41B.01 CITATION; PURPOSE.

Subdivision 1. **Citation.** Sections 41B.01 to 41B.23 shall be known as and may be cited as the "Minnesota rural finance authority act of 1986."

Subd. 2. **Purpose.** Sections 41B.01 to 41B.23 create and establish the Minnesota rural finance authority and establish a program under which state bonds are authorized to be issued and proceeds of their sale are appropriated under the authority of article XI, section 5, clause (h) of the Minnesota Constitution, to develop the state's agricultural resources by extending credit on real estate security. The purpose of the rural finance authority's programs and of the bonds issued to finance or provide security for the programs is to purchase participation interests in loans, including seller-sponsored loans to be made available by agricultural lenders to farmers on terms and conditions not otherwise available from other credit sources. It is hereby found and declared that there presently exist in the state economic conditions which have severely adversely affected the economic viability of farms to the detriment of the rural economy and to the detriment of the economy of the state of Minnesota as a whole. It is further found and declared that as a result of public agricultural policies, agricultural market conditions, and other causes, the condition of the farm economy of the state of Minnesota is such as to jeopardize the continued existence and successful operation of farms in this state, necessitating the establishment of the programs in sections 41B.01 to 41B.23 to provide new sources of credit on favorable terms and conditions. It is further found and declared that providing credit for farmers on favorable terms and conditions will serve and promote the public welfare by assuring the viability of farm operations, by preventing erosion of the tax base in rural areas, by reducing foreclosures on farm property, and by enhancing the financial stability of farmers and of the businesses which depend on farmers as customers. It is further found and declared that in establishing a Minnesota rural finance authority and in authorizing the programs in sections 41B.01 to 41B.23, the legislature is acting in all respects for the benefit of the people of the state of Minnesota to serve the public purpose of improving and otherwise promoting their health, welfare, and prosperity and that the Minnesota rural finance authority, as created and established, is empowered to act on behalf of the people of the state of Minnesota in serving this public purpose for the benefit of the general public.

41B.04 LOAN RESTRUCTURING PROGRAM.

Subdivision 1. **Restructuring authority.** The authority may enter into agreements or programs with eligible agricultural lenders for the restructuring of mortgage loans on real property located in Minnesota which is farmed by Minnesota residents, on such terms and conditions as the authority determines are not inconsistent with sections 41B.01 to 41B.23. This section governs the programs of the authority.

Subd. 2. **Implementation of program.** The authority may implement a program to restructure agricultural loans and to purchase loan participation interests in qualified restructuring loans made by eligible agricultural lenders to eligible borrowers. Each such purchase shall be made only upon determination by or on behalf of the authority that the loan is a qualified restructuring loan as provided in this section.

Subd. 3. **Criteria.** Loans must comply with the following criteria:

(a) Each loan must be for the purpose of developing the state's agricultural resources and must be an extension of credit on real estate security. The loan may be secured by eligible security in addition to real estate. The security interests granted by the eligible borrower must be senior and prior to any other security interest in the pledged assets.

(b) No loan may be made to finance activities of the borrower which are not an agricultural use as defined in section 40A.02, subdivision 3.

(c) A participation interest in a restructuring loan may be purchased by the authority only if the eligible agricultural lender has determined and has certified to the authority that the borrower is an eligible borrower who has the reasonable ability to make timely payment of principal and interest on the loan when due over the term of the loan. The eligible agricultural lender shall further certify to the authority that the loan is a qualified agricultural loan.

Subd. 4. Program availability. The authority shall exercise its best efforts to assure that credit made available through the loan restructuring program is made available throughout the agricultural areas of the state, and that the number or amount of loans are not unduly concentrated in any one area of the state.

Subd. 5. Benefits. The authority shall exercise its best efforts to assure that the program provides the maximum feasible benefits to as many eligible borrowers as is reasonably possible.

Subd. 6. [Repealed, 1987 c 396 art 1 s 32]

Subd. 7. Restructuring procedure. (a) The eligible agricultural lender or borrower shall propose restructuring a loan to the authority. Within 30 days of receiving adequate information concerning a proposal, the authority and the eligible lender shall notify the borrower of their determination of eligibility. An eligible agricultural lender shall then expeditiously draft the loan restructuring agreement which must be consistent with this section and documents previously approved by the authority.

(b) An eligible borrower may participate in the restructured loan or the homestead redemption loan, but not both loans.

Subd. 8. State's participation. With respect to loans that are eligible for restructuring under sections 41B.01 to 41B.23 and upon acceptance by the authority, the authority shall enter into a participation agreement or other financial arrangement whereby it shall participate in a restructured loan to the extent of one-quarter of the primary principal or \$50,000, whichever is less. The authority's portion of the loan must be protected during the authority's participation by the first mortgage held by the eligible lender to the extent of its participation in the loan.

Subd. 9. Restructured loan agreement. (a) All payments on the primary and secondary principal of the restructured loan, all payments of interest on the secondary principal, and an agreed portion of the interest payable to the eligible agricultural lender on the primary principal must be deferred to the end of the term of the loan.

(b) A borrower may prepay the restructured loan, with all primary and secondary principal and interest and deferred interest at any time without prepayment penalty.

(c) Interest on secondary principal must accrue at a below market interest rate.

(d) At the conclusion of the term of the restructured loan, the borrower owes primary principal, secondary principal, and deferred interest on primary and secondary principal. However, part of this balloon payment may be forgiven following an appraisal by the lender and the authority to determine the current market value of the real estate subject to the mortgage. If the current market value of the land after appraisal is less than the amount of debt owed by the borrower to the lender and authority on this obligation, that portion of the obligation that exceeds the current market value of the real property must be forgiven by the lender and the authority in the following order:

- (1) deferred interest on secondary principal;
- (2) secondary principal;

- (3) deferred interest on primary principal;
 - (4) primary principal as provided in an agreement between the authority and the lender; and
 - (5) accrued but not deferred interest on primary principal.
- (e) The authority may not participate in refinancing a restructured loan at the conclusion of the restructured loan.

Subd. 10. Interest rate. Unless the authority determines that it is not in the best interests of the restructured loan program, the interest rate per annum on the portion of the restructured loan represented by the participation interest purchased by the authority must be that rate of interest determined by the authority to be necessary to provide for the timely payment of principal and interest when due on bonds or other obligations issued by the authority, and to provide for the reasonable and necessary costs of issuing, carrying, administering, and securing the bonds or notes and to pay the costs incurred and to be incurred by the authority in the implementation of the program. The interest rate per annum borne by the primary principal portion of the restructuring loan retained by the eligible agricultural lender must be a rate of interest approved by the authority. The authority may specify the points, fees, and other charges which the eligible agricultural lender may charge to the eligible borrower.

Subd. 11. Administration. The eligible lender shall administer the loans and shall bear all costs of the loan administration. Ordinary costs of administration include appraisals, litigation, abstracts of title, and similar costs.

Subd. 12. Assignability. Loans restructured under this section may not be assigned to anyone other than a borrower meeting the eligibility requirements of section 41B.03, subdivision 1, and any other requirements imposed or approved by the authority. If such an assignment is contemplated, the borrower must obtain prior written approval of the eligible lender and the administration and the assignee shall thereafter be subject to the same terms and conditions and events of default as the original borrower. If assigned to some other party, the eligible agricultural lender may exercise its foreclosure remedies as provided by its contracts and by law.

41B.16 SECURITY ACCOUNT.

Upon determining that a default may occur in the payment of principal or interest on any issue of bonds issued under section 41B.08, or if any debt service reserve fund established in connection with those bonds is drawn upon because the revenues of the program are not then sufficient to make any payment of the principal or interest on

them, the authority shall certify those facts to the commissioner of finance and shall request that the commissioner of finance transfer from the security account established under section 41B.19, subdivision 5, to accounts or funds designated by the authority an amount required to cure the deficiency.

(1) enforce all rights of the bondholders, including the right to require the authority to collect fees, charges, interest, and payments on loans or interests therein held by the authority and eligible securities purchased by it adequate to carry out any agreement as to, or pledge of, those fees, charges, and payments, and to require the authority to carry out any other agreements with the holders of the notes or bonds and to perform its duties under sections 41B.01 to 41B.23;

41B.18 REVENUE BOND FUND; REPORTS.

Subdivision 1. **Authority.** The authority may create and establish a special fund or funds for the security of one or more or all series of its bonds, which funds are known as debt service reserve funds. The authority may pay into each debt service reserve fund:

(1) any money appropriated by the state only for the purposes of that fund;

(2) any money transferred from the security fund for the purposes of that fund;

(3) any proceeds of sale of bonds to the extent provided in the resolution or indenture authorizing their issuance;

(4) any funds directed to be transferred by the authority to that debt service reserve fund; and

(5) any other money made available to the authority only for the purpose of that fund from any other source.

Subd. 2. **Use of money.** The money held in or credited to each debt service reserve fund, except as provided in this section, must be used solely for the payment of the principal of bonds of the authority as the bonds mature, the purchase of the bonds, the payment of interest on the bonds, or the payment of any premium required when the bonds or notes are redeemed before maturity; provided, that money in a debt service reserve fund may not be withdrawn at any time in an amount which would reduce the amount

of the fund to less than the amount which the authority determines to be reasonably necessary for the purposes of the fund, except for the purpose of paying principal or interest due on bonds secured by the fund, for the payment of which other money of the authority is not available.

Subd. 3. Limitation. If the authority creates a debt service reserve fund for the security of any series of bonds, it shall not issue any additional bonds which are similarly secured if the amount of any of the debt service reserve funds at the time of issuance does not equal or exceed the minimum amount, if any, required by the resolution creating that fund, unless the authority deposits in each fund at the time of issuance, from the proceeds of the bonds or otherwise, an amount which, together with the amount then in the fund, will not be less than the minimum amount required.

Subd. 4. Excess funds. To the extent consistent with the resolutions and indentures securing outstanding bonds, the authority may, at the close of any fiscal year, transfer to any other fund or account from any debt service reserve fund, any excess in that fund over the amount deemed by the authority to be reasonably necessary for the purpose of the fund. Any excess must be transferred first to the security fund to the extent of any prior withdrawals from the security fund which have not previously been restored to the security fund.

Subd. 5. Construction. Nothing in this section may be construed to limit the right of the authority to create and establish by resolution or indenture other funds or security in addition to debt service reserve funds which are necessary or desirable in connection with any bonds or programs.

Subd. 6. Report. The authority shall submit a biennial report of its activities, projected activities, receipts, and expenditures for the next biennium, to the governor and the legislature on or before January 15 in each odd-numbered year. The report must include the distribution of money under each authority program by county. In addition, the report must include the cost to the authority of the issuance of its bonds for each issue in the biennium.

Subd. 7. Audit. The books and records of the authority are subject to audit by the legislative auditor in the manner prescribed for other state agencies. The authority may also employ and contract in its resolutions and indentures for the employment of public accountants for the audit of books and records pertaining to any fund.

41B.19 GENERAL OBLIGATION BONDS.

Subdivision 1. Procedure. For the purpose of developing the state's agricultural resources by providing for the extension of credit on real estate security and to assure the timely payment of the principal of and interest on the bonds or other obligations issued by the rural finance authority, and upon request of the rural finance authority under section 41B.08, the commissioner of finance may at the direction of the authority, issue general obligation bonds of the state in a principal amount not exceeding \$50,000,000. The bonds must be secured as provided in the Minnesota Constitution, article XI, section 7, and, except as provided in this section, must be issued and secured as provided in section 16A.641. The proceeds of the bonds, except any premium and accrued interest, must be deposited in the security account established by this section and used solely for the purposes specified in this section. The premium and accrued interest, if any, must be deposited in the the rural renewal bond account in the state bond fund.

Subd. 2. Terms of bonds. Notwithstanding any provision of section 16A.641 to the contrary, the commissioner of finance may fix the terms of the bonds as provided in sections 475.54, subdivision 5a, and 475.56, paragraph (b), and may enter into on behalf of the state all agreements deemed necessary for this purpose, including those authorized to be entered into by municipalities by that section. The proceeds of the general obligation bonds may be used to reimburse the commissioner of finance for the costs of issuance of the bonds and the costs of development of programs authorized in sections 41B.01 to 41B.23.

Subd. 3. Sale of bonds. If determined by the commissioner of finance to be necessary in order to reduce costs of issuance, to secure a favorable prevailing interest rate, or to receive the bond proceeds by a specified date, or if the terms of the bonds are fixed as provided in sections 475.54, subdivision 5a, and 475.56, paragraph (b), the bonds may be sold by negotiation and without solicitation of sealed bids.

Subd. 4. Bond fund account. The commissioner of finance shall maintain in the state bond fund a separate bookkeeping account designated as the rural renewal bond account, to record receipts and disbursements of money transferred to the account to pay bonds issued under this section and to record income from the investment of the money in the account. The income must be credited to the account in each fiscal year in an amount equal to the approximate average return that year on all funds invested by the commissioner of finance, as determined by the commissioner of finance, times the average balance in the account that year.

Subd. 5. Rural finance authority security account. The commissioner of finance shall maintain a separate account designated as the rural finance authority security account, into which must be deposited the proceeds of the rural renewal general obligation bonds issued as provided in this section. The commissioner of finance shall maintain a separate bookkeeping account to record receipts and disbursements of money transferred to or from the security account and to record income from the investment of money in the account. Upon the written request of the authority, the commissioner of finance shall transfer from the security account to an account or accounts the authority shall designate, a sum of money sufficient in amount, if available, when added to the balances then on hand in the designated accounts, to pay bonds issued by the authority under sections 41B.01 to 41B.23 and the interest on them due and to become due on the next succeeding date for the payment of the principal of and interest on the bonds of the authority or to restore to any debt service reserve fund established in connection with the bonds any amount withdrawn from the debt service reserve account to pay the bonds. When no revenue bonds secured by the security account are outstanding under the resolution authorizing their issuance, the commissioner of finance shall transfer all money and securities on hand in the security account to the state bond fund.

Subd. 6. Investment of security account. (a) Money from time to time on deposit in the security account must be invested by the state board of investment at the request of the authority in any investment authorized by this subdivision. Money on deposit in the security account may be invested in:

(1) certificates of deposit issued by or interest-bearing time deposits with a national banking association or a bank and trust company organized under the laws of any state;

(2) deposits secured by obligations of the United States or of the state of a market value equal at all times to the amount of the deposit and all banks and trust companies are authorized to give security for those deposits;

(3) qualified agricultural loans or in participation interests in qualified agricultural loans; or

(4) qualified restructured loans.

(b) The principal amount of the investment under paragraph (a), clause (1), must be fully insured by the Federal Deposit Insurance Corporation or Federal Savings and Loan Insurance Corporation; or if not fully insured, the institution issuing the certificate of deposit or accepting the time deposit must be rated in the AA or a higher category as defined by a nationally recognized bond rating agency or in an equivalent or higher rating category based on any later redefinition.

(c) If and to the extent money has been transferred from the security account to provide for the timely payment of the principal of and interest on bonds issued by the authority, or to transfer money to a debt service reserve fund established in connection with the bonds, the authority shall transfer to the security account on or before December 1 of each succeeding year an amount equal to that previously transferred from the security account, provided that the authority's obligation to transfer money to the

security account is limited to money then on hand in funds or accounts of the authority in excess of those appropriated to other purposes or required to provide for the payment of the principal of and interest on bonds issued by the authority and to pay the costs of issuing, carrying, administering; and securing the bonds of the authority and of administering and implementing the programs of the authority financed by the bonds.

Subd. 7. Transfers, appropriation. In addition to the money required to be transferred to the rural renewal bond account under subdivision 5, and in order to reduce the amount of taxes otherwise required by the Minnesota Constitution to be levied for the state bond fund, the commissioner of finance shall transfer from the general fund to the rural renewal bond account, on December 1 in each year, a sum of money sufficient in amount, when added to the balance then on hand in that account, to pay all bonds issued under this section and the interest on them due and to become due to and including July 1 in the second ensuing year. All money to be so credited and all income from its investment is annually appropriated for the payment of the bonds and interest on them, and shall be available in the rural renewal bond account before the levy of the tax in any year required by the Minnesota Constitution, article XI, section 7. The legislature may also appropriate to the rural renewal bond account any other money in the state treasury not otherwise appropriated, for the security of bonds issued under this section in the event that sufficient money is not available in the account from the appropriation in this section, before the levy of the tax in any year. The commissioner of finance shall make the appropriate entries in the accounts of the respective funds.

Subd. 8. Constitutional levy. On or before December 1 in each year the state auditor shall levy on all taxable property within the state whatever tax may be necessary to produce an amount sufficient, with all money then in the rural renewal bond account, to pay the entire amount of principal and interest due on or before July 1 in the second year thereafter on bonds issued under this section. This tax must be levied upon all real property used for a homestead, as well as other taxable property, notwithstanding section 273.13, subdivision 22. The tax must not be limited in rate or amount until all the bonds and interest on them are fully paid. The proceeds of this tax are appropriated and must be credited to the state bond fund, and the principal and interest on the bonds are payable from all the proceeds. As much of the proceeds as is necessary is appropriated for the payments. If at any time there is insufficient money from the proceeds of the taxes to pay the principal and interest when due on the bonds, the principal and interest must be paid out of the general fund in the state treasury, and the amount necessary for the payment is hereby appropriated.

Subd. 9. Compliance with federal law. The commissioner of finance may covenant and agree with the holders of the bonds issued under this section that the state will comply, insofar as possible, with the provisions of the United States Internal Revenue Code now or hereafter enacted that are applicable to the bonds and that establish conditions under which the interest to be paid on the bonds will not be includable in gross income for federal tax purposes.

Subd. 10. Taxability of interest. Interest on the bonds authorized by this section may be issued without regard to whether the interest to be paid on them is includable in gross income for federal tax purposes.

41B.195 ADDITIONAL USE OF GENERAL OBLIGATION BONDS.

Notwithstanding the limit set forth in section 41B.19, subdivision 1, the commissioner of finance, upon the request of the rural finance authority, may issue the general obligation bonds authorized by section 41B.19 and use the proceeds of the bonds to purchase participations in qualified agricultural loans if the commissioner determines that it is not practical or efficient to issue revenue bonds under section 41B.08 for the purpose of sections 41B.025, subdivision 5, 41B.037, 41B.038, and 41B.04 as a result of reduced program size or increased program costs. Subject to the other provisions of this section, the proceeds of the bonds must be deposited, held, and disbursed from a

separate account, the bonds are payable from the bond account established by section 41B.19, subdivision 4, and the participations purchased with the bond proceeds must be held as assets of the bond account. If the rural finance authority later determines to issue revenue bonds under section 41B.08 for the purposes specified in section 41B.04, the commissioner may by order provide for the transfer of all or a portion of the remaining bond proceeds and interest on them, and all or a portion of the participations purchased with the bond proceeds and proceeds of them, to be transferred to the security account established in section 41B.19, subdivision 5, and used for the purposes specified in section 41B.19, subdivisions 1 and 5.
