156.125 MENTAL EXAMINATION; ACCESS TO MEDICAL DATA.

Subdivision 1. **Order for examination; consent.** If the board has probable cause to believe that grounds exist under section 156.081, subdivision 2, clause (3) or (13), against a regulated person, the executive director may authorize the issuance of an order directing the regulated person to submit to a mental or physical examination or chemical dependency evaluation. For the purpose of this section, every regulated person is considered to have consented to submit to a mental or physical examination or chemical dependency evaluation when ordered to do so and to have waived all objections to the admissibility of the examiner's or evaluator's testimony or reports on the grounds that the testimony or reports constitute a privileged communication. An order for examination under this chapter is private data on an individual.

Subd. 2. **Failure to submit to or complete an examination.** Failure to submit to or complete an examination or evaluation, unless the failure was due to circumstances beyond the control of the regulated person, constitutes an admission that grounds exist under section 156.081, subdivision 2, clause (3) or (13), against the regulated person, based on the factual specifications in the examination or evaluation order, and may result in an application being denied or, after a contested case hearing as described in this subdivision, a disciplinary order. The only issues to be determined at the hearing are whether the executive director had probable cause to authorize the examination or evaluation order and whether the failure to submit was due to circumstances beyond the control of the regulated person. Neither the record of a proceeding under this subdivision nor the orders entered by the board are admissible, subject to subpoena, or to be used against the regulated person in a proceeding in which the board is not a party.

Subd. 3. **Obtaining data and health records.** In addition to ordering a physical or mental examination and notwithstanding section 13.384, 144.335, 144.651, or 595.02, or any other law limiting access to medical or other health records, the board may authorize obtaining data and health records relating to a regulated person without the regulated person's consent if the executive director has probable cause to believe that grounds exist under section 156.081, subdivision 2, clause (3) or (13), against the regulated person. A regulated person, insurance company, health care facility, provider as defined in section 144.335, subdivision 1, paragraph (b), or government agency shall comply with any written request under this subdivision and is not liable in any action for damages for releasing the data requested if the data are released in accordance with a written request made under this subdivision. Information on individuals obtained under this subdivision is investigative data under section 13.41.

156.126 TEMPORARY SUSPENSION OF LICENSE.

In addition to any other remedy provided by law, the board, acting through its executive director and one or more designated board members without a hearing, may temporarily suspend the license of a regulated person if the executive director and one or more designated board members finds that the regulated person has violated a statute or rule that the board is empowered to enforce and continued practice by the regulated person would create an imminent risk of harm to others. The suspension is in effect upon service of a written temporary suspension order on the regulated person specifying the statute or rule violated. Service of the temporary suspension order is effective upon personal service or service by first class mail upon the regulated person or counsel at the regulated person's or counsel's last known address. The temporary order remains in effect until the board issues an order after a limited hearing described in this subdivision or upon agreement between the board and the regulated person. Within ten days of service of the temporary suspension order, the board shall conduct a limited hearing before its own members on the sole issue of whether there is a reasonable basis for the temporary suspension order to remain in effect. Both parties shall be given an opportunity to present evidence and oral argument at the hearing. Within five business days after the hearing, the board shall issue an order and, if the

temporary suspension is to remain in effect, initiate a contested case hearing to be commenced within 45 days after service of the order. The administrative law judge shall issue a report within 30 days after closing the contested case hearing record. The board shall issue a final order within 30 days after receiving the administrative law judge's report.

156.127 FORMS OF DISCIPLINARY ACTION.

Subdivision 1. **Board action.** When grounds exist under section 156.081, or other statute or rule which the board is authorized to enforce, the board may take one or more of the following disciplinary actions:

- (1) deny an application for a license;
- (2) revoke the regulated person's license;
- (3) suspend the regulated person's license;
- (4) impose limitations on the regulated person's license;
- (5) impose conditions on the regulated person's license;
- (6) censure or reprimand, publicly or privately, the regulated person;
- (7) impose an administrative penalty not exceeding \$5,000 for each separate violation, the amount of the penalty to be fixed so as to deprive the person of any economic advantage gained by reason of the violation or to discourage repeated violations; or
- (8) take any other action justified by the facts of the case.

Subd. 2. **Agreement.** When grounds exist under section 156.081, or other statute or rule which the board is authorized to enforce, the executive director and complaint committee may enter into an agreement with the regulated person for corrective action which may include requiring the regulated person:

- (1) to complete an educational course or activity;
- (2) to submit to the executive director or designated board member a written protocol or reports designed to prevent future violations of the same kind;
- (3) to meet with a board member or board designee to discuss prevention of future violations of the same kind;
- (4) to perform other action justified by the facts; or
- (5) to cease performing specific acts or procedures justified by the facts.

The listing of these measures in this subdivision does not preclude a board from including the measures in an order for disciplinary action.

Subd. 3. **Disciplinary action and reinstatement fee.** Upon reinstating a regulated person's license or granting an applicant's license, the board may, at its discretion, impose any disciplinary action listed in subdivision 1, as well as any reinstatement fee.

Subd. 4. **Annual publication of disciplinary actions.** At least annually, the board may publish and make available to the public a description of all public disciplinary action taken by the board. The publication must include, for each disciplinary action taken, the name and the business address of the regulated person, and the form of disciplinary action taken by the board.

156.18 VETERINARY PRESCRIPTION DRUGS.

Subdivision 1. **Prescription.** (a) A person may not dispense a veterinary prescription drug to a client without a prescription or other veterinary authorization. A person may not make extra-label use of an animal or human drug for an animal without a prescription from a veterinarian. A veterinarian or the veterinarian's authorized employee may dispense a veterinary prescription drug to a client or oversee the extra-label use of a veterinary drug directly by a client without a separate written prescription, providing there is an existing veterinarian-client-patient relationship.

(b) A veterinarian may dispense prescription veterinary drugs and prescribe and dispense extra-label use drugs to a client without personally examining the animal if a bona fide veterinarian-client-patient relationship exists and in the judgment of the veterinarian the client has sufficient knowledge to use the drugs properly.

(c) A veterinarian may issue a prescription or other veterinary authorization by oral or written communication to the dispenser, or by computer connection. If the communication is oral, the veterinarian must enter it into the patient's record. The dispenser must record the veterinarian's prescription or other veterinary authorization within 72 hours.

- (1) the veterinarian makes a careful medical diagnosis within the context of a valid veterinarian-client-patient relationship;
