PSYCHOLOGISTS

CHIROPRACTORS

148.01 CHIROPRACTIC.

Subdivision 1. For the purposes of sections 148.01 to 148.10, "chiropractic" is defined as the science of adjusting any abnormal articulations of the human body, especially those of the spinal column, for the purpose of giving freedom of action to impinged nerves that may cause pain or deranged function.

Subd. 2. The practice of chiropractic is not the practice of medicine, surgery, or osteopathy.

Subd. 3. Chiropractic practice includes those noninvasive means of clinical, physical, and laboratory measures and analytical X-ray of the bones of the skeleton which are necessary to make a determination of the presence or absence of a chiropractic condition. The practice of chiropractic may include procedures which are used to prepare the patient for chiropractic adjustment or to complement the chiropractic adjustment. The procedures may not be used as independent therapies or separately from chiropractic adjustment. No device which utilizes heat or sound shall be used in the treatment of a chiropractic condition unless it has been approved by the Federal Communications Commission. No device shall be used above the neck of the patient. Any chiropractor who utilizes procedures in violation of this subdivision shall be guilty of unprofessional conduct and subject to disciplinary procedures according to section 148.10.

Membership terms, compensation of members, removal of members, the

filling of membership vacancies, and fiscal year and reporting requirements shall be as provided in sections 214.07 to 214.09. The provision of staff, administrative services and office space; the review and processing of complaints; the setting of board fees; and other provisions relating to board operations shall be as provided in chapter 214. The board shall have the authority to prescribe rules relative to the examination of applicants for license to practice chiropractic and for the annual renewal of licenses. Vacancies caused by death or otherwise shall be filled by the governor within 60 days. No member of the board shall be financially interested in any chiropractic school or college or be in any way affiliated with the practice of other methods of healing as are now regulated by law in this state.

The board shall adopt rules requiring continuing education for chiropractors licensed under this chapter who regularly practice in the area of workers' compensation. These rules shall include rules relating to continuing education designed to assure the coordination of treatment, rehabilitation, and other chiropractic services provided to injured employees under chapter 176. Rules relative to education under chapter 176 shall be adopted jointly with the commissioner of labor and industry. These rules shall be consistent with section 214.12.

The board shall meet at such times as the majority of the board may deem proper. A majority of the board shall constitute a quorum for the transaction of business. The secretary shall keep a record of its proceedings. This report shall be prima facie evidence of all matters therein recorded.

148.06 APPLICATION; EXAMINATION; LICENSE; FEE.

Subdivision 1. **License required; qualifications.** No person shall practice chiropractic in this state without first being licensed by the state board of chiropractic examiners. The applicant shall have earned at least one-half of all academic credits required for awarding of a baccalaureate degree from the University of Minnesota, or other university, college, or community college of equal standing, in subject matter determined by the board, and taken a four-year resident course of at least eight months each in a school or college of chiropractic that is fully accredited by the council on chiropractic education or fully accredited by an agency approved by the United States Office of Education or their successors as of January 1, 1988. The board may issue licenses to practice chiropractic without compliance with prechiropractic or academic requirements listed above if in the opinion of the board the applicant has the qualifications equivalent to those required of other applicants, the applicant satisfactorily passes written and practical examinations as required by the board of chiropractic

examiners, and the applicant is a graduate of a college of chiropractic with a reciprocal recognition agreement with the council on chiropractic education as of January 1, 1988. The board may recommend a two-year prechiropractic course of instruction to any university, college, or community college which in its judgment would satisfy the academic prerequisite for licensure as established by this section.

An examination for a license shall be in writing and shall include testing in:

- (a) The basic sciences including but not limited to anatomy, physiology, bacteriology, pathology, hygiene, and chemistry as related to the human body or mind;
- (b) The clinical sciences including but not limited to the science and art of chiropractic, chiropractic physiotherapy, diagnosis, roentgenology, and nutrition; and
- (c) Professional ethics and any other subjects that the board may deem advisable.

The board may consider a valid certificate of examination from the National Board of Chiropractic Examiners as evidence of compliance with the written examination requirements of this subdivision. The applicant shall be required to give practical demonstration in vertebral palpation, neurology, adjusting and any other subject that the board may deem advisable. A license, countersigned by the members of the board and authenticated by the seal thereof, shall be granted to each applicant who correctly answers 75 percent of the questions propounded in each of the subjects required by this subdivision and meets the standards of practical demonstration established by the board. Each application shall be accompanied by a fee set by the board. The fee shall not be returned but the applicant may, within one year, apply for examination without the payment of an additional fee. The board may grant a license to an applicant who holds a valid license to practice chiropractic issued by the appropriate licensing board of another state, provided the applicant meets the other requirements of this section and satisfactorily passes a practical examination approved by the board. The burden of proof is on the applicant to demonstrate these qualifications or satisfaction of these requirements.

Subd. 2. **Expenses.** The expenses of administering sections 148.01 to 148.105 shall be paid from the appropriation made to the state board of chiropractic examiners. all matters pertaining to the public health, except prescribing internal drugs or the practice of medicine, physical therapy, surgery and obstetrics.

Subd. 3. **Rules.** The board of chiropractic examiners shall promulgate rules necessary to administer sections 148.01 to 148.105 to protect the health, safety, and welfare of the public, including rules governing the practice of chiropractic and defining any terms, whether or not used in sections 148.01 to 148.105, if the definitions are not inconsistent with the provisions of sections 148.01 to 148.105.

(1) the doctor of chiropractic must either be an instructor at an accredited school of chiropractic or have devoted not less than 50 percent of practice time to direct patient care during the two years immediately preceding the examination;

(2) the doctor of chiropractic must have completed any annual continuing education requirements for chiropractors prescribed by the board of chiropractic examiners;

History: 1990 c 611 s 1

148.10 LICENSES REVOKED; NEW LICENSES.

Subdivision 1. **Grounds.** (a) The state board of chiropractic examiners may refuse to grant, or may revoke, suspend, condition, limit, restrict or qualify a license to practice chiropractic, or may cause the name of a person licensed to be removed from the records in the office of the court administrator of the district court for:

(1) Advertising that is false or misleading; that violates a rule of the board; or that claims the cure of any condition or disease.

(2) The employment of fraud or deception in applying for a license or in passing the examination provided for in section 148.06 or conduct which subverts or attempts to subvert the licensing examination process.

(3) The practice of chiropractic under a false or assumed name or the impersonation of another practitioner of like or different name.

(4) The conviction of a crime involving moral turpitude.

(5) The conviction, during the previous five years, of a felony reasonably related to the practice of chiropractic.

(6) Habitual intemperance in the use of alcohol or drugs.

(7) Failure to pay the annual renewal license fee.

(8) Advanced physical or mental disability.

(9) The revocation or suspension of a license to practice chiropractic; or other disciplinary action against the licensee; or the denial of an application for a license by the proper licensing authority of another state, territory or country; or failure to report to the board that charges regarding the person's license have been brought in another state or jurisdiction.

(10) The violation of, or failure to comply with, the provisions of sections 148.01 to 148.105, the rules of the state board of chiropractic examiners, or a lawful order of the board.

(11) Unprofessional conduct.

(12) Being unable to practice chiropractic with reasonable skill and safety to patients by reason of illness, professional incompetence, senility, drunkenness, use of drugs, narcotics, chemicals or any other type of material, or as a result of any mental or physical condition, including deterioration through the aging process or loss of motor skills. If the board has probable cause to believe that a person comes within this clause, it shall direct the person to submit to a mental or physical examination. For the purpose of this clause, every person licensed under this chapter shall be deemed to have given consent to submit to a mental or physical examination when directed in writing by the board and further to have waived all objections to the admissibility of the examining physicians' testimony or examination reports on the ground that the same constitute a privileged communication. Failure of a person to submit to such examination when directed shall constitute an admission of the allegations, unless the failure was due to circumstances beyond the person's control, in which case a default and final order may be entered without the taking of testimony or presentation of evidence. A person affected under this clause shall at reasonable intervals be afforded an opportunity to demonstrate that the person can resume the competent practice of chiropractic with reasonable skill and safety to patients.

In addition to ordering a physical or mental examination, the board may, notwithstanding section 13.42, 144.651, or any other law limiting access to health data, obtain health data and health records relating to a licensee or applicant without the licensee's or applicant's consent if the board has probable cause to believe that a doctor of chiropractic comes under this clause. The health data may be requested from a provider, as defined in section 144.335, subdivision 1, paragraph (b), an insurance company, or a government agency, including the department of human services. A provider, insurance company, or government agency shall comply with any written request of the board under this subdivision and is not liable in any action for damages for releasing the data requested by the board if the data are released pursuant to a written request under this subdivision, unless the information is false and the provider or entity giving the information knew, or had reason to believe, the information was false. Information obtained under this subdivision is classified as private under sections 13.01 to 13.87.

In any proceeding under this clause, neither the record of proceedings nor the orders entered by the board shall be used against a person in any other proceeding.

(13) Aiding or abetting an unlicensed person in the practice of chiropractic, except that it is not a violation of this clause for a doctor of chiropractic to employ, supervise, or delegate functions to a qualified person who may or may not be required to obtain a license or registration to provide health services if that person is practicing within the scope of the license or registration or delegated authority.

(14) Improper management of health records, including failure to maintain adequate health records as described in clause (18), to comply with a patient's request made under section 144.335 or to furnish a health record or report required by law.

(15) Failure to make reports required by section 148.102, subdivisions 2 and 5, or to cooperate with an investigation of the board as required by section 148.104, or the submission of a knowingly false report against another doctor of chiropractic under section 148.10, subdivision 3.

(16) Splitting fees, or promising to pay a portion of a fee or a commission, or accepting a rebate.

(17) Revealing a privileged communication from or relating to a patient, except when otherwise required or permitted by law.

(18) Failing to keep written chiropractic records justifying the course of treatment of the patient, including, but not limited to, patient histories, examination results, test

results, and X-rays. Unless otherwise required by law, written records need not be retained for more than seven years and X-rays need not be retained for more than four years.

(19) Exercising influence on the patient or client in such a manner as to exploit the patient or client for financial gain of the licensee or of a third party which shall include, but not be limited to, the promotion or sale of services, goods, or appliances.

(20) Gross or repeated malpractice or the failure to practice chiropractic at a level of care, skill, and treatment which is recognized by a reasonably prudent chiropractor as being acceptable under similar conditions and circumstances.

(21) Delegating professional responsibilities to a person when the licensee delegating such responsibilities knows or has reason to know that the person is not qualified by training, experience, or licensure to perform them.

(b) For the purposes of paragraph (a), clause (2), conduct that subverts or attempts to subvert the licensing examination process includes, but is not limited to: (1) conduct that violates the security of the examination materials, such as removing examination materials from the examination room or having unauthorized possession of any portion of a future, current, or previously administered licensing examination; (2) conduct that violates the standard of test administration, such as communicating with another examinee during administration of the examination, copying another examinee's answers, permitting another examinee to copy one's answers, or possessing unauthorized materials; or (3) impersonating an examinee or permitting an impersonator to take the examination on one's own behalf.

(c) For the purposes of paragraph (a), clauses (4) and (5), conviction as used in these subdivisions includes a conviction of an offense that if committed in this state would be deemed a felony without regard to its designation elsewhere, or a criminal proceeding where a finding or verdict of guilt is made or returned but the adjudication of guilt is either withheld or not entered.

(d) For the purposes of paragraph (a), clauses (4), (5), and (6), a copy of the judgment or proceeding under seal of the administrator of the court or of the administrative agency which entered the same shall be admissible into evidence without further authentication and shall constitute prima facie evidence of its contents.

(e) For the purposes of paragraph (a), clause (11), unprofessional conduct means any unethical, deceptive or deleterious conduct or practice harmful to the public, any departure from or the failure to conform to the minimal standards of acceptable chiropractic practice, or a willful or careless disregard for the health, welfare or safety of patients, in any of which cases proof of actual injury need not be established. Unprofessional conduct shall include, but not be limited to, the following acts of a chiropractor:

- (1) gross ignorance of, or incompetence in, the practice of chiropractic;
- (2) engaging in conduct with a patient that is sexual or may reasonably be interpreted by the patient as sexual, or in any verbal behavior that is seductive or sexually demeaning to a patient;
- (3) performing unnecessary services;
- (4) charging a patient an unconscionable fee or charging for services not rendered;
- (5) directly or indirectly engaging in threatening, dishonest, or misleading fee collection techniques;
- (6) perpetrating fraud upon patients, third-party payors, or others, relating to the practice of chiropractic, including violations of the Medicare or Medicaid laws or state medical assistance laws;
- (7) advertising that the licensee will accept for services rendered assigned payments from any third-party payer as payment in full, if the effect is to give the impression of eliminating the need of payment by the patient of any required deductible or copayment applicable in the patient's health benefit plan; or advertising a fee or charge for a service or treatment different from the fee or charge the licensee

MINNESOTA STATUTES 2000

submits to a third-party payer for that service or treatment. As used in this clause, "advertise" means solicitation by the licensee by means of handbills, posters, circulars, motion pictures, radio, newspapers, television, or in any other manner. In addition to the board's power to punish for violations of this clause, violation of this clause is also a misdemeanor;

(8) accepting for services rendered assigned payments from any third-party payer as payment in full, if the effect is to eliminate the need of payment by the patient of any required deductible or copayment applicable in the patient's health benefit plan, except as hereinafter provided; or collecting a fee or charge for a service or treatment different from the fee or charge the licensee submits to a third-party payer for that service or treatment, except as hereinafter provided. This clause is intended to prohibit offerings to the public of the above listed practices and those actual practices as well, except that in instances where the intent is not to collect an excessive remuneration from the third-party payer but rather to provide services at a reduced rate to a patient unable to afford the deductible or copayment, the services may be performed for a lesser charge or fee. The burden of proof for establishing that this is the case shall be on the licensee; and

(9) any other act that the board by rule may define.

Subd. 2. Issuance following refusal, revocation or cancellation. The state board of chiropractic examiners may, at any time within two years of the refusal or revocation or cancellation of a license under this section, by a majority vote, issue a new license or grant a license to the person affected, restoring to, or conferring upon the person, all the rights and privileges of, and pertaining to, the practice of chiropractic, as defined and regulated by sections 148.01 to 148.10. Any person to whom such have been restored shall pay a fee set by the board upon issuance of a new license.

Subd. 3. Reprimand; penalties; probation. In addition to the other powers granted to the board under this chapter, the board may, in connection with any person whom the board, after a hearing, adjudges unqualified or whom the board, after a hearing, finds to have performed one or more of the acts described in subdivision 1:

(1) publicly reprimand or censure the person;

(2) place the person on probation for the period and upon the terms and conditions that the board may prescribe; and

(3) require payment of all costs of proceedings resulting in the disciplinary action; and

(4) impose a civil penalty not exceeding \$10,000 for each separate violation, the amount of the civil penalty to be fixed so as to deprive the doctor of chiropractic of any economic advantage gained by reason of the violation charged or to reimburse the board for the cost of the investigation and proceeding.

Subd. 4. Temporary suspension. In addition to any other remedy provided by law, the board may, without a hearing, temporarily suspend a license for not more than 60 days if the board finds that a person has violated a statute or rule which the board is empowered to enforce and continued practice by the person would create an imminent risk of harm to others. The suspension shall take effect upon written notice to the person, specifying the statute or rule violated. At the time it issues the suspension notice, the board shall schedule a disciplinary hearing to be held pursuant to the Administrative Procedure Act. The person shall be provided with at least 20 days' notice of any hearing held pursuant to this subdivision.

Subd. 5. Tax clearance certificate. (a) In addition to the grounds provided in subdivision 1, the board may not issue or renew a license to practice chiropractic if the commissioner of revenue notifies the board and the licensee or applicant for a license that the licensee or applicant owes the state delinquent taxes in the amount of \$500 or more. The board may issue or renew the license only if (1) the commissioner of revenue issues a tax clearance certificate and (2) the commissioner of revenue or the licensee or applicant forwards a copy of the clearance to the board. The commissioner

of revenue may issue a clearance certificate only if the licensee or applicant does not owe the state any uncontested delinquent taxes.

(b) For purposes of this subdivision, the following terms have the meanings given.

(1) "Taxes" are all taxes payable to the commissioner of revenue, including penalties and interest due on those taxes.

(2) "Delinquent taxes" do not include a tax liability if (i) an administrative or court action that contests the amount or validity of the liability has been filed or served, (ii) the appeal period to contest the tax liability has not expired, or (iii) the licensee or applicant has entered into a payment agreement to pay the liability and is current with the payments.

(c) In lieu of the notice and hearing requirements of subdivisions 3 and 4, when a licensee or applicant is required to obtain a clearance certificate under this subdivision, a contested case hearing must be held if the licensee or applicant requests a hearing in writing to the commissioner of revenue within 30 days of the date of the notice provided in paragraph (a). The hearing must be held within 45 days of the date the commissioner of revenue refers the case to the office of administrative hearings. Notwithstanding any law to the contrary, the licensee or applicant must be served with 20 days' notice in writing specifying the time and place of the hearing and the allegations against the licensee or applicant. The notice may be served personally or by mail.

(d) The board shall require all licensees or applicants of a license to practice chiropractic to provide their social security number and Minnesota business identification number on all license applications. Upon request of the commissioner of revenue, the board must provide to the commissioner of revenue a list of all licensees and applicants for a license to practice chiropractic, including the name and address, social security number, and business identification number. The commissioner of revenue may request a list of the licensees and applicants no more than once each calendar year.

Subd. 6. Effect of appeal. A suspension, revocation, condition, limitation, qualification, or restriction of a license shall be in effect pending determination of an appeal unless the court, upon petition and for good cause shown, shall otherwise order.

Subd. 3. [Repealed, 1989 c 194 s 22]

Subd. 4. **Evidence.** In disciplinary actions alleging a violation of subdivision 1, clause (3) or (4), a copy of the judgment or proceeding under the seal of the court administrator or of the administrative agency that entered the same shall be admissible into evidence without further authentication and shall constitute prima facie evidence of the violation concerned.

Subd. 5. **Examination; access to medical data.** The board may take the following actions if it has probable cause to believe that grounds for disciplinary action exist under subdivision 1, clause (9) or (10):

(a) It may direct the applicant or nurse to submit to a mental or physical examination or chemical dependency evaluation. For the purpose of this subdivision, when a nurse licensed under sections 148.171 to 148.285 is directed in writing by the board to submit to a mental or physical examination or chemical dependency evaluation, that person is considered to have consented and to have waived all objections to admissibility on the grounds of privilege. Failure of the applicant or nurse to submit to an examination when directed constitutes an admission of the allegations against the applicant or nurse, unless the failure was due to circumstances beyond the person's control, and the board may enter a default and final order without taking testimony or allowing evidence to be presented. A nurse affected under this paragraph shall, at reasonable intervals, be given an opportunity to demonstrate that the competent practice of professional, advanced practice registered, or practical nursing can be resumed with reasonable skill and safety to patients. Neither the record of proceedings nor the orders entered by the board in a proceeding under this paragraph, may be used against a nurse in any other proceeding.

(b) It may, notwithstanding sections 13.42, 144.651, 595.02, or any other law limiting access to medical or other health data, obtain medical data and health records relating to a registered nurse, advanced practice registered nurse, licensed practical nurse, or applicant for a license without that person's consent. The medical data may be requested from a provider, as defined in section 144.335, subdivision 1, paragraph (b), an insurance company, or a government agency, including the department of human services. A provider, insurance company, or government agency shall comply with any written request of the board under this subdivision and is not liable in any action for damages for releasing the data requested by the board if the data are released pursuant to a written request under this subdivision unless the information is false and the provider giving the information knew, or had reason to believe, the information was false. Information obtained under this subdivision is classified as private data on individuals as defined in section 13.02.

148.262 FORMS OF DISCIPLINARY ACTION; AUTOMATIC SUSPENSION; TEMPORARY SUSPENSION; REISSUANCE.

Subdivision 1. **Forms of disciplinary action.** When the board finds that grounds for disciplinary action exist under section 148.261, subdivision 1, it may take one or more of the following actions:

- (1) deny the license, registration, or registration renewal;
- (2) revoke the license;
- (3) suspend the license;
- (4) impose limitations on the nurse's practice of professional, advanced practice registered, or practical nursing including, but not limited to, limitation of scope of practice or the requirement of practice under supervision;
- (5) impose conditions on the retention of the license including, but not limited to, the imposition of retraining or rehabilitation requirements or the conditioning of

continued practice on demonstration of knowledge or skills by appropriate examination, monitoring, or other review;

(6) impose a civil penalty not exceeding \$10,000 for each separate violation, the amount of the civil penalty to be fixed as to deprive the nurse of any economic advantage gained by reason of the violation charged, to reimburse the board for the cost of counsel, investigation, and proceeding, and to discourage repeated violations;

(7) order the nurse to provide unremunerated service;

(8) censure or reprimand the nurse; or

(9) any other action justified by the facts in the case.

Subd. 2. **Automatic suspension.** Unless the board orders otherwise, a license to practice professional or practical nursing is automatically suspended if:

(1) a guardian of a nurse is appointed by order of a court under sections 525.54 to 525.61;

(2) the nurse is committed by order of a court under chapter 253B; or

(3) the nurse is determined to be mentally incompetent, mentally ill, chemically dependent, or a person dangerous to the public by a court of competent jurisdiction within or without this state.

The license remains suspended until the nurse is restored to capacity by a court and, upon petition by the nurse, the suspension is terminated by the board after a hearing or upon agreement between the board and the nurse.

Subd. 3. **Temporary suspension of license.** In addition to any other remedy provided by law, the board may, through its designated board member under section 214.10, subdivision 2, temporarily suspend the license of a nurse without a hearing if the board finds that there is probable cause to believe the nurse has violated a statute or rule the board is empowered to enforce and continued practice by the nurse would create a serious risk of harm to others. The suspension shall take effect upon written notice to the nurse, served by first-class mail, specifying the statute or rule violated. (2) modify or terminate occupational therapy treatment of a client that is not beneficial to the client, not tolerated by the client, or refused by the client, and if treatment was terminated for a medical reason, notify the client's licensed health care

professional by correspondence postmarked or delivered to the licensed health care professional within seven calendar days of the termination of treatment;

(3) refer a client to an appropriate health care, social service, or education practitioner if the client's condition requires services not within the occupational therapist's service competency or not within the practice of occupational therapy generally;

(4) participate and cooperate in the coordination of occupational therapy services with other related services, as a member of the professional community serving the client; and

(5) communicate, in writing, with the appropriate licensed health care professional an occupational therapy plan of care, postmarked or delivered to the licensed health care professional within 14 calendar days of the initiation of treatment. The occupational therapist must provide this written communication even if occupational therapy treatment is concluded in less than 14 consecutive days. An occupational therapist applying for licensure renewal must have completed a minimum of 24 contact hours of continuing education in the two years preceding licensure renewal. An occupational therapy assistant applying for licensure renewal must have completed a minimum of 18 contact hours of continuing education in the two years preceding licensure renewal. Licensees shall receive contact hours for continuing education activities only for the biennial licensure period in which the continuing education activity was performed.

To qualify as a continuing education activity, the activity must be a minimum of one contact hour. Contact hours must be earned and reported in increments of one contact hour or one-half contact hour for each continuing education activity. One-half contact hour means an instructional session of 30 consecutive minutes, excluding coffee breaks, registration, meals without a speaker, and social activities.

Each licensee is responsible for financing the cost of the licensee's continuing education activities.

Subd. 3. Activities qualifying for continuing education contact hours. (a) The activities in this subdivision qualify for continuing education contact hours if they meet all other requirements of this section.

current work setting may obtain a maximum of six contact hours in any two-year continuing education period for participation in courses teaching these activities.

(f) A licensee may obtain a maximum of six contact hours in any two-year continuing education period for supervision of occupational therapist or occupational therapy assistant students. A licensee may earn one contact hour for every eight hours of student supervision. Licensees must maintain a log indicating the name of each student supervised and the hours each student was supervised. Contact hours obtained by student supervision must be obtained by supervising students from an occupational therapy education program accredited by the Accreditation Council for Occupational Therapy Education.

Subd. 4. Activities not qualifying for continuing education contact hours. No credit shall be granted for the following activities: hospital rounds, entertainment or recreational activities, employment orientation sessions, holding an office or serving as an organizational delegate, meetings for the purpose of making policy, noneducational association meetings, training related to payment systems, including covered services, coding, and billing.

Subd. 5. Reporting continuing education contact hours. (iii) verification of self-study programs by a certificate of completion or other documentation indicating that the individual has demonstrated knowledge and has successfully completed the program; or

(iv) verification of attendance at a university, college, or vocational course by an official transcript.

The commissioner shall set forth, in writing, the reasons for granting or denying the waiver. Waivers granted by the commissioner shall specify, in writing, the time limitation and required alternative measures to be taken by the licensee. A request for waiver shall be denied if the commissioner finds that the circumstances stated by the licensee do not support a claim of extreme hardship, the requested time period for waiver is unreasonable, the alternative measures proposed by the licensee are not equivalent to the continuing education activity being waived, or the request for waiver is not submitted to the commissioner within 60 days after the expiration date.

Subd. 8. Penalties for noncompliance. The commissioner shall refuse to renew or grant, or shall suspend, condition, limit, or qualify the license of any person who the commissioner determines has failed to comply with the continuing education requirements of this section. (3) who is licensed or certified as a psychologist in another jurisdiction and who has competence both in supervision in the practice of psychology and in the activities being supervised; or

(4) a plan for supervision that includes at least one hour of regularly scheduled individual in-person consultations per week for full-time employment. The board may approve an exception to the weekly supervision requirement for a week when the supervisor was ill or otherwise unable to provide supervision.

(11) has engaged in fee splitting. This clause does not apply to the distribution of revenues from a partnership, group practice, nonprofit corporation, or professional corporation to its partners, shareholders, members, or employees if the revenues consist only of fees for services performed by the licensee or under a licensee's administrative authority. This clause also does not apply to the charging of a general membership fee by a licensee or applicant to health care providers, as defined in section 144.335, for participation in a referral service, provided that the licensee or applicant discloses in advance to each referred client the financial nature of the referral arrangement. Fee splitting includes, but is not limited to:

(i) paying, offering to pay, receiving, or agreeing to receive a commission, rebate, or remuneration, directly or indirectly, primarily for the referral of clients;

(ii) dividing client fees with another individual or entity, unless the division is in proportion to the services provided and the responsibility assumed by each party;

(iii) referring an individual or entity to any health care provider, as defined in section 144.335, or for other professional or technical services in which the referring licensee or applicant has a significant financial interest unless the licensee has disclosed the financial interest in advance to the client; and

(iv) dispensing for profit or recommending any instrument, test, procedure, or device that for commercial purposes the licensee or applicant has developed or distributed, unless the licensee or applicant has disclosed any profit interest in advance to the client.

(b) If grounds for disciplinary action exist under paragraph (a), the board may take one or more of the following actions:

(1) refuse to grant or renew a license;

(2) revoke a license;

(3) suspend a license;

(4) impose limitations or conditions on a licensee's practice of psychology, including, but not limited to, limiting the scope of practice to designated competencies, imposing retraining or rehabilitation requirements, requiring the licensee to practice under supervision, or conditioning continued practice on the demonstration of knowledge or skill by appropriate examination or other review of skill and competence;

(5) censure or reprimand the licensee;

(6) refuse to permit an applicant to take the licensure examination or refuse to release an applicant's examination grade if the board finds that it is in the public interest; or

(7) impose a civil penalty not exceeding \$5,000 for each separate violation. The amount of the penalty shall be fixed so as to deprive the applicant or licensee of any economic advantage gained by reason of the violation charged, or to discourage repeated violations.

(c) In lieu of or in addition to paragraph (b), the board may require, as a condition of continued licensure, termination of suspension, reinstatement of license, examination, or release of examination grades, that the applicant or licensee:

(1) submit to a quality review, as specified by the board, of the applicant's or licensee's ability, skills, or quality of work; and

(2) complete to the satisfaction of the board educational courses specified by the board.

(d) Service of the order is effective if the order is served on the applicant, licensee, or counsel of record personally or by mail to the most recent address provided to the board for the licensee, applicant, or counsel of record. The order shall state the reasons for the entry of the order.

Subd. 3. Temporary suspension of license. (a) In addition to any other remedy provided by law, the board may temporarily suspend the credentials of a licensee after conducting a preliminary inquiry to determine if the board reasonably believes that the licensee has violated a statute or rule that the board is empowered to enforce and continued practice by the licensee would create an imminent risk of harm to others.

(b) The order may prohibit the licensee from engaging in the practice of psychology in whole or in part and may condition the end of a suspension on the licensee's compliance with a statute, rule, or order that the board has issued or is empowered to enforce.

(c) The order shall give notice of the right to a hearing pursuant to this subdivision and shall state the reasons for the entry of the order.

(d) Service of the order is effective when the order is served on the licensee personally or by certified mail which is complete upon receipt, refusal, or return for nondelivery to the most recent address provided to the board for the licensee.

(e) At the time the board issues a temporary suspension order, the board shall schedule a hearing to be held before its own members which shall begin no later than 60 days after issuance of the temporary suspension order or within 15 working days of the date of the board's receipt of a request for hearing by a licensee on the sole issue of whether there is a reasonable basis to continue, modify, or lift the temporary suspension. This hearing is not subject to chapter 14. Evidence presented by the board or the licensee shall be in affidavit form only. The licensee or counsel of record may appear for oral argument.

(f) Within five working days of the hearing, the board shall issue its order and, if the suspension is continued, schedule a contested case hearing within 30 days of the issuance of the order. Notwithstanding chapter 14, the administrative law judge shall issue a report within 30 days after closing the contested case hearing record. The board shall issue a final order within 30 days of receipt of the administrative law judge's report.

Subd. 4. Cooperation of applicants or licensees with investigations. (a) An applicant or licensee of the board who is the subject of an investigation or who is questioned in connection with an investigation by or on behalf of the board shall cooperate fully with the investigation. Cooperation includes responding fully and promptly to any question raised by or on behalf of the board relating to the subject of the investigation, executing all releases requested by the board, providing copies of client records, as reasonably requested by the board to assist it in its investigation, and appearing at conferences or hearings scheduled by the board or its staff.

(b) If the board does not have a written consent from a client permitting access to the client's records, the licensee may delete any data in the record which identify the client before providing it to the board. The board shall maintain any records obtained pursuant to this section as investigative data pursuant to chapter 13.

Subd. 5. Evidence of past sexual conduct. In a proceeding for the suspension or revocation of a license or other disciplinary action for unethical or unprofessional conduct involving sexual contact with a client or former client, the board or administrative law judge shall not consider evidence of the client's previous sexual conduct nor shall any reference to this conduct be made during the proceedings or in the findings, except by motion of the client, unless the evidence would be admissible under applicable provisions of section 609.347, subdivision 3.

Subd. 6. Violation. Persons who engage in the unlicensed practice of psychology or who misrepresent themselves as psychologists or psychological practitioners are guilty of a gross misdemeanor.

(e) Former licensees who are completely retired from the practice of psychology may represent themselves using the descriptions in paragraph (a), clauses (1) and (2), but shall not represent themselves or allow themselves to be represented as current licensees of the board.

Subdivision 1. **Definitions.** (a) The definitions in this subdivision apply to this section.

(c) "Reasonable efforts" means communicating the serious, specific threat to the potential victim and if unable to make contact with the potential victim, communicating the serious, specific threat to the law enforcement agency closest to the potential victim or the client.

If a duty to warn arises, the duty is discharged by the licensee if reasonable efforts, as defined in subdivision 1, paragraph (c), are made to communicate the threat.

Subd. 3. [Renumbered subd 2]

Subd. 3. **Liability standard.** If no duty to warn exists under subdivision 2, then no monetary liability and no cause of action may arise against a licensee for failure to

predict, warn of, or take reasonable precautions to provide protection from, a client's violent behavior.

Subd. 4. **Disclosure of confidences.** Good faith compliance with the duty to warn shall not constitute a breach of confidence and shall not result in monetary liability or a cause of action against the licensee.

Subd. 5. **Continuity of care.** Nothing in subdivision 2 shall be construed to authorize a licensee to terminate treatment of a client as a direct result of a client's violent behavior or threat of physical violence unless the client is referred to another practitioner or appropriate health care facility.

Subd. 6. **Exception.** This section does not apply to a threat to commit suicide or other threats by a client to harm the client, or to a threat by a client who is adjudicated mentally ill and dangerous under chapter 253B.

Subd. 7. **Optional disclosure.** Nothing in section 148.975 shall be construed to prohibit a licensee from disclosing confidences to third parties in a good-faith effort to warn against or take precautions against a client's violent behavior or threat to commit suicide for which a duty to warn does not arise.

Subd. 8. **Limitation on liability.** No monetary liability and no cause of action, or disciplinary action by the board may arise against a licensee for disclosure of confidences to third parties, for failure to disclose confidences to third parties, or for erroneous disclosure of confidences to third parties in a good-faith effort to warn against or take precautions against a client's violent behavior or threat of suicide for which a duty to warn does not arise.
