Subd. 4. Multiple levies on earnings. Except as otherwise provided in this chapter or section 518.6111, the priority of multiple earnings execution levies is determined by the order in which the execution levies were served on the employer. If the employer is served with two or more writs of execution at the same time on the same day, the writ of execution issued pursuant to the first judgment entered has priority. If two or more execution levies are served on the same day and are based on judgments entered on the same day, then the employer shall select the priority of the earnings levies. However, in all cases except earnings execution levies on judgments for child support if the judgment creditor is a county and the employer is notified by the county when the judgment is satisfied, the execution levies shall be effective no longer than 70 days from the date of the service of the writ of execution.
