any general or special term, or out of the term, or in chambers, within the judicial district where the lands are situated, and which time shall be within ten days from the date of the filing of the objections or as soon thereafter as may be. If upon the hearing the petition shall be sustained, the court shall issue an order of condemnation and fix the time within which the building or structure shall be destroyed, repaired, or altered in compliance with the order and that upon failure of the proper person or persons to comply with the order the state fire marshal shall proceed with the destruction thereof. If upon the hearing the petition of the state fire marshal is not sustained, the court shall deny the petition.

Subd. 2. In all cases where the order of the court has not been complied with and the state fire marshal is authorized to proceed with the demolition of any building or structure, the state fire marshal shall sell and dispose of the salvage materials therefrom at public auction upon three days posted notice and all expenses incurred by the state fire marshal shall be paid out of the moneys received from the auction of salvage material, and any deficit remaining unpaid thereafter may be paid out of the funds created by and provided for in section 299F.21. Should any surplus remain of the amount received for salvage material, after deducting the expenses incurred by the state fire marshal, this surplus shall be paid to the treasurer of the county where the property was situated to be distributed by the treasurer as provided by law.

**299F.12 EXITS OPENED, ORDER.**

When the state fire marshal upon inspection shall find a building of such construction and use that the exits and means of egress already provided do not afford reasonably safe escape in case of fire for the number of people customarily within the state fire marshal may order such exits to be opened and such means of escape to be provided as are judged reasonably necessary to eliminate the danger arising therefrom.

**History:** (5962) 1913 c 564 s 12; 1917 c 469 s 1; 1986 c 444

**299F.13 ORDER TO BE IN WRITING.**

**299F.14 NOTICE, SERVICE.**

A copy of the order filed in accordance with section 299F.13, together with a written notice that the same has been so filed and will be put in force unless the owner or occupying tenant shall file with the clerk of the court any objections and answer thereto within the time specified in section 299F.15, shall be served upon the owner of the building or structure so directed to be altered, repaired, or demolished; and, if there be a tenant occupying the building, then also upon this occupant. Service shall be made upon the owner and occupying tenant, if there be one, personally, either within or without the state. It shall be deemed a personal service of the order and notice if the copy thereof be left at the house of the usual abode of the person to be served, with some person of suitable age and discretion then residing therein. If the whereabouts of the owner is unknown and the same cannot be ascertained by the state fire marshal in the exercise of reasonable diligence, then, upon the state fire marshal's filing in the office of the court administrator of the district court an affidavit to this effect, service of the notice upon the owner may be made by publishing the same once in each week for three successive weeks in a newspaper printed and published in the county in which the building or structure is located and by posting a copy thereof in a conspicuous place upon the building or structure, and the service so made shall be deemed to be complete upon the expiration of the publication period. Proof of service of the notice shall be filed in the office of the court administrator of the district court not less than five days before the filing of a motion for an order affirming the state fire marshal's order of condemnation in case of default as provided for by section 299F.15, or in case written objections are filed and served, not less than five days before the time fixed for the hearing provided for by section 299F.16.

**History:** (5964) 1913 c 564 s 14; 1917 c 469 s 1; 1947 c 417 s 1; 1986 c 444; 1Sp1986 c 3 art 1 s 82

**299F.15 WRITTEN OBJECTIONS FILED BY OWNER.**

The owner of any building or structure so condemned, or any occupying tenant upon whom the notice and order are served, within 20 days from the date of the service, as herein provided, may file with the court administrator of the district court and serve upon the state fire marshal, either personally or by certified mail, written objections to the order in the form of an answer denying the existence of any of the facts therein recited which the owner desires to controvert. If no answer is so filed and served, the owner and all other persons in interest shall be deemed to be in default and thereupon the court shall affirm the order of condemnation and direct the state fire marshal to proceed with the enforcement thereof; but, if an answer be filed and served, as herein provided, the court shall hear and determine the issues so raised and make its order as provided for by section 299F.16.

**History:** (5965) 1913 c 564 s 15; 1917 c 469 s 1; 1947 c 417 s 2; 1978 c 674 s 60; 1986 c 444; 1Sp1986 c 3 art 1 s 82

**299F.16 HEARING.**

The court upon motion of the state fire marshal shall make its order fixing a time and place for the hearing, which place may be at any convenient point within the judicial district, and which time shall be within ten days from the date of the filing of the answer, or as soon thereafter as may be. Upon the trial the order of the state fire marshal shall be prima facie evidence of the existence of the facts therein recited. If upon the trial the order of the state fire marshal shall be sustained, the court shall make its order accordingly and shall fix a time within which the building or structure shall be altered, repaired, or demolished, as the case may be, in compliance with the order of the state fire marshal, but otherwise the court may annul and set aside such order of the state fire marshal, or modify it if the facts so warrant.

**History:** (5966) 1913 c 564 s 16; 1917 c 469 s 1; 1947 c 417 s 3

**299F.17 FAILURE TO COMPLY WITH ORDER.**

**Subdivision 1. Sale or destruction of building.** If the owner or other party in interest shall fail to comply with the order of the state fire marshal within the time fixed thereby, or with such order as affirmed or modified by the court, within the time fixed by court, in case a trial is had as provided for in section 299F.16, the state fire marshal may proceed to cause the building or structure to be altered, repaired, or demolished in accordance with the directions contained in the order. Where a building or structure is demolished in accordance with the order the state fire marshal may sell and dispose of the salvage materials therefrom at public auction upon three days' posted notice. In lieu of demolishing the building or structure the state fire marshal may sell it at a public auction, upon the same notice, provided the purchaser signs a written agreement to demolish the building and remove the salvage within such time from the date of sale as the state fire marshal shall announce before the sale. In case any such purchaser shall fail to so demolish the building or structure and remove the salvage within the specified time, the sale to the purchaser shall be void, and the purchase price paid shall be retained by the state fire marshal as liquidated damages for breach of the agreement. Any amount collected for the sale of salvage, or the building or structure, or as liquidated damages for breach of the agreement shall be deposited with the state treasurer and credited to the fund of the state fire marshal.

**Subd. 2. Statement of moneys received and expenses incurred; surplus to owner.** The state fire marshal shall keep an accurate account of the expenses incurred in carrying out the order and all other expenses theretofore incurred in connection with its enforcement, including specifically, but not exclusively, initial inspection fees incurred before the filing of the order of condemnation, including costs of photographs of building, filing fees, service fees, publication fees, appraisers' fees, witness fees, including expert witness fees, and traveling expenses incurred by the state fire marshal and deputies from the time the order was originally made, and shall credit thereon the amount, if any, received from the sale of the salvage, or building or structure, or as liquidated damages for breach of the agreement, and shall report the action under the order, with a statement of moneys received and expenses incurred to the court for approval and allowance. Thereupon the court shall examine, correct, if necessary, and allow the expense account and, if the amount received from the sale of the salvage, or of the building or structure, or for liquidated damages for breach of the agreement does not equal or exceed the amount of expenses as allowed, the court shall by its order certify the deficiency in the amount so allowed to the county auditor for collection. The owner or other party in interest shall pay the same within 30 days thereafter, with 25 percent penalty added thereon, and in default of payment the auditor shall enter this expense on the tax lists of the county as a special charge against the real estate on which the building is or was situated and the same shall be collected in the same manner as other taxes and the amount so collected, including the penalty thereon, shall be paid into the state treasury and credited to the fund of the state fire marshal. When any real estate on which the building or structure is or was situated forfeits to the state for taxes, this expense shall be apportioned by the county auditor from the net proceeds of the

sale or rental of such forfeited land to the state treasury to be credited to the fund of the state fire marshal in the same manner as any other special assessment is apportioned as provided in section 282.08, clause (2). If the amount received for the sale of the salvage, or of the building or structure, or for liquidated damages for breach of the agreement to remove the building or structure exceeds the expense incurred by the state fire marshal, as allowed by the court, and if there are no delinquent taxes, the court shall direct the payment of the surplus to the owner or the payment of the same into court for the owner's use and benefit. If there are delinquent taxes against the property, the court shall direct the payment of the surplus to the county treasurer to be applied on such taxes.

There is hereby appropriated to the persons entitled to such surplus, from the fund in the state treasury to which the money was credited, an amount sufficient to make the payment.

## **299F.21 FIRE INSURANCE COMPANIES TO PAY COST OF MAINTENANCE.**

Subdivision 1. **Estimated installment payments.** On or before April 15, June 15, and December 15 of each year, every licensed insurance company, including reciprocals or interinsurance exchanges, doing business in the state, excepting farmers' mutual fire insurance companies and township mutual fire insurance companies, shall pay to the commissioner of revenue installments equal to one-third of, a tax upon its fire premiums or assessments or both, based on a sum equal to one-half of one percent of the estimated fire premiums and assessments, less return premiums and dividends, on all direct business received by it in this state, or by its agents for it, in cash or otherwise, during the year, including premiums on policies covering fire risks only on automobiles, whether written under floater form or otherwise. In the case of a mutual company or reciprocal exchange the dividends or savings paid or credited to members in this state

shall be construed to be return premiums. The money so received into the state treasury shall be credited to the general fund. A company that fails to make payments of at least one-third of either (1) the total tax paid during the previous calendar year or (2) 80 percent of the actual tax for the current calendar year is subject to the penalty and interest provided in this chapter.

**Subd. 1a. Addition to the tax.** In case of an underpayment of installments by an insurer, there must be added to the tax for the taxable year an amount determined at the rate specified in section 270.75 upon the amount of underpayment.

**Subd. 1b. Amount of underpayment.** For purposes of subdivision 1a, the amount of the underpayment is the excess of: (1) the amount of the installment; over (2) the amount, if any, of the installment paid on or before the last date prescribed for payment.

**Subd. 1c. Period of underpayment.** The period of the underpayment runs from the date the installment was required to be paid to the earliest of the following dates:

(1) on March 1 following the close of the taxable year;

(2) with respect to any portion of the underpayment, the date on which that portion is paid. For purposes of this clause, a payment of estimated tax on any installment date is considered a payment of any previous underpayment only to the extent the payment exceeds the amount of the installment determined under clause (1), for the installment date.

**Subd. 1d. Definition of tax.** The term "tax" means the tax imposed by this chapter.

**Subd. 1e. Failure to file an estimate.** In the case of an insurer that fails to file an estimated tax statement for a taxable year when one is required, the period of the underpayment runs from the installment dates as set forth in subdivision 1 to whichever of the periods set forth in subdivision 1c is the earlier.

**Subd. 2. Annual returns.** (a) Every insurer required to pay a tax under this section shall make and file a statement of estimated taxes for the period covered by the installment tax payment. The statement shall be in the form prescribed by the commissioner of revenue.

(b) On or before March 1, annually every insurer subject to taxation under this section shall make an annual return for the preceding calendar year setting forth information the commissioner of revenue may reasonably require on forms prescribed by the commissioner.

(c) On March 1, the insurer shall pay any additional amount due for the preceding calendar year; if there has been an overpayment, the overpayment may be credited without interest on the estimated tax due April 15.

(d) If unpaid by this date, penalties and interest as provided in section 290.53, subdivision 1, shall be imposed.

## 299F.22 EXAMINATION OF RETURNS; ASSESSMENT; RETURNS.

The commissioner of revenue shall, as soon as practicable after a return required by section 299F.21 is filed, examine the same and make any investigation or examination of the company's records and accounts that the commissioner deems necessary for determining the correctness of the return. The tax computed by the commissioner on the basis of the examination and investigation is the tax to be paid by the company. If the tax found due is greater than the amount reported as due on the company's return, the commissioner shall assess a tax in the amount of the excess and the whole amount of the excess shall be paid to the state treasurer within 60 days after notice of the amount and demand for its payment is mailed to the company by the commissioner. If the understatement of the tax on the return was false and fraudulent with intent to evade the tax, the installments of the tax shown by the company on its return which

are not paid shall be paid to the commissioner of revenue within 60 days after notice of the amount thereof and demand for payment is mailed to the company by the commissioner. If the amount of the tax found due the commissioner is less than that reported as due on the company's return, the excess shall be refunded to the company in the manner provided by section 299F.26, except that no demand therefor is necessary, if they have already paid the whole of the tax, or credited against any unpaid installment thereof; provided, that no refundment shall be made except as provided in section 299F.26, after the expiration of 3-1/2 years after the filing of the return.

The commissioner, having examined returns of a company for more than one year, may issue one order covering the several years under consideration reflecting the aggregate refund or additional tax due.

The notices and demands provided for by sections 299F.22 to 299F.24 shall be in the form the commissioner determines, including a statement, and shall contain a brief explanation of the computation of the tax and shall be sent by mail to the company at the address given in its return, if any, and if no such address is given, then to the last known address.

**Subdivision 1. Failure to file; false or fraudulent return.** If any company required by section 299F.21 to file any return fails to do so within the time prescribed or makes, willfully or otherwise, an incorrect, false, or fraudulent return, it shall, on the written demand of the commissioner of revenue, file the return, or corrected return, within 60 days after the mailing of the written demand and at the same time pay the whole tax, or additional tax, due on the basis thereof. If the company fails within that time to file the return, or corrected return, the commissioner shall make for it a return or corrected return, from the commissioner's own knowledge and from the information obtained through testimony, or otherwise, and assess a tax on the basis thereof, which tax, less any payments theretofore made on account of the tax for the taxable year covered by the return, shall be paid within 60 days after the commissioner has mailed to the company a written notice of the amount thereof and demand for its payment. Any return or assessment made by the commissioner on account of the failure of the company to make a return, or a corrected return, is prima facie correct and valid, and the company has the burden of establishing its incorrectness or invalidity in any action or proceeding in respect thereto.

**Subd. 2. Failure to file; penalties and interest.** In case of any failure to make and file a return as required by this chapter within the time prescribed by law or prescribed by the commissioner of revenue in pursuance of law there shall be added to the tax penalties and interest as provided in section 290.53, subdivision 2.

**Subd. 3. Intent to evade tax; penalty.** If any company with intent to evade the tax imposed by this chapter, fails to file any return required by this chapter or with such intent files a false or fraudulent return there shall also be imposed on it a penalty as provided in section 290.53, subdivision 3a.

**Subd. 4. Negligence or intentional disregard; penalty.** If any part of any additional assessment is due to negligence or intentional disregard of the statute or a rule (but without intent to defraud), there shall be added to the tax a penalty as provided in section 290.53, subdivision 3.

## 299F.26 OVERPAYMENTS, CLAIMS FOR REFUND.

**Subdivision 1. Procedure, time limit, appropriation.** A company which has paid, voluntarily or otherwise, or from which there was collected an amount of tax for any year in excess of the amount legally due for that year, may file with the commissioner of revenue a claim for a refund of the excess. Except as provided in subdivision 4, no claim or refund shall be allowed or made after 3-1/2 years from the date prescribed for filing the return (plus any extension of time granted for filing the return but only if filed within the extended time) or after two years from the date of overpayment, whichever period is longer, unless before the expiration of the period a claim is filed by the company. For this purpose a return or amended return claiming an overpayment constitutes a claim for refund.

Upon the filing of a claim the commissioner shall examine the same and shall make and file written findings thereon denying or allowing the claim in whole or in part and shall mail a notice thereof to the company at the address stated upon the return. If such claim is allowed in whole or in part, the commissioner shall issue a certificate for the refundment of the excess paid by the company, with interest at the rate specified in section 270.76 computed from the date of the payment of the tax until the date the refund is paid or the credit is made to the company, and the commissioner of finance shall cause the refund to be paid as other state moneys are expended. So much of the proceeds of the taxes as is necessary are appropriated for that purpose.

**Subd. 2. Denial of claim, court proceedings.** If the claim is denied in whole or in part, the commissioner of revenue shall mail an order of denial to the company in the manner prescribed in section 299F.22. An appeal from this order may be taken to the Minnesota tax court in the manner prescribed in section 271.06, or the company may commence an action against the commissioner to recover the denied overpayment. The action may be brought in the district court of the district in which lies the county of its principal place of business, or in the district court for Ramsey county. The action in the district court must be commenced within 18 months following the mailing of the order of denial to the company. If a claim for refund is filed by a company and no order of denial is issued within six months of the filing, the company may commence an action in the district court as in the case of a denial, but the action must be commenced within two years of the date that the claim for refund was filed.

**Subd. 3. Denial of claim, appeal.** Either party to the action may appeal to the court of appeals as in other civil cases.

**Subd. 4. Consent to extend time.** If the commissioner and the company have within the periods prescribed in subdivision 1, consented in writing to any extension of time for the assessment of the tax, the period within a claim for refund may be filed, or a refund may be made or allowed, if no claim is filed, shall be the period within which the commissioner and the company have consented to an extension for the assessment of the tax and six months thereafter, provided, however, that the period within which a claim for refund may be filed shall not expire prior to two years after the tax was paid.

**Subd. 5. Overpayment; refunds.** If the amount determined to be an overpayment

exceeds the taxes imposed by section 299F.21, the amount of such excess shall be considered an overpayment. An amount paid as tax shall constitute an overpayment even if in fact there was no tax liability with respect to which such amount was paid.

Notwithstanding any other provision of law to the contrary, in the case of any overpayment the commissioner, within the applicable period of limitations, shall refund any balance of more than one dollar to such company if the company shall so request.

### **299F.40 LIQUEFIED PETROLEUM AND INDUSTRIAL GAS CONTAINERS.**

Subdivision 1. **Public policy.** It is the intent of the Minnesota legislature to protect the public welfare and promote safety in the filling and use of pressure vessels containing liquefied petroleum or industrial gases through implementing both the interstate commerce commission regulations, within the state of Minnesota, the rules of the Minnesota state fire marshal, and the national standards of safety on the filling of these containers. It is deemed necessary to insure that containers properly constructed and tested be used and that only liquefied petroleum or industrial gases of suitable and safe vapor pressure be placed in these containers. To attain this end the filling or refilling of liquefied petroleum and industrial gas containers by other than the owner or authorized person must be controlled and specific authority to prevent violation and encourage enforcement be established.

Subd. 2. **Definitions.** The term "person" shall mean and include any person, persons, firm, firms, corporation or corporations.

The term "owner" shall mean and include (a) any person who holds a written bill of sale or other instrument under which title to the container was transferred to such person, (b) any person who holds a paid or receipted invoice showing purchase and payment of the container, (c) any person whose name, initials, mark, or other identifying device has been plainly and legibly stamped or otherwise shown upon the surface of the container for a period of not less than one year prior to the final enactment and approval of this section, or (d) any manufacturer of a container who has not sold or transferred ownership thereof by written bill of sale or otherwise;

The term "liquefied petroleum gas" as used in this section shall mean and include any material which is composed predominantly of any of the following hydrocarbons or mixtures of the same: propane, propylene, butanes (normal butane and iso-butane), and butylenes;

The term "industrial gas" as used in this section shall mean and include any material which is composed exclusively of any of the following gases or mixtures of them: oxygen, acetylene, nitrogen, argon and carbon dioxide.

**Subd. 3. Containers, identifying devices; unlawful acts.** If a liquefied petroleum or industrial gas container shall bear upon the surface thereof in plainly legible characters the name, mark, initials or other identifying device of the owner thereof, it shall be unlawful for any person except the owner or a person authorized in writing by the owner: (a) To fill or refill such container with liquefied petroleum or industrial gas or any other gas or compound;

(b) To buy, sell, offer for sale, give, take, loan, deliver or permit to be delivered, or otherwise use, dispose of, or traffic in any such container; or

(c) To deface, erase, obliterate, cover up or otherwise remove or conceal or change any name, mark, initials or other identifying device of the owner or to place the name, mark, initials or other identifying device of any person other than the owner on the container.

**Subd. 4. Presumptive evidence of unlawful use of containers.** The use of a liquefied petroleum or industrial gas container or containers by any person other than the person whose name, mark, initial or device shall be or shall have been upon the liquefied petroleum or industrial gas container or containers, without written consent or purchase of the marked and distinguished liquefied petroleum or industrial gas container, for the sale of liquefied petroleum or industrial gas or filling or refilling with liquefied petroleum or industrial gas, or the possession of liquefied petroleum or industrial gas containers by any person other than the person whose name, mark, initial or other device is thereon, without the written consent of the owner, shall and is hereby declared to be presumptive evidence of the unlawful use, filling or refilling, transition of, or trafficking in liquefied petroleum or industrial gas containers.

**Subd. 5. Violations, search warrants.** Whenever any person or officer of any corporation mentioned in this section, or the person's or officer's duly authorized agent who has personal knowledge of the facts, makes an oath in writing before any judge, that the party making affidavit has reason to and does believe that any of the person's or the corporation's liquefied petroleum or industrial gas containers marked with the name, initials, mark or other device of the owner, are in the possession of or being used, filled, refilled, or transferred by any person whose name, initials, mark or other device does not appear on the containers, and who is in the possession of, filling or refilling, or using the containers without the written consent of the owner of the name, initials or trade mark, the judge may, when satisfied that there is reasonable cause, issue a search warrant and cause the premises designated to be searched for the purpose of discovering and obtaining the containers. The judge may also order the person in whose possession the containers are found to appear, and inquire into the circumstances of the possession. If the judge finds that the person has been guilty of a violation of this section, the judge shall impose the punishment prescribed, and award the property taken upon the search warrant to its owner.

**Subd. 6. Misdemeanor.** Any person who shall fail to comply with any of the foregoing provisions of this section shall be deemed guilty of a misdemeanor for each separate offense.

Requests for approval to disconnect a fire alarm system shall be made in writing to the local fire chief or to the state fire marshal if not in a city of the first class. The request shall include the times, dates, and exact locations of the facilities where the malicious false alarms were initiated as well as all pertinent details regarding these incidents and the effect they have on the educational process of the facility.

Subd. 2. The local fire chief or state fire inspector shall investigate the justification for the requested disconnection of the fire alarm system. This investigation shall be completed and its results transmitted to the state fire marshal within ten working days of receipt of the request for deactivation of fire alarm.

Subd. 3. The state fire marshal shall review each request for deactivation of fire alarms together with the investigation report and shall either approve the request and issue a permit stating the conditions and limitations under which it is approved, or disapprove the request stating the reasons why it has been disapproved and what additional action may be taken by the principal, headmaster, administrator, or supervisor of the facility to eliminate or reduce malicious false alarms in the facility.

Subd. 4. The state fire marshal shall act on each request for disconnection of a fire alarm system within 30 days. An interim permit with specific temporary measures supervised by the local fire chief, fire marshal, or state fire inspector may be issued by the state fire marshal to prevent malicious false alarms while the matter is being reviewed.

Subd. 5. Additional times beyond the limits set in subdivisions 2, 3, and 4 shall be allowed officials acting on requests for disconnections of fire alarm systems when it is reasonably necessary.

Subd. 6. Approval of deactivation of a fire alarm system shall be valid for a period of three years or less. Conditions under which the request was approved shall be observed by the facility.

The agreement shall also set forth criteria by which the commissioner will determine that performance by the designated agent complies with state standards and is sufficient to replace inspection by the commissioner. The agreement may specify minimum staff requirements and qualifications and provide for termination procedures if the commissioner finds that the designated agent fails to comply with the terms and requirements of the agreement.

(2) No designated agent may perform any inspection duties pursuant to the agreement in any territory outside its jurisdiction.

(3) The scope of the agreement shall be limited to duties and responsibilities agreed upon by the parties and may provide a basis for automatic renewal and provisions for notice of intent to terminate by either party.

(4) During the life of the agreement the commissioner shall not perform any inspection which the designated agent is required to perform under the agreement, except for inspection necessary to determine compliance with the agreement and this section. The commissioner shall consult with, advise and assist a designated agent in the performance of its duties under the agreement.

Subdivision 1. The commissioner shall, by order, establish minimum safety standards for the transportation of gas and gas pipeline facilities. Such standards may apply to the design, installation, inspection, testing, construction, extension, operation, replacement, and maintenance of gas pipeline facilities. The standards may not prescribe the location or routing of a pipeline facility. Standards affecting the design, installation, construction, initial inspection, and initial testing shall not be applicable to pipeline facilities in existence on the date such standards are adopted. Such safety standards shall be practicable and designed to meet the need for pipeline safety. In prescribing such standards, the commissioner shall consider:

(a) relevant available pipeline safety data;

**Subd. 3.** The rulemaking, contested case and judicial review provisions of chapter 14, shall apply to all orders establishing, amending, revoking, or waiving compliance with, any standard established under sections 299F.56 to 299F.64 or any penalty imposed under sections 299F.56 to 299F.64. The commissioner shall afford interested persons an opportunity to participate fully in the establishment of such safety standards through submission of written data, views or arguments, with opportunity to present oral testimony and argument.

**Subd. 4.** The commissioner, on finding a particular facility to be hazardous to life or property, shall be empowered to require the person operating such facility to take such steps necessary to remove such hazards.

**Subd. 5.** Upon application by any person engaged in the transportation of gas or the operation of pipeline facilities, the commissioner may, after notice and opportunity for hearing and under such terms and conditions and to such extent as the commissioner deems appropriate, waive in whole or in part compliance with any standards established under sections 299F.56 to 299F.64, on determining that a waiver of compliance with such standard is not inconsistent with gas pipeline safety. Subd. 2. The commissioner may negotiate a compromise settlement of a civil penalty. In determining the amount of such penalty, or the amount of the compromise settlement, the commissioner shall consider the appropriateness of such penalty to the size of the business of the person charged, the gravity of the violation, and the good faith of the person charged in attempting to achieve compliance, after notification of a violation. The contested case and judicial review provisions of chapter 14 shall apply to all orders of the commissioner imposing any penalty under sections 299F.56 to 299F.64 or under any rule promulgated thereunder. Whenever practicable, the commissioner shall give notice to any person against whom an action for injunctive relief is contemplated and afford the person an opportunity to present views, and, except in the case of a knowing and willful violation, shall afford the person reasonable opportunity to achieve compliance. However, the failure to give such notice and afford such opportunity shall not preclude the granting of appropriate relief.

Subd. 2. Actions under sections 299F.56 to 299F.64 shall be brought in the district in the state of Minnesota wherein the defendant's principal place of business is located, and process in such cases may be served in any other district in the state of Minnesota where the defendant may be found or of which the defendant is an inhabitant or transacts business.

On finding that such plan is inadequate to achieve safe operation, the commissioner shall, after notice and opportunity for a hearing, require such plan to be revised. The plan required by the commissioner shall be practicable and designed to meet the need for pipeline safety. In determining the adequacy of any such plan, the commissioner shall consider the following:

- (a) relevant available pipeline safety data;

Each such person shall, upon request of an officer, employee, or agent authorized by the commissioner, permit such officer, employee, or agent to inspect books, papers, records and documents relevant to determining whether such person has acted or is acting in compliance with sections 299F.56 to 299F.64 and the standards established pursuant to sections 299F.56 to 299F.64. Each such inspection shall be commenced and completed with reasonable promptness.

Subd. 2. In the course of the exercise of duties and responsibilities under sections 299F.56 to 299F.64, the commissioner shall wherever practicable employ a practice of spot checking and issuance of certificates of compliance, with respect to persons subject to sections 299F.56 to 299F.64, to limit costs of enforcement of the safety standards established pursuant to sections 299F.56 to 299F.64.

Subd. 3. All information reported to or otherwise obtained by the commissioner or a representative, which contains or relates to a trade secret, as referred to in section 1905 of title 18 of the United States Code, or otherwise constitutes a trade secret under law, shall be considered confidential for the purpose of such laws, and is private or nonpublic data as defined in section 13.02. Subdivision 1. **Assessment and deposit of fee.** From each pipeline operator subject to the intrastate pipeline inspection authority under sections 299F.56 to 299F.641, the commissioner shall assess and collect an inspection fee in an amount calculated under subdivisions 2 and 4. The assessment of the inspection fee must be made no fewer than 30 days after the end of the quarter. If an operator does not pay the fee within 60 days after the assessment was mailed, the commissioner may impose a delinquency fee of ten percent of the quarterly inspection fee and interest at the rate of 15 percent per year on the portion of the fee not paid. Fees collected under this section must be credited to the pipeline safety account.

Subd. 2. **Calculation of fee.** (a) For each quarter that an inspection fee is to be assessed, the commissioner shall calculate the total actual expenses and obligations incurred by the office of pipeline safety in implementing sections 299F.56 to 299F.641. The calculation must not include:

- (1) expenses that will be reimbursed by the federal government;

(2) expenses attributable to follow-up inspections necessitated by the failure of a pipeline facility to comply with safety standards;

(3) expenses attributable to investigations of specific pipeline facilities;

(4) expenses attributable to inspections of newly constructed pipelines over 2,000 feet in length;

(5) expenses attributable to the inspection of facilities carrying liquefied natural gas, and hazardous liquids; and

(6) expenses attributable to the inspection of facilities carrying liquefied petroleum gas, until the commissioner adopts a rule providing for metered billing of these facilities.

(b) The commissioner shall assess each pipeline operator for a pro rata share of the expenses and obligations calculated under paragraph (a), based on the number of meters in service on the preceding December 31.

(c) The expenses and obligations described in paragraph (a), clauses (2), (3), (4), and (5) must be directly charged to the appropriate pipeline operators on a quarterly basis. The expenses and obligations described in paragraph (a), clause (6), must be directly charged to the appropriate pipeline operators on a quarterly basis until the commissioner adopts a rule providing for metered billing of facilities carrying liquefied petroleum gas.

**Subd. 3. Emergency rules.** The commissioner may adopt emergency rules to implement this section.

**Subd. 4. Support costs.** The commissioner shall calculate the general support costs of the office of pipeline safety for the preceding quarter, and add to the inspection fee calculated under subdivision 2 the share of those costs that is proportionate to the amount of time spent by the office in implementing sections 299F.56 to 299F.641 with respect to that pipeline operator.

The commissioner may accept any and all money provided for or made available to this state by the United States of America or any department or agency thereof with respect to prescribing, setting, and enforcing rules and safety standards for the transportation of natural and other gas, and hazardous liquids, by pipelines in accordance with the provisions of federal law and any rules or regulations promulgated thereunder and the commissioner is further authorized to do any and all things, not contrary to the laws of this state, required of this state by such federal law and the rules and regulations promulgated thereunder in order to obtain such federal money.

## **299F.641 INTRASTATE HAZARDOUS LIQUID PIPELINES.**

**Subdivision 1. Jurisdiction.** The commissioner has regulatory jurisdiction over the safety standards and practices of intrastate hazardous liquid pipeline facilities and the transportation of hazardous liquids associated with those facilities.

**Subd. 2. Federal standards adopted.** The federal safety standards adopted as Code of Federal Regulations, title 49, part 195, are adopted. The commissioner may adopt additional or more stringent safety standards for intrastate pipeline facilities and the transportation of hazardous liquids associated with those facilities, if the state standards are compatible with the federal standards. The standards may not prescribe the location or routing of a pipeline facility.

**Subd. 3. Enforcement.** The commissioner must establish and implement an inspection program to enforce the standards adopted under subdivision 2. The program must be established and implemented in a manner that fully complies with requirements for state certification under United States Code, title 49, section 2004.

**Subd. 4. Protection of pipeline facilities.** The commissioner must encourage and

promote programs designed to prevent damage to hazardous liquid pipeline facilities as a consequence of demolition, excavation, tunneling, or construction activity.

**Subd. 5. Investigations; record keeping.** (a) The commissioner may, to the extent necessary to carry out the enforcement responsibilities of this section, conduct investigations, make reports, issue subpoenas, conduct hearings, require the production of relevant documents and records, take depositions, and conduct research, testing, development, demonstration, and training activities.

(b) The commissioner may require each person who engages in the transportation of hazardous liquids or who owns or operates pipeline facilities to establish and maintain records, and to make reports and provide information to the commissioner. The records and other information must be made available as the commissioner orders to enable the commissioner to determine whether the person has acted or is acting in compliance with this section and the standards or orders adopted under this section.

(c) Officers, employees, or agents authorized by the commissioner, on presenting appropriate credentials to the person in charge, may enter upon, inspect, and examine, at reasonable times and in a reasonable manner, the records and properties of persons to the extent the records and properties are relevant to determine whether the persons have acted or are acting in compliance with this section and the standards adopted under this section.

(d) An accident report made by an officer, employee, or agent of the office of pipeline safety is available for use in any civil, criminal, or other judicial proceeding arising out of the accident. The officer, employee, or agent may be required to testify in the proceedings as to the facts developed in the investigation. A report made available to the public need not identify individuals. All reports on research projects, demonstration projects, and other related activities are public information.

(e) All information reported to or obtained by the commissioner under this subdivision that contains or relates to a trade secret referred to in United States Code, title 18, section 1905, is confidential for the purpose of that section, except that the information may be disclosed to other officers or employees concerned with enforcing this section. Nothing in this section authorizes the withholding of information by the commissioner from a duly authorized committee of the legislature.

**Subd. 6. Inspection and maintenance plan.** (a) Each person who engages in the transportation of hazardous liquids or who owns or operates hazardous liquid pipeline facilities must prepare, maintain, and carry out a current written plan for inspection and maintenance of each facility used in that transportation and owned or operated by that person as prescribed by the commissioner. The commissioner may, by regulation, also require persons who engage in the transportation of hazardous liquids or who own or operate pipeline facilities subject to this section to file the plans for approval. A plan required by this subdivision must be practicable, designed to meet the need for pipeline safety, and available to the commissioner on request. The plan must enhance the commissioner's ability to discover a condition that causes a significant change or restriction in the operation of the pipeline facilities or constitutes a hazard to life or property.

(b) If the commissioner finds that a plan required under this subdivision is inadequate to achieve safe operation of pipeline facilities, the commissioner may, after notice and opportunity for a hearing, require the plan to be revised. In determining the adequacy of a plan filed under this section, the commissioner shall consider:

- (1) relevant available pipeline safety data;
- (2) whether the plan is appropriate for the particular type of pipeline transportation or facility;
- (3) the reasonableness of the plan; and
- (4) the extent to which the plan will contribute to public safety.

**Subd. 7. Annual certification report.** The commissioner must file an annual certification report with the secretary of the federal Department of Transportation. The report must include:

(1) the name and address of each person subject to the safety jurisdiction of the commissioner under this section;

(2) all accidents or incidents reported during the preceding 12 months by each person that involved personal injury requiring hospitalization, fatality, or property damage exceeding \$5,000 (whether or not sustained by a person subject to the safety jurisdiction of the office), and all other significant accidents, together with a summary of the commissioner's investigation as to the cause and circumstances surrounding the accident or incident;

(3) the record maintenance, reporting, and inspection program carried out by the commissioner to enforce compliance with the federal safety standards, including a detailed description of the number of inspections made of pipeline facilities during the preceding 12 months; and

(4) other information as the commissioner or federal law or rule may require.

The report included with the first annual certification need not show information unavailable at that time.

**Subd. 8. Civil relief.** The safety standards adopted under this section may be enforced as is provided for gas pipeline facilities under sections 299F.60 and 299F.61, and penalties collected must be paid to the commissioner for deposit in the state treasury and credit to the pipeline safety account.

## CONTROLS OF EXPLOSIVES

### 299F.71 POLICY.

The beneficial use of explosives has resulted in great savings of time, labor, and money in the development of the state. However, existing laws and rules have not restricted explosives to those who would use or contribute to their use for beneficial purposes. The inattentive care, indiscriminate and unrecorded transfer and perverse use of explosives has resulted in death, grave personal injury, and substantial property damage in this state; in addition, the resulting bombings and bombing threats have terrorized and inconvenienced the public.

It is the policy of this state to require such controls of explosives and their component parts from the time prior to manufacture through ultimate use as are necessary to protect the safety and welfare of the public, without unduly restricting the legitimate manufacture, sale, transport, and use of explosives.

**Subd. 3. "Explosive device"** means any device so articulated that an ignition by fire, by friction, by concussion, or by detonation of any part thereof may cause such sudden generation of highly heated gases that the resultant gaseous pressures are capable of producing destructive effects, but shall not mean or include the components for handloading rifle, pistol and shotgun ammunition and/or rifle, pistol and shotgun

ammunition, black powder, primers and fuses when used for ammunition and components for antique or replica muzzleloading rifles, pistols, muskets, shotguns and cannons, or fireworks as defined in section 624.20, nor shall it include any fertilizer product possessed, used or sold solely for legitimate agricultural, forestry, conservation, or horticultural purpose.
