356.001 PURPOSE OF PUBLIC PLANS.

Subdivision 1. Exclusive benefit of members and beneficiaries. The public plans and funds specified in subdivision 4 are established to provide for the retirement of their members and to provide funds for the beneficiaries of members in the event of death of a member. The public plans and funds are established and shall be maintained for the exclusive benefit of the members and the beneficiaries of the members. Except as provided in subdivisions 2 and 3, no part of the moneys of the plans and funds shall revert to the plan or fund or be used for or diverted to purposes other than the exclusive benefit of the members or their beneficiaries.

Subd. 2. Allowable expenses. The necessary, reasonable, and direct expenses of maintaining, protecting, and administering the public plan or fund, as authorized in the laws governing the plan or fund, shall be considered as expenditures for the exclusive benefit of the members or their beneficiaries.

Subd. 3. Effect of amendments or termination. If a public plan or fund as defined in subdivision 4 is terminated or the plan or fund provisions are amended, no part of the moneys held in the plan or fund shall be used for or diverted to any purpose other than the exclusive benefit of the members or their beneficiaries, except as provided in this subdivision.

If a plan or fund is terminated, all affected members have a nonforfeitable interest in their benefits accrued and funded to date. The value of the accrued benefits to be credited to the account of each affected member shall be calculated as of the date of termination and the funding ratio of the plan or fund applied to the accrued benefit of each affected member.

The board of trustees of the plan or fund shall then, as soon as administratively feasible, pay each eligible member or beneficiary on behalf of a member the amount

in the member's account in a lump sum. In the case of a member whose whereabouts is unknown, the board shall notify the member at the last known address by certified mail with return receipt requested advising the member of the member's right to a pending distribution. If the member cannot be located in this manner, the board shall establish a custodial account for the member's benefit in a federally insured bank, savings and loan association, or credit union in which the member's account balance shall be deposited. If the board receives proof of death of a member that is satisfactory to the board, the account balance shall be paid to the beneficiary of the member.

Subd. 4. Covered plans and funds. This section applies to all public pension and retirement plans and funds established pursuant to the laws of the state of Minnesota that receive contributions from moneys derived from taxation.

Subd. 5. Construction. Nothing contained in this section shall be construed to authorize, or otherwise imply, a legislative policy or intent favoring the termination of any plan or fund to which this section applies.

356.215 ACTUARIAL VALUATIONS AND EXPERIENCE STUDIES.

Subdivision 1. **Definitions.** For the purposes of sections 3.85 and 356.20 to 356.23, each of the following terms shall have the meaning given:

(1) "Actuarial valuation" means a set of calculations prepared by an approved actuary to determine the normal cost and the accrued actuarial liabilities of a benefit plan, according to a stated actuarial cost method and based upon stated assumptions including, but not limited to rates of interest, mortality, salary increase, disability, withdrawal, and retirement and to determine the payment necessary to amortize over a stated period any unfunded accrued actuarial liability disclosed as a result of the actuarial valuation and the resulting actuarial balance sheet of the benefit plan.

(2) "Approved actuary" means a person who is regularly engaged in the business of providing actuarial services and who has at least 15 years of service to major public employee pension or retirement funds or who is a fellow in the society of actuaries.

(3) "Entry age actuarial cost method" means an actuarial cost method under which the actuarial present value of the projected benefits of each individual currently covered by the benefit plan and included in the actuarial valuation is allocated on a level basis over the service of the individual if the benefit plan is governed by section 69.773 or over the earnings of the individual if the benefit plan is governed by any other law between the entry age and the assumed exit age, with the portion of this actuarial present value which is allocated to the valuation year to be the normal cost and the portion of this actuarial present value not provided for at the valuation date by the actuarial present value of future normal costs to be the actuarial accrued liability, with

aggregation in the calculation process to be the sum of the calculated result for each covered individual and with recognition given to any different benefit formulas which may apply to various periods of service.

(4) "Experience study" means a report which provides experience data and an actuarial analysis which substantiate the actuarial assumptions on which valuations are based.

(5) "Expected future statutory supplemental contributions" means the sum of future employee and employer contributions at the rates specified in statute when the valuation is completed, reduced by the present value of future normal costs.

(6) "Current assets" means the value of all assets at cost, which includes realized capital gains or losses, plus one-third of any unrealized capital gains or losses.

(7) "Unfunded actuarial accrued liability" means total current and expected future benefit obligations less the sum of current assets and the present value of future normal costs.

Subd. 2. Requirements. It is the policy of the legislature that it is necessary and appropriate to determine annually the financial status of tax supported retirement and pension plans for public employees. To achieve this goal, the legislative commission on pensions and retirement shall have prepared annual actuarial valuations and periodic experience studies of the public pension and retirement plans enumerated in section 3.85, subdivision 12, clause (b), and the governing or managing board or administrative officials of each public pension and retirement fund or plan enumerated in section 356.20, subdivision 2, clauses (9), (10), and (12) shall have prepared annual actuarial valuations and periodic experience studies of their respective funds as provided in this section. This requirement shall also apply to any fund which may be a successor to any organization enumerated in section 356.20, subdivision 2, or to the governing or managing board or administrative officials of any newly formed retirement fund or association operating under the control or supervision of any public employee group, governmental unit, or institution receiving a portion of its support through legislative appropriations, and any local police or fire fund coming within the provisions of section 356.216.

Subd. 3. Reports. The actuarial valuations required annually shall be made as of the beginning of each fiscal year. Two copies of the valuation shall be delivered to the executive director of the legislative commission on pensions and retirement, to the commissioner of finance and to the legislative reference library, not later than the first day of the sixth month occurring after the end of the previous fiscal year. Two copies of any experience study prepared periodically as provided for in the standards adopted by the commission shall be filed with the executive director of the legislative commission on pensions and retirement, with the commissioner of finance, and with the legislative reference library, not later than the first day of the 11th month occurring after the end of the last fiscal year of the period which the experience study covers. For actuarial valuations and experience studies prepared at the direction of the legislative commission on pensions and retirement, two copies of the document shall be delivered to the governing or managing board or administrative officials of the applicable public pension and retirement fund or plan.

Subd. 4. Actuarial valuation; contents. The actuarial valuation shall be made in conformity with the requirements of the definition contained in subdivision 1 and standards adopted by the legislative commission on pensions and retirement. The actuarial valuation shall measure all aspects of the benefit plan of the fund in accordance with changes in benefit plans, if any, and salaries as will or can reasonably be anticipated to be in force during the ensuing fiscal year. The actuarial valuation shall be prepared in accordance with the entry age actuarial cost method.

The actuarial valuation required under this section shall include the information required in subdivisions 4a to 4k.

Subd. 4a. Normal cost. For each fund providing any benefits under a defined benefit plan, the actuarial valuation shall contain an exhibit indicating the level normal

cost of the benefits provided by the laws governing the fund as of the date of the valuation, calculated in accordance with the entry age actuarial cost method. The normal cost shall be expressed as a level percentage of the future payroll of the active participants of the fund as of the date of the valuation.

Subd. 4b. Accrued liability. For each fund providing any benefits under a defined benefit plan, the actuarial valuation shall contain an exhibit indicating the accrued liabilities of the fund, which shall be equal to the present value of all benefits minus the present value of future normal costs, calculated in accordance with the entry age actuarial cost method.

Subd. 4c. Defined contribution accumulations. For each fund providing benefits under the money purchase or defined contribution plan, the actuarial valuation shall contain an exhibit indicating the member contributions accumulated at interest, as apportioned to members accounts, to the date of the valuation. These accumulations shall be separately tabulated in a manner which properly reflects any differences in money purchase or defined contribution annuity rates which may apply.

Subd. 4d. Interest and salary assumptions. For funds governed by chapters 3A, 352, 352B, 352C, 353, 354 other than the variable annuity fund governed by section 354.62, and 490, the actuarial valuation shall use a preretirement interest assumption of eight percent, a postretirement interest assumption of five percent, and an assumption that in each future year the salary on which a retirement or other benefit is based is 1.065 multiplied by the salary for the preceding year. For funds governed by chapter 354A, the actuarial valuation shall use preretirement and postretirement assumptions of eight percent and an assumption that in each future year the salary on which a retirement or other benefit is based is 1.065 multiplied by the salary for the preceding year, but the actuarial valuation shall reflect the payment of postretirement adjustments to retirees shall be based on the methods specified in the bylaws of the fund as approved by the legislature. For all other funds, the actuarial valuation shall use a preretirement interest assumption of five percent, a postretirement interest assumption of five percent, and an assumption that in each future year the salary on which a retirement or other benefit is based is 1.035 multiplied by the salary for the preceding year.

For funds governed by chapters 3A, 352C, and 490, the actuarial valuation shall use a preretirement interest assumption of eight percent, a postretirement interest assumption of five percent, and an assumption that in each future year in which the salary amount payable is not determinable from section 3.099, 15A.081, subdivision 6, or 15A.083, subdivision 1, whichever is applicable, or from applicable compensation council recommendations under section 15A.082, the salary on which a retirement or other benefit is based is 1.065 multiplied by the known or computed salary for the preceding year, whichever is applicable.

Subd. 4e. Other assumptions. The actuarial valuation shall use assumptions concerning mortality, disability, retirement, withdrawal, retirement age, and any other relevant demographic or economic factor, which shall be set at levels consistent with those determined in the most recent experience study completed pursuant to subdivision 5. The actuarial valuation shall contain an exhibit indicating any actuarial assumptions used in preparing the valuation report.

Subd. 4f. Actuarial balance sheet. The actuarial valuation shall contain an actuarial balance sheet, which shall indicate current and expected future benefit obligations, current and expected future assets, unfunded actuarial accrued liability, current unfunded actuarial liability, and current and future unfunded actuarial liability. Specifically, the balance sheet for all funds, except local police, salaried firefighter, and specified volunteer firefighter funds, shall include the following:

Subd. 4g. **Amortization contributions.** In addition to the exhibit indicating the level normal cost, the actuarial valuation shall contain an exhibit indicating the additional annual contribution which would be required to amortize the unfunded actuarial accrued liability. For funds governed by chapters 3A, 352, 352B, 352C, 353, 354, 354A, and 490, the additional contribution shall be calculated on a level percentage of covered payroll basis by the established date for full funding which is in effect when the valuation is prepared. The level percent additional contribution shall be calculated assuming annual payroll growth of 6.5 percent. For all other funds, the additional annual contribution shall be calculated on a level annual dollar amount basis.

If, for any fund other than the Minneapolis employees retirement fund, after the first actuarial valuation date occurring after June 1, 1979, there has not been a change in the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, which change or changes by themselves without inclusion of any other items of increase or decrease produce a net increase in the unfunded actuarial accrued liability of the fund, the established date for full funding for the first actuarial valuation made after June 1, 1979, and each successive actuarial valuation shall be the first actuarial valuation date which occurs after June 1, 2009.

If, for any fund or plan other than the Minneapolis employees retirement fund, after the first actuarial valuation date occurring after June 1, 1979, there has been a change in any or all of the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, and the change or changes, by themselves and without inclusion of any other items of increase or decrease, produce a net increase in the unfunded actuarial accrued liability in the fund, the established date for full funding shall be determined using the following procedure:

(i) the unfunded actuarial accrued liability of the fund shall be determined in accordance with the plan provisions governing annuities and retirement benefits and the actuarial assumptions in effect before an applicable change;

(ii) the level annual dollar contribution or level percentage, whichever is applicable, which is needed to amortize the unfunded actuarial accrued liability amount determined pursuant to subclause (i) by the established date for full funding in effect prior to the change shall be calculated using the interest assumption specified in subdivision 4d in effect before the change;

(iii) the unfunded actuarial accrued liability of the fund shall be determined in accordance with any new plan provisions governing annuities and benefits payable from the fund and any new actuarial assumptions and the remaining plan provisions governing annuities and benefits payable from the fund and actuarial assumptions in effect before the change;

(iv) the level annual dollar contribution or level percentage, whichever is applicable, which is needed to amortize the difference between the unfunded actuarial accrued liability amount calculated pursuant to subclause (i) and the unfunded actuarial accrued liability amount calculated pursuant to subclause (iii) over a period of 30 years from the end of the plan year in which the applicable change is effective shall be calculated using the applicable interest assumption specified in subdivision 4d in effect after any applicable change;

(v) the level annual dollar or level percentage amortization contribution pursuant to subclause (iv) shall be added to the level annual dollar amortization contribution or level percentage calculated pursuant to subclause (ii);

(vi) the period in which the unfunded actuarial accrued liability amount determined in subclause (iii) will be amortized by the total level annual dollar or level

percentage amortization contribution computed pursuant to subclause (v) shall be calculated using the interest assumption specified in subdivision 4d in effect after any applicable change, rounded to the nearest integral number of years, but which shall not exceed a period of 30 years from the end of the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and which shall not be less than the period of years beginning in the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and ending by the date for full funding in effect before the change; and

(vii) the period determined pursuant to subclause (vi) shall be added to the date as of which the actuarial valuation was prepared and the date obtained shall be the new established date for full funding.

For the Minneapolis employees retirement fund, the established date for full funding shall be June 30, 2017.

Subd. 4h. Actuarial gains and losses. The actuarial valuation shall contain an exhibit consisting of an analysis by the actuary explaining the net increase or decrease in the unfunded actuarial accrued liability since the last valuation must be provided. The explanation shall subdivide the net increase or decrease in the unfunded actuarial accrued liability into at least the following parts:

(a) increases or decreases in the unfunded actuarial accrued liability because of changes in benefits;

(b) increases and decreases in the unfunded actuarial accrued liability because of each change, if any, in actuarial assumptions;

(c) increases or decreases in the unfunded actuarial accrued liability separately by source attributable to actuarial gains or losses resulting from any deviations of actual investment earnings, actual postretirement mortality rates, and actual salary increase rates from the assumptions on which the valuations are based and the remainder of the increase or decrease not attributable to any separate source;

(d) increases or decreases in unfunded actuarial accrued liability because of other reasons, including the effect of any amortization contribution; and

(e) increases or decreases in unfunded actuarial accrued liability because of changes in eligibility requirements or groups included in the membership of the fund.

Subd. 4i. Membership tabulation. The actuarial valuation shall contain an exhibit consisting of a tabulation of active membership and annuitants in the fund. If the membership of a fund is under more than one general benefit program, a separate tabulation shall be made for each general benefit program. The tabulations shall contain the following information:

(a) Active members	Number
As of last valuation date	
new entrants	
Total	
Separations from active service	
Refund of contributions	
Separation with deferred annuity	
Separation with neither refund	
nor deferred annuity

(b) Annuitants	Number

The tabulation required under subclause (b) shall be made separately for each of the following classes of annuitants:

- (a) Service retirement annuitants
- (b) Disability benefit recipients
- (c) Surviving spouse benefit recipients
- (d) Surviving child benefit recipients
- (e) Deferred annuitants

Subd. 4j. **Administrative expenses.** The actuarial valuation shall contain an exhibit indicating a statement of the administrative expenses expressed both in dollars and also as a percentage of covered payroll.

Subd. 4k. **Plan summary.** The actuarial valuation shall contain an exhibit indicating a summary of the principal provisions of the plan upon which the valuation is based.

Subd. 5. **Experience study; contents.** Each experience study shall contain an actuarial analysis of the experience of the fund or association and a comparison of the experience with the actuarial assumptions on which the most recent actuarial valuation of the retirement fund or relief association was based, and shall also contain a statement of the average ages at which service retirements have taken place.

Subd. 6. **Approved actuaries.** Each actuarial valuation or experience study shall be made and any actuarial consulting services for a retirement fund or plan shall be provided by an approved actuary. 356.30 COMBINED SERVICE ANNUITY.

Subdivision 1. Eligibility; computation of annuity. (1) Notwithstanding any provisions to the contrary of the laws governing the funds enumerated in subdivision 3, a person who has met the qualifications of clause (2) may elect to receive a retirement annuity from each fund in which the person has at least six months allowable service, based on the allowable service in each fund, subject to the provisions of clause (3).

(2) A person may receive upon retirement, in lieu of any augmentation of deferred annuities provided by laws governing the funds enumerated in subdivision 3, a retirement annuity from each fund in which the person has at least six months allowable service if

(a) the person has allowable service totaling five or more years in any two or more of the enumerated funds;

(b) the person has at least six months of allowable service with the last such fund earned during the last period of employment; and

(c) the person has not begun to receive an annuity from any enumerated fund or the person has made application for benefits from all funds within a six-month period.

(3) The retirement annuity from each fund shall be based upon the allowable service in each fund, except that:

(a) The laws governing annuities shall be the law in effect on the date of final termination from the last public service under a covered fund.

(b) The "average salary" on which the annuity from each covered fund in which the employee has credit in a formula plan shall be based on the employee's highest five successive years of covered salary during the entire service in covered funds.

(c) The formula percentages to be used by each fund shall be those percentages prescribed by each fund's formula as continued for the respective years of allowable service from one fund to the next, recognizing all previous allowable service with the other covered funds.

(d) Allowable service in all the funds shall be combined in determining eligibility for and the application of each fund's provisions in respect to actuarial reduction in the benefit amount for retirement prior to normal retirement.

(e) The benefit amount payable for any allowable service under a nonformula plan of a covered fund shall not be affected but such service and covered salary shall be used in the above calculation.

(f) This section shall not apply to any person whose final termination from the last public service under a covered fund is prior to May 1, 1975.

(g) For the purpose of computing benefits under this section the formula percentages used by any covered fund shall in no event exceed 2-1/2 percent per year of service for any year of service or fraction thereof.

(h) Any period of time for which a person has credit in more than one of the covered funds shall be used only once for the purpose of determining total allowable service.

(i) If the period of duplicated service credit is more than six months, or the person has credit for more than six months with each of the funds, each fund shall apply its formula to a prorated service credit for the period of duplicated service based on a fraction of the salary on which deductions were paid to that fund for the period divided by the total salary on which deductions were paid to all funds for the period.

(j) If the period of duplicated service credit is less than six months, or when added to other service credit with that fund is less than six months, the service credit shall be ignored and a refund of contributions made to the person in accord with that fund's refund provisions.

Subd. 2. Repayment of refunds. Any person who is employed in a position covered by one of the funds enumerated in subdivision 3 who has received a refund

from any other of such funds may repay such refund to the respective fund under such terms and conditions as are consistent with the laws governing such other fund, except that the person need not be a currently contributing member of the fund to which the refund is repaid at the time the repayment is made.

Subdivision 1. Definitions. (a) The terms used in this section are defined in this subdivision.

(b) "Average salary" means the highest average of covered salary for the appropriate period of credited service that is required for the calculation of a disability benefit by the covered retirement plan and that is drawn from any period of credited service and successive years of covered salary in a covered retirement plan.

(c) "Covered retirement plan" or "plan" means a retirement plan listed in subdivision 7.

(d) "Duty-related" means a disabling illness or injury that occurred while the person was actively engaged in employment duties or that arose out of the person's active employment duties.

(e) "General employee retirement plan" means a covered retirement plan listed in subdivision 7, clauses (1) to (8).

(f) "Occupationally disabled" means having a medically determinable physical or mental impairment that makes a person unable to satisfactorily perform the minimum requirements of the person's employment position or a substantially similar employment position.

(g) "Public safety employee retirement plan" means a covered retirement plan listed in subdivision 7, clauses (9) to (11).

(h) "Totally and permanently disabled" means having a medically determinable physical or mental impairment that makes a person unable to engage in any substantial gainful activity and that is expected to continue or has continued for a period of at least one year or that is expected to result directly in the person's death.

Subd. 2. Entitlement. Notwithstanding any law to the contrary governing any covered retirement plan, a member of a covered retirement plan may receive a combined service disability benefit from each covered retirement plan in which the person has credit for at least six months of allowable service if that person meets the applicable qualifying conditions. Subdivision 3 applies to a member of a general employee retirement plan. Subdivision 4 applies to a member of a public safety employee retirement plan. Subdivision 5 applies to a member of a covered retirement plan with general employee and public safety employee retirement plan service.

Subd. 3. General employee plan eligibility requirements. A disabled member of a covered retirement plan who has credit for allowable service in a combination of general employee retirement plans is entitled to a combined service disability benefit if the member:

- (1) is less than 65 years of age on the date of application for the disability benefit;
- (2) has become totally and permanently disabled;
- (3) has credit for allowable service in any combination of general employee retirement plans totaling at least five years;
- (4) has credit for at least six months of allowable service with the current general employee retirement plan before the commencement of the disability;
- (5) has at least five continuous years of allowable service credit by the general employee retirement plan or has at least a total of five years of allowable service credit by a combination of general employee retirement plans in a 72-month period during which no interruption of allowable service credit from a termination of employment exceeded 29 days; and
- (6) is not receiving a retirement annuity or disability benefit from any covered general employee retirement plan at the time of the commencement of the disability.

Subd. 4. Public safety plan eligibility requirements. A disabled member of a covered retirement plan who has credit for allowable service in a combination of public safety employee retirement plans is entitled to a combined service disability benefit if the member:

- (1) is less than 55 years of age on the date of application for the disability benefit;
- (2) has become occupationally disabled;
- (3) has credit for allowable service in any combination of public safety employee retirement plans totaling at least one year if the disability is duty-related or totaling at least five years if the disability is not duty-related;
- (4) has credit for at least six months of allowable service with the current public safety employee retirement plan before the commencement of the disability; and
- (5) is not receiving a retirement annuity or disability benefit from any covered public safety employee retirement plan at the time of the commencement of the disability.

Subd. 5. General and public safety plan eligibility requirements. A disabled member of a covered retirement plan who has credit for allowable service in a combination of both public safety employee retirement plans and general employee retirement plans must meet the qualifying requirements in subdivisions 3 and 4 to receive a combined service disability benefit from the applicable general employee and public safety employee retirement plans, except that the person need only be a member of a covered retirement plan at the time of the commencement of the disability and that the minimum allowable service requirements of subdivisions 3, clauses (3) and (5), and 4, clauses (3) and (4), may be met in any combination of covered retirement plans.

(b) The disability benefit must be governed by the law in effect for each covered retirement plan on the date of the commencement of the member's most recent qualifying disability as a member of a covered retirement plan.

(c) All plans must base the disability benefit on the same average salary to the extent practicable.

(d) If the method of the covered retirement plan used to compute a disability benefit varies based on the length of allowable service credit, the benefit accrual formula percentages used by the plan must recognize the allowable service credit in the plan as a continuation of any previous allowable service credit with other covered retirement plans.

(e) If the covered retirement plan is a defined benefit or formula plan and the method used to compute a disability benefit does not vary based on the length of allowable service credit, the portion of the specified benefit amount from the plan must bear the same proportion to the total specified benefit amount as the allowable service credit in that plan bears to the total allowable service credit in all covered retirement plans. If the covered retirement plan is a defined contribution or nonformula plan, the disability benefit amount for allowable service under the plan is not affected, but the service and covered salary under the plan must be used in calculations by other covered retirement plans.

(f) A period for which a person has allowable service credit in more than one covered retirement plan must be used only once in determining the total allowable service credit for calculating the combined service disability benefit, with any period of duplicated service credit handled as provided in section 356.30, subdivision 1, clause (3), items (i) and (j).

Subd. 2. Entitlement; eligibility. Notwithstanding any law to the contrary governing a covered retirement plan, a person who is the survivor of a deceased member of a covered retirement plan may receive a combined service survivor benefit from each covered retirement plan in which the deceased member had credit for at least six months of allowable service if the deceased member:

(1) had credit for sufficient allowable service in any combination of covered retirement plans to meet any minimum allowable service credit requirement of the covered retirement fund for qualification for a survivor benefit or annuity;

(2) had credit for at least six months of allowable service with the most recent covered retirement plan before the date of death and was an active member of that covered retirement plan on the date of death; and

(c) All plans must base the survivor annuity or survivor benefit on the same average salary.

(d) If the method of the covered retirement plan used to compute a survivor benefit or annuity varies based on the length of allowable service credit, the benefit accrual formula percentages used by the plan must recognize the allowable service credit in the plan as a continuation of any previous allowable service credit with other covered retirement plans.

(e) If the covered retirement plan is a defined benefit or formula plan and the method used to compute a survivor benefit or annuity does not vary based on the length of allowable service credit, the portion of the specified benefit or annuity amount from the plan must bear the same proportion to the total specified benefit or annuity amount as the allowable service credit in that plan bears to the total allowable service credit in all covered retirement plans. If the covered retirement plan is a defined contribution or nonformula plan, the survivor benefit amount for allowable service under the plan is not affected, but the service and covered salary under the plan must be used in calculations by other covered retirement plans.

(f) A period for which a person has allowable service credit in more than one covered retirement plan must be used only once in determining the total allowable service credit for calculating the combined service survivor annuity or survivor benefit.

A period of duplicated service credit must be handled as provided in section 356.30, subdivision 1, clause (3), items (i) and (j).

(1) "Annuity form" means the payment procedure and duration of a retirement annuity or disability benefit available to a member of a public pension fund, based on the period over which a retirement annuity or disability benefit is payable, determined by the number of persons to whom the retirement annuity or disability benefit is payable, and the amount of the retirement annuity or disability benefit which is payable to each person.

(2) "Joint and survivor optional annuity" means an optional annuity form which provides a retirement annuity or disability benefit to a retired member and the spouse of the member on a joint basis during the lifetime of the retired member and all or a portion of the original retirement annuity or disability benefit amount to the surviving spouse in the event of the death of the retired member.

and is not provided automatically as the standard annuity form of the public pension fund.

(4) "Public pension fund" means a public pension plan as defined pursuant to section 356.61.

(5) "Retirement annuity" means a series of monthly payments to which a former or retired member of a public pension fund is entitled on account of attaining a specified age and acquiring credit for a specified period of service, which shall include a retirement annuity, retirement allowance or service pension.

(6) "Disability benefit" means a series of monthly payments to which a former or disabled member of a public pension fund is entitled on account of a physical or mental inability to engage in specified employment.

Subd. 2. Provision of information on annuity forms. Every public pension fund which provides for an annuity form other than a single life retirement annuity as an option which can be elected by an active, disabled or retiring member shall provide as a part of, or accompanying the annuity application form, a written statement summarizing the optional annuity forms which are available, a general indication of the consequences of selecting one annuity form over another, a calculation of the actuarial reduction in the amount of the retirement annuity which would be required for each optional annuity form and the procedure to be followed to obtain more information from the public pension fund concerning the optional annuity forms provided by the fund.

Subd. 3. Requirement of notice to member's spouse. If a public pension fund provides optional annuity forms which include a joint and survivor optional annuity form potentially applicable to the surviving spouse of a member, the public pension fund shall send a copy of the written statement required by subdivision 2 to the spouse of the member prior to the member's election of an optional annuity.

Following the election of an annuity form by the member, a copy of the completed annuity application shall be sent by certified mail to the spouse of the retiring member.

356.40 DATE FOR PAYMENT OF ANNUITIES AND BENEFITS.

Notwithstanding any law to the contrary, all annuities and benefits payable on and after December 1, 1977 by a covered retirement fund, as defined in section 356.30, subdivision 3, shall be paid in advance for each month during the first week of that month. Bylaws of municipal retirement funds shall be amended accordingly. In no event, however, shall this section authorize more than one payment in any one month where the law governing the applicable retirement fund as of June 30, 1977 already provides for the full payment or accrual of annuities and benefits in advance for each month or as of the first day of the month, nor shall it authorize the payment of both

a retirement annuity and a surviving spouse's benefit in one month where the law governing the applicable retirement fund provides for the payment of the retired member's retirement annuity to the surviving spouse for the month in which the retired member dies.

356.41 BENEFIT ADJUSTMENTS FOR CERTAIN DISABILITY AND SURVIVOR BENEFITS.

Disability benefits payable to a disabilitant, if not otherwise included in the participation in the Minnesota postretirement investment fund, and survivor benefits payable to a survivor from any public pension fund which participates in the Minnesota postretirement investment fund shall be adjusted in the same manner, at the same times and in the same amounts as are benefits payable from the Minnesota postretirement investment fund to eligible benefit recipients of that public pension fund. If a disability benefit is not included in the participation in the Minnesota postretirement investment fund, the disability benefit is recomputed as a retirement annuity and the recipient would have been eligible for an adjustment pursuant to this section if the disability benefit was not recomputed, the recipient will continue to be eligible for the adjustment pursuant to this section after the recomputation. For the survivor of a deceased annuitant who receives a survivor benefit calculated pursuant to a prior law rather than the second portion of a joint and survivor annuity, any period of receipt of a retirement annuity by the annuitant shall be utilized in determining the period of receipt for eligibility to receive an adjustment pursuant to this section. No recipient shall, however, be entitled to more than one adjustment pursuant to this section or section 11A.18 applicable to one benefit at one time by reason of this section.

356.45 MEMBERSHIP OF CERTAIN PERSONS IN VARIOUS RETIREMENT FUNDS OR PLANS.

Subdivision 1. Exclusion of certain employees in certain federal programs. No person employed in subsidized on-the-job training, work experience or public service employment as an enrollee under the federal Comprehensive Employment and Training Act from and after March 30, 1978 shall be included as a member of a public retirement fund, unless the person is employed by an employer where public retirement coverage is to be provided by a covered fund enumerated in section 356.451, subdivision 2, and the city council of the city of Minneapolis specifies that the person is to be considered as a provisional member of the relief association pursuant to section 356.451, or unless the person has as of the later of March 30, 1978 or the date of employment sufficient service credit under the provisions of the plan to meet the minimum vesting requirements for a deferred retirement annuity, or the employer agrees in writing to make the total required employer contributions, including any employer additional contribution, on account of that person from revenue sources other than funds provided under the federal Comprehensive Training and Employment Act, or the person agrees in writing to make the required employer contributions in addition to any required employee contribution.

Subd. 2. Covered funds. The provisions of this section shall apply to the following retirement funds or plans:

- (1) University of Minnesota faculty retirement plan;
- (2) University of Minnesota faculty supplemental retirement plan;
- (3) any municipal retirement fund or plan providing pension or retirement coverage for police officers or paid firefighters which was established and is governed in whole or in part by special legislation;
- (4) any retirement fund or plan established, maintained, or supported by any governmental subdivision or public body whose revenues are derived from taxation,

fees, assessments or from other public sources which provides pension or retirement coverage for public employees, other than police officers or paid firefighters, who are not covered by a retirement fund enumerated in section 356.30, subdivision 3; or

(5) any supplemental retirement plan established, maintained, or supported by any government subdivision or public body whose revenues are derived from taxation, fees, assessments or other public sources.

356.451 PROVISIONAL MEMBERSHIP FOR CERTAIN PERSONS IN VARIOUS RETIREMENT FUNDS OR PLANS.

Subdivision 1. Reserve account for provisional members; authorization. Notwithstanding any provisions to the contrary of the laws governing the funds enumerated in subdivision 2, any person who is employed in subsidized on-the-job training, work experience or public service employment as an enrollee under the federal Comprehensive Employment and Training Act, who does not have as of the later of March 30, 1978, or the date of employment sufficient service credit in the retirement fund to meet the minimum vesting requirements for a deferred annuity, who otherwise meets all of the applicable eligibility requirements of the fund and who is designated as such by the city council of the city of Minneapolis or the board of education of special school district No. 1, whichever is applicable, shall be considered a provisional member of the fund. There shall be established a subsidiary reserve account for provisional members which shall be managed by the board of trustees of the fund as a separate account and which shall not be considered as an asset or a liability of the fund. To this account shall be credited all employee and required employer contributions made by or on account of provisional members. A separate record for each provisional member shall be maintained showing the length of service completed, the accrued employee and required employer contributions made by or on account of each provisional member, and the actual rate of interest earned on the assets of the account. The assets of the separate account shall be invested in the same manner as and subject to the same limitations as are applicable to the general assets of the retirement fund. The board of trustees shall remit back to the prime sponsor of the federal Comprehensive Employment and Training Act program periodically as required by the applicable federal regulation an amount equal to the total required employer contributions made on account of provisional members who terminate or who are terminated from subsidized on-the-job training, work experience or public service employment without obtaining unsubsidized employment with an employer who employs members who regularly have retirement coverage provided by that retirement fund or by a retirement fund enumerated in section 356.30, subdivision 3, or without obtaining sufficient service credit to become entitled to a deferred retirement annuity had they been regular members of that retirement fund during the period of their provisional membership, plus interest at the rate or rates actually earned and in addition any amounts which exceed the funds required to cover current provisional members as projected by the board of trustees. Any provisional member who terminates or is terminated from subsidized on-the-job training, work experience, or public service employment without obtaining unsubsidized employment with an employer who employs members who regularly have retirement coverage provided by that retirement fund or by a retirement fund enumerated in section 356.30, subdivision 3, or without obtaining sufficient service to become entitled to a deferred retirement annuity had the provisional member been a regular member of the retirement fund during the period of provisional membership shall be entitled upon making valid written application to a refund of all employee contributions credited to the member in the subsidiary reserve account for provisional members, plus interest at the average actual rate of interest earned on the assets of the account, but not to exceed the rate of 3-1/2 percent per annum compounded annually from the date of commencement of provisional membership, computed to the first day of the month in which the refund is processed, and based on fiscal year balances. If the provisional member obtains unsubsidized employment with an employer who

employs members who regularly have retirement coverage provided by that retirement fund or by a retirement fund enumerated in section 356.30, subdivision 3, or obtains sufficient service to become entitled to a deferred retirement annuity had the period of provisional membership been as a regular member, the board of trustees shall transfer the total employee and required employer contributions and any interest attributable to those contributions to the regular retirement fund and shall credit the period of service as a provisional member as allowable or formula service. Unless the provisional member becomes a regular member of that retirement fund or a retirement fund enumerated in section 356.30, subdivision 3, within the time period allowed under the applicable federal regulations following the person's termination of provisional status, no period of provisional membership shall be considered allowable service for purposes of the combined service annuity pursuant to section 356.30 or any service in more than one retirement fund provision. For any former provisional member who becomes a regular member of a retirement fund enumerated in section 356.30, subdivision 3, the board of trustees shall require written certification of the fact of unsubsidized employment from the subsequent employer and of the fact of regular fund membership from the subsequent retirement fund. If any provisional member obtains service in an amount sufficient to entitle the provisional member to a disability benefit or the provisional member's survivor to a survivor's benefit had the provisional member been a regular member for that period of service, then the provisional member or the provisional member's survivor shall be entitled to a benefit when otherwise qualified notwithstanding the fact that the person was a provisional member. Upon the commencement of the benefit, an amount equal to the contributions and interest credited to the provisional member shall be transferred from the reserve account for provisional members to the regular fund.

Subd. 2. Covered funds. Subdivision 1 applies to the following funds:

- (1) Minneapolis employees retirement fund established pursuant to chapter 422A;
- (2) Minneapolis firefighters relief association established pursuant to chapter 69;
- (3) Minneapolis police relief association established pursuant to Laws 1949, chapter 406, as amended;
- (4) Any plan covering employees of the housing and redevelopment agency of the city of Minneapolis as established by law, ordinance, or otherwise;
- (5) Minneapolis teachers retirement fund association established pursuant to chapter 354A.

356.452 REFUND.

Any person who is a member of any public pension plan or fund to which the provisions of Laws 1978, chapter 720 apply on March 30, 1978 and who is excluded from that membership pursuant to Laws 1978, chapter 720 shall be entitled, upon making a valid application, to a refund of the accumulated employee or member contributions to the person's credit for the period of employment in subsidized on-the-job training, work experience or public service employment as an enrollee under the federal Comprehensive Employment and Training Act plus interest at the rate of 3-1/2 percent per annum compounded annually from the date of commencement of coverage by the pension plan or fund, computed to the first day of the month in which the refund is processed, and based on the fiscal year balances. The refund shall be made without any requirement that the person terminate service prior to becoming eligible to receive the refund and shall be made without any minimum waiting period provided for in the provisions of the plan. Notwithstanding any law to the contrary, a refund taken under this section may be repaid to the fund from which it was taken at the fund's applicable rate of interest after attaining unsubsidized public employment with public pension plan or fund coverage and while so employed prior to retirement whether with the same public employer which provided the subsidized employment or another public employer.

History: 1978 c 720 s 20

356.453 PURCHASE OF PRIOR SERVICE.

Any person who is excluded from pension coverage pursuant to the provisions of Laws 1978, chapter 720, but who subsequently becomes employed in unsubsidized public employment with public pension plan or fund coverage, whether with the same public employer which provided the subsidized employment or another public employer, shall be entitled to purchase service credit for that period of prior subsidized public employment, other than a period of prior subsidized public employment for which a repayment of a refund pursuant to section 356.452 is made, with the public pension plan or fund which, except for the exclusion provided for by Laws 1978, chapter 720, would have provided pension coverage for the subsidized employment. Payment shall include all employee and employer contributions at the rates and on the salary in effect when the subsidized employment was rendered plus interest at the rate of six percent per annum compounded annually from the year purchased to the date payment is made; provided, however, that the employer for the unsubsidized employment, the employer for the subsidized employment, or the applicable federal Comprehensive Employment and Training Act prime sponsor from funds provided under the federal Comprehensive Employment and Training Act, as funds permit, may pay the employer contribution and the employer additional contribution, if any, plus interest at the specified rate. The public employer which provided the subsidized employment shall provide whatever documentation of periods of subsidized public employment and the salary received that the pension plan or fund shall require. Payment shall be made in one lump sum by the date of retirement and no service credit with respect to the payment shall be granted until payment is received by the pension plan or fund.

History: 1978 c 720 s 21

356.454 INTENT AND INTERPRETATION OF EXCLUSION.

The exclusion from pension or retirement fund coverage provided for by Laws 1978, chapter 720 is intended to comply with the minimum requirements of the amended federal regulations governing the Comprehensive Employment and Training Act of 1973, as amended by the Emergency Jobs Program Extension Act of 1976, Code of Federal Regulations, title 29, section 98.25, effective June 13, 1977 for authorized expenditures after October 1, 1977. Any administrative or judicial interpretation of the exclusion provided for by Laws 1978, chapter 720 shall limit the extension of this exclusion to the minimum requirements of the amended federal regulation.

History: 1978 c 720 s 22

356.455 CORRECTION OF ERRONEOUS INTERPRETATION OF EXCLUSION OF CERTAIN EMPLOYEES IN CERTAIN FEDERAL PROGRAMS.

The employment of a person as an enrollee under the federal Comprehensive Employment and Training Act in a subsidized on-the-job training, work experience or public service employment position shall not be deemed to be two employments for purposes of implementing the exclusion from retirement fund coverage provided for in Laws 1978, chapter 720, even though the compensation for the person is paid in part from federal Comprehensive Employment and Training Act subsidy funds and is paid in part from local supplementary revenue sources other than funds provided under the federal Comprehensive Employment and Training Act, and any contrary prior administrative interpretation of the provisions of Laws 1978, chapter 720 is deemed to be erroneous. This section shall be deemed to be remedial in nature and shall be effective retroactively to March 30, 1978. Any employee contributions and any employer and employer additional contributions taken from or on behalf of any person who would have been excluded from retirement fund coverage pursuant to Laws 1978, chapter 720 except for the erroneous prior administrative interpretation shall be deemed to be erroneous deductions and shall be refunded as soon as practicable to the person and employing unit involved. The refund shall be accompanied by interest at the rate of five percent per annum compounded, payable from the date that the erroneous deduction was taken to the first day of the month in which the refund is processed.

356.61 LIMITATION ON PUBLIC EMPLOYEE RETIREMENT ANNUITIES.

Notwithstanding any provision of law, bylaws, articles of incorporation, retirement and disability allowance plan agreements or retirement plan contracts to the contrary, no person who has pension or retirement coverage by a public pension plan shall be entitled to receive a monthly retirement annuity or disability benefit which, at the time of commencement of the retirement annuity or disability benefit, exceeds the lesser of:

(a) the amount of the final monthly salary of the person; or

(b) 1/12 of the amount of the annual benefit permitted by the terms of section 415 of the Internal Revenue Code with respect to a participant in a plan qualified under section 401(a) of the Internal Revenue Code, as amended through December 31, 1982.

The benefit limitation of clause (b) is to be determined on the date the benefit is initially payable or on the date the employee terminated employment, if earlier. The benefit limitation on any date is the benefit limitation for the limitation year in which the date occurs. The limitations apply only to the annual benefit which is derived from employer contributions. Mandatory and voluntary employee contributions, if any, are treated as a separate defined contribution plan maintained by the employer which is subject to the limitations placed on annual additions to defined contribution plans.

The maximum annual benefit of clause (b) for any limitation year is the lesser of (1) or (2) below:

(1) A dollar limitation of \$90,000, adjusted as of January 1 of each calendar year to the dollar limitation as determined for that year by the commissioner of Internal Revenue. The amount determined for any year will apply to limitation years ending with or within that calendar year.

(2) A compensation limitation of 100 percent of the average of compensation paid or made available to the participant by the employer during those three consecutive calendar years of employment, or actual number of consecutive calendar years of employment if employed less than three consecutive years, which give the highest average. Compensation means any compensation which is includable in the employee's gross income.

A benefit shall be deemed not to exceed the maximum benefit limitation of clause (b) if:

(1) the retirement benefits payable under the plan and under any other defined benefit plans of the employer do not exceed the \$10,000 limit set in section 415(b)(4) of the Internal Revenue Code for the plan year, or for any prior plan year, and

(2) the employer has not at any time maintained a defined contribution plan in which the employee participated.

A public pension plan is any Minnesota public pension plan or fund which provides pension or retirement coverage for public employees other than volunteer firefighters, including any plan or fund enumerated in sections 356.20, subdivision 2, or 356.30, subdivision 3, any local police or firefighter's relief association to which section 69.77 applies, or any retirement or pension plan or fund, including a supplemental retirement plan or fund, established, maintained or supported by any governmental subdivision or public body whose revenues are derived from taxation, fees, assessments or from other public sources. Final monthly salary is the hourly rate of compensation received by the person on account of the most recent public employment for the final pay period occurring prior to retirement multiplied by 174.

The figure for the monthly retirement annuity or disability benefit to be used for the calculation of this limitation shall not include any reduction or adjustment required for retirement prior to the normal retirement age or required for the election of an optional annuity.

If the figure for the monthly retirement annuity or disability benefit exceeds the limit contained in this section, the annuity or benefit payable shall be reduced appropriately.

The managing board of each public pension plan from which a retirement annuity or disability benefit is payable shall, at the time that the retirement annuity or disability benefit commences, contact all other public pension plans to determine whether or not the recipient of the retirement annuity or disability benefit is also receiving or is entitled to receive a retirement annuity or disability benefit from any other public pension plan. If a person is entitled to receive or is receiving a retirement annuity or disability benefit from more than one public pension plan, all retirement annuities or disability benefits from all public pension plans shall be totaled in determining whether or not the limitation shall apply; provided however, that the limitation shall be based on the highest final monthly salary received by the individual from any plan. Any reduction in the amount of the retirement annuity or disability benefit required pursuant to this section shall be made by the public pension plan which provided retirement coverage for the most recent period of service.

356.615 LIMITATION ON USE OF PUBLIC PENSION PLAN ASSETS.

(a) Money held by or credited to a public pension plan as assets, including employer and employee contributions, state aid, appropriations from the state or a governmental subdivision, and accrued earnings on investments, constitutes a dedicated fund. The dedicated fund may be used exclusively to pay retirement annuities, service pensions, disability benefits, survivor benefits, refunds of contributions, or other benefits provided under the benefit plan document or documents governing the public pension plan, and to pay reasonable administrative expenses approved by the governing board of the public pension plan or by another appropriate authority. No assets of a public pension plan may be loaned or transferred to the state or a governmental subdivision or be used to amortize an unfunded actuarial accrued liability in another public pension plan or fund, whether or not the plan providing the assets consolidates or has consolidated with the plan receiving the assets. Nothing in this section prohibits a public pension plan or the state board of investment from investing the assets of a plan as authorized by law, including the investment of the assets of public pension plans by the state board of investment in a commingled investment fund.

(b) A public pension plan for purposes of this section means a pension plan or fund specified in section 356.20, subdivision 2, or 356.30, subdivision 3, or a retirement or pension plan or fund, including a supplemental retirement plan or fund, established, maintained, or supported by a governmental subdivision or public body whose revenues are derived from taxation, fees, assessments, or other public sources.

356.62 PAYMENT OF EMPLOYEE CONTRIBUTION.

For purposes of any public pension plan, as defined in section 356.61, each employer shall pick up the employee contributions required pursuant to law or the pension plan for all salary payable after December 31, 1982. If the United States Treasury department rules that pursuant to section 414(h) of the Internal Revenue Code of 1954, as amended, that these picked up contributions are not includable in the employee's adjusted gross income until they are distributed or made available, then these picked up contributions shall be treated as employer contributions in determining tax treatment pursuant to the Internal Revenue Code of 1954, as amended, and the employer shall discontinue withholding federal income taxes on the amount of these contributions. The employer shall pay these picked up contributions from the same source of funds as is used to pay the salary of the employee. The employer shall pick up these employee contributions by a reduction in the cash salary of the employee.

Employee contributions that are picked up shall be treated for all purposes of the

public pension plan in the same manner and to the same extent as employee contributions that were made prior to the date on which the employee contributions pick up began. The amount of the employee contributions that are picked up shall be included in the salary upon which retirement coverage is credited and retirement and survivor's benefits are determined. For purposes of this section, "employee" means any person covered by a public pension plan. For purposes of this section, "employee contributions" include any sums deducted from the employee's salary or wages or otherwise paid in lieu thereof, regardless of whether they are denominated contributions by the public pension plan.

For any calendar year in which withholding has been reduced pursuant to this section, the employing unit shall supply each employee and the commissioner of revenue with an information return indicating the amount of the employer's picked-up contributions for the calendar year that were not subject to withholding. This return shall be provided to the employee not later than January 31 of the succeeding calendar year. The commissioner of revenue shall prescribe the form of the return and the provisions of sections 290.41 and 290.42 shall apply to the extent not inconsistent with the provisions of this section.
