## FISHING HABITAT

## 97C.001 EXPERIMENTAL WATERS.

Subdivision 1. **Definition; designation.** (a) Experimental waters are lakes and streams where special regulations are used and evaluated to meet a specific fisheries objective.

(b) The commissioner may designate any waters of the state having free access to the public as experimental waters. The designated experimental waters may not exceed 200 lakes and 50 streams at one time. For all experimental waters, the commissioner

shall develop an evaluation plan and specify a termination date. On the termination date, the commissioner shall vacate or extend the experimental waters designation, or designate the experimental waters as special management waters under section 97C.005. The commissioner shall by rule establish methods and criteria for public initiation of experimental waters designation and for public participation in the evaluation of the waters designated.

(c) Designation of experimental waters under this section is not subject to chapter 14.

Subd. 2. **Public notice and meeting.** (a) Before the commissioner designates, or vacates or extends the designation of, experimental waters, a public meeting must be held in the county where the largest portion of the waters is located.

(b) At least 90 days before the public meeting and during the open angling season for fish the taking of which is, or is proposed to be, regulated under subdivision 3 on the waters under consideration, notice of the proposed designation, vacation, or extension must be posted at publicly maintained access points on the water.

(c) Before the public meeting, notice of the meeting must be published in a news release issued by the commissioner and in a newspaper of general circulation in the area where the proposed experimental waters are located. The notice must be published at least once between 30 and 60 days before the meeting, and at least once between seven and 30 days before the meeting.

(d) The notices required in this subdivision must summarize the proposed action, invite public comment, and specify a deadline for the receipt of public comments. The commissioner shall mail a copy of each required notice to persons who have registered their names with the commissioner for this purpose. The commissioner shall consider any public comments received in making a final decision.

(e) If a water to be designated is a lake with a water area of more than 1,500 acres, or is a stream or river with a reach of more than six miles, a public meeting must also be held in the seven-county metropolitan area.

Subd. 3. **Seasons, limits, and other requirements.** The commissioner may, in accordance with the procedures in subdivision 2 or by rule under chapter 14, establish open seasons, limits, methods, and other requirements for taking fish on experimental waters.

**History:** 1985 c 248 s 70; 1986 c 386 art 3 s 1; 1992 c 462 s 15; 2000 c 473 s 12

### **97C.005 SPECIAL MANAGEMENT WATERS.**

Subdivision 1. **Definition; designation.** (a) Special management waters are waters that:

(1) have been subject to special regulations that have been evaluated and proven effective under an experimental waters designation under section 97C.001; or

(2) are classified by the commissioner for primary use as trophy lakes, family fishing lakes, designated trout lakes, designated trout streams, special species management lakes, and other designated uses.

(b) The commissioner may designate any waters of the state, including experimental waters, as special management waters. The commissioner shall by rule establish methods and criteria for public participation in the evaluation and designation of waters as special management waters.

(c) Designation of special management waters under this section is not subject to chapter 14.

Subd. 2. **Public notice and meeting.** (a) Before the commissioner designates special management waters, public comment must be received and, for waters other than those proposed to be designated as trout streams or trout lakes, a public meeting must be held in the county where the largest portion of the waters is located.

(b) For waters previously designated as experimental waters, a proposed change in status to special management waters must be announced before the public meeting by notice published in a news release issued by the commissioner and in a newspaper of general circulation in the area where the waters are located. The notice must be published at least once between 30 and 60 days before the public meeting, and at least once between seven and 30 days before the meeting. If a water proposed to be designated is a lake with a water area of more than 1,500 acres, or is a stream or river with a reach of more than six miles, a public meeting must also be held in the seven-county metropolitan area.

(c) For proposed special management waters, other than designated trout lakes and designated trout streams, that were not previously designated as experimental waters, notice of the proposed designation must be given as provided in this paragraph. The notice must be posted at publicly maintained access points at least 90 days before the public meeting and during the open angling season for fish the taking of which on the waters is proposed to be regulated under subdivision 3. Before the public meeting, notice of the meeting must be published in a news release issued by the commissioner and in a newspaper of general circulation in the area where the proposed special management waters are located. The notice must be published at least once between 30 and 60 days before the meeting, and at least once between seven and 30 days before the meeting. If a water to be designated is a lake with a water area of more than 1,500 acres, or is a stream or river with a reach of more than six miles, a public meeting must also be held in the seven-county metropolitan area.

(d) For waters proposed to be designated as trout streams or trout lakes, notice of the proposed designation must be published at least 90 days before the effective date of the designation in a news release issued by the commissioner and in a newspaper of general circulation in the area where the waters are located. In addition, all riparian owners along the waters must be notified at least 90 days before the effective date of the designation.

(e) The notices required in this subdivision must summarize the proposed action, invite public comment, and specify a deadline for the receipt of public comments. The commissioner shall mail a copy of each required notice to persons who have registered their names with the commissioner for this purpose. The commissioner shall consider any public comments received in making a final decision.

- (2) restrict angling from a dark house;
- (3) limit the open season to take fish;
- (4) limit the size of fish that may be kept; and
- (5) limit the number of each species of fish that may be kept.

(c) The commissioner must give notice and hold a hearing before adopting rules under this subdivision. The rules must have a termination date and may only be extended upon a showing by the commissioner, at a hearing, that the muskellunge population in the designated waters has been enhanced.

(d) The provisions of section 97C.385, subdivision 1, requiring the angling season on a lake to be closed in proportion to the spearing season do not apply to designated muskellunge lakes.

(e) The commissioner, in designating a muskellunge water on lakes wholly or partially within an Indian reservation, may not designate a whole lake larger than 29,775 acres in surface area, except that sensitive areas of lakes larger than 29,775 acres may be designated if clause (a) is complied with.

Subd. 2. **Fishing restriction.** A person may not take fish from a fish refuge after it is established under this section.

Subd. 3. **Location.** The location of the fish refuge is the portion of the Mississippi River downstream from lock and dam No. 3 located at milepost 796.9 above the mouth of the Ohio River, to the downstream end of Diamond Island located at milepost 794.8.

The lands that are acquired may be developed to manage lakes, rivers, streams, and adjacent wetlands and lands for aquatic life, water quality, intrinsic biological value, public fishing, and other compatible outdoor recreational uses. The land may be acquired by gift, lease, easement, or purchase. The commissioner shall designate land acquired under this subdivision as aquatic management areas for the purposes of the outdoor recreation system.

(3) are licensed by the commissioner as a private fish hatchery or aquatic farm under section 17.4984, subdivision 1, or 97C.211, subdivision 1.

An area may be posted under this paragraph if necessary to prevent excessive depletion of fish or interference with fisheries research or management activities or private fish hatchery or aquatic farm operations.

(b) The commissioner will consider the following criteria in determining if waters licensed under a private fish hatchery or aquatic farm should be posted under paragraph (a):

- (1) the waters contain game fish brood stock that are vital to the private fish hatchery or aquatic farm operation;

(2) game fish are present in the licensed waters only as a result of aquaculture activities by the licensee; and

(3) no public access to the waters existed when the waters were first licensed.

(c) A private fish hatchery or aquatic farm licensee may not take fish or authorize others to take fish in licensed waters that are posted under paragraph (a), except as provided in section 17.4983, subdivision 3, and except that if waters are posted to allow the taking of fish under special restrictions, licensees and others who can legally access the waters may take fish under those special restrictions.

(d) Before March 1, 2003, riparian landowners adjacent to licensed waters on April 30, 2002, and riparian landowners who own land adjacent to waters licensed after April 30, 2002, on the date the waters become licensed waters, plus their children and grandchildren, may take two daily limits of fish per month under an angling license subject to the other limits and conditions in the game and fish laws.

#### 97C.031 LAKES WITH UNBALANCED FISH POPULATIONS.

The commissioner may establish and amend a list of lakes and rivers that have been found by the fisheries director to contain an unbalanced fish population, or to contain species of fish that have become stunted from overpopulation. The list may not include more than 100 lakes and rivers, or more than six in a county. The commissioner may, by rule, establish open seasons, limits, and methods of taking fish from lakes and rivers on the list. The rule must be published in each county containing the lake or river.

The commissioner may also take catfish with seines, nets, and other devices on the Minnesota-Wisconsin boundary waters. The commissioner may hire or contract persons, or issue permits, to take the fish. The commissioner shall prescribe the manner of taking and disposal. The commissioner may award a contract under this section without competitive bidding. Before establishing the con-

tractor's compensation, the commissioner must consider the qualifications of the contractor, including the contractor's equipment, knowledge of the waters, and ability to perform the work.

(b) A permit under this section may be issued to an individual, a group of riparian owners, or a lake improvement association. The permit may only be issued if all riparian owners have consented in writing.

Subd. 2. **Taking of fish.** The commissioner may set special open seasons, limits, and methods to take fish before the piscicides are applied. The commissioner must post the special provisions at or near the waters.

**History:** 1986 c 386 art 3 s 11; 1993 c 231 s 48

#### **97C.055 DEAD FISH REMOVAL.**

#### **97C.065 POLLUTANTS IN WATERS.**

A person may not dispose of any substance in state waters, or allow any substance to enter state waters, in quantities that injure or are detrimental to the propagation of wild animals or taint the flesh of wild animals. Each day of violation is a separate offense. An occurring or continuous violation is a public nuisance. An action may be brought by the attorney general to enjoin and abate nuisance upon request of the commissioner. This section does not apply to chemicals used for pest control for the general welfare of the public.

**History:** 1986 c 386 art 3 s 14

A person may not obstruct a creek, stream, or river to prevent the passage of fish with a rack or screen without the permission of the commissioner. The person that erected the obstruction, or the owner of the land where the obstruction is located, must immediately remove the obstruction upon order of the commissioner.

**History:** 1986 c 386 art 3 s 16

**97C.077 FISH SCREENS IN LAKES.**

Subdivision 1. **Lake in one county.** If all or a major part of a navigable lake is located within a single county and has been stocked with fish by the United States government, the county board, in order to maintain fish in the lake and prevent their escape from the lake, may erect and maintain screens at the inlets and outlets of the lake. The county board may appropriate from the county treasury money for the erection and maintenance of the screens.

Subd. 2. **Lake in more than one county.** If a lake is located in more than one county, the county boards of the affected counties may jointly provide for the erection and maintenance of screens. The expense of the screens and maintenance must be paid equally between the counties, and the county boards must appropriate money from the county treasury of their respective counties to pay the expenses of the screens and maintenance.

**History:** 1990 c 391 art 8 s 26

**97C.081 FISHING CONTESTS.**

Subdivision 1. **Restrictions.** A person may not conduct a fishing contest on waters except as provided in this section.

Subd. 2. **Contests without a permit.** A person may conduct a fishing contest without a permit from the commissioner provided:

(b) If entry fees are over \$25 per person, or total prizes are valued at more than \$25,000, and if the applicant has either:

(1) not previously conducted a fishing contest requiring a permit under this subdivision; or

(2) ever failed to make required prize awards in a fishing contest conducted by the applicant, the commissioner may require the applicant to furnish the commissioner evidence of financial responsibility in the form of a surety bond or bank letter of credit in the amount of \$25,000.

Subd. 4. **Restrictions.** The commissioner may by rule establish restrictions on fishing contests to protect fish and fish habitat and for the safety of contest participants.

Subd. 5. **Ice fishing contest in conjunction with raffle.** An organization that is permitted under this section and licensed by the lawful Gambling Control Board to

conduct raffles may conduct a raffle in conjunction with an ice fishing contest. The organization may sell a combined ticket for a single price for the ice fishing contest and raffle, provided that the combined ticket states in at least eight-point type the amount of the price that applies to the ice fishing contest and the amount that applies to the raffle. All other provisions of sections 349.11 to 349.23 apply to the raffle.

**Subd. 6. Permit application process.** (a) Beginning September 1 each year, the commissioner shall accept permit applications for fishing contests to be held in the following year.

(b) If the number of permit applications received by the commissioner from September 1 through the last Friday in October exceeds the limits specified in subdivisions 7 and 8, the commissioner shall notify the affected applicants that their requested locations and time period are subject to a drawing. After notification, the commissioner shall allow the affected applicants a minimum of seven days to change the location or time period requested on their applications, provided that the change is not to a location or time period for which applications are already at or above the limits specified in subdivisions 7 and 8.

(c) After the applicants have been given at least seven days to change their applications, the commissioner shall conduct a drawing for all locations and time periods for which applications exceed limits. First preference in the drawings shall be given to applicants for established or traditional fishing contests, and second preference to applicants for contests that are not established as traditional fishing contests based on the number of times they have been unsuccessful in previous drawings. Except for applicants of established or traditional fishing contests, an applicant who is successful in a drawing loses all accumulated preference.

(d) The commissioner has until December 7 to approve or deny permit applications that are submitted by 4:30 p.m. on the last Friday in October. The commissioner may approve a permit application that is received after 4:30 p.m. on the last Friday in October if approving the application would not result in exceeding the limits in subdivisions 7 and 8.

**Subd. 7. Weekend limitations.** (a) On all waters 55,000 acres or less, the commissioner may ensure that each of the state's waters has at least two weekends per month with no permitted fishing contests.

(b) Unless otherwise authorized by the commissioner, permitted fishing contests that are conducted for more than one day may not include more than one weekend day from Memorial Day weekend through Labor Day weekend.

(c) The commissioner may not approve permits for fishing contests on a weekend with a fishing season opener if the contest targets a species for which the season is opening.

**Subd. 8. Limits on number of fishing contests.** (a) The number of permitted fishing contests allowed each month on a water body shall not exceed the following limits:

|               | Maximum number<br>of permitted<br>fishing<br>contests | Maximum number<br>of large<br>permitted<br>fishing<br>contests | Maximum number<br>of permitted<br>fishing<br>contest<br>days |

| more than     |   |  |  |
| 55,000        | no limit  | no limit   | no limit   |

(b) For boundary waters, the limits on the number of permitted fishing contests shall be determined based on the Minnesota acreage.

**Subd. 8a. Additional fishing contest permits.** Notwithstanding the limits in subdivision 8, the commissioner may allow up to five additional permits each year for fishing contests on bodies of water that are 5,000 acres or more in size. No more than one additional contest may be permitted on one body of water in a single year. For additional fishing contests permitted under this subdivision, the fishing contest permit applicant must demonstrate to the commissioner that the contest will:

- (1) provide economic benefits to the local area;
- (2) promote public awareness of fishing and the state's resources; and
- (3) conform to best management practices for the lake.

**Subd. 9. Permit restrictions.** (a) The commissioner may require fishing contest permittees to limit prefishing to week days only as a condition of a fishing contest permit. The commissioner may require proof from permittees that prefishing restrictions on the permit are communicated to fishing contest participants and enforced.

(b) The commissioner may require permit restrictions on the hours that a permitted fishing contest is conducted, including, but not limited to, starting and ending times.

(c) The commissioner may require permit restrictions on the number of parking spaces that may be used on a state-owned public water access site. The commissioner may require proof from permittees that parking restrictions on the permit are communicated to fishing contest participants and enforced.

(d) To prevent undue loss of fish, the commissioner may require restrictions for off-site weigh-ins on a fishing contest permit or may deny permits requesting an off-site weigh-in.

(e) A person may not transfer a fishing contest permit to another person.

(f) Failure to comply with fishing contest permit restrictions may be considered grounds for denial of future permit applications.

**Subd. 10. Definitions.** For purposes of this section, the following terms have the meanings given:

(a) "Permitted fishing contest" means an open water fishing contest or ice fishing contest that requires a permit from the commissioner under subdivision 3.

(b) "Large permitted fishing contest" means an open water fishing contest with more than 50 boats or more than 100 participants that requires a permit from the commissioner under subdivision 3.
