446A.072 WASTEWATER INFRASTRUCTURE FUNDING PROGRAM.

Subdivision 1. Establishment of program. The authority will establish a wastewater infrastructure funding program to provide supplemental assistance to municipalities receiving funding through the water pollution control revolving loan program or the

United States Department of Agriculture Rural Economic and Community Development's (USDA/RECD) Water and Waste Disposal Loans and Grants program for the design and planning, improvements to, and construction of municipal wastewater treatment systems. The purpose of the program is to assist municipalities demonstrating financial need in building cost-efficient projects to address existing environmental or public health problems. To implement the program, the authority shall establish a wastewater infrastructure fund to provide grants and loans for the purposes authorized under title VI of the Federal Water Pollution Control Act. The fund shall be credited with all investment income from the fund and all repayments of loans, grants, and penalties.

Subd. 2. [Repealed, 2002 c 393 s 91]

Subd. 3. **Program administration.** (a) The authority shall provide supplemental assistance, as provided in subdivision 5a to municipalities:

- (1) whose projects are listed on the agency's project priority list;
- (2) that demonstrate their projects are a cost-effective solution to an existing environmental or public health problem; and
- (3) whose projects are approved by the USDA/RECD or certified by the commissioner of the agency.

(b) For a municipality receiving grant funding from the USDA/RECD, applications must be made to the USDA/RECD with additional information submitted to the authority as required by the authority. Eligible project costs and affordability criteria shall be determined by the USDA/RECD.

(c) For a municipality not receiving grant funding from the USDA/RECD, application must be made to the authority on forms prescribed by the authority for the water pollution control revolving fund program with additional information as required by the authority. In accordance with section 116.182, the agency shall:

- (1) calculate the essential project component percentage which must be multiplied by the total project cost to determine the eligible project cost; and
 - (2) review and certify approved projects to the authority.
- (d) At the time funds are appropriated under this section, the authority shall reserve supplemental assistance for projects in order of their rankings on the agency's project priority list and in an amount based on their most recent cost estimates submitted to the authority or the as-bid costs, whichever is less.

Subd. 4. [Repealed, 2002 c 393 s 91]

Subd. 4a. [Repealed, 1998 c 404 s 84]

Subd. 5. [Repealed, 2002 c 393 s 91]

Subd. 5a. **Type and amount of assistance.** (a) For a municipality receiving grant funding from the USDA/RECD, the authority shall provide assistance in the form of a grant of up to one-half of the eligible grant amount determined by USDA/RECD. A municipality may not receive a grant under this paragraph for more than \$4,000,000 or \$15,000 per existing connection, whichever is less, unless specifically approved by law. In the case of a sanitary district or other multijurisdictional project for which the USDA/RECD is unable to fully fund up to one-half of the eligible grant amount, the authority may provide up to an additional \$1,000,000 for each additional municipality participating up to a maximum of \$8,000,000 or \$15,000 per existing connection, whichever is less, but not to exceed the maximum grant level determined by the USDA/RECD as needed to keep the project affordable.

(b) For a municipality not receiving grant funding from the USDA/RECD, the authority shall provide assistance in the form of a loan for the eligible project costs that exceed five percent of the market value of properties in the project service area. A municipality may not receive a loan under this paragraph for more than \$4,000,000 or \$15,000 per existing connection, whichever is less, unless specifically approved by law. In the case of a sanitary district or other multijurisdictional project, the authority may provide a loan under this paragraph for up to an additional \$1,000,000 for each additional municipality participating up to a maximum of \$8,000,000 or \$15,000 per

existing connection, whichever is less, unless specifically approved by law. A loan under this paragraph must bear no interest, must be repaid as provided in subdivision 7, and must only be provided in conjunction with a loan from the water pollution control revolving fund under section 446A.07.

(c) Notwithstanding the limits in paragraphs (a) and (b), for a municipality receiving supplemental assistance under this section after January 1, 2002, if the authority determines that the municipality's construction and installation costs are significantly increased due to geological conditions of crystalline bedrock or karst areas and discharge limits that are more stringent than secondary treatment, the authority shall provide assistance in the form of half grant and half loan. Assistance from the authority may not be more than \$25,000 per existing connection. Any additional grant amount received for the same project must be used to reduce the amount of the municipality's loan from the water pollution control revolving fund that exceeds five percent of the market value of properties in the project service area.

Subd. 5b. **Special assessment deferral.** A municipality receiving a loan under subdivision 5a that levies special assessments to repay the loan under subdivision 5a or section 446A.07 may defer payment of such assessments under the provisions of sections 435.193 to 435.195.

Subd. 6. **Disbursements.** Disbursements of grants or loans awarded under this section by the authority to recipients must be made for eligible project costs as incurred by the recipients, and must be made by the authority in accordance with the project financing agreement and applicable state and federal laws and rules governing the payments.

Subd. 7. **Loan repayments.** A municipality receiving a loan under this section shall repay the loan in semiannual payment amounts determined by the authority. The payment amount must be based on the average payments on the municipality's water pollution control revolving fund loan or, if greater, the minimum amount required to fully repay the loan by the maturity date. Payments must begin within one year of the date of the municipality's final payment on the water pollution control revolving fund loan. The maturity date of the loan must be no later than 20 years from the date of the first payment.

Subd. 8. **Eligibility.** A municipality is eligible for assistance under this section only after grant funding from other sources has been applied for, obtained, rejected, or the authority has determined that the potential funding is unlikely.

Subd. 9. **Loan limitation.** Supplemental assistance may not be used to reduce the sewer service charges of a significant wastewater contributor, or a single user that has caused the need for the project or whose current or projected flow and load exceed one-half of the current wastewater treatment plant's capacity.

Subd. 10. [Repealed, 2002 c 393 s 91]

Subd. 11. **Report on needs.** By February 1 of each even-numbered year, the authority, in conjunction with the Pollution Control Agency, shall prepare a report to the Finance Division of the senate Environment and Natural Resources Committee and the house Environment and Natural Resources Finance Committee on wastewater funding assistance needs of municipalities under this section.

Subd. 12. **System replacement fund.** Each municipality receiving a loan under this section shall establish a system replacement fund and shall annually deposit a minimum of \$.50 per 1,000 gallons of flow for major rehabilitation, expansion, or replacement of the treatment system at the end of its useful life. Money must remain in the account, for the life of the loan unless use of the fund is approved in writing by the authority for major rehabilitation, expansion, or replacement of the treatment system. By March 1 each year during the life of the loan, each municipality shall submit a report to the authority regarding the amount deposited and the fund balance for the prior calendar year. Failure to comply with the requirements of this subdivision shall result in the authority assessing a penalty fee to the municipality equal to one percent of the outstanding loan balance for each year of noncompliance. Failure to make the required deposit or pay the penalty fee as required constitutes a default on the loan.

Subd. 13. [Repealed, 2002 c 393 s 91]

Subd. 14. **Consistency with land use plans.** A municipality applying for a project in an unsewered area shall include in its application to the authority a certification from the county in which the project is located that:

(1) the project is consistent with the county comprehensive land use plan, if the county has adopted one;

(2) the project is consistent with the county water plan, if the county has adopted one; and

(3) the county has adopted specific land use ordinances or controls so as to meet or exceed the requirements of Minnesota Rules, part 7080.0305.

BOND ISSUANCE

446A.12 ISSUANCE OF BONDS.

Subdivision 1. **Bonding authority.** The authority may issue negotiable bonds in a principal amount that the authority determines necessary to provide sufficient funds for achieving its purposes, including the making of loans and purchase of securities, the payment of interest on bonds of the authority, the establishment of reserves to secure its bonds, the payment of fees to a third party providing credit enhancement, and the payment of all other expenditures of the authority incident to and necessary or convenient to carry out its corporate purposes and powers, but not including the making of grants. Bonds of the authority may be issued as bonds or notes or in any other form authorized by law. The principal amount of bonds issued and outstanding under this section at any time may not exceed \$1,250,000,000, excluding bonds for which refunding bonds or crossover refunding bonds have been issued.

Subd. 2. **Refunding of bonds.** The authority may issue bonds to refund outstanding bonds of the authority, to pay any redemption premiums on those bonds, and to pay interest accrued or to accrue to the redemption date next succeeding the date of delivery of the refunding bonds. The authority may apply the proceeds of any refunding bonds to the purchase or payment at maturity of the bonds to be refunded, or to the redemption of outstanding bonds on the redemption date next succeeding the date of delivery of the refunding bonds and may, pending the application, place the proceeds in escrow to be applied to the purchase, retirement, or redemption. Pending use, escrowed proceeds may be invested and reinvested in obligations issued or guaranteed by the state or the United States or by any agency or instrumentality of the state or the United States, or in certificates of deposit or time deposits secured in a manner determined by the authority, maturing at a time appropriate to assure the prompt payment of the principal and interest and redemption premiums, if any, on the bonds to be refunded. The income realized on any investment may also be applied to the payment of the bonds to be refunded. After the terms of the escrow have been fully satisfied, any balance of the proceeds and any investment income may be returned to the authority for use by it in any lawful manner. All refunding bonds issued under this subdivision must be issued and secured in the manner provided by resolution of the authority.

Subd. 3. **Kind of bonds.** Bonds issued under this section must be negotiable investment securities within the meaning and for all purposes of the Uniform Commercial Code, subject only to the provisions of the bonds for registration. The bonds issued may be either general obligations of the authority, secured by its full faith and credit and payable out of any money, assets, or revenues of the authority, subject to the provisions of resolutions or indenture pledging and appropriating particular money, assets, or revenues to particular bonds, or limited obligations of the authority not secured by its full faith and credit and payable solely from specified sources or assets.

Subd. 4. **Resolution and terms of sale.** The bonds of the authority must be authorized by a resolution or resolutions adopted by the authority. The bonds must bear the date or dates, mature at the time or times, bear interest at a fixed or variable rate, including a rate varying periodically at the time or times and on the terms determined by the authority, or any combination of fixed and variable rates, be in the denominations, be in the form, carry the registration privileges, be executed in the manner, be payable in lawful money of the United States, at the place or places within or without the state, and be subject to the terms of redemption or purchase before maturity as the resolutions or certificates provide. If, for any reason existing at the date of issue of the bonds or existing at the date of making or purchasing any loan or securities from the proceeds or after that date, the interest on the bonds is or becomes subject to federal income taxation, this fact does not affect the validity or the provisions made for the security of the bonds. The authority may make covenants and take or have taken actions that are in its judgment necessary or desirable to comply with conditions established by federal law or regulations for the exemption of interest on its obligations. The authority may refrain from compliance with those conditions if in its

judgment this would serve the purposes and policies set forth in this chapter with respect to any particular issue of bonds, unless this would violate covenants made by the authority. The maximum maturity of a bond, whether or not issued for the purpose of refunding, must be 30 years from its date. The bonds of the authority may be sold at public or private sale, at a price or prices determined by the authority; provided that (i) the aggregate price at which an issue of bonds is initially offered by underwriters to investors, as stated in the authority's official statement with respect to the offering, must not exceed by more than three percent the aggregate price paid by the underwriters to the authority at the time of delivery; (ii) the commission paid by the authority to an underwriter for placing an issue of bonds with investors must not exceed three percent of the aggregate price at which the issue is offered to investors as stated in the authority's offering statement; and (iii) the spread or commission must be an amount determined by the authority to be reasonable in the light of the risk assumed and the expenses of issuance, if any, required to be paid by the underwriters.

Subd. 5. Exemption. The notes and bonds of the authority are not subject to sections 16C.03, subdivision 4, and 16C.05.

446A.13 TENDER OPTION.

An obligation may be issued giving its owner the right to tender or the authority to demand tender of the obligation to the authority or another person designated by it, for purchase at a specified time or times, if the authority has first entered into an agreement with a suitable financial institution obligating the financial institution to provide funds on a timely basis for purchase of bonds tendered. The obligation is not considered to mature on any tender date and the purchase of a tendered obligation is not considered a payment or discharge of the obligation by the authority. Obligations tendered for purchase may be remarketed by or on behalf of the authority or another purchaser. The authority may enter into agreements it considers appropriate to provide for the purchase and remarketing of tendered obligations, including:

(1) provisions under which undelivered obligations may be considered tendered for purchase and new obligations may be substituted for them;

(2) provisions for the payment of charges of tender agents, remarketing agents, and financial institutions extending lines of credit or letters of credit assuring repurchase; and

(3) provisions for reimbursement of advances under letters of credit that may be paid from the proceeds of the obligations or from tax and other revenues appropriated for the payment and security of the obligations and similar or related provisions.

446A.14 INTEREST RATE SWAPS AND OTHER AGREEMENTS.

Subdivision 1. Agreements. (a) The authority may enter into interest rate exchange or swap agreements, hedges, forward purchase or sale agreements, loan sale or pooling agreements or trusts, or other similar agreements in connection with:

(1) the issuance or proposed issuance of bonds;

(2) the making, proposed making, or sale of loans or other financial assistance or investments;

(3) outstanding bonds, loans, or other financial assistance; or

(4) existing similar agreements.

(b) The agreements authorized by this subdivision include, without limitation, master agreements, options or contracts to enter into those agreements in the future and related agreements, including, without limitation, agreements to provide credit enhancement, liquidity, or remarketing; valuation; monitoring; or administrative services currently or in the future. However, the term of an option to enter into an

interest rate swap, exchange, hedge, or other similar agreement and the term of a contract to sell, buy, or refund bonds in the future must not exceed five years and the authorization of the authority to enter into option agreements with respect to interest rate swap agreements expires on December 31, 2008; provided that the option agreements entered into prior to that date remain valid agreements of the authority after that date.

(c) The agreements authorized by this subdivision or supplements to master agreements may be entered into on the basis of negotiation with a qualified third party or through a competitive proposal process on terms and conditions and with covenants and provisions approved by the authority and may include, without limitation:

- (1) provisions establishing reserves;
- (2) pledging assets or revenues of the authority for current or other payments or termination payments;
- (3) contracting with the other parties to the agreements to provide for the custody, collection, securing, investment, and payment of money of the authority or money held in trust; or
- (4) requiring the issuance of bonds or entering into loans or other agreements authorized by this subdivision in the future.

(d) Subject to the terms of the agreement and other agreements of the authority with bondholders or other third parties, the agreements authorized by this subdivision may be general or limited obligations of the authority payable from all available or certain specified funds appropriated to the authority. The agreements authorized by this subdivision do not constitute debt of the authority for the purposes of the limits on bonds or notes of the authority set forth in section 446A.12, subdivision 1.

(e) The authority may issue bonds to provide funds to make payments, including, without limitation, termination payments pursuant to an agreement authorized by this subdivision.

(f) The aggregate notional amount of interest rate swap or exchange agreements in effect at any time must not exceed an amount equal to ten percent of the aggregate principal amount of bonds the authority is authorized to have outstanding pursuant to section 446A.12, subdivision 1, including the notional amount of interest rate swap or exchange agreements with respect to which a reversing agreement has been entered into, the effect of which is to terminate the original agreement or a portion thereof, and reversing agreements with respect to all or a portion of existing agreements.

Subd. 2. Powers of authority. For the purposes of this section, the authority may exercise all powers provided in this chapter. The authority may consent, whenever it considers it necessary or desirable in connection with agreements entered into under this subdivision, to modifications, amendments, or waivers of the terms of the agreements. The proceeds of any agreements entered into pursuant to this subdivision are appropriated to the authority pursuant to section 446A.11, subdivision 13. The agreements entered into pursuant to this subdivision are not subject to sections 16C.03, subdivision 4, and 16C.05.

446A.15 BOND FUND.

Subdivision 1. Creation and contents. The authority may establish a special fund or funds for the security of one or more or all series of its bonds. The funds must be known as debt service reserve funds. The authority may pay into each debt service reserve fund:

- (1) any money appropriated by the state only for the purposes of the fund;
- (2) the proceeds of sale of bonds to the extent provided in the resolution or indenture authorizing the issuance of them;
- (3) funds directed to be transferred by the authority to the debt service reserve fund; and

(4) other money made available to the authority from any other source only for the purpose of the fund.

Subd. 2. **Use of funds.** Except as provided in this section, the money credited to each debt service reserve fund must be used only for the payment of the principal of bonds of the authority as they mature, the purchase of the bonds, the payment of interest on them, or the payment of any premium required when the bonds are redeemed before maturity. Money in a debt service reserve fund must not be withdrawn at a time and in an amount that reduces the amount of the fund to less than the amount the authority determines to be reasonably necessary for the purposes of the fund. However, money may be withdrawn to pay principal or interest due on bonds secured by the fund if other money of the authority is not available.

Subd. 3. **Investment.** Money in a debt service reserve fund not required for immediate use may be invested in accordance with section 446A.11, subdivision 9, paragraph (b).

Subd. 4. **Minimum amount of reserve at issuance.** If the authority establishes a debt service reserve fund for the security of any series of bonds, it shall not issue additional bonds that are similarly secured if the amount of any of the debt service reserve funds at the time of issuance does not equal or exceed the minimum amount required by the resolution creating the fund, unless the authority deposits in each fund at the time of issuance, from the proceeds of the bonds, or otherwise, an amount that when added together with the amount then in the fund will be at least the minimum amount required.

Subd. 5. **Transfer of excess.** To the extent consistent with the resolutions and indentures securing outstanding bonds, the authority may at the close of a fiscal year transfer to any other fund or account from any debt service reserve fund any excess in that reserve fund over the amount determined by the authority to be reasonably necessary for the purpose of the reserve fund.

Subd. 6. **Certification and budget request.** To assure the payment of the principal of and interest on bonds of the authority issued prior to January 1, 1994, and the continued maintenance of all debt service reserve funds created and established for that payment, the authority shall annually determine and certify to the governor, on or before December 1, the following amounts:

(1) the amount then needed to restore each debt service reserve fund securing in whole or in part the payment of principal of and interest on bonds of the authority issued prior to January 1, 1994, to the minimum amount required by the resolution or indenture establishing the fund, but not exceeding the maximum amount of principal and interest to become due and payable in any later year on all bonds issued prior to January 1, 1994, that are then outstanding and secured by the fund; and

(2) the amount determined by the authority to be needed in the immediately ensuing fiscal year, with other funds pledged and estimated to be received during that year, for the payment of the principal and interest due and payable in that year on all then outstanding bonds secured by a debt service reserve fund securing in whole or in part the payment of principal of and interest on bonds of the authority issued prior to January 1, 1994, the amount of which is then less than the minimum amount agreed, but not exceeding the maximum amount of principal and interest to become due and payable in the immediately ensuing fiscal year on bonds prior to January 1, 1994.

The governor shall include in the proposed biennial budget for the following fiscal year, or in a supplemental budget if the biennial budget has previously been approved, the amounts certified by the authority in accordance with this subdivision.

The money in the accounts of the authority must be paid out only on warrants

Subd. 2. **Contracts and security.** Notwithstanding the provisions of this section, the authority may, with the approval of the commissioner of finance, contract with the holders of any of its bonds as to the custody, collection, securing, investment, and payment of money of the authority or money held in trust or otherwise for the payment of bonds, and to carry out the contract. Money held in trust or otherwise for the payment of bonds or in any way to secure bonds and deposits of the money may be secured in the same manner as money of the authority, and all banks and trust companies are authorized to give security for the deposits. All money paid to the commissioner as agent of the authority is appropriated to the authority.

Subd. 3. **System of accounts.** Subject to agreements with bondholders, the commissioner of finance shall prescribe a system of accounts.

Subd. 2. **Nonliability of state.** The state is not liable on bonds, loans, interest rate swaps, or other agreements or contracts of the authority issued or entered into under this chapter and the bonds, loans, interest rate swaps, or other agreements or contracts of the authority are not a debt of the state. The bonds, loans, interest rate swaps, or other agreements or contracts of the authority must contain on their face a statement to that effect.
