246.51 PAYMENT FOR CARE AND TREATMENT; DETERMINATION.

Subdivision 1. Procedures. The commissioner shall make investigation as necessary to determine, and as circumstances require redetermine, what part of the cost of care, if any, the client is able to pay. If the client is unable to pay the full cost of care the commissioner shall make a determination as to the ability of the relatives to pay. The client and relatives shall provide the commissioner documents and proofs necessary to determine their ability to pay. Failure to provide the commissioner with sufficient information to determine ability to pay may make the client or relatives liable for the full cost of care until the time when sufficient information is provided. No parent shall be liable for the cost of care given a client at a regional treatment center after the client has reached the age of 18 years. The commissioner's determination shall be conclusive in any action to enforce payment of the cost of care unless appealed from as provided in section 246.55. All money received, except for chemical dependency receipts, shall be paid to the state treasurer and placed in the general fund of the state and a separate account kept of it. Except for services provided under chapter 254B, responsibility under this section shall not apply to those relatives having gross earnings of less than \$11,000 per year.

Subd. 2. Rules. The commissioner shall adopt, pursuant to the administrative procedure act, rules establishing uniform standards for determination of client liability and relative, guardian or conservator responsibility for care provided at state facilities. The standards may differ for mental illness, chemical dependency, or mental retardation. The standards established in rules adopted under chapter 254B shall determine the amount of client and relative responsibility when a portion of the client's cost of care has been paid under chapter 254B. These rules shall have the force and effect of law.

Subd. 3. Applicability. The commissioner may recover, under sections 246.50 to 246.55, the cost of any care provided in a state facility, including care provided prior to July 1, 1989, regardless of the terminology used to designate the status or condition of the person receiving the care or the terminology used to identify the facility. For purposes of recovering the cost of care provided prior to July 1, 1989, the term "state facili-

ty" as used in sections 246.50 to 246.55 includes "state hospital," "regional treatment center," or "regional center"; and the term "client" includes, but is not limited to, persons designated as "mentally deficient," "inebriate," "chemically dependent," or "intoxicated."

246.511 RELATIVE RESPONSIBILITY.

Except for chemical dependency services paid for with funds provided under chapter 254B, a client's relatives shall not, pursuant to the commissioner's authority under section 246.51, be ordered to pay more than ten percent of the cost of care, unless they reside outside the state. Parents of children in state facilities shall have their responsibility to pay determined according to section 252.27, subdivision 2, or in rules adopted under chapter 254B if the cost of care is paid under chapter 254B. The commissioner may accept voluntary payments in excess of ten percent. The commissioner may require full payment of the full per capita cost of care in state facilities for clients whose parent, parents, spouse, guardian, or conservator do not reside in Minnesota.

246.52 PAYMENT FOR CARE; ORDER; ACTION.

The commissioner shall issue an order to the client or the guardian of the estate, if there be one, and relatives determined able to pay requiring them to pay monthly to the state of Minnesota the amounts so determined the total of which shall not exceed the full cost of care. Such order shall specifically state the commissioner's determination and shall be conclusive unless appealed from as herein provided. 246.53 CLAIM AGAINST ESTATE OF DECEASED CLIENT.

Subdivision 1. **Client's estate.** Upon the death of a client, or a former client, the total cost of care given the client, less the amount actually paid toward the cost of care by the client and the client's relatives, shall be filed by the commissioner as a claim against the estate of the client with the court having jurisdiction to probate the estate and all proceeds collected by the state in the case shall be divided between the state and county in proportion to the cost of care each has borne.

Subd. 2. **Preferred status.** An estate claim in subdivision 1 shall be considered an expense of the last illness for purposes of section 524.3-805.

If the commissioner of human services determines that the property or estate of any client is not more than needed to care for and maintain the spouse and minor or dependent children of a deceased client, the commissioner has the power to compromise the claim of the state in a manner deemed just and proper.

Subd. 3. **Exception from statute of limitations.** Any statute of limitations which limits the commissioner in recovering the cost of care obligation incurred by a client or former client shall not apply to any claim against an estate made hereunder to recover cost of care.

shall be subrogated, to the extent of the cost of care for services given, to the rights a client who receives treatment or care at a state facility may have under private health care coverage. The right of subrogation does not attach to benefits paid or provided under private health care coverage before the carrier issuing the health care coverage receives written notice of the exercise of subrogation rights.

If payments received by the state under sections 246.50 to 246.53 exceed 90 percent of the cost of care, the county shall be responsible for paying the state only the remaining amount. The county shall not be entitled to reimbursement from the client, the client's estate, or from the client's relatives, except as provided in section 246.53. Subdivision 1. The commissioner of human services is hereby authorized to establish, subject to the approval of the commissioner of economic security, work activity programs for the purpose of providing therapeutic work activities for regional treatment center patients with mental illness and regional treatment center residents with mental retardation. Work activity programs may be established for the provision of services and for the manufacture, processing and repairing of goods, wares, and merchandise. Work activity programs may be located on the grounds of the regional treatment center or at work sites in the community. In establishing services the commissioner shall cooperate with existing agencies to avoid duplication of available services to the extent feasible.

Notwithstanding section 177.24, the activities within this program shall conform to the rules and regulations relating to work activity centers promulgated by the United States Department of Labor. To accomplish the foregoing purpose the commissioner of human services shall have the power and authority to:

(a) use the diversified labor fund established by Laws 1945, chapter 575, section 19, to purchase equipment and remodel facilities of the state hospitals referred to in subdivision 1 to initiate the work activity program;

(b) formulate a system of records and accounts which shall at all times indicate the extent of purchases, sales, wages, and bidding practices and which shall be open to public inspection;

(c) contract with public or private entities for the provision of custodial, domestic, maintenance, and other services carried out by patients or residents. To the extent that a qualified direct care employee of a regional treatment center is available, staff services required by the contract shall be provided by that direct care employee.

(d) utilize all available vocational rehabilitation services and encourage the integration of the work activity program into existing vocational rehabilitation and community-based programs, so that the work activity program will neither duplicate nor unfairly compete with existing public or private community programs.

Subd. 5. Laundry equipment. The commissioner of human services may provide for the replacement of laundry equipment by including a charge for depreciation as part of the service costs charged by a regional treatment center operating a laundry service. Receipts for laundry services attributable to depreciation of laundry equipment must be deposited in a laundry equipment depreciation account within the general fund. All money deposited in the account is appropriated to the commissioner of human services for the replacement of laundry equipment. Any balance remaining in the account at the end of a fiscal year does not cancel and is available until expended.

Subdivision 1. **Chemical dependency rates.** Notwithstanding sections 246.50, subdivision 5; 246.511; and 251.011, the commissioner shall establish separate rates for each chemical dependency service operated by the commissioner and may establish separate rates for each service component within the program by establishing fees for services or different per diem rates for each separate chemical dependency unit within the program based on actual costs attributable to the service or unit. The rate must allocate the cost of all anticipated maintenance, treatment, and expenses including depreciation of buildings and equipment, interest paid on bonds issued for capital improvements for chemical dependency programs, reimbursement and other indirect costs related to the operation of chemical dependency programs other than that paid from the Minnesota state building fund or the bond proceeds fund, and losses due to bad debt. The rate must not include allocations of chaplaincy, patient advocacy, or quality assurance costs that are not required for chemical dependency licensure by the commissioner or certification for chemical dependency by the Joint Commission on Accreditation of Hospitals. Notwithstanding any other law, the commissioner shall treat these costs as nonhospital department expenses.

Subd. 2. **Depreciation collections.** Beginning July 1, 1987, depreciation collected under subdivision 1 must be credited to the general fund and principal and interest on the bonded debt collected under subdivision 1 must be deposited in the state bond fund.

This money must not be used for a regional treatment center activity that is not a chemical dependency service or an allocation of expenditures that are included in the base for computation of the rates under subdivision 1. The commissioner may expand chemical dependency services so long as expenditures are recovered by patient fees, transfer of funds, or supplementary appropriations. The commissioner may expand or reduce chemical dependency staff complement as long as expenditures are recovered by patient fees, transfer of funds, or supplementary appropriations.
