### 69.011 QUALIFYING FOR STATE AID.

Subdivision 1. **Definitions.** Unless the language or context clearly indicates that a different meaning is intended, the following words and terms shall for the purposes of this chapter and chapters 423, 423A, 424 and 424A have the meanings ascribed to them:

- (a) "Commissioner" means the commissioner of revenue.
- (b) "Municipality" means any home rule charter or statutory city, organized town or park district subject to chapter 398, and the University of Minnesota.

- (e) "Gross tax capacity" means latest available gross tax capacity of all property in a taxing jurisdiction, whether the property is subject to taxation, or exempt from ad valorem taxation obtained from information which appears on abstracts filed with the commissioner of revenue or equalized by the state board of equalization.
- (f) "Minnesota Aid to Police Premium Report" means a form prescribed by the commissioner for reporting by each fire and casualty insurer of all premiums received

upon direct business received by it in this state, or by its agents for it, in cash or otherwise, during the preceding calendar year, with reference to insurance written for insuring against the perils contained in auto insurance coverages as reported in the Minnesota business schedule of the annual financial statement which each insurer is required to file with the commissioner in accordance with the governing laws or rules less return premiums and dividends.

(g) "Peace officer" means any person:

(1) whose primary source of income derived from wages is from direct employment by a municipality or county as a law enforcement officer on a full-time basis of not less than 30 hours per week;

(2) who has been employed for a minimum of six months prior to December 31 preceding the date of the current year's certification pursuant to subdivision 2, clause (b);

In a park district the clerk is the secretary of the board of park district commissioners. In the case of the University of Minnesota, the clerk is that official designated by the board of regents.

**Subd. 2. Qualification for fire or police state aid.** (a) In order to qualify to receive fire state aid, on or before July 1, annually, in conjunction with the financial report required pursuant to section 69.051, the clerk of each municipality having a duly organized fire department as provided in subdivision 4, or the secretary of each independent nonprofit firefighting corporation having a subsidiary incorporated firefighters' relief association whichever is applicable, and the fire chief, shall jointly certify the existence of the municipal fire department or of the independent nonprofit firefighting corporation, whichever is applicable, which meets the minimum qualification requirements set forth in this subdivision, and the fire personnel and equipment of the municipal fire department or the independent nonprofit firefighting corporation as of the preceding December 31. Certification shall be made to the commissioner on a form prescribed by the commissioner and shall include any other facts the commissioner may require. The certification shall be made to the commissioner in duplicate. Each copy of the certificate shall be duly executed and deemed an original. The commissioner shall forward one copy to the auditor of the county wherein the fire department is located and retain one copy.

(b) On or before July 1 annually the clerk of each municipality having a duly organized police department and having a duly incorporated relief association shall certify that fact to the county auditor of the county where the police department is located and to the commissioner on a form prescribed by the commissioner together with the other facts the commissioner or auditor may require.

On or before July 1 annually, the clerk of each municipality and the auditor of each county employing one or more peace officers as defined in subdivision 1, clause (h),

shall certify the number of such peace officers to the commissioner on forms prescribed by the commissioner. Credit for officers employed less than a full year shall be apportioned. Each full month of employment of a qualifying officer during the calendar year shall entitle the employing municipality or county to credit for 1/12 of the payment for employment of a peace officer for the entire year. For purposes of sections 69.011 to 69.051, employment of a peace officer shall commence when the peace officer is entered on the payroll of the respective municipal police department or county sheriff's department. No peace officer shall be included in the certification of the number of peace officers by more than one municipality or county for the same month.

**Subd. 3. Failure to file certificate deemed waiver.** If the certificate required by this section is not filed with the commissioner within the time prescribed by this section the municipality or nonprofit fire fighting corporation shall be deemed to have relinquished its rights for the year to the benefits under this chapter. Failure to receive the certificate form cannot be used as a defense for not filing.

**Subd. 4. Qualification for state aid.** Any municipality in this state having for more than one year an organized fire department and officially established by the governing body of the municipality or an independent nonprofit fire fighting corporation created under the nonprofit corporation act of this state and operating exclusively for fire fighting purposes and providing retirement and relief benefits to its members or having a separate subsidiary incorporated firefighter's relief and pension association providing retirement and relief benefits may qualify to receive state aid if it meets the following minimum requirements or equivalent as determined by the state fire marshal by July 1, 1972:

(a) Ten paid or volunteer firefighters including a fire chief and assistant fire chief, and

(b) Regular scheduled meetings and frequent drills including instructions in fire fighting tactics and in the use, care, and operation of all fire apparatus and equipment, and

(g) Other requirements the commissioner establishes by rule.

**Subd. 5. Fire departments to be inspected by state fire marshal.** It shall be the duty of the state fire marshal or an appointed deputy or designated assistants to inspect, or cause to be inspected, at the time other public buildings are inspected, the fire department of any municipality or nonprofit fire fighting corporations in this state; and, for that purpose, the fire marshal or any of the fire marshal's deputies or designated assistants shall have the right to enter or have access thereto at any reasonable hour. When upon inspection, it is found that the fire department inspected does not conform to the requirements of subdivision 4 the fire marshal shall make a report of the fact and the commissioner shall disqualify the municipality or nonprofit firefighting corporation from participation in the state aid apportionment provided for in this chapter and chapter 424.

**69.021 REPORTING PREMIUMS; CALCULATION OF AID.**

**Subdivision 1. Minnesota firetown premium report and Minnesota aid to police premium report.** The commissioner shall, at the time of mailing tax forms, send blank copies of the Minnesota Firetown Premium Report and when applicable the Minnesota Aid to Police Premium Report to each insurer, including township and farmers mutual insurance companies licensed to write insurance as described in section 69.011, subdivision 1, clauses (c) and (f) in this state. These reports shall contain space for the insurers name, address, gross premiums less return premiums, dividends, net premiums, certification and other facts the commissioner may require.

**Subd. 2. Report of premiums.** Each insurer, including township and farmers mutual insurers where applicable, shall return to the commissioner with its annual financial statement the reports described in subdivision 1 certified by its secretary and president or chief financial officer. The Minnesota Firetown Premium Report shall contain a true and accurate statement of the total premium for all gross direct fire, lightning, and sprinkler leakage insurance of all domestic mutual insurers and the total premiums for all gross direct fire, lightning, sprinkler leakage and extended coverage insurance of all other insurers, less return premiums and dividends received by them on that business written or done during the preceding calendar year upon property located within the state or brought into the state for temporary use. The fire and extended coverage portion of multiperil and multiple peril package premiums and all other combination premiums shall be determined by applying percentages determined by the commissioner or by rating bureaus recognized by the commissioner. The Minnesota Aid to Police Premium Report shall contain a true and accurate statement of the total premiums, less return premiums and dividends, on all direct business received by such insurer in this state, or by its agents for it, in cash or otherwise, during the preceding calendar year, with reference to insurance written for perils described in section 69.011, subdivision 1, clause (f), except that domestic mutual insurance companies must not file a report.

**Subd. 3. Penalty for fraudulent, incorrect, incomplete returns and late filing of report.** When it appears to the commissioner that any insurer has made an incomplete or inaccurate report the commissioner shall return the report and demand that a complete and accurate report be filed. If the insurer fails to file a report on or before March 1, annually, the insurer shall be liable and shall pay \$25 for each seven days delinquent or fraction thereof not to exceed \$200. If the insurer fails to file a corrected report within 30 days after demand, the insurer is liable for the penalties provided in this subdivision for knowingly filing an inaccurate or false report.

Any insurer who knowingly makes and files an inaccurate or false report shall be liable to a fine of not less than \$25 nor more than \$1,000 and the commissioner of commerce may revoke the insurer's certificate of authority.

Any person whose duty it is to make the report who fails or refuses to make it within 30 days after notification by the commissioner shall be fined not more than \$1,000. Failure of the insurer to receive a reporting form shall not excuse the insurer from filing the report.

**Subd. 3a.** [Repealed, 1987 c 268 art 2 s 38]

**Subd. 4. Determination of qualified state aid recipients; certification to commissioner of revenue.** The commissioner shall determine which municipalities and independent nonprofit firefighting corporations are qualified to receive fire state aid and which municipalities and counties are qualified to receive police state aid. The commissioner shall determine qualification upon receipt of (1) the fire department personnel and equipment certification or the police department and qualified peace officers certificate, whichever is applicable, required pursuant to section 69.011, (2) the

# MINNESOTA STATUTES 1988

1677

FIRE AND POLICE DEPARTMENT AID; FIREFIGHTERS' AND POLICE RELIEF 69.021

financial compliance report required pursuant to section 6.495, and (3) any other relevant information which comes to the attention of the commissioner. Upon completion of the determination, on or before September 1, the commissioner shall calculate pursuant to subdivision 6 the amount of fire state aid and police state aid which each county, municipality, or independent nonprofit firefighting corporation is to receive and shall certify to the commissioner of finance the name of each county, municipality, or independent nonprofit firefighting corporation and the amount of state aid which each is to receive.

**Subd. 5. Calculation of state aid.** The amount of state aid available for apportionment shall be two percent of the fire, lightning, sprinkler leakage, and extended coverage premiums reported to the commissioner by insurers on the Minnesota Fire-town Premium Report and two percent of the premiums reported to the commissioner by insurers on the Minnesota Aid to Police Premium Report. This amount shall be reduced by the amount required to pay the state auditor's costs and expenses of the audits or exams of the firefighters relief associations. The total amount for apportionment in respect to police state aid shall not be greater or lesser than the amount of premium taxes paid to the state upon the premiums reported to the commissioner by insurers on the Minnesota Aid to Police Premium Report after subtracting the amount required to pay the state auditor's costs and expenses of the audits or exams of the police relief associations. The amount for apportionment in respect to police state aid shall be distributed to the municipalities maintaining police departments and to the county on the basis of the number of active peace officers, as certified pursuant to section 69.011, subdivision 2, clause (b). The commissioner shall calculate the percentage of increase or decrease reflected in the apportionment over or under the previous year's available state aid using the same premiums as a basis for comparison.

**Subd. 6. Calculation of apportionment of aid to counties.** With respect to firefighters, one-half of the state aid available shall be distributed to the counties in proportion to their population as shown by the last official statewide federal census. The remaining one-half of the state aid available shall be distributed to the counties in proportion to their gross tax capacity, excluding mineral values.

In the case of incorporated or municipal fire departments furnishing fire protection to cities, towns or townships in other counties as evidenced by valid fire service contracts filed with the commissioner of commerce and county auditor the distribution to the respective counties shall be adjusted proportionately to take into consideration the crossover fire protection service. Necessary adjustments shall be made to subsequent apportionments.

The state aid available in respect to peace officers shall not exceed the amount of tax collected and shall be distributed to the counties in proportion to the total number of active peace officers, as defined in section 69.011, subdivision 1, clause (g), in each county who are employed either by municipalities maintaining police departments or by the county. Any necessary adjustments shall be made to subsequent apportionments.

**Subd. 7. Apportionment of aid to municipalities and relief associations.** (1) The commissioner shall apportion the state aid relative to the premiums reported on the Minnesota Firetown Premium Reports filed pursuant to this chapter to each municipality and/or firefighters' relief association in the same manner that state aid is apportioned to the counties, one-half in proportion to the population and one-half in proportion to the gross tax capacity of the fire towns in the county for which aid is apportioned. Necessary adjustments shall be made to subsequent apportionments.

In the case of municipalities or independent fire departments qualifying for the aid the commissioner shall calculate the state aid for the municipality or relief association on the basis of the population and the gross tax capacity of the area furnished fire protection service by the fire department as evidenced by duly executed and valid fire service agreements filed with the commissioner. If one or more fire departments are furnishing contracted fire service to a city, town or township only the population and gross tax capacity of the area served by each fire department shall be considered in calculating the state aid and the fire departments furnishing service shall enter into an

agreement apportioning among themselves the percent of the population and the gross tax capacity of each service area. Agreement shall be in writing and filed with the commissioner in duplicate. The commissioner shall forward one copy of the agreement to the county auditor of the county wherein the fire department is located and retain one copy.

The aid shall be paid to the treasurer of the municipality where the fire department is located and the treasurer of the municipality shall within 30 days transmit the aid to the relief association if the relief association has filed a financial report with the treasurer of the municipality and has met all other statutory provisions pertaining to the aid apportionment.

The commissioner is hereby empowered to make rules to permit the administration of the provisions of this section.

(2) The commissioner shall apportion the state police aid to each municipality and to the county in the following manner:

(a) For all municipalities maintaining police departments and the county, the state aid shall be distributed in proportion to the total number of peace officers, as determined pursuant to section 69.011, subdivision 1, clause (g), and subdivision 2, clause (b), employed by each municipality and by the county for 12 calendar months and the proportional or fractional number who were employed less than 12 months;

(b) For each municipality which contracts with the county for police service, a proportionate amount of the state aid distributed to the county based on the full-time equivalent number of peace officers providing contract service shall be credited against the municipality's contract obligation;

(c) For each municipality which contracts with another municipality for police service, a proportionate amount of the state aid distributed to the municipality providing contract service based on the full-time equivalent number of peace officers providing contract service on a full-time equivalent basis shall be credited against the contract obligation of the municipality receiving contract service;

(d) No municipality entitled to receive police state aid shall be apportioned less police state aid for any year under Laws 1976, chapter 315, than the amount which was apportioned to it for calendar year 1975 based on premiums reported to the commissioner for calendar year 1974; provided, the amount of police state aid to other municipalities within the county and to the county shall be adjusted in proportion to the total number of peace officers in the municipalities and the county, so that the amount of police state aid apportioned shall not exceed the amount of police state aid available for apportionment.

**Subd. 8. Population and tax capacity.** In computations requiring the use of population figures only official statewide federal census figures are to be used. Increases or decreases in population disclosed by reason of any special census shall not be taken into consideration.

In calculations requiring the use of gross tax capacity figures only the latest available gross tax capacity figures are to be used.

**Subd. 9. Appeal.** In the event that any fire or police department feels itself to be aggrieved, it may request the commissioner to review and adjust the apportionment of funds within the county and the decision of the commissioner shall be subject to appeal, review, and adjustment by the district court in the county in which the fire or police department is located.

## **69.77 POLICE AND FIREFIGHTERS' RELIEF ASSOCIATION GUIDELINES ACT.**

Subdivision 1. **Authorized employer support for a relief association.** Notwithstanding any law to the contrary, a municipality may contribute public funds, including any applicable police or fire state aid, or levy property taxes for the support of a police or firefighters' relief association, enumerated in subdivision 1a, however organized, which provides retirement coverage or pays a service pension to a retired police officer or firefighter or a retirement benefit to a surviving dependent of either an active or retired police officer or firefighter, for the operation and maintenance of the relief association only if the municipality and the relief association comply with the provisions of this section. The commissioner shall not include in the apportionment of police or fire state aid to the county auditor pursuant to section 69.021, subdivision 6, any municipality in which there exists a local police or salaried firefighters' relief association as enumerated in subdivision 1a which does not comply with the provisions of this section or the provisions of any applicable special law relating to the funding or financing of the association and that municipality shall not qualify initially to receive, or be entitled subsequently to retain, state aid pursuant to sections 69.011 to 69.051 until the reason for disqualification is remedied, whereupon the municipality, if otherwise qualified, shall be entitled to again receive state aid for the year occurring immediately subsequent to the year in which the disqualification is remedied. The state auditor and commissioner shall determine if a municipality with a local police or salaried firefighters' relief association fails to comply with the provisions of this section or the funding or financing provisions of any applicable special law.

Subd. 1a. The provisions of this section shall apply to the following retirement funds:

- (1) any police pension fund or relief association which is established pursuant to chapter 423;
- (2) any salaried firefighters' pension fund or relief association which is established pursuant to chapter 424;
- (3) any pension fund or relief association which is established pursuant to this chapter which has five or more members who receive compensation for services rendered in the employment covered by the pension fund or relief association and which provides for retirement coverage or a service pension based on the compensation paid to members for that service;
- (4) any pension fund or relief association which is established and operates in whole or in part pursuant to special legislation and which provides for retirement coverage or a service pension based on the compensation paid to members for service as police officers or firefighters or which provides for retirement coverage or a service pension to volunteer firefighters based on the compensation paid to or the service pension provided by a pension fund or relief association located in the same municipality for police officers employed by the municipality but not covered by clause (1), (2) or (3); and
- (5) any governmental subdivision retirement fund established pursuant to any law providing for retirement coverage to police officers or salaried firefighters or a retirement benefit to their dependents and not otherwise described in this subdivision.

Subd. 2. The penalty provided for in subdivision 1 shall not apply to a relief association enumerated in subdivision 1a if the requirements of subdivisions 2a to 2h are met.

Subd. 2a. Each member of the relief association shall pay into the special fund of the association during a year of covered service, a contribution for retirement coverage including survivorship benefits of not less than eight percent of the maximum rate of salary upon which retirement coverage is credited and service pension and retirement benefit amounts are determined. The member contributions shall be made by payroll deduction from the salary of the member by the municipality, and shall be transmitted by the municipality to the relief association as soon as practical. The relief association shall deposit the member contribution to the credit of the special fund of the relief association. The member contribution requirement specified in this subdivision shall not apply to any members who are volunteer firefighters.

Subd. 2b. **Relief association financial requirements; minimum municipal obligation.** The officers of the relief association shall determine the financial requirements of the relief association and minimum obligation of the municipality for the following calendar year in accordance with the requirements of this subdivision. The financial requirements of the relief association and the minimum obligation of the municipality shall be determined on or before the submission date established by the municipality pursuant to subdivision 2c.

The financial requirements of the relief association for the following calendar year shall be based on the most recent actuarial valuation or survey of the special fund of the association if more than one fund is maintained by the association, or of the association, if only one fund is maintained, prepared in accordance with sections 356.215, subdivisions 4 to 4k and 356.216, as required pursuant to subdivision 2h. If an actuarial estimate is prepared by the actuary of the relief association as part of obtaining a modification of the benefit plan of the relief association and the modification is implemented, the actuarial estimate shall be used in calculating the financial requirements of the relief association.

If the relief association has an unfunded actuarial accrued liability as reported in the most recent actuarial valuation or survey, the total of the amounts calculated pursuant to clauses (a), (b), and (c) shall constitute the financial requirements of the relief association for the following year. If the relief association does not have an unfunded actuarial accrued liability as reported in the most recent actuarial valuation or survey the amount calculated pursuant to clauses (a) and (b) shall constitute the financial requirements of the relief association for the following year.

(a) The normal level cost requirement for the following year, expressed as a dollar amount, which shall be determined by applying the normal level cost of the relief association as reported in the actuarial valuation or survey and expressed as a percentage of covered payroll to the estimated covered payroll of the active membership of the relief association, including any projected increase in the active membership, for the following year.

(b) To the dollar amount of normal cost thus determined shall be added an amount equal to the dollar amount of the administrative expenses of the special fund of the association if more than one fund is maintained by the association, or of the association if only one fund is maintained, for the most recent year, multiplied by the factor of 1.035.

(c) To the dollar amount of normal cost and expenses determined under clauses (a) and (b) shall be added an amount equal to the level annual dollar amount which is sufficient to amortize the unfunded actuarial accrued liability by December 31, 2010, as determined from the actuarial valuation or survey of the fund, using an interest assumption set at the rate specified in section 356.215, subdivision 4d. The amortization date specified in this clause shall apply to all local police or salaried firefighters' relief associations and shall supersede any amortization date specified in any applicable special law.

The minimum obligation of the municipality shall be an amount equal to the

# MINNESOTA STATUTES 1988

1693

FIRE AND POLICE DEPARTMENT AID; FIREFIGHTERS' AND POLICE RELIEF 69.77

financial requirements of the relief association reduced by the estimated amount of member contributions from covered salary anticipated for the following calendar year and the estimated amounts anticipated for the following calendar year from the applicable state aid program established pursuant to sections 69.011 to 69.051 receivable by the relief association after any allocation made pursuant to section 69.031, subdivision 5, clause (2), subclause (c) or 423A.01, subdivision 2, clause (6), from the local police and salaried firefighters' relief association amortization aid program established pursuant to section 423A.02 and from the supplementary amortization state-aid program established under Laws 1984, chapter 564, section 48, and Laws 1985, chapter 261, section 17.

Subd. 2c. The officers of the relief association shall submit determination of the financial requirements of the relief association and of the minimum obligation of the municipality to the governing body on or before the date established by the municipality which shall not be earlier than August 1 and shall not be later than September 1 of each year. The governing body of the municipality shall ascertain whether or not the determinations were prepared in accordance with law.

Subd. 2d. The municipality shall provide for and shall pay each year at least the amount of the minimum obligation of the municipality to the relief association. If there is any deficiency in the municipal payment to meet the minimum obligation of the municipality as of the end of any calendar year, the amount of the deficiency shall be added to the minimum obligation of the municipality for the following year calculated pursuant to subdivision 2b and shall include interest at the rate of six percent per annum compounded from the date that the municipality was required to make payment pursuant to this subdivision until the date that the municipality actually makes the required payment.

Subd. 2e. The municipality shall provide in the annual municipal budget for at least the minimum obligation of the municipality calculated pursuant to subdivision 2b. The municipality may levy taxes for the payment of the minimum obligation of the municipality without any limitation as to rate or amount and irrespective of limitations imposed by other provisions of law upon the rate or amount of taxation when the balance of the special fund or any fund of the relief association has attained a specified minimum asset level. In addition, any taxes levied pursuant to this section shall not cause the amount or rate of other taxes levied in that year or to be levied in a subsequent year by the municipality which are subject to a limitation as to rate or amount to be reduced. If the municipality does not include the full amount of the minimum obligation of the municipality in the levy that the municipality certified to the county auditor in any year, the officers of the relief association shall certify the amount of any deficiency to the county auditor. Upon verifying the existence of any deficiency in the levy certified by the municipality, the county auditor shall spread a levy over the taxable property of the municipality in the amount of the deficiency certified to by the officers of the relief association.

Subd. 2f. Any sums of money paid by the municipality to the relief association in excess of the minimum obligation of the municipality in any year shall be used to amortize any unfunded liabilities of the relief association.

Subd. 2g. The funds of the association shall be invested in securities which are proper investments pursuant to section 11A.24. Notwithstanding the foregoing, up to 75 percent of the market value of the assets of the fund may be invested in open-end investment companies registered under the federal Investment Company Act of 1940, if the portfolio investments of the investment companies comply with the type of securities authorized for investment by section 11A.24, subdivisions 2 to 5. Securities held by the association before March 20, 1986, which do not meet the requirements of this paragraph may be retained after that date if they were proper investments for the association on that date.

The governing board of the association may select and appoint investment agencies to act for and in its behalf or may certify funds for investment by the state board under the provisions of section 11A.17. The governing board of the association may

select and appoint a qualified private firm to measure management performance and return on investment, and the firm shall use the formula or formulas developed by the state board pursuant to section 11A.04, clause (11).

**Subd. 2h. Actuarial valuation required.** The association shall obtain an actuarial valuation showing the condition of the special fund of the relief association pursuant to sections 356.215 and 356.216 and any applicable standards for actuarial work established by the legislative commission on pensions and retirement as of December 31 of every year. A copy of the actuarial valuation shall be filed with the director of the legislative reference library, the governing body of the municipality in which the association is organized, the executive director of the legislative commission on pensions and retirement, and the state auditor, not later than July 1 of the following year.

**Subd. 2i.** Any amendment to the bylaws or articles of incorporation of a relief association which increases or otherwise affects the retirement coverage provided by or the service pensions or retirement benefits payable from any police or firefighters' relief association enumerated in subdivision 1a shall not be effective until it is ratified by the municipality in which the relief association is located. The officers of the relief association shall not seek municipal ratification prior to obtaining either an updated actuarial valuation including the proposed amendment or an estimate of the expected actuarial impact of the proposed amendment prepared by the actuary of the relief association and submitting that actuarial valuation or estimate to the clerk of the municipality.

## **69.771 VOLUNTEER FIREFIGHTERS' RELIEF ASSOCIATION FINANCING GUIDELINES ACT; APPLICATION.**

**Subdivision 1. Covered relief associations.** The applicable provisions of sections 69.771 to 69.776 shall apply to any firefighters' relief association other than a relief association enumerated in section 69.77, subdivision 1a, which is organized under any laws of this state, which is composed of volunteer firefighters or composed partially of volunteer firefighters and partially of salaried firefighters with retirement coverage provided by the public employees police and fire fund and which operates subject to the service pension minimum requirements for entitlement and maximums contained in section 424A.02, or a special law modifying those requirements or maximums.

**Subd. 2. Authorized employer support for a relief association.** Notwithstanding any law to the contrary, a municipality may lawfully contribute public funds, including any applicable fire state aid, or levy property taxes for the support of a firefighters' relief association specified in subdivision 1, however organized, which provides retirement coverage or pays a service pension to retired firefighter or a retirement benefit to a disabled firefighter or a surviving dependent of either an active or retired firefighter for the operation and maintenance of the relief association only if the municipality and the relief association comply with the provisions of sections 69.771 to 69.776.

**Subd. 3. Remedy for noncompliance; determination.** Any municipality in which there exists a firefighters' relief association as specified in subdivision 1 which does not comply with the applicable provisions of sections 69.771 to 69.776 or the provisions of any applicable special law relating to the funding or financing of the association shall not qualify initially to receive, or be entitled subsequently to retain, fire state aid pursuant to sections 69.011 to 69.051 until the reason for disqualification is remedied, whereupon the municipality or relief association, if otherwise qualified, shall be entitled to again receive fire state aid for the year occurring immediately subsequent to the

The commissioner of commerce shall determine if a municipality to which a firefighters' relief association is directly associated or a firefighters' relief association fails to comply with the provisions of sections 69.771 to 69.776 or the funding or financing provisions of any applicable special law based upon the information contained in the annual financial report of the firefighters' relief association required pursuant to section 69.051.

## 69.772 RELIEF ASSOCIATIONS PAYING LUMP SUM SERVICE PENSIONS.

**Subdivision 1. Application.** This section shall apply to any firefighters' relief association specified in section 69.771, subdivision 1, which pays a lump sum service pension, but which does not pay a monthly service pension, to a retiring firefighter when at least the minimum requirements for entitlement to a service pension specified in section 424A.02, or any applicable special legislation and the articles of incorporation or bylaws of the relief association have been met. Each firefighters' relief association to which this section applies shall determine the accrued liability of the special fund of the relief association in accordance with the accrued liability table set forth in subdivision 2 and the financial requirements of the relief association and the minimum obligation of the municipality in accordance with the procedure set forth in subdivision 3.

**Subd. 2. Determination of accrued liability.** Each firefighters' relief association which pays a service pension when a retiring firefighter meets the minimum requirements for entitlement to a service pension specified in section 424A.02 and which in its articles of incorporation or bylaws requires service credit for a period of service of at least 20 years of active service for a totally nonforfeitable service pension shall determine the accrued liability of the special fund of the firefighters' relief association relative to each active or deferred member of the relief association, calculated individually using the following table:

Cumulative Year	Accrued Liability
.....	.....
1	\$ 60
2	124
3	190
4	260
5	334
6	410
7	492
8	576
9	666
10	760
11	858
12	962
13	1070
14	1184
15	1304
16	1428
17	1560
18	1698
19	1844
20	2000
21 and thereafter	100 additional per year

As set forth in the table the accrued liability for each member or deferred member of the relief association corresponds to the cumulative years of active service to the

credit of the member. The accrued liability of the special fund for each active or deferred member is determined by multiplying the accrued liability from the chart by the ratio of the lump sum service pension amount currently provided for in the bylaws of the relief association to a service pension of \$100 per year of service. If a member has fractional service as of December 31, the figure for service credit to be used for the determination of accrued liability pursuant to this section shall be rounded to the nearest full year of service credit. The total accrued liability of the special fund as of December 31 shall be the sum of the accrued liability attributable to each active or deferred member of the relief association.

**Subd. 2a. Determination of accrued liability for recipients of installment payments.** Each firefighters' relief association which pays a lump sum service pension in installment payments to a retired firefighter pursuant to section 424A.02, subdivision 8, shall determine the accrued liability of the special fund of the firefighters' relief association relative to each retired member receiving a lump sum service pension in installment payments calculated individually as the sum of each future installment payment discounted at an interest rate of five percent, compounded annually, from the date the installment payment is scheduled to be paid to December 31. If the bylaws of the relief association provide for the payment of interest on unpaid installments, the amount of interest, projected to December 31, shall be added to the accrued liability attributable to each retired member. The sum of the accrued liability attributable to each retired member of the relief association receiving a lump sum service pension in installment payments shall be the total additional accrued liability of the special fund of the relief association as of December 31, and shall be added to the accrued liability of the special fund of the relief association calculated pursuant to subdivision 2 for purposes of calculating the financial requirements of the relief association and the minimum obligation of the municipality pursuant to subdivision 3.

To the extent that the commissioner of commerce deems it to be necessary or practical, the commissioner may specify and issue procedures, forms or mathematical tables for use in performing the calculations required pursuant to this subdivision.

**Subd. 3. Financial requirements of the relief association; minimum obligation of the municipality.** During the month of July, the officers of the relief association shall determine the overall funding balance of the special fund for the current calendar year, the financial requirements of the special fund for the following calendar year and the minimum obligation of the municipality with respect to the special fund for the following calendar year in accordance with the requirements of this subdivision.

(1) The overall funding balance of the special fund for the current calendar year shall be determined in the following manner:

(a) The total accrued liability of the special fund for all active and deferred members of the relief association as of December 31 of the current year shall be calculated pursuant to subdivisions 2 and 2a, if applicable.

(b) The total present assets of the special fund projected to December 31 of the current year, including receipts by and disbursements from the special fund anticipated to occur on or before December 31 shall be calculated. To the extent possible, for those assets for which a market value is readily ascertainable, the current market value as of the date of the calculation for those assets shall be utilized in making this calculation. For any asset for which no market value is readily ascertainable, the cost value or the book value, whichever is applicable, shall be utilized in making this calculation.

(c) The amount of the total present assets of the special fund calculated pursuant to clause (b) shall be subtracted from the amount of the total accrued liability of the special fund calculated pursuant to clause (a). If the amount of total present assets exceeds the amount of the total accrued liability, then the special fund shall be considered to have a surplus over full funding. If the amount of the total present assets is less than the amount of the total accrued liability, then the special fund shall be considered to have a deficit from full funding. If the amount of total present assets is equal to the amount of the total accrued liability, then the special fund shall be considered to be fully funded.

# MINNESOTA STATUTES 1988

1697

FIRE AND POLICE DEPARTMENT AID; FIREFIGHTERS' AND POLICE RELIEF 69.772

(2) The financial requirements of the special fund for the following calendar year shall be determined in the following manner:

(a) The total accrued liability of the special fund for all active and deferred members of the relief association as of December 31 of the calendar year next following the current calendar year shall be calculated pursuant to subdivisions 2 and 2a, if applicable.

(b) The increase in the total accrued liability of the special fund for the following calendar year over the total accrued liability of the special fund for the current year shall be calculated.

(c) The amount of anticipated future administrative expenses of the special fund shall be calculated by multiplying the dollar amount of the administrative expenses of the special fund for the most recent year by the factor of 1.035.

(d) If the special fund is fully funded, the financial requirement of the special fund for the following calendar year shall be the figure which represents the increase in the total accrued liability of the special fund as calculated pursuant to subclause (b).

(e) If the special fund has a deficit from full funding, the financial requirements of the special fund for the following calendar year shall be the financial requirements of the special fund calculated as though the special fund were fully funded pursuant to subclause (d) plus an amount equal to one-tenth of the amount of the deficit from full funding of the special fund as determined pursuant to this section for the calendar year 1971 until that deficit from full funding is fully retired, and plus an amount equal to one-tenth of the increase in the deficit from full funding of the special fund resulting from an increase in the amount of the service pension accruing after December 31, 1971 until each increase in the deficit from full funding is fully retired.

(f) If the special fund has a surplus over full funding, the financial requirements of the special fund for the following calendar year shall be the financial requirements of the special fund calculated as though the special fund were fully funded pursuant to subclause (d) reduced by an amount equal to one-tenth of the amount of the surplus over full funding of the special fund.

(3) The minimum obligation of the municipality with respect to the special fund shall be the financial requirements of the special fund reduced by the amount of any fire state aid payable pursuant to sections 69.011 to 69.051 anticipated to be received by the municipality for transmittal to the special fund during the following calendar year, an amount of interest on the assets of the special fund projected to the beginning of the following calendar year calculated at the rate of five percent per annum, and the amount of any anticipated contributions to the special fund by the members of the relief association during the following calendar year.

**Subd. 4. Certification of financial requirements and minimum municipal obligation; levy.** The officers of the relief association shall certify the financial requirements of the special fund of the relief association and the minimum obligation of the municipality with respect to the special fund of the relief association as determined pursuant to subdivision 3 to the governing body of the municipality on or before August 1 of each year. The municipality shall provide for at least the minimum obligation of the municipality with respect to the special fund of the relief association by tax levy or from any other source of public revenue. The municipality may levy taxes for the payment of the minimum municipal obligation without any limitation as to rate or amount and irrespective of any limitations imposed by other provisions of law upon the rate or amount of taxation until the balance of the special fund or any fund of the relief association has attained a specified level. In addition, any taxes levied pursuant to this section shall not cause the amount or rate of any other taxes levied in that year or to be levied in a subsequent year by the municipality which are subject to a limitation as to rate or amount to be reduced. If the municipality does not include the full amount of the minimum municipal obligations in its levy for any year, the officers of the relief association shall certify that amount to the county auditor, who shall spread a levy in the amount of the minimum municipal obligation.

**Subd. 5. Crediting of investment income; effect of excess interest.** All investment income earned on the assets of the special fund of the relief association shall be credited to the special fund. Investment income earned or anticipated to be earned in a calendar year in excess of the assumed rate specified in subdivision 3, clause (3) shall not be included in the calculations of the financial requirements of the special fund of the relief association or the minimum obligation of the municipality with respect to the special fund of the relief association for that calendar year.

**Subd. 6. Municipal ratification for plan amendments.** If the special fund of the relief association does not have a surplus over full funding pursuant to subdivision 3, clause (2), subclause (e), or if the municipality is required to provide financial support to the special fund of the relief association pursuant to this section, the adoption of or any amendment to the articles of incorporation or bylaws of a relief association which increases or otherwise affects the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of any relief association to which this section applies shall not be effective until it is ratified by the governing body of the municipality in which the relief association is located and the officers of a relief association shall not seek municipal ratification prior to preparing and certifying an estimate of the expected increase in the accrued liability and annual accruing liability of the relief association attributable to the amendment. If the special fund of the relief association has a surplus over full funding pursuant to subdivision 3, clause (2), subclause (e), and if the municipality is not required to provide financial support to the special fund of the relief association pursuant to this section, the relief association may adopt or amend its articles of incorporation or bylaws which increase or otherwise affect the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of the relief association which shall be effective without municipal ratification so long as this does not cause the amount of the resulting increase in the accrued liability of the special fund of the relief association to exceed 90 percent of the amount of the prior surplus over full funding and this does not result in the financial requirements of the special fund of the relief association exceeding the expected amount of the future fire state aid to be received by the relief association as determined by the board of trustees following the preparation of an estimate of the expected increase in the accrued liability and annual accruing liability of the relief association attributable to the change. If a relief association adopts or amends its articles of incorporation or bylaws without municipal ratification pursuant to this subdivision, and, subsequent to the amendment or adoption, the financial requirements of the special fund of the relief association pursuant to this section are such so as to require financial support from the municipality, the provision which was implemented without municipal ratification shall no longer be effective without municipal ratification and any service pensions or retirement benefits payable after that date shall be paid only in accordance with the articles of incorporation or bylaws as amended or adopted with municipal ratification.

#### **69.773 RELIEF ASSOCIATIONS PAYING MONTHLY SERVICE PENSIONS.**

**Subdivision 1. Application.** This section shall apply to any firefighters' relief association specified in section 69.771, subdivision 1, which pays or allows for an option of a monthly service pension to a retiring firefighter when at least the minimum requirements for entitlement to a service pension specified in section 424A.02, any applicable special legislation and the articles of incorporation or bylaws of the relief association have been met. Each firefighters' relief association to which this section applies shall determine the actuarial condition and funding costs of the special fund of the relief association in accordance with subdivisions 2 and 3, the financial requirements of the special fund of the relief association in accordance with subdivision 4 and the minimum obligation of the municipality with respect to the special fund of the relief association in accordance with subdivision 5.

**Subd. 2. Determination of actuarial condition and funding costs.** A relief association to which this section applies shall obtain an actuarial valuation showing the condition of the special fund of the relief association as of December 31, 1978, and at least as of December 31 every four years thereafter. The valuation shall be prepared in accordance with the provisions of sections 356.215, subdivision 4d, and 356.216 and any applicable standards for actuarial work established by the legislative commission on pensions and retirement, except that the figure for normal cost shall be expressed as a level dollar amount, and the amortization contribution shall be the level dollar amount calculated to amortize any current unfunded accrued liability by at least the date of full funding specified in subdivision 4, clause (b). Each valuation shall be filed with the governing body of the municipality in which the relief association is located and with the state auditor, not later than July 1 of the year next following the date as of which the actuarial valuation is prepared. Any relief association which is operating under a special law which requires that actuarial valuations be obtained at least every four years and be prepared in accordance with applicable actuarial standards set forth in statute may continue to have actuarial valuations made according to the time schedule set forth in the special legislation subject to the provisions of subdivision 3.

**Subd. 3. Valuation requirement upon benefit change.** The officers of the relief association shall not seek municipal ratification of any amendments to the articles of incorporation or bylaws which increase or otherwise affect the retirement coverage provided by or the service pensions or retirement benefits payable from any relief association pursuant to subdivision 6 prior to obtaining either an updated actuarial valuation including the proposed amendment or an estimate of the expected actuarial impact of the proposed amendment prepared by the actuary of the relief association.

**Subd. 4. Financial requirements of the special fund.** Prior to August 1 of each year, the officers of the relief association shall determine the financial requirements of the special fund of the relief association in accordance with the requirements of this subdivision. The financial requirements of the relief association shall be based on the most recent actuarial valuation of the special fund prepared in accordance with subdivision 2. If the relief association has an unfunded actuarial accrued liability as reported in the most recent actuarial valuation, the financial requirements shall be determined by adding the figures calculated pursuant to clauses (a), (b), and (c). If the relief association does not have an unfunded actuarial accrued liability as reported in the most recent actuarial valuation, the financial requirements shall be an amount equal to the figure calculated pursuant to clauses (a) and (b). The determination of whether or not the relief association has an unfunded actuarial accrued liability shall be based on the current market value of assets for which a market value is readily ascertainable and the cost or book value, whichever is applicable, for assets for which no market value is readily ascertainable.

(a) The normal level cost requirement for the following year, expressed as a dollar amount, shall be the figure for the normal level cost of the relief association as reported in the actuarial valuation.

(b) The amount of anticipated future administrative expenses of the special fund shall be calculated by multiplying the dollar amount of the administrative expenses of the special fund for the most recent year by the factor of 1.035.

(c) The amortization contribution requirement to retire the current unfunded actuarial accrued liability by the established date for full funding shall be the figure for the amortization contribution as reported in the actuarial valuation. If there has not been a change in the actuarial assumptions used for calculating the actuarial accrued liability of the special fund, a change in the bylaws of the relief association governing the service pensions, retirement benefits, or both payable from the special fund or a change in the actuarial cost method used to value all or a portion of the special fund which change or changes, which by themselves without inclusion of any other items of increase or decrease, produce a net increase in the unfunded actuarial accrued liability of the special fund since December 31, 1970, the established date for full funding shall be December 31, 1990. If there has been a change in the actuarial assumptions used

for calculating the actuarial accrued liability of the special fund, a change in the bylaws of the relief association governing the service pensions, retirement benefits, or both payable from the special fund or a change in the actuarial cost method used to value all or a portion of the special fund and the change or changes, by themselves and without inclusion of any other items of increase or decrease, produce a net increase in the unfunded actuarial accrued liability of the special fund since December 31, 1970, but prior to January 1, 1979, the established date for full funding shall be December 31, 1998, and if there has been a change since December 31, 1978, the established date for full funding shall be determined using the following procedure:

(i) the unfunded actuarial accrued liability of the special fund shall be determined in accordance with the provisions governing service pensions, retirement benefits, and actuarial assumptions in effect before an applicable change;

(ii) the level annual dollar contribution needed to amortize this unfunded actuarial accrued liability amount by the date for full funding in effect prior to the change shall be calculated using the interest assumption specified in section 356.215, subdivision 4d, in effect before any applicable change;

(iii) the unfunded actuarial accrued liability of the special fund shall be determined in accordance with any new provisions governing service pensions, retirement benefits, and actuarial assumptions and the remaining provisions governing service pensions, retirement benefits, and actuarial assumptions in effect before an applicable change;

(iv) the level annual dollar contribution needed to amortize the difference between the unfunded actuarial accrued liability amount calculated pursuant to subclause (i) and the unfunded actuarial accrued liability amount calculated pursuant to subclause (iii) over a period of 20 years starting December 31 of the year in which the change is effective shall be calculated using the interest assumption specified in section 356.215, subdivision 4d, in effect after any applicable change;

(v) the annual amortization contribution calculated pursuant to subclause (iv) shall be added to the annual amortization contribution calculated pursuant to subclause (ii);

(vi) the period in which the unfunded actuarial accrued liability amount determined in subclause (iii) will be amortized by the total annual amortization contribution computed pursuant to subclause (v) shall be calculated using the interest assumption specified in section 356.215, subdivision 4d, in effect after any applicable change, rounded to the nearest integral number of years, but which shall not exceed a period of 20 years from the end of the year in which the determination of the date for full funding using this procedure is made and which shall not be less than the period of years beginning in the year in which the determination of the date for full funding using this procedure is made and ending by the date for full funding in effect before the change.

(vii) the period determined pursuant to subclause (vi) shall be added to the date as of which the actuarial valuation was prepared and the resulting date shall be the new date for full funding.

**Subd. 5. Minimum municipal obligation.** The officers of the relief association shall determine the minimum obligation of the municipality with respect to the special fund of the relief association for the following calendar year prior to August 1 of each year in accordance with the requirements of this subdivision. The minimum obligation of the municipality with respect to the special fund shall be an amount equal to the financial requirements of the special fund of the relief association determined pursuant to subdivision 4, reduced by the estimated amount of any fire state aid payable pursuant to sections 69.011 to 69.051 anticipated to be received by the municipality for transmittal to the special fund of the relief association during the following year and the amount of any anticipated contributions to the special fund by the members of the relief association during the following calendar year. The officers of the relief association shall certify the financial requirements of the special fund of the relief association and the minimum obligation of the municipality with respect to the special fund of the relief association as determined pursuant to subdivision 4 and this subdivision to the

governing body of the municipality by August 1 of each year. The municipality shall provide for at least the minimum obligation of the municipality with respect to the special fund of the relief association by tax levy or from any other source of public revenue. The municipality may levy taxes for the payment of the minimum municipal obligation without any limitation as to rate or amount and irrespective of any limitations imposed by other provisions of law or charter upon the rate or amount of taxation until the balance of the special fund or any fund of the relief association has attained a specified level. In addition, any taxes levied pursuant to this section shall not cause the amount or rate of any other taxes levied in that year or to be levied in a subsequent year by the municipality which are subject to a limitation as to rate or amount to be reduced. If the municipality does not include the full amount of the minimum municipal obligation in its levy for any year, the officers of the relief association shall certify that amount to the county auditor, who shall spread a levy in the amount of the minimum municipal obligation.

**Subd. 6. Municipal ratification for plan amendments.** If the special fund of the relief association does not have a surplus over full funding pursuant to subdivision 4, or if the municipality is required to provide financial support to the special fund of the relief association pursuant to this section, the adoption of or any amendment to the articles of incorporation or bylaws of a relief association which increases or otherwise affects the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of any relief association to which this section applies shall not be effective until it is ratified by the governing body of the municipality in which the relief association is located. If the special fund of the relief association has a surplus over full funding pursuant to subdivision 4, and if the municipality is not required to provide financial support to the special fund of the relief association pursuant to this section, the relief association may adopt or amend its articles of incorporation or bylaws which increase or otherwise affect the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of the relief association which shall be effective without municipal ratification so long as this does not cause the amount of the resulting increase in the accrued liability of the special fund of the relief association to exceed 90 percent of the amount of the prior surplus over full funding and this does not result in the financial requirements of the special fund of the relief association exceeding the expected amount of the future fire state aid to be received by the relief association as determined by the board of trustees following the preparation of an updated actuarial valuation including the proposed change or an estimate of the expected actuarial impact of the proposed change prepared by the actuary of the relief association. If a relief association adopts or amends its articles of incorporation or bylaws without municipal ratification pursuant to this subdivision, and, subsequent to the amendment or adoption, the financial requirements of the special fund of the relief association pursuant to this section are such so as to require financial support from the municipality, the provision which was implemented without municipal ratification shall no longer be effective without municipal ratification and any service pensions or retirement benefits payable after that date shall be paid only in accordance with the articles of incorporation or bylaws as amended or adopted with municipal ratification.

retirement benefit to a surviving dependent of either an active or a retired firefighter, and which operates subject to the service pension minimum requirements for entitlement to and maximums for a service pension contained in section 424A.02, or a special law modifying those requirements or maximums. Notwithstanding any law to the contrary, a municipality contracting with an independent nonprofit firefighting corporation shall be included in the distribution of fire state aid to the appropriate county auditor by the commissioner of commerce only if the independent nonprofit firefighting corporation complies with the provisions of this section.
