Subd. 7. **Fees.** A financial institution may charge and collect a fee from the public authority for providing account information to the public authority. The commissioner may pay a financial institution up to \$150 each quarter if the commissioner and the financial institution have entered into a signed agreement that complies with federal law. The commissioner shall develop procedures for the financial institutions to charge and collect the fee. Payment of the fee is limited by the amount of the appropriation for this purpose. If the appropriation is insufficient, or if fund availability in the fourth quarter would allow payments for actual costs in excess of \$150, the commissioner shall prorate the available funds among the financial institutions that have submitted a claim for the fee. No financial institution shall charge or collect a fee that exceeds its actual costs of complying with this section. The commissioner, together with an advisory group consisting of representatives of the financial institutions in the state, shall evaluate whether the fee paid to financial institutions compensates them for their actual costs, including start-up costs, of complying with this section and shall submit a report to the legislature by July 1, 2002, with a recommendation for retaining or modifying the fee.
