400.04 SOLID WASTE MANAGEMENT PROGRAM.*[For text of subds 1 and 2, see M.S.1992]*

Subd. 3. Acquisition, construction, and operation of property and facilities. A county may acquire, construct, enlarge, improve, repair, supervise, control, maintain, and operate any and all solid waste facilities and other property and facilities needed, used, or useful for solid waste management purposes. Notwithstanding any other law to the contrary, a county may purchase and lease materials, equipment, machinery, and such other personal property as is necessary for such purposes including recycling upon terms and conditions determined by the board, with or without advertisement for bids including the use of conditional sales contracts and lease-purchase agreements. If a county contract is let by negotiation, without advertising for bids, the county shall conduct such negotiation and award the contract using a fair and open procedure and in full compliance with section 471.705. If a county contract is to be awarded by bid, the county may, after notice to the public and prospective bidders, conduct a fair and open process of prequalification of bidders prior to advertisement for bids. A county may employ such personnel as are reasonably necessary for the care, maintenance and operation of such property and facilities. A county shall contract with private persons for the construction, maintenance, and operation of solid waste facilities where the facilities are adequate and available for use and competitive with other means of providing the same service.

Subd. 4. Management and service contracts. Notwithstanding sections 375.21 and 471.345, a county may enter into contracts for the construction, installation, maintenance and operation of property and facilities on private or public lands and may contract for the furnishing of solid waste management services upon terms and conditions determined by the board, with or without advertisement for bids, including the use of conditional sales contracts and lease-purchase agreements. If a county contract is let by negotiation, without advertising for bids, the county shall conduct negotiations and award the contract using a fair and open procedure and in full compliance with section 471.705.

Subd. 3. Service charges. The county may establish by ordinance, revise when deemed advisable, and collect just and reasonable rates and charges for solid waste management services provided by the county or by others under contract with the county. The ordinance may obligate the owners, lessees, or occupants of property, or any or all of them, to pay charges for solid waste management services to their properties, including properties owned, leased, or used by the state or a political subdivision of the state, including the regional transit board established in section 473.373, the metropolitan airports commission established in section 473.603, the state agricultural society established in section 37.01, a local government unit, and any other political subdivision, and may obligate the user of any facility to pay a reasonable charge for the use of the facility. Rates and charges may take into account the character, kind, and

quality of the service and of the solid waste, the method of disposition, the number of people served at each place of collection, and all other factors that enter into the cost of the service, including but not limited to depreciation and payment of principal and interest on money borrowed by the county for the acquisition or betterment of facilities. A notice of intention to enact an ordinance, published pursuant to section 375.51, subdivision 2, shall provide for a public hearing prior to the meeting at which the ordinance is to be considered.
