GENERALLY

13.01 GOVERNMENT DATA.

Subdivision 1. **Applicability.** All state agencies, political subdivisions and statewide systems shall be governed by this chapter.

Subd. 2. **Citation.** This chapter may be cited as the "Minnesota Government Data Practices Act."

Subd. 3. **Scope.** This chapter regulates the collection, creation, storage, maintenance, dissemination, and access to government data in state agencies, statewide systems, and political subdivisions. It establishes a presumption that government data are public and are accessible by the public for both inspection and copying unless there is federal law, a state statute, or a temporary classification of data that provides that certain data are not public.

Subd. 4. **Headnotes.** The headnotes printed in boldface type before paragraphs in this chapter are mere catchwords to indicate the content of a paragraph and are not part of the statute.

Subd. 5. **Provisions coded in other chapters.** (a) The sections referenced in this chapter that are codified outside this chapter classify government data as other than public, place restrictions on access to government data, or involve data sharing.

(b) Those sections are governed by the definitions and general provisions in sections 13.01 to 13.07 and the remedies and penalties provided in sections 13.08 and 13.09, except:

- (1) for records of the judiciary, as provided in section 13.90; or
- (2) as specifically provided otherwise by law.

History: 1979 c 328 s 1; 1981 c 311 s 1,39; 1Sp1981 c 4 art 1 s 4,5; 1982 c 545 s 24; 1991 c 319 s 1; 1999 c 227 s 22; 2000 c 468 s 1,2

Subd. 8a. **Not public data.** "Not public data" means any government data which is classified by statute, federal law, or temporary classification as confidential, private, nonpublic, or protected nonpublic.

Subd. 9. **Nonpublic data.** "Nonpublic data" means data not on individuals that is made by statute or federal law applicable to the data: (a) not accessible to the public; and (b) accessible to the subject, if any, of the data.

It includes any nonprofit corporation which is a community action agency organized pursuant to the Economic Opportunity Act of 1964 (Public Law Number 88-452) as amended, to qualify for public funds, or any nonprofit social service agency which performs services under contract to any political subdivision, statewide system or state agency, to the extent that the nonprofit social service agency or nonprofit corporation collects, stores, disseminates, and uses data on individuals because of a contractual relationship with state agencies, political subdivisions or statewide systems.

History: 1974 c 479 s 1; 1975 c 401 s 1; 1976 c 239 s 2; 1976 c 283 s 1-5; 1977 c 375 s 1-5; 1978 c 790 s 1; 1979 c 328 s 2-6; 1980 c 603 s 1-6; 1980 c 618 s 25; 1981 c 311 s 2-6,39; 1982 c 545 s 1,24; 1984 c 436 s 1; 1989 c 351 s 2; 1996 c 440 art 1 s 1; 1999 c 227 s 22; 2000 c 468 s 3; 2001 c 202 s 1

13.03 ACCESS TO GOVERNMENT DATA.

Subdivision 1. **Public data.** All government data collected, created, received, maintained or disseminated by a state agency, political subdivision, or statewide system shall be public unless classified by statute, or temporary classification pursuant to section 13.06, or federal law, as nonpublic or protected nonpublic, or with respect to data on individuals, as private or confidential. The responsible authority in every state agency, political subdivision and statewide system shall keep records containing government data in such an arrangement and condition as to make them easily accessible for convenient use. Photographic, photostatic, microphotographic, or microfilmed records shall be considered as accessible for convenient use regardless of the size of such records.

Subd. 2. **Procedures.** (a) The responsible authority in every state agency, political subdivision, and statewide system shall establish procedures, consistent with this chapter, to insure that requests for government data are received and complied with in an appropriate and prompt manner.

(b) The responsible authority shall prepare public access procedures in written form and update them no later than August 1 of each year as necessary to reflect any changes in personnel or circumstances that might affect public access to government data. The responsible authority shall make copies of the written public access procedures easily available to the public by distributing free copies of the procedures to the

public or by posting a copy of the procedures in a conspicuous place within the government entity that is easily accessible to the public.

(c) Full convenience and comprehensive accessibility shall be allowed to researchers including historians, genealogists and other scholars to carry out extensive research and complete copying of all records containing government data except as otherwise expressly provided by law.

A responsible authority may designate one or more designees.

Subd. 3. **Request for access to data.** (a) Upon request to a responsible authority or designee, a person shall be permitted to inspect and copy public government data at reasonable times and places, and, upon request, shall be informed of the data's meaning. If a person requests access for the purpose of inspection, the responsible authority may not assess a charge or require the requesting person to pay a fee to inspect data.

(b) For purposes of this section, "inspection" includes, but is not limited to, the visual inspection of paper and similar types of government data. Inspection does not include printing copies by the government entity, unless printing a copy is the only method to provide for inspection of the data. In the case of data stored in electronic form and made available in electronic form on a remote access basis to the public by the government entity, inspection includes remote access to the data by the public and the ability to print copies of or download the data on the public's own computer equipment. Nothing in this section prohibits a government entity from charging a reasonable fee for remote access to data under a specific statutory grant of authority. A government entity may charge a fee for remote access to data where either the data or the access is enhanced at the request of the person seeking access.

(c) The responsible authority or designee shall provide copies of public data upon request. If a person requests copies or electronic transmittal of the data to the person, the responsible authority may require the requesting person to pay the actual costs of searching for and retrieving government data, including the cost of employee time, and for making, certifying, compiling, and electronically transmitting the copies of the data or the data, but may not charge for separating public from not public data. If the responsible authority or designee is not able to provide copies at the time a request is made, copies shall be supplied as soon as reasonably possible.

(d) When a request under this subdivision involves any person's receipt of copies of public government data that has commercial value and is a substantial and discrete portion of or an entire formula, pattern, compilation, program, device, method, technique, process, database, or system developed with a significant expenditure of public funds by the agency, the responsible authority may charge a reasonable fee for the information in addition to the costs of making, certifying, and compiling the copies. Any fee charged must be clearly demonstrated by the agency to relate to the actual development costs of the information. The responsible authority, upon the request of any person, shall provide sufficient documentation to explain and justify the fee being charged.

(e) The responsible authority of a state agency, statewide system, or political subdivision that maintains public government data in a computer storage medium shall provide to any person making a request under this section a copy of any public data contained in that medium, in electronic form, if the government entity can reasonably make the copy or have a copy made. This does not require a government entity to provide the data in an electronic format or program that is different from the format or program in which the data are maintained by the government entity. The entity may require the requesting person to pay the actual cost of providing the copy.

(f) If the responsible authority or designee determines that the requested data is classified so as to deny the requesting person access, the responsible authority or designee shall inform the requesting person of the determination either orally at the time of the request, or in writing as soon after that time as possible, and shall cite the specific statutory section, temporary classification, or specific provision of federal law on which the determination is based. Upon the request of any person denied access to

data, the responsible authority or designee shall certify in writing that the request has been denied and cite the specific statutory section, temporary classification, or specific provision of federal law upon which the denial was based.

Subd. 4. Change in classification of data; effect of dissemination among agencies.

(a) The classification of data in the possession of an agency shall change if it is required to do so to comply with either judicial or administrative rules pertaining to the conduct of legal actions or with a specific statute applicable to the data in the possession of the disseminating or receiving agency.

(b) If data on individuals is classified as both private and confidential by this chapter, or any other statute or federal law, the data is private.

(c) To the extent that government data is disseminated to state agencies, political subdivisions, or statewide systems by another state agency, political subdivision, or statewide system, the data disseminated shall have the same classification in the hands of the agency receiving it as it had in the hands of the entity providing it.

(d) If a state agency, statewide system, or political subdivision disseminates data to another state agency, statewide system, or political subdivision, a classification provided for by law in the hands of the entity receiving the data does not affect the classification of the data in the hands of the entity that disseminates the data.

Subd. 5. Copyright or patent of government data. A state agency, statewide system, or political subdivision may enforce a copyright or acquire a patent for a computer software program or components of a program created by that government agency without statutory authority. In the event that a government agency acquires a patent to a computer software program or component of a program, the data shall be treated as trade secret information pursuant to section 13.37.

Subd. 6. Discoverability of not public data. If a state agency, political subdivision, or statewide system opposes discovery of government data or release of data pursuant to court order on the grounds that the data are classified as not public, the party that seeks access to the data may bring before the appropriate presiding judicial officer, arbitrator, or administrative law judge an action to compel discovery or an action in the nature of an action to compel discovery.

The presiding officer shall first decide whether the data are discoverable or releasable pursuant to the rules of evidence and of criminal, civil, or administrative procedure appropriate to the action.

If the data are discoverable the presiding officer shall decide whether the benefit to the party seeking access to the data outweighs any harm to the confidentiality interests of the agency maintaining the data, or of any person who has provided the data or who is the subject of the data, or to the privacy interest of an individual identified in the data. In making the decision, the presiding officer shall consider whether notice to the subject of the data is warranted and, if warranted, what type of notice must be given. The presiding officer may fashion and issue any protective orders necessary to assure proper handling of the data by the parties. If the data are a videotape of a child victim or alleged victim alleging, explaining, denying, or describing an act of physical or sexual abuse, the presiding officer shall consider the provisions of section 611A.90, subdivision 2, paragraph (b).

Subd. 7. Data transferred to archives. When government data that is classified as not public by this chapter or any other statute, including private data on decedents and confidential data on decedents, is physically transferred to the state archives, the data shall no longer be classified as not public and access to and use of the data shall be governed by section 138.17.

Subd. 8. Change to classification of data not on individuals. Except for security information, nonpublic and protected nonpublic data shall become public either ten years after the creation of the data by the government agency or ten years after the data was received or collected by any governmental agency unless the responsible authority for the originating or custodial agency for the data reasonably determines that, if the data were made available to the public or to the data subject, the harm to the public or to a data subject would outweigh the benefit to the public or to the data

subject. If the responsible authority denies access to the data, the person denied access may challenge the denial by bringing an action in district court seeking release of the data. The action shall be brought in the district court located in the county where the data are being maintained, or, in the case of data maintained by a state agency, in any county. The data in dispute shall be examined by the court in camera. In deciding whether or not to release the data, the court shall consider the benefits and harms in the same manner as set forth above. The court shall make a written statement of findings in support of its decision.

Subd. 9. Effect of changes in classification of data. Unless otherwise expressly provided by a particular statute, the classification of data is determined by the law applicable to the data at the time a request for access to the data is made, regardless of the data's classification at the time it was collected, created, or received.

Subd. 10. Costs for providing copies of data. Money collected by a responsible authority in a state agency for the actual cost to the agency of providing copies or electronic transmittal of government data is appropriated to the agency and added to the appropriations from which the costs were paid.

Subd. 11. Treatment of data classified as not public; public meetings. Not public data may be discussed at a meeting open to the public to the extent provided in section 13D.05.

History: 1979 c 328 s 7; 1980 c 603 s 7; 1981 c 311 s 39; 1Sp1981 c 4 art 1 s 6; 1982 c 545 s 2,24; 1984 c 436 s 2-4; 1985 c 298 s 1-4; 1987 c 351 s 1; 1990 c 573 s 1; 1991 c 319 s 2; 1991 c 345 art 1 s 44; 1992 c 569 s 1,2; 1994 c 618 art 1 s 1,2; 1995 c 259 art 4 s 1; 1996 c 440 art 1 s 2; 1999 c 227 s 1,22; 1999 c 250 art 1 s 41; 2000 468 s 4,5

13.04 RIGHTS OF SUBJECTS OF DATA.

Subdivision 1. Type of data. The rights of individuals on whom the data is stored or to be stored shall be as set forth in this section.

Subd. 2. Information required to be given individual. An individual asked to supply private or confidential data concerning the individual shall be informed of: (a) the purpose and intended use of the requested data within the collecting state agency, political subdivision, or statewide system; (b) whether the individual may refuse or is legally required to supply the requested data; (c) any known consequence arising from supplying or refusing to supply private or confidential data; and (d) the identity of other persons or entities authorized by state or federal law to receive the data. This requirement shall not apply when an individual is asked to supply investigative data, pursuant to section 13.82, subdivision 7, to a law enforcement officer.

Subd. 3. Access to data by individual. Upon request to a responsible authority, an individual shall be informed whether the individual is the subject of stored data on individuals, and whether it is classified as public, private or confidential. Upon further request, an individual who is the subject of stored private or public data on individuals shall be shown the data without any charge and, if desired, shall be informed of the content and meaning of that data. After an individual has been shown the private data and informed of its meaning, the data need not be disclosed to that individual for six months thereafter unless a dispute or action pursuant to this section is pending or additional data on the individual has been collected or created. The responsible authority shall provide copies of the private or public data upon request by the individual subject of the data. The responsible authority may require the requesting person to pay the actual costs of making, certifying, and compiling the copies.

The responsible authority shall comply immediately, if possible, with any request made pursuant to this subdivision, or within ten days of the date of the request, excluding Saturdays, Sundays and legal holidays, if immediate compliance is not possible.

Subd. 4. Procedure when data is not accurate or complete. (a) An individual subject of the data may contest the accuracy or completeness of public or private data. To exercise this right, an individual shall notify in writing the responsible authority describing the nature of the disagreement. The responsible authority shall within 30

days either: (1) correct the data found to be inaccurate or incomplete and attempt to notify past recipients of inaccurate or incomplete data, including recipients named by the individual; or (2) notify the individual that the authority believes the data to be correct. Data in dispute shall be disclosed only if the individual's statement of disagreement is included with the disclosed data.

The determination of the responsible authority may be appealed pursuant to the provisions of the Administrative Procedure Act relating to contested cases. Upon receipt of an appeal by an individual, the commissioner shall, before issuing the order and notice of a contested case hearing required by chapter 14, try to resolve the dispute through education, conference, conciliation, or persuasion. If the parties consent, the commissioner may refer the matter to mediation. Following these efforts, the commissioner shall dismiss the appeal or issue the order and notice of hearing.

(b) Data on individuals that have been successfully challenged by an individual must be completed, corrected, or destroyed by a state agency, political subdivision, or statewide system without regard to the requirements of section 138.17.

After completing, correcting, or destroying successfully challenged data, a state agency, political subdivision, or statewide system may retain a copy of the commissioner of administration's order issued under chapter 14 or, if no order were issued, a summary of the dispute between the parties that does not contain any particulars of the successfully challenged data.

Subd. 5. Education records; child with a disability. Nothing in this chapter shall be construed as limiting the frequency of inspection of the educational records of a child with a disability by the child's parent or guardian or by the child upon the child reaching the age of majority. An agency or institution may not charge a fee to search for or to retrieve the educational records. An agency or institution that receives a request for copies of the educational records of a child with a disability may charge a fee that reflects the costs of reproducing the records except when to do so would impair the ability of the child's parent or guardian, or the child who has reached the age of majority, to exercise their right to inspect and review those records.

History: 1974 c 479 s 4; 1975 c 401 s 4; 1977 c 375 s 7; 1980 c 603 s 12; 1981 c 311 s 9,39; 1982 c 545 s 4,24; 1984 c 436 s 5; 1Sp1985 c 14 art 1 s 3; 1986 c 444; 1987 c 351 s 2; 1988 c 670 s 1; 1994 c 647 art 3 s 1; 1999 c 227 s 2; 2002 c 379 art 1 s 1

13.05 DUTIES OF RESPONSIBLE AUTHORITY.

Subdivision 1. Public document of data categories. The responsible authority shall prepare a public document containing the authority's name, title and address, and a description of each category of record, file, or process relating to private or confidential data on individuals maintained by the authority's state agency, statewide system, or political subdivision. Forms used to collect private and confidential data shall be included in the public document. Beginning August 1, 1977 and annually thereafter, the responsible authority shall update the public document and make any changes necessary to maintain the accuracy of the document. The document shall be available from the responsible authority to the public in accordance with the provisions of sections 13.03 and 15.17.

Subd. 2. Copies to commissioner. The commissioner may require responsible authorities to submit copies of the public document required in subdivision 1, and may request additional information relevant to data collection practices, policies and procedures.

Subd. 3. General standards for collection and storage. Collection and storage of all data on individuals and the use and dissemination of private and confidential data on individuals shall be limited to that necessary for the administration and management of programs specifically authorized by the legislature or local governing body or mandated by the federal government.

Subd. 4. Limitations on collection and use of data. Private or confidential data on an individual shall not be collected, stored, used, or disseminated by political subdivisions, statewide systems, or state agencies for any purposes other than those stated to

the individual at the time of collection in accordance with section 13.04, except as provided in this subdivision.

(a) Data collected prior to August 1, 1975, and which have not been treated as public data, may be used, stored, and disseminated for the purposes for which the data was originally collected or for purposes which are specifically approved by the commissioner as necessary to public health, safety, or welfare.

(b) Private or confidential data may be used and disseminated to individuals or agencies specifically authorized access to that data by state, local, or federal law enacted or promulgated after the collection of the data.

(c) Private or confidential data may be used and disseminated to individuals or agencies subsequent to the collection of the data when the responsible authority maintaining the data has requested approval for a new or different use or dissemination of the data and that request has been specifically approved by the commissioner as necessary to carry out a function assigned by law.

(d) Private data may be used by and disseminated to any person or agency if the individual subject or subjects of the data have given their informed consent. Whether a data subject has given informed consent shall be determined by rules of the commissioner. The format for informed consent is as follows, unless otherwise prescribed by the HIPAA, Standards for Privacy of Individually Identifiable Health Information, 65 Fed. Reg. 82, 461 (2000) (to be codified as Code of Federal Regulations, title 45, section 164): informed consent shall not be deemed to have been given by an individual subject of the data by the signing of any statement authorizing any person or agency to disclose information about the individual to an insurer or its authorized representative, unless the statement is:

- (1) in plain language;
- (2) dated;
- (3) specific in designating the particular persons or agencies the data subject is authorizing to disclose information about the data subject;
- (4) specific as to the nature of the information the subject is authorizing to be disclosed;
- (5) specific as to the persons or agencies to whom the subject is authorizing information to be disclosed;
- (6) specific as to the purpose or purposes for which the information may be used by any of the parties named in clause (5), both at the time of the disclosure and at any time in the future;
- (7) specific as to its expiration date which should be within a reasonable period of time, not to exceed one year except in the case of authorizations given in connection with applications for (i) life insurance or noncancelable or guaranteed renewable health insurance and identified as such, two years after the date of the policy or (ii) medical assistance under chapter 256B or MinnesotaCare under chapter 256L, which shall be ongoing during all terms of eligibility, for individual education plan health-related services provided by a school district under section 125A.21, subdivision 2.

The responsible authority may require a person requesting copies of data under this paragraph to pay the actual costs of making, certifying, and compiling the copies.

(e) Private or confidential data on an individual may be discussed at a meeting open to the public to the extent provided in section 13D.05.

Subd. 5. Data protection. The responsible authority shall (1) establish procedures to assure that all data on individuals is accurate, complete, and current for the purposes for which it was collected; and (2) establish appropriate security safeguards for all records containing data on individuals.

Subd. 6. Contracts. Except as provided in section 13.46, subdivision 5; in any contract between a governmental unit subject to this chapter and any person, when the contract requires that data on individuals be made available to the contracting parties by the governmental unit, that data shall be administered consistent with this chapter.

A contracting party shall maintain the data on individuals which it received according to the statutory provisions applicable to the data.

Subd. 7. Preparation of summary data. The use of summary data derived from private or confidential data on individuals under the jurisdiction of one or more responsible authorities is permitted. Unless classified pursuant to section 13.06, another statute, or federal law, summary data is public. The responsible authority shall prepare summary data from private or confidential data on individuals upon the request of any person if the request is in writing and the cost of preparing the summary data is borne by the requesting person. The responsible authority may delegate the power to prepare summary data (1) to the administrative officer responsible for any central repository of summary data; or (2) to a person outside of its agency if the person's purpose is set forth, in writing, and the person agrees not to disclose, and the agency reasonably determines that the access will not compromise private or confidential data on individuals.

Subd. 8. Publication of access procedures. The responsible authority shall prepare a public document setting forth in writing the rights of the data subject pursuant to section 13.04 and the specific procedures in effect in the state agency, statewide system or political subdivision for access by the data subject to public or private data on individuals.

Subd. 9. Intergovernmental access of data. A responsible authority shall allow another responsible authority access to data classified as not public only when the access is authorized or required by statute or federal law. An agency that supplies government data under this subdivision may require the requesting agency to pay the actual cost of supplying the data.

Subd. 10. International dissemination. No state agency or political subdivision shall transfer or disseminate any private or confidential data on individuals to the private international organization known as Interpol, except through the Interpol-United States National Central Bureau, United States Department of Justice.

Subd. 11. Privatization. (a) If a government entity enters into a contract with a private person to perform any of its functions, the government entity shall include in the contract terms that make it clear that all of the data created, collected, received, stored, used, maintained, or disseminated by the private person in performing those functions is subject to the requirements of this chapter and that the private person must comply with those requirements as if it were a government entity. The remedies in section 13.08 apply to the private person under this subdivision.

(b) This subdivision does not create a duty on the part of the private person to provide access to public data to the public if the public data are available from the government entity, except as required by the terms of the contract.

Subd. 12. Identification or justification. Unless specifically authorized by statute, government entities may not require persons to identify themselves, state a reason for, or justify a request to gain access to public government data. A person may be asked to provide certain identifying or clarifying information for the sole purpose of facilitating access to the data.

Subd. 13. Data practices compliance official. By December 1, 2000, each responsible authority or other appropriate authority in every government entity shall appoint or designate an employee of the government entity to act as the entity's data practices compliance official. The data practices compliance official is the designated employee of the government entity to whom persons may direct questions or concerns regarding problems in obtaining access to data or other data practices problems. The responsible authority may be the data practices compliance official.

13.06 TEMPORARY CLASSIFICATION.

Subdivision 1. **Application to commissioner.** Notwithstanding the provisions of section 13.03, the responsible authority of a state agency, political subdivision, or statewide system may apply to the commissioner for permission to classify data or types of data on individuals as private or confidential, or data not on individuals as nonpublic or protected nonpublic, for its own use and for the use of other similar agencies, political subdivisions, or statewide systems on a temporary basis until a proposed statute can be acted upon by the legislature. The application for temporary classification is public.

Upon the filing of an application for temporary classification, the data which is the subject of the application shall be deemed to be classified as set forth in the application for a period of 45 days, or until the application is disapproved, rejected, or granted by the commissioner, whichever is earlier.

If the commissioner determines that an application has been submitted for purposes not consistent with this section, the commissioner may immediately reject the application, give notice of that rejection to the applicant, and return the application. When the applicant receives the notice of rejection from the commissioner, the data which was the subject of the application shall have the classification it had before the application was submitted to the commissioner.

Subd. 2. **Contents of application for private or confidential data.** An application for temporary classification of data on individuals shall include and the applicant shall have the burden of clearly establishing that no statute currently exists which either allows or forbids classification as private or confidential; and either

(a) that data similar to that for which the temporary classification is sought has been treated as either private or confidential by other state agencies or political subdivisions, and by the public; or

(b) that a compelling need exists for immediate temporary classification, which if not granted could adversely affect the public interest or the health, safety, well being or reputation of the data subject.

Subd. 3. **Contents of application for nonpublic or nonpublic protected data.** An application for temporary classification of government data not on individuals shall include and the applicant shall have the burden of clearly establishing that no statute currently exists which either allows or forbids classification as nonpublic or protected nonpublic; and either

(a) that data similar to that for which the temporary classification is sought has been treated as nonpublic or protected nonpublic by other state agencies or political subdivisions, and by the public; or

(b) public access to the data would render unworkable a program authorized by law; or

(c) that a compelling need exists for immediate temporary classification, which if not granted could adversely affect the health, safety or welfare of the public.

Subd. 4. **Procedure when classification affects others.** If the commissioner determines that an application for temporary classification involves data which would reasonably be classified in the same manner by all agencies, political subdivisions, or statewide systems similar to the one which made the application, the commissioner may approve or disapprove the classification for data of the kind which is the subject of the application for the use of all agencies, political subdivisions, or statewide systems similar to the applicant. On deeming this approach advisable, the commissioner shall provide notice of the proposed action by publication in the State Register within ten days of receiving the application. Within 30 days after publication in the State Register an affected agency, political subdivision, the public, or statewide system may submit comments on the commissioner's proposal. The commissioner shall consider any comments received when granting or denying a classification for data of the kind which is the subject of the application, for the use of all agencies, political subdivisions, or statewide systems similar to the applicant. Within 45 days after the close of the period

for submitting comment, the commissioner shall grant or disapprove the application. Applications processed under this subdivision shall be either approved or disapproved by the commissioner within 90 days of the receipt of the application. For purposes of subdivision 1, the data which is the subject of the classification shall be deemed to be classified as set forth in the application for a period of 90 days, or until the application is disapproved or granted by the commissioner, whichever is earlier. If requested in the application, or determined to be necessary by the commissioner, the data in the application shall be so classified for all agencies, political subdivisions, or statewide systems similar to the applicant until the application is disapproved or granted by the commissioner, whichever is earlier. Proceedings after the grant or disapproval shall be governed by the provisions of subdivision 5.

Subd. 5. Determination. The commissioner shall either grant or disapprove the application for temporary classification within 45 days after it is filed. On disapproving an application, the commissioner shall set forth in detail reasons for the disapproval, and shall include a statement of belief as to what classification is appropriate for the data which is the subject of the application. Twenty days after the date of the commissioner's disapproval of an application, the data which is the subject of the application shall become public data, unless the responsible authority submits an amended application for temporary classification which requests the classification deemed appropriate by the commissioner in the statement of disapproval or which sets forth additional information relating to the original proposed classification. Upon the filing of an amended application, the data which is the subject of the amended application shall be deemed to be classified as set forth in the amended application for a period of 20 days or until the amended application is granted or disapproved by the commissioner, whichever is earlier. The commissioner shall either grant or disapprove the amended application within 20 days after it is filed. Five working days after the date of the commissioner's disapproval of the amended application, the data which is the subject of the application shall become public data. No more than one amended application may be submitted for any single file or system.

If the commissioner grants an application for temporary classification, it shall become effective immediately, and the complete record relating to the application shall be submitted to the attorney general, who shall review the classification as to form and legality. Within 25 days, the attorney general shall approve the classification, disapprove a classification as confidential but approve a classification as private, or disapprove the classification. If the attorney general disapproves a classification, the data which is the subject of the classification shall become public data five working days after the date of the attorney general's disapproval.

Subd. 6. [Repealed, 1995 c 259 art 1 s 62]

Subd. 7. Legislative consideration of temporary classifications; expiration. On or before January 15 of each year, the commissioner shall submit all temporary classifications in effect on January 1 in bill form to the legislature. The temporary classification expires June 1 of the year following its submission to the legislature.

13.07 DUTIES OF THE COMMISSIONER.

The commissioner shall with the advice of the intergovernmental information services advisory council promulgate rules, in accordance with the rulemaking procedures in the Administrative Procedure Act which shall apply to state agencies, statewide systems and political subdivisions to implement the enforcement and administration of this chapter. The rules shall not affect section 13.04, relating to rights of subjects of data. Prior to the adoption of rules authorized by this section the commissioner shall give notice to all state agencies and political subdivisions in the

same manner and in addition to other parties as required by section 14.06 of the date and place of hearing, enclosing a copy of the rules to be adopted.

13.072 OPINIONS BY THE COMMISSIONER.

Subdivision 1. **Opinion; when required.** (a) Upon request of a state agency, statewide system, or political subdivision, the commissioner may give a written opinion on any question relating to public access to government data, rights of subjects of data, or classification of data under this chapter or other Minnesota statutes governing government data practices. Upon request of any person who disagrees with a determination regarding data practices made by a state agency, statewide system, or political subdivision, the commissioner may give a written opinion regarding the person's rights as a subject of government data or right to have access to government data. If the commissioner determines that no opinion will be issued, the commissioner shall give the state agency, statewide system, political subdivision, or person requesting the opinion notice of the decision not to issue the opinion within five days of receipt of the request. If this notice is not given, the commissioner shall issue an opinion within 20 days of receipt of the request. For good cause and upon written notice to the person requesting the opinion, the commissioner may extend this deadline for one additional 30-day period. The notice must state the reason for extending the deadline. The state agency, statewide system, or political subdivision must be provided a reasonable opportunity to explain the reasons for its decision regarding the data. The commissioner or the state agency, statewide system, or political subdivision may choose to give notice to the subject of the data concerning the dispute regarding the data.

(b) This section does not apply to a determination made by the commissioner of health under section 13.3805, subdivision 1, paragraph (b), or 144.6581.

(c) A written opinion issued by the attorney general shall take precedence over an opinion issued by the commissioner under this section.

Subd. 2. **Effect.** Opinions issued by the commissioner under this section are not binding on the state agency, statewide system, or political subdivision whose data is the subject of the opinion, but must be given deference by a court in a proceeding involving the data. The commissioner shall arrange for public dissemination of opinions issued under this section. This section does not preclude a person from bringing any other action under this chapter or other law in addition to or instead of requesting a written opinion. A government entity or person that acts in conformity with a written opinion of the commissioner issued to the government entity or person or to another party is not liable for compensatory or exemplary damages or awards of attorneys fees in actions under section 13.08 or for a penalty under section 13.09.

Subd. 3. [Repealed, 1Sp1997 c. 3 s 47]

Subd. 4. **Data submitted to commissioner.** A state agency, statewide system, or political subdivision may submit not public data to the commissioner for the purpose of requesting or responding to a person's request for an opinion. Government data submitted to the commissioner by a state agency, statewide system, or political subdivision or copies of government data submitted by other persons have the same classification as the data have when held by the state agency, statewide system, or political subdivision. If the nature of the opinion is such that the release of the opinion would reveal not public data, the commissioner may issue an opinion using pseudonyms for individuals. Data maintained by the commissioner, in the record of an opinion issued using pseudonyms that would reveal the identities of individuals protected by the use of the pseudonyms, are private data on individuals.

13.073 PUBLIC INFORMATION POLICY TRAINING PROGRAM.

Subdivision 1. **Establishment.** The commissioner may establish a program for training state and local government officials and employees on public information

policy, including government data practices laws and official records and records management statutes. The program may provide for the development of broad-based expertise within state and local government entities. The program components may include basic training, specific training for specialized service sectors, and policy analysis and support.

Subd. 2. **General provisions.** The commissioner may publicize the development and implementation of the training program under this section and seek input from state and local government entities. The commissioner may prepare a training guide that includes an overview of the training program and its components.

Subd. 3. **Basic training.** The basic training component should be designed to meet the basic information policy needs of all government employees and public officials with a focus on key data practices laws and procedures that apply to all government entities. The commissioner should design the basic training component in a manner that minimizes duplication of the effort and cost for government entities to provide basic training. The commissioner may develop general programs and materials for basic training such as video presentations, data practices booklets, and training guides. The commissioner may assist state and local government agencies in developing training expertise within their own agencies and offer assistance for periodic training sessions for this purpose.

Subd. 4. **Sector-specific training.** (a) The sector-specific training component should be designed to provide for the development of specific expertise needed to deal with information policy issues within a particular service area. Service areas may include government entities such as state agencies, counties, cities, or school districts, or functional areas such as education, human services, child protection, or law enforcement. This component should focus on training individuals who implement or administer data practices and other information policy laws within their government entity.

(b) The commissioner may provide technical assistance and support and help coordinate efforts to develop sector-specific training within different sectors. Elements of sector-specific training should include:

(1) designation, training, and coordination of data practices specialists with responsibility for clarification and resolution of sector-specific information policy issues;

(2) development of telephone hot lines within different sectors for handling information policy inquiries;

(3) development of forums under which individuals with ongoing information policy administrative responsibilities may meet to discuss issues arising within their sectors;

(4) availability of expertise for coaching and consultation on specific issues; and

(5) preparation of publications, including reference guides to materials and resource persons.

Subd. 5. **Policy analysis and support.** The policy analysis and support component should be designed to address information policy issues at the policy level and to provide ongoing consultation and support regarding major areas of concern with a goal of developing a coherent and coordinated approach to information policy within the state. The commissioner may assist in the development and implementation of information policy and provide a clearinghouse for ideas, information, and resources. The commissioner may review public information policy and identify how that policy can be updated, simplified, and made consistent.

Subd. 6. **Preparation of model policies and procedures.** The commissioner shall, in consultation with affected government entities, prepare model policies and procedures to assist government entities in complying with the requirements of this chapter that relate to public access to government data and rights of subjects of data. Upon completion of a model for a governmental level, the commissioner shall offer that model for formal adoption by that level of government. Government entities may adopt or reject the model offered by the commissioner. A government entity that adopts the

commissioner's model shall notify the commissioner in a form prescribed by the commissioner.

13.08 CIVIL REMEDIES.

Subdivision 1. **Action for damages.** Notwithstanding section 466.03, a political subdivision, responsible authority, statewide system, or state agency which violates any provision of this chapter is liable to a person or representative of a decedent who suffers any damage as a result of the violation, and the person damaged or a representative in the case of private data on decedents or confidential data on decedents may bring an action against the political subdivision, responsible authority, statewide system or state agency to cover any damages sustained, plus costs and reasonable attorney fees. In the case of a willful violation, the political subdivision, statewide system or state agency shall, in addition, be liable to exemplary damages of not less than \$100, nor more than \$10,000 for each violation. The state is deemed to have waived any immunity to a cause of action brought under this chapter.

Subd. 2. **Injunction.** A political subdivision, responsible authority, statewide system or state agency which violates or proposes to violate this chapter may be enjoined by the district court. The court may make any order or judgment as may be necessary to prevent the use or employment by any person of any practices which violate this chapter.

Subd. 3. **Venue.** An action filed pursuant to this section may be commenced in the county in which the individual alleging damage or seeking relief resides, or in the county wherein the political subdivision exists, or, in the case of the state, any county.

Subd. 4. **Action to compel compliance.** (a) In addition to the remedies provided in subdivisions 1 to 3 or any other law, any aggrieved person seeking to enforce the person's rights under this chapter or obtain access to data may bring an action in district court to compel compliance with this chapter and may recover costs and disbursements, including reasonable attorney's fees, as determined by the court. If the court determines that an action brought under this subdivision is frivolous and without merit and a basis in fact, it may award reasonable costs and attorney fees to the responsible authority. If the court issues an order to compel compliance under this subdivision, the court may impose a civil penalty of up to \$300 against the government entity. This penalty is payable to the state general fund and is in addition to damages under subdivision 1. The matter shall be heard as soon as possible. In an action involving a request for government data under section 13.03 or 13.04, the court may inspect in camera the government data in dispute, but shall conduct its hearing in public and in a manner that protects the security of data classified as not public. If the court issues an order to compel compliance under this subdivision, the court shall forward a copy of the order to the commissioner of administration.

(b) In determining whether to assess a civil penalty under this subdivision, the court shall consider whether the government entity has substantially complied with general data practices under this chapter, including but not limited to, whether the government entity has:

- (1) designated a responsible authority under section 13.02, subdivision 16;
- (2) designated a data practices compliance official under section 13.05, subdivision 13;
- (3) prepared the public document that names the responsible authority and describes the records and data on individuals that are maintained by the government entity under section 13.05, subdivision 1;
- (4) developed public access procedures under section 13.03, subdivision 2; procedures to guarantee the rights of data subjects under section 13.05, subdivision 8; and procedures to ensure that data on individuals are accurate and complete and to safeguard the data's security under section 13.05, subdivision 5;

(5) sought an oral, written, or electronic opinion from the commissioner of administration related to the matter at issue and acted in conformity with that opinion or acted in conformity with an opinion issued under section 13.072 that was sought by another person; or

(6) provided ongoing training to government entity personnel who respond to requests under this chapter.

Subd. 5. Immunity from liability. A state agency, statewide system, political subdivision, or person that releases not public data pursuant to an order under section 13.03, subdivision 6 is immune from civil and criminal liability.

Subd. 6. Immunity from liability; personnel settlement. No cause of action may arise as a result of the release of data contained in a termination or personnel settlement agreement if the data were not public data as defined in section 13.02, at the time the agreement was executed but become public data under a law enacted after execution.

13.10 DATA ON DECEDENTS.

Subdivision 1. Definitions. As used in this chapter:

(a) "Confidential data on decedents" means data which, prior to the death of the data subject, were classified by statute, federal law, or temporary classification as confidential data.

(b) "Private data on decedents" means data which, prior to the death of the data subject, were classified by statute, federal law, or temporary classification as private data.

(c) "Representative of the decedent" means the personal representative of the estate of the decedent during the period of administration, or if no personal representative has been appointed or after discharge, the surviving spouse, any child of the decedent, or, if there is no surviving spouse or children, the parents of the decedent.

Subd. 2. Classification of data on decedents. Upon the death of the data subject, private data and confidential data shall become, respectively, private data on decedents and confidential data on decedents. Private data on decedents and confidential data on decedents shall become public when ten years have elapsed from the actual or presumed death of the individual and 30 years have elapsed from the creation of the data. For purposes of this subdivision, an individual is presumed to be dead if either 90 years elapsed since the creation of the data or 90 years have elapsed since the individual's birth, whichever is earlier, except that an individual is not presumed to be dead if readily available data indicate that the individual is still living.

Subd. 3. Rights. Rights conferred by this chapter on individuals who are the subjects of private or confidential data shall, in the case of private data on decedents or confidential data on decedents, be exercised by the representative of the decedent. Nonpublic data concerning a decedent, created or collected after death, are accessible by the representative of the decedent. Nothing in this section may be construed to prevent access to appropriate data by a trustee appointed in a wrongful death action.

Subd. 4. Court review. Any person may bring an action in the district court located in the county where the data is being maintained or, in the case of data maintained by a state agency, in any county, to authorize release of private data on decedents or confidential data on decedents. Individuals clearly identified in the data or the representative of the decedent may be given notice if doing so does not cause an undue delay in hearing the matter and, in any event, shall have standing in the court action. The responsible authority for the data being sought or any interested person may provide information regarding the possible harm or benefit from granting the request. The data in dispute shall be examined by the court in camera. The court may order all or part of the data to be released to the public or to the person bringing the action. In deciding whether or not to release the data, the court shall consider whether the harm to the surviving spouse, children, or next of kin of the decedent, the harm to any other individual identified in the data, or the harm to the public outweighs the benefit to the person bringing the action or the benefit of the public. The court shall make a written statement of findings in support of its decision.

Subd. 5. Adoption records. Notwithstanding any provision of this chapter, adoption records shall be treated as provided in sections 259.53, 259.61, 259.79, and 259.83 to 259.89.

Subd. 6. Retention of data. Nothing in this section may be construed to require retention of government data, including private data on decedents or confidential data on decedents, for periods of time other than those established by the procedures provided in section 138.17, or any other statute.

After the person is released by termination of the person's legal commitment, the directory information is private data on individuals.

(b) If a person is a patient other than pursuant to commitment in a hospital controlled by a state agency or political subdivision, directory information is public data unless the patient requests otherwise, in which case it is private data on individuals.

(c) Directory information about an emergency patient who is unable to communicate which is public under this subdivision shall not be released until a reasonable effort is made to notify the next of kin. Although an individual has requested that directory information be private, the hospital may release directory information to a law enforcement agency pursuant to a lawful investigation pertaining to that individual.

Subd. 3. **Classification of medical data.** Unless the data is summary data or a statute specifically provides a different classification, medical data are private but are available only to the subject of the data as provided in section 144.335, and shall not be disclosed to others except:

ATTORNEY, AUDIT, AND INVESTIGATIVE DATA**13.39 CIVIL INVESTIGATION.**

Subdivision 1. **Definitions.** A "pending civil legal action" includes but is not limited to judicial, administrative or arbitration proceedings. Whether a civil legal action is pending shall be determined by the chief attorney acting for the state agency, political subdivision or statewide system.

Subd. 2. **Civil actions.** (a) Except as provided in paragraph (b), data collected by state agencies, political subdivisions, or statewide systems as part of an active investigation undertaken for the purpose of the commencement or defense of a pending civil legal action, or which are retained in anticipation of a pending civil legal action, are classified as protected nonpublic data pursuant to section 13.02, subdivision 13, in the

case of data not on individuals and confidential pursuant to section 13.02, subdivision 3, in the case of data on individuals. Any agency, political subdivision, or statewide system may make any data classified as confidential or protected nonpublic pursuant to this subdivision accessible to any person, agency or the public if the agency, political subdivision, or statewide system determines that the access will aid the law enforcement process, promote public health or safety or dispel widespread rumor or unrest.

Subd. 2a. **Disclosure of data.** During the time when a civil legal action is determined to be pending under subdivision 1, any person may bring an action in the district court in the county where the data is maintained to obtain disclosure of data classified as confidential or protected nonpublic under subdivision 2. The court may order that all or part of the data be released to the public or to the person bringing the action. In making the determination whether data shall be disclosed, the court shall consider whether the benefit to the person bringing the action or to the public outweighs any harm to the public, the agency, or any person identified in the data. The data in dispute shall be examined by the court in camera.

Subd. 3. **Inactive investigative data.** Inactive civil investigative data are public, unless the release of the data would jeopardize another pending civil legal action, and except for those portions of a civil investigative file that are classified as not public data by this chapter or other law. Any civil investigative data presented as evidence in court or made part of a court record shall be public. Civil investigative data become inactive upon the occurrence of any of the following events:

(1) a decision by the state agency, political subdivision, or statewide system or by the chief attorney acting for the state agency, political subdivision, or statewide system not to pursue the civil action;

(2) expiration of the time to file a complaint under the statute of limitations or agreement applicable to the civil action; or

This section does not limit in any way:

(1) the state auditor's access to government data of political subdivisions or data, notes, or preliminary drafts of reports of persons performing audits for political subdivisions; or

(2) the public or a data subject's access to data classified by section 13.43.

Subd. 2. **Private data on individuals.** Data on an individual supplying information for an audit or investigation, that could reasonably be used to determine the individual's identity, are private data on individuals if the information supplied was needed for an audit or investigation and would not have been provided to the internal audit office

or person performing audits without an assurance to the individual that the individual's identity would remain private.

Subdivision 1. **Definition.** As used in this section, "personnel data" means data on individuals collected because the individual is or was an employee of or an applicant for employment by, performs services on a voluntary basis for, or acts as an independent contractor with a state agency, statewide system or political subdivision or is a member of or an applicant for an advisory board or commission.

Subd. 2. **Public data.** (a) Except for employees described in subdivision 5, the following personnel data on current and former employees, volunteers, and independent contractors of a state agency, statewide system, or political subdivision and members of advisory boards or commissions is public:

(1) name; employee identification number, which must not be the employee's social security number; actual gross salary; salary range; contract fees; actual gross pension; the value and nature of employer paid fringe benefits; and the basis for and the amount of any added remuneration, including expense reimbursement, in addition to salary;

(2) job title and bargaining unit; job description; education and training background; and previous work experience;

(3) date of first and last employment;

(4) the existence and status of any complaints or charges against the employee, regardless of whether the complaint or charge resulted in a disciplinary action;

(5) the final disposition of any disciplinary action together with the specific reasons for the action and data documenting the basis of the action, excluding data that would identify confidential sources who are employees of the public body;

(6) the terms of any agreement settling any dispute arising out of an employment relationship, including a buyout agreement as defined in section 123B.143, subdivision 2, paragraph (a); except that the agreement must include specific reasons for the agreement if it involves the payment of more than \$10,000 of public money;

(7) work location; a work telephone number; badge number; and honors and awards received; and

(b) For purposes of this subdivision, a final disposition occurs when the state agency, statewide system, or political subdivision makes its final decision about the

disciplinary action, regardless of the possibility of any later proceedings or court proceedings. In the case of arbitration proceedings arising under collective bargaining agreements, a final disposition occurs at the conclusion of the arbitration proceedings, or upon the failure of the employee to elect arbitration within the time provided by the collective bargaining agreement. Final disposition includes a resignation by an individual when the resignation occurs after the final decision of the state agency, statewide system, political subdivision, or arbitrator.

(c) The state agency, statewide system, or political subdivision may display a photograph of a current or former employee to a prospective witness as part of the state agency's, statewide system's, or political subdivision's investigation of any complaint or charge against the employee.

(d) A complainant has access to a statement provided by the complainant to a state agency, statewide system, or political subdivision in connection with a complaint or charge against an employee.

(e) Notwithstanding paragraph (a), clause (5), upon completion of an investigation of a complaint or charge against a public official, or if a public official resigns or is terminated from employment while the complaint or charge is pending, all data relating to the complaint or charge are public, unless access to the data would jeopardize an active investigation or reveal confidential sources. For purposes of this paragraph, "public official" means:

(c) Paragraph (a) also applies to a court order that contains terms or conditions prohibited by paragraph (a).

Subd. 11. Protection of employee or others. identity of an individual otherwise protected under subdivision 17. A transcript shall be prepared upon request. The person requesting the transcript shall pay the actual cost of transcribing the call, in addition to any other applicable costs provided under section 13.03, subdivision 3. The audio recording may be disseminated to law enforcement agencies for investigative purposes. The audio recording may be used for public safety and emergency medical services training purposes.

Subd. 5. Domestic abuse data. The written police report required by section 629.341, subdivision 4, of an alleged incident described in section 629.341, subdivision 1, and arrest data, request for service data, and response or incident data described in subdivision 2, 3, or 6 that arise out of this type of incident or out of an alleged violation of an order for protection must be released upon request at no cost to an organization designated by the Minnesota center for crime victims services, the department of corrections, or the department of public safety as providing services to victims of domestic abuse. The executive director or the commissioner of the appropriate state agency shall develop written criteria for this designation in consultation with the advisory council on battered women and domestic abuse.

Except for the data defined in subdivisions 2, 3, and 6, investigative data collected or created by a law enforcement agency in order to prepare a case against a person, whether known or unknown, for the commission of a crime or other offense for which the agency has primary investigative responsibility is confidential or protected nonpublic while the investigation is active. Inactive investigative data is public unless the release of the data would jeopardize another ongoing investigation or would reveal the identity of individuals protected under subdivision 17. Photographs which are part of inactive investigative files and which are clearly offensive to common sensibilities are classified as private or nonpublic data, provided that the existence of the photographs shall be disclosed to any person requesting access to the inactive investigative file. An investigation becomes inactive upon the occurrence of any of the following events:

- (a) a decision by the agency or appropriate prosecutorial authority not to pursue the case;

(b) expiration of the time to bring a charge or file a complaint under the applicable statute of limitations, or 30 years after the commission of the offense, whichever comes earliest; or

(c) exhaustion of or expiration of all rights of appeal by a person convicted on the basis of the investigative data.

Any investigative data presented as evidence in court shall be public. Data determined to be inactive under clause (a) may become active if the agency or appropriate prosecutorial authority decides to renew the investigation.

During the time when an investigation is active, any person may bring an action in the district court located in the county where the data is being maintained to authorize disclosure of investigative data. The court may order that all or part of the data relating to a particular investigation be released to the public or to the person bringing the action. In making the determination as to whether investigative data shall be disclosed, the court shall consider whether the benefit to the person bringing the action or to the public outweighs any harm to the public, to the agency or to any person identified in the data. The data in dispute shall be examined by the court in camera.

Subd. 8. Child abuse identity data. Active or inactive investigative data that identify a victim of child abuse or neglect reported under section 626.556 are private data on individuals. Active or inactive investigative data that identify a reporter of child abuse or neglect under section 626.556 are confidential data on individuals, unless the subject of the report compels disclosure under section 626.556, subdivision 11.

Subd. 9. Inactive child abuse data. Investigative data that become inactive under subdivision 7, clause (a) or (b), and that relate to the alleged abuse or neglect of a child by a person responsible for the child's care, as defined in section 626.556, subdivision 2, are private data.

Subd. 10. Vulnerable adult identity data. Active or inactive investigative data that identify a victim of vulnerable adult maltreatment under section 626.557 are private data on individuals. Active or inactive investigative data that identify a reporter of vulnerable adult maltreatment under section 626.557 are private data on individuals.

Subd. 11. Inactive vulnerable adult maltreatment data. Investigative data that becomes inactive under subdivision 7, paragraph (a) or (b), and that relate to the alleged maltreatment of a vulnerable adult by a caregiver or facility are private data on individuals.

Subd. 12. Name change data. Data on court records relating to name changes under section 259.10, subdivision 2, which is held by a law enforcement agency is confidential data on an individual while an investigation is active and is private data on an individual when the investigation becomes inactive.

Subd. 13. Access to data for crime victims. On receipt of a written request, the prosecuting authority shall release investigative data collected by a law enforcement agency to the victim of a criminal act or alleged criminal act or to the victim's legal representative unless the release to the individual subject of the data would be prohibited under section 13.821 or the prosecuting authority reasonably believes:

(a) that the release of that data will interfere with the investigation; or

(b) that the request is prompted by a desire on the part of the requester to engage in unlawful activities.

Subd. 14. Withholding public data. A law enforcement agency may temporarily withhold response or incident data from public access if the agency reasonably believes that public access would be likely to endanger the physical safety of an individual or cause a perpetrator to flee, evade detection or destroy evidence. In such instances, the agency shall, upon the request of any person, provide a statement which explains the necessity for its action. Any person may apply to a district court for an order requiring the agency to release the data being withheld. If the court determines that the agency's action is not reasonable, it shall order the release of the data and may award costs and attorney's fees to the person who sought the order. The data in dispute shall be examined by the court in camera.

Subd. 15. Public benefit data. Any law enforcement agency may make any data classified as confidential or protected nonpublic pursuant to subdivision 7 accessible to

any person, agency, or the public if the agency determines that the access will aid the law enforcement process, promote public safety, or dispel widespread rumor or unrest.

Subd. 16. Public access. When data is classified as public under this section, a law enforcement agency shall not be required to make the actual physical data available to the public if it is not administratively feasible to segregate the public data from the confidential. However, the agency must make the information described as public data available to the public in a reasonable manner. When investigative data becomes inactive, as described in subdivision 7, the actual physical data associated with that investigation, including the public data, shall be available for public access.

Subd. 17. Protection of identities. A law enforcement agency or a law enforcement dispatching agency working under direction of a law enforcement agency shall withhold public access to data on individuals to protect the identity of individuals in the following circumstances:

(a) when access to the data would reveal the identity of an undercover law enforcement officer, as provided in section 13.43, subdivision 5;

(b) when access to the data would reveal the identity of a victim or alleged victim of criminal sexual conduct or of a violation of section 617.246, subdivision 2;

(c) when access to the data would reveal the identity of a paid or unpaid informant being used by the agency if the agency reasonably determines that revealing the identity of the informant would threaten the personal safety of the informant;

(d) when access to the data would reveal the identity of a victim of or witness to a crime if the victim or witness specifically requests not to be identified publicly, unless the agency reasonably determines that revealing the identity of the victim or witness would not threaten the personal safety or property of the individual;

(e) when access to the data would reveal the identity of a deceased person whose body was unlawfully removed from a cemetery in which it was interred;

(f) when access to the data would reveal the identity of a person who placed a call to a 911 system or the identity or telephone number of a service subscriber whose phone is used to place a call to the 911 system and: (1) the agency determines that revealing the identity may threaten the personal safety or property of any person; or (2) the object of the call is to receive help in a mental health emergency. For the purposes of this paragraph, a voice recording of a call placed to the 911 system is deemed to reveal the identity of the caller;

(g) when access to the data would reveal the identity of a juvenile witness and the agency reasonably determines that the subject matter of the investigation justifies protecting the identity of the witness; or

(h) when access to the data would reveal the identity of a mandated reporter under section 609.456, 626.556, or 626.557.

Data concerning individuals whose identities are protected by this subdivision are private data about those individuals. Law enforcement agencies shall establish procedures to acquire the data and make the decisions necessary to protect the identity of individuals described in clauses (c), (d), (f), and (g).

Subd. 18. Data retention. Nothing in this section shall require law enforcement agencies to create, collect or maintain data which is not required to be created, collected or maintained by any other applicable rule or statute.

Subd. 19. Data in arrest warrant indices. Data in arrest warrant indices are classified as confidential data until the defendant has been taken into custody, served with a warrant, or appears before the court, except when the law enforcement agency determines that the public purpose is served by making the information public.

Subd. 20. Property data. Data that uniquely describe stolen, lost, confiscated, or recovered property are classified as either private data on individuals or nonpublic data depending on the content of the not public data.

Subd. 21. Reward program data. To the extent that the release of program data would reveal the identity of an informant or adversely affect the integrity of the fund, financial records of a program that pays rewards to informants are protected nonpublic

data in the case of data not on individuals or confidential data in the case of data on individuals.

Subd. 22. **Data on registered criminal offenders.** Data described in section 243.166 shall be classified as described in that section.

Subd. 23. **Data in missing children bulletins.** Data described in section 299C.54 shall be classified as described in that section.

Subd. 24. **Exchanges of information.** Nothing in this chapter prohibits the exchange of information by law enforcement agencies provided the exchanged information is pertinent and necessary to the requesting agency in initiating, furthering, or completing an investigation, except not public personnel data.

Subd. 25. **Deliberative processes.** Data that reflect deliberative processes or investigative techniques of law enforcement agencies are confidential data on individuals or protected nonpublic data; provided that information, reports, or memoranda that have been adopted as the final opinion or justification for a decision of a law enforcement agency are public data.

Subd. 26. **Booking photographs.** (a) For purposes of this subdivision, "booking photograph" means a photograph or electronically produced image taken by law enforcement for identification purposes in connection with the arrest of a person.

(b) Except as otherwise provided in this subdivision, a booking photograph is public data. A law enforcement agency may temporarily withhold access to a booking photograph if the agency determines that access will adversely affect an active investigation.

Subd. 27. **Pawnshop data.** Data that would reveal the identity of persons who are customers of a licensed pawnbroker or secondhand goods dealer are private data on individuals. Data describing the property in a regulated transaction with a licensed pawnbroker or secondhand goods dealer are public.

13.821 VIDEOTAPES OF CHILD ABUSE VICTIMS.

(a) Notwithstanding section 13.04, subdivision 3, an individual subject of data may not obtain a copy of a videotape in which a child victim or alleged victim is alleging, explaining, denying, or describing an act of physical or sexual abuse without a court order under section 13.03, subdivision 6, or 611A.90. The definitions of physical abuse and sexual abuse in section 626.556, subdivision 2, apply to this section, except that abuse is not limited to acts by a person responsible for the child's care or in a significant relationship with the child or position of authority.

(b) This section does not limit other rights of access to data by an individual under section 13.04, subdivision 3, other than the right to obtain a copy of the videotape, nor limit rights of access pursuant to discovery in a court proceeding.
