Subd. 6. **Scope of plans.** Comprehensive water plans must include:

(1) a description of the existing and expected changes to physical environment, land use, and development in the county;

(2) available information about the surface water, groundwater, and related land resources in the county, including existing and potential distribution, availability, quality, and use;

(3) objectives for future development, use, and conservation of water and related land resources, including objectives that concern water quality and quantity, and sensitive areas, wellhead protection areas, and related land use conditions, and a description of actions that will be taken in affected watersheds or groundwater systems to achieve the objectives;

(4) a description of potential changes in state programs, policies, and requirements considered important by the county to management of water resources in the county;

(5) a description of conflicts between the comprehensive water plan and existing plans of other local units of government;

(6) a description of possible conflicts between the comprehensive water plan and existing or proposed comprehensive water plans of other counties in the affected watershed units or groundwater systems;

(7) a program for implementation of the plan that is consistent with the plan's management objectives and includes schedules for amending official controls and water and related land resources plans of local units of government to conform with the comprehensive water plan, and the schedule, components, and expected state and local costs of any projects to implement the comprehensive water plan that may be proposed, although this does not mean that projects are required by this section; and

(8) a procedure for amending the comprehensive water plan.
