(a) "Commissioner" means the commissioner of finance.

(b) "State agency" has the meaning assigned to it in section 16B.01.

Subd. 3. **Payment required.** State agencies must pay each valid vendor obligation so that the vendor receives payment within the vendor's early payment discount period. If there is no early payment discount period, the state agency must pay the vendor within 30 days following the receipt of the invoice for the completed delivery of the product or service.

Subd. 4. **Invoice errors.** If an invoice is incorrect, defective, or otherwise improper, the agency must notify the vendor within ten days of discovering the error. Upon receiving a cor-

rected invoice, the agency must pay the bill within the time limitation contained in subdivision 3.

Subd. 4a. Invoice errors; Department of Human Services. For purposes of Department of Human Services payments to hospitals receiving reimbursement under the medical assistance and general assistance medical care programs, if an invoice is incorrect, defective, or otherwise improper, the Department of Human Services must notify the hospital of all errors, within 30 days of discovery of the errors.

Subd. 4b. Health care payments. (a) The commissioner of human services must pay or deny a valid vendor obligation for health services under the medical assistance, general assistance medical care, or MinnesotaCare program within 30 days after receipt. A "valid vendor obligation" means a clean claim submitted directly to the commissioner by an eligible health care provider for health services provided to an eligible recipient. A "clean claim" means an original paper or electronic claim with correct data elements, prepared in accordance with the commissioner's published specifications for claim preparation, that does not require an attachment or text information to pay or deny the claim. Adjustment claims, claims with attachments and text information, and claims submitted to the commissioner as the secondary or tertiary payer, that have been prepared in accordance with the commissioner's published specifications, must be adjudicated within 90 days after receipt.

For purposes of this subdivision, paragraphs (b) and (c) apply.

(b) The agency is not required to make an interest penalty payment on claims for which payment has been delayed for purposes of reviewing potentially fraudulent or abusive billing practices, if there is an eventual finding by the agency of fraud or abuse.

(a) A state agency shall pay interest to a vendor for undisputed billings when the agency has not paid the billing within 30 days following receipt of the invoice, merchandise, or service whichever is later. A negotiated contract or agreement between a vendor and a state agency which requires an audit by the state agency prior to acceptance and payment of the vendor's invoice shall not be considered past due until 30 days after the completion of the audit by the state agency. Before any interest payment is made, the vendor must invoice the state agency for such interest.

(b) The rate of interest paid by the agency on undisputed bills not paid within 30 days shall be 1-1/2 percent per month or any part thereof.

(c) All interest penalties and collection costs must be paid from the agency's current operating budget. No agency may seek to increase its appropriation for the purpose of obtaining funds to pay interest penalties or collection costs.

(d) Any vendor who prevails in a civil action to collect interest penalties from a state agency shall be awarded its costs and disbursements, including attorney's fees, incurred in bringing the actions.

(e) No interest penalties may accrue against an agency that delays payment of a bill due to a disagreement with the vendor; provided, that the dispute must be settled within 30 days after the bill became overdue. Upon the resolution of the dispute, the agency must pay the vendor accrued interest on all proper invoices for which payment was not received within the applicable time limit contained in subdivision 3.

(f) The minimum monthly interest penalty payment that a state agency shall pay a vendor for the unpaid balance for any one overdue bill equal to or in excess of \$100 is \$10. For unpaid balances of less than \$100, the state agency shall pay the actual penalty due to the vendor.

Subd. 3. **Repayment schedules.** The commissioner shall make schedules for repayment to the general fund of the transferred money. A schedule to repay money used to buy equipment may extend over the equipment's useful life. Otherwise, a schedule may not extend beyond five years. The repayment must include interest at a rate comparable to the rate earned by the state on invested commissioner of finance's cash, as determined monthly by the commissioner. An amount necessary to pay the interest is appropriated from the revolving fund to which the transfer was made.

16A.127 INDIRECT COSTS.

Subdivision 1. **Statewide and agency indirect costs.** (a) As used in this section, "statewide indirect costs" means all general fund expenditures made by any state agency attributable to providing general support services to any other state agency.

(b) As used in this section, "agency indirect costs" means all general support costs within any agency that cannot be directly charged to any agency program.

(c) For purposes of this section, "agency" means any entity receiving general support services.

Subd. 2. **Statewide plan.** The commissioner shall annually prepare a plan identifying the sources and amounts of each agency's statewide indirect costs for the current fiscal year. The commissioner shall submit the plan to the cognizant federal agency for approval, and provide copies to the governor and the legislature.

Subd. 3. **General reimbursement.** (a) Unless indirect cost recoveries are specifically appropriated in law, agencies are obligated to reimburse the general fund for all statewide indirect costs, and that portion of agency indirect costs attributable to recoveries of general fund expenditures. However, the commissioner may, for reasons of sound financial management, waive the reimbursement under this subdivision for certain nongeneral fund activities.

(b) The commissioner shall record the reimbursement to the general fund of the statewide and agency indirect costs attributable to an agency's nongeneral fund activities for the fiscal year. All nonfederal agency indirect cost receipts are appropriated to the agency to pay administrative expenses, unless they are determined to be a reimbursement of general fund expenditures.

Subd. 3a. **Appropriation.** There is annually appropriated from all direct appropriated nongeneral funds an amount sufficient to reimburse the general fund for both statewide indirect costs, and any agency indirect costs attributable to general fund expenditures.

Subd. 4. **Federal proposals.** Agency applications for federal money shall include necessary submissions to recover both statewide and agency indirect costs. A copy of the indirect cost submission must be submitted to the commissioner for review. An agency indirect cost plan is unnecessary if the commissioner determines that the costs incurred in preparing and maintaining it exceed the benefit received by the state. If less than the entire agency proposal is federally approved, the commissioner may accept reimbursement of less than all of the federal receipts. If no federal funds are approved for indirect costs, the agency must document that fact to the commissioner.

Subd. 5. **Federal reimbursement.** Agencies shall reimburse the general fund for all federal money received as a recovery of statewide indirect costs. All federal agency indirect cost receipts are appropriated to the agency to pay administrative expenses, unless they are determined to be a reimbursement of general fund expenditures.

Subd. 6. **Required information.** Agencies must supply the information required by the commissioner, as needed, to carry out the provisions of this section.

Subd. 7. **Audit fees.** The legislative auditor may recommend waiver, and the Legislative Audit Commission may waive all or part of a fee for an audit. A state audited agency whose funds are not administered by the commissioner of finance must transfer to the general fund the amount of the cost of the audit attributable to the agency's nongeneral fund receipts.

Subd. 8. **Exemptions.** (a) No statewide or agency indirect cost liability shall be accrued to any program, appropriation, or account that is specifically exempted from the liability in federal or state law, or if the commissioner determines the funds to be held in trust, or to be a pass-through, workshop, or seminar account. Accounts receiving proceeds from bond issues and general fund accounts are also exempt from this section.

(b) Except for the costs of the legislative auditor to conduct financial audits of federal funds, this section does not apply to the Board of Trustees of the Minnesota State Colleges and Universities. Receipts attributable to financial audits conducted by the legislative auditor of federal funds administered by the board shall be deposited in the general fund.

Subd. 9. **Provision for natural resources.** (a) The Department of Natural Resources is exempt from recovering agency indirect costs except where federal funds are involved.

(b) The commissioner of natural resources need not bill the federal government, other states, or Canadian provinces for the indirect costs of providing emergency fire fighting services, and need not reimburse the general fund for those indirect costs if the waiver is reciprocated.

16A.1283 LEGISLATIVE APPROVAL REQUIRED.

(a) Notwithstanding any law to the contrary, an executive branch state agency may not impose a new fee or increase an existing fee unless the new fee or increase is approved by law. For purposes of this section, a fee is any charge for goods, services, regulation, or licensure, and, notwithstanding paragraph (b), clause (3), includes charges for admission to or for use of public facilities owned by the state.

(b) This section does not apply to:

- (1) charges billed within or between state agencies, or billed to federal agencies;
- (2) the Minnesota State Colleges and Universities system;
- (3) charges for goods and services provided for the direct and primary use of a private individual, business, or other entity;
- (4) charges that authorize use of state-owned lands and minerals administered by the commissioner of natural resources by the issuance of leases, easements, cooperative farming agreements, and land and water crossing licenses and charges for sales of state-owned lands administered by the commissioner of natural resources; or
- (5) state park fees and charges established by commissioner's order.

(c) An executive branch agency may reduce a fee that was set by rule before July 1, 2001, without legislative approval. Chapter 14 does not apply to fee reductions under this paragraph.

16A.1285 DEPARTMENTAL EARNINGS.

Subdivision 1. **Definitions.** In this section, "departmental earnings" means any charge for goods and services and any regulatory, licensure, or other similar charges levied by any state agency and paid by individuals, businesses, or other nonstate entities. This definition must not be construed to include general taxes collected by a state agency or charges for services provided by one state agency to another state agency.

Subd. 2. **Policy.** Unless otherwise provided by law, specific charges falling within definitions stipulated in subdivision 1 must be set at a level that neither significantly over recovers nor under recovers costs, including overhead costs, involved in providing the services.

Unless specifically provided otherwise in statute, in setting, adjusting, or authorizing charges that in whole or in part recover previously unrecovered costs, recovery is limited to those unrecovered costs incurred during the two fiscal years immediately preceding the setting, adjustment, or authorization.

Subd. 3. **Duties of commissioner of finance.** The commissioner of finance shall classify, monitor, analyze, and report all departmental earnings that fall within the definition established in subdivision 1. Specifically, the commissioner shall:

- (1) establish and maintain a classification system that clearly defines and distinguishes categories and types of departmental earnings and takes into account the purpose of the various earnings types and the extent to which various earnings types serve a public or private interest;
- (2) prepare a biennial report that documents collection costs, purposes, and yields of all departmental earnings, the report to be submitted to the legislature on or before the fourth Tuesday in January in each odd-numbered year and to include estimated data for the year in which the report is prepared, actual data for the two years immediately before, and estimates for the two years immediately following; and

(3) prepare and maintain a detailed directory of all departmental earnings.

In a year following the election of a governor who had not been governor the previous year, the report required by clause (2) must be submitted by the third Tuesday in February.

16A.1286 STATEWIDE SYSTEMS ACCOUNT.

Subdivision 1. **Continuation.** The statewide systems account is a separate account in the special revenue fund. All money resulting from billings for statewide systems services must be deposited in the account. For the purposes of this section, statewide systems includes the state accounting system, payroll system, human resources systems, procurement system, and related information access systems.

Subd. 2. **Billing procedures.** The commissioner may bill up to \$7,520,000 in each fiscal year for statewide systems services provided to state agencies, judicial branch agencies, the University of Minnesota, the Minnesota State Colleges and Universities, and other entities. Billing must be based only on usage of services relating to statewide systems provided by the Intertechnologies Division. Each agency shall transfer from agency operating appropriations to the statewide systems account the amount billed by the commissioner. Billing policies and procedures related to statewide systems services must be developed by the commissioner in consultation with the commissioners of employee relations and administration, the University of Minnesota, and the Minnesota State Colleges and Universities.

Subd. 3. **Appropriation.** Money transferred into the account is appropriated to the commissioner to pay for statewide systems services.

16A.129 OTHER COMMISSIONER POWERS.

Subdivision 1. **List of salaries.** The commissioner may require a list of the employees of an agency, and that their salaries conform with the scale of compensation established by law.

Subd. 2. **Classified budget, accounts.** The commissioner may classify expenditures and revenue for budget making and accounting.

Subd. 3. **Cash advances.** When the operations of any account would be impeded by projected cash deficiencies resulting from delays in the receipt of grants, dedicated income, or other similar receivables, and when the deficiencies would be corrected within the budget period involved, the commissioner of finance may use fund level cash reserves to meet cash demands. If funds are transferred from the general fund to meet cash flow needs, the cash flow transfers must be returned to the general fund as soon as sufficient cash balances are available in the account to which the transfer was made. Any interest earned on general fund cash flow transfers accrues to the general fund and not to the accounts or funds to which the transfer was made. The commissioner may advance general fund cash reserves to nongeneral fund accounts where the receipts from other governmental units cannot be collected within the budget period.

16A.13 FEDERAL TAX WITHHOLDING.

Subdivision 1. **Custodian; bond.** The commissioner of finance is the custodian of all money deposited with the commissioner of finance for federal tax withheld from the pay of

any officer or employee of the state of Minnesota. The commissioner of finance's bond to the state shall cover the liability for the custodian's acts. The deposits are subject to laws on keeping and paying out state money.

Subd. 2. Commissioner as federal agent. The commissioner may cooperate with and act as agent for the United States of America in collecting federal tax from the pay of employees.

Subd. 2a. Procedure. The commissioner shall see that the deduction for the withheld tax is made from an employee's pay on the payroll abstract. The commissioner shall approve one warrant payable to the commissioner for the total amount deducted on the abstract. Deductions from the pay of an employee paid direct by an agency shall be made by the employee's payroll authority. A later deduction must correct an error made on an earlier deduction. The paying authority shall see that a warrant or check for the deductions is promptly sent to the commissioner. The commissioner shall deposit the amount of the warrant or check to the credit of the proper federal authority or other person authorized by federal law to receive it.

Subd. 2b. Appropriation. There is appropriated the amount necessary to discharge the state's obligation under federal law requiring the deductions from pay in this section.

Subd. 3. Reports; payments. The commissioner shall report as required by federal law on the deductions made under this section and see that the deducted money is paid out as required.

Subd. 4. Employees to provide information. An employee shall prepare and send to the commissioner the information and forms the commissioner requires under this section.

16A.133 CREDIT UNION, PARKING, OTHER DEDUCTIONS.

Subdivision 1. **Payroll direct deposit and deductions.** An agency head in the executive, judicial, and legislative branch shall, upon written request signed by an employee, directly deposit all or part of an employee's pay to those credit unions or financial institutions, as defined in section 47.015, designated by the employee.

An agency head may, upon written request of an employee, deduct from the pay of the employee a requested amount to be paid to the Minnesota Benefit Association, or to any organization contemplated by section 179A.06, of which the employee is a member. If an employee has more than one account with the Minnesota Benefit Association or more than one organization under section 179A.06, only the Minnesota Benefit Association and one organization, as defined under section 179A.06, may be paid money by payroll deduction from the employee's pay.

Subd. 2. Parking, and the like. With the written consent of an employee, an agency head shall deduct from the employee's pay the amount needed to pay for services or facilities supplied under law to the employee by the state. Food and housing, garage and parking facilities, and other facilities and services may be paid for in this way.

16A.138 OFFICIALS NOT TO EXCEED APPROPRIATION.

When there has been an appropriation for any purpose it shall be unlawful for any state board or official to incur indebtedness on behalf of the board, the official, or the state in excess of the appropriation made for such purpose. It is hereby made unlawful for any state board or official to incur any indebtedness in behalf of the board, the official, or the state of any nature until after an appropriation therefor has been made by the legislature. It is illegal for any official or head of any state department, or any employee thereof, to use moneys appropriated by law, or fees collected for any other purpose than the purpose for which the moneys have been appropriated, and any such act by any head of a department, or any state official, is cause for immediate removal of the official or head of a state department from the position held with the government of this state.

16A.14 ALLOTMENT AND ENCUMBRANCE SYSTEM.

Subdivision 1. **Less than fiscal year.** The commissioner may set an allotment period shorter than and not extending beyond the fiscal year.

Subd. 1a. **Permanent improvements.** Subdivision 1 does not apply for allotments of appropriations for permanent improvements, including acquisition of real property.

Subd. 2. **Application.** The allotment and encumbrance system applies to all appropriations and funds except as provided in subdivisions 2a, 2b, and 2c.

Subd. 2a. **Exceptions.** The allotment and encumbrance system does not apply to:

- (1) appropriations for the courts or the legislature;
- (2) payment of unemployment benefits.

Subd. 2b. **Impractical allotments.** With permanent improvement contracts and transactions for the acquisition of real estate, equipment, repair, rehabilitation, appurtenances or utility systems to be used for public purposes, the commissioner may do away with periodic allotments as impractical and make rules to ensure the proper application and encumbering of funds.

Subd. 2c. **Contingent funds.** Contingent appropriations for the governor and the attorney general are not subject to allotment. They are subject to the prescriptions in this chapter relating to spending and encumbering of funds.

Subd. 3. **Spending plan.** An appropriation to an agency may not be made available for spending in the next allotment period until the agency has met all the requirements related to the policies and procedures of the Minnesota accounting and procurement system. A spending plan shall be submitted by July 31 to the commissioner on the commissioner's form. The

spending plan must certify that: the amount required for each activity is accurate and is consistent with legislative intent; revenue estimates are reasonable; and the plan is structurally balanced, with all legal restrictions on spending having been met for the purpose for which money is to be spent.

Subd. 4. Approval. The commissioner shall approve the estimated amount for expenditure if the spending plan is within the amount and purpose of the appropriation. In doing so, the commissioner must keep in mind the probable needs of the agency for the rest of the term of the appropriation, and whether there is a need for the appropriation in the next allotment period. Otherwise the commissioner shall modify the spending plan and the allotment to conform with the appropriation and the future needs of the agency. The commissioner shall act promptly on a spending plan. The commissioner shall notify an agency of its allotments at least five days before an allotment period. Allotments to an agency for an appropriation term may not exceed the amount appropriated for that term.

Subd. 5. Modification. After approval, the commissioner may modify a spending plan for cause. An agency may apply for and must be notified of the modification. The modification may not result in a deficit or an undue reduction of funds to meet future agency needs.

16A.15 ACCOUNTING SYSTEM; ALLOTMENT AND ENCUMBRANCE.

Subdivision 1. [Renumbered 16A.152, subd 4]

Subd. 2. Accounting system. The commissioner shall keep an accounting system in the department's office showing by fund and item:

- (1) the amounts appropriated for and the estimated revenue of the agency;
- (2) the amount allotted and available for expenditure;
- (3) the amount of expenditures or obligations authorized to be incurred;
- (4) the actual receipts and disbursements;
- (5) actual balances on hand; and
- (6) the unencumbered balances after deduction of all actual and authorized expenditures.

Subd. 3. Allotment and encumbrance. (a) A payment may not be made without prior obligation. An obligation may not be incurred against any fund, allotment, or appropriation unless the commissioner has certified a sufficient unencumbered balance or the accounting system shows sufficient allotment or encumbrance balance in the fund, allotment, or appropriation to meet it. The commissioner shall determine when the accounting system may be used to incur obligations without the commissioner's certification of a sufficient unencumbered balance. An expenditure or obligation authorized or incurred in violation of this chapter is invalid and ineligible for payment until made valid. A payment made in violation of this chapter is illegal. An employee authorizing or making the payment, or taking part in it, and a person receiving any part of the payment, are jointly and severally liable to the state for the amount paid or received. If an employee knowingly incurs an obligation or authorizes or makes an expenditure in violation of this chapter or takes part in the violation, the violation is just cause for the employee's removal by the appointing authority or by the governor if an appointing authority other than the governor fails to do so. In the latter case, the governor shall give notice of the violation and an opportunity to be heard on it to the employee and to the appointing authority. A claim presented against an appropriation without prior allotment or encumbrance may be made valid on investigation, review, and approval by the agency head in accordance with the commissioner's policy, if the services, materials, or supplies to be paid for were actually furnished in good faith without collusion and without intent to defraud. The commissioner may then draw a warrant to pay the claim just as properly allotted and encumbered claims are paid.

(b) The commissioner may approve payment for materials and supplies in excess of the obligation amount when increases are authorized by section 16C.03, subdivision 3.

(c) To minimize potential construction delay claims, an agency with a project funded by a building appropriation may allow a contractor to proceed with supplemental work within the limits of the appropriation before money is encumbered. Under this circumstance, the agency may requisition funds and allow contractors to expeditiously proceed with a construction sequence. While the contractor is proceeding, the agency shall immediately act to encumber the required funds.

Subd. 4. **Periodic allotment.** In the case of appropriations made for permanent improvements, including acquisition of real property, which appropriations do not lapse until the purposes of the appropriations are accomplished or abandoned, the commissioner may dispense with periodic allotments and shall make rules to ensure the proper application and encumbrance of funds.

16A.151 PROCEEDS OF LITIGATION OR SETTLEMENT.

Subdivision 1. **State funds; general fund.** (a) This subdivision applies, notwithstanding any law to the contrary, except as provided in subdivision 2.

(b) A state official may not commence, pursue, or settle litigation, or settle a matter that could have resulted in litigation, in a manner that would result in money being distributed to a person or entity other than the state.

(c) Money recovered by a state official in litigation or in settlement of a matter that could have resulted in litigation is state money and must be deposited in the general fund.

Subd. 2. **Exceptions.** (a) If a state official litigates or settles a matter on behalf of specific injured persons or entities, this section does not prohibit distribution of money to the specific injured persons or entities on whose behalf the litigation or settlement efforts were initiated. If money recovered on behalf of injured persons or entities cannot reasonably be distributed to those persons or entities because they cannot readily be located or identified or because the cost of distributing the money would outweigh the benefit to the persons or entities, the money must be paid into the general fund.

(b) Money recovered on behalf of a fund in the state treasury other than the general fund may be deposited in that fund.

(c) This section does not prohibit a state official from distributing money to a person or entity other than the state in litigation or potential litigation in which the state is a defendant or potential defendant.

(d) State agencies may accept funds as directed by a federal court for any restitution or monetary penalty under United States Code, title 18, section 3663(a)(3) or United States Code, title 18, section 3663A(a)(3). Funds received must be deposited in a special revenue account and are appropriated to the commissioner of the agency for the purpose as directed by the federal court.

(e) Subdivision 1 does not apply to a recovery or settlement of less than \$750,000.

Subd. 3. **Definitions.** For purposes of this section:

(1) "litigation" includes civil, criminal, and administrative actions;

(2) "money recovered" includes actual damages, punitive or exemplary damages, statutory damages, and civil and criminal penalties; and

(3) "state official" means the attorney general, another constitutional officer, an agency, or an agency employee, acting in official capacity.

16A.152 BUDGET RESERVE AND CASH FLOW ACCOUNTS.

Subdivision 1. **Cash flow account established.** A cash flow account is created in the general fund in the state treasury. Amounts in the cash flow account shall remain in the account until drawn down and used to meet cash flow deficiencies resulting from uneven distribution of revenue collections and required expenditures during a fiscal year.

Subd. 1a. **Budget reserve.** A budget reserve account is created in the general fund in the state treasury. The commissioner of finance shall transfer to the budget reserve account on July 1 of each odd-numbered year any amounts specifically appropriated by law to the budget reserve.

Subd. 1b. **Budget reserve increase.** On July 1, 2003, the commissioner of finance shall transfer \$300,000,000 to the budget reserve account in the general fund. On July 1, 2004, the commissioner of finance shall transfer \$296,000,000 to the budget reserve account in the general fund. The amounts necessary for this purpose are appropriated from the general fund.

Subd. 2. **Additional revenues; priority.** (a) If on the basis of a forecast of general fund revenues and expenditures, the commissioner of finance determines that there will be a positive unrestricted budgetary general fund balance at the close of the biennium, the commissioner of finance must allocate money to the following accounts and purposes in priority order:

(1) the cash flow account established in subdivision 1 until that account reaches \$350,000,000;

(2) the budget reserve account established in subdivision 1a until that account reaches \$653,000,000;

(3) the amount necessary to increase the aid payment schedule for school district aids and credits payments in section 127A.45 to not more than 90 percent rounded to the nearest tenth of a percent without exceeding the amount available and with any remaining funds deposited in the budget reserve; and

(4) the amount necessary to restore all or a portion of the net aid reductions under section 127A.441 and to reduce the property tax revenue recognition shift under section 123B.75, subdivision 5, paragraph (c), and Laws 2003, First Special Session chapter 9, article 5, section 34, as amended by Laws 2003, First Special Session chapter 23, section 20, by the same amount.

(b) The amounts necessary to meet the requirements of this section are appropriated from the general fund within two weeks after the forecast is released or, in the case of transfers under paragraph (a), clauses (3) and (4), as necessary to meet the appropriations schedules otherwise established in statute.

(c) To the extent that a positive unrestricted budgetary general fund balance is projected, appropriations under this section must be made before section 16A.1522 takes effect.

(d) The commissioner of finance shall certify the total dollar amount of the reductions under paragraph (a), clauses (3) and (4), to the commissioner of education. The commissioner of education shall increase the aid payment percentage and reduce the property tax shift percentage by these amounts and apply those reductions to the current fiscal year and thereafter.

Subd. 3. **Use.** The use of the budget reserve should be governed by principles based on the full economic cycle rather than the budget cycle. The budget reserve may be used when a negative budgetary balance is projected and when objective measures, such as reduced growth in total wages, retail sales, or employment, reflect downturns in the state's economy.

Subd. 4. **Reduction.** (a) If the commissioner determines that probable receipts for the general fund will be less than anticipated, and that the amount available for the remainder of the biennium will be less than needed, the commissioner shall, with the approval of the governor, and after consulting the Legislative Advisory Commission, reduce the amount in the budget reserve account as needed to balance expenditures with revenue.

(b) An additional deficit shall, with the approval of the governor, and after consulting the legislative advisory commission, be made up by reducing unexpended allotments of any prior appropriation or transfer. Notwithstanding any other law to the contrary, the commissioner is empowered to defer or suspend prior statutorily created obligations which would prevent effecting such reductions.

(c) If the commissioner determines that probable receipts for any other fund, appropriation, or item will be less than anticipated, and that the amount available for the remainder of the term of the appropriation or for any allotment period will be less than needed, the commissioner shall notify the agency concerned and then reduce the amount allotted or to be allotted so as to prevent a deficit.

(d) In reducing allotments, the commissioner may consider other sources of revenue available to recipients of state appropriations and may apply allotment reductions based on all sources of revenue available.

(e) In like manner, the commissioner shall reduce allotments to an agency by the amount of any saving that can be made over previous spending plans through a reduction in prices or other cause.

Subd. 5. **Restoration.** The restoration of the budget reserve should be governed by principles based on the full economic cycle rather than the budget cycle. Restoration of the budget reserve should occur when objective measures, such as increased growth in total wages, retail sales, or employment, reflect upturns in the state's economy. The budget reserve should be restored before new or increased spending commitments are made.

Subd. 6. **Notice to committees.** The commissioner shall notify the committees on finance and taxes and tax laws of the senate and the committees on ways and means and taxes of the house of representatives of a reduction in an allotment under this section. The notice must be in writing and delivered within 15 days of the commissioner's act. The notice must specify:

- (1) the amount of the reduction in the allotment;
- (2) the agency and programs affected;
- (3) the amount of any payment withheld; and
- (4) any additional information the commissioner determines is appropriate.

Subd. 7. **Delay; reduction.** The commissioner may delay paying up to 15 percent of an appropriation to a special taxing district or a system of higher education in that entity's fiscal year for up to 60 days after the start of its next fiscal year. The delayed amount is subject to allotment reduction under subdivision 4.

16A.1522 REBATE REQUIREMENTS.

Subdivision 1. **Forecast.** If, on the basis of a forecast of general fund revenues and expenditures in November of an even-numbered year or February of an odd-numbered year, the commissioner projects a positive unrestricted budgetary general fund balance at the close of the biennium that exceeds one-half of one percent of total general fund biennial revenues, the commissioner shall designate the entire balance as available for rebate to the taxpayers of this state.

Subd. 2. **Plan.** If the commissioner designates an amount for rebate in either forecast, the governor shall present a plan to the legislature for rebating that amount. The plan must provide for payments to begin no later than August 15 of the odd-numbered year. By April 15 of each odd-numbered year, the legislature shall enact, modify, or reject the plan presented by the governor.

Subd. 3. **Certification.** By July 15 of each odd-numbered year, based on a preliminary analysis of the general fund balance at the end of the fiscal year June 30, the commissioner of finance shall certify to the commissioner of revenue the amount available for rebate.

Subd. 4. **Transfer to tax relief account.** Any positive unrestricted budgetary general fund balance on June 30 of an odd-numbered year is appropriated to the commissioner for transfer to the tax relief account.

Subd. 2. [Repealed, 1976 c 231 s 34]

Subd. 3. **Equal payments.** The commissioner may adjust the salary of an employee to provide equal payments through the year and to make use of modern accounting in preparing the payroll. Adjusted salaries must be based on a year of 2088 working hours. Fractions may be dropped or added in order to permit equal payments even if the salary is then slightly changed.

Subd. 4. **Allocations.** The commissioner shall set procedures for allocating and encumbering equal salary payments when a payroll period extends beyond the end of the fiscal year.

Subd. 4a. **Application.** Subdivision 4 applies to salaries of state officers and employees payable in equal payments throughout the year notwithstanding any other provision in Minnesota Statutes. No provision of any subsequent law relating to the budget, allotment, and encumbrance system or to appropriations for the payment of salaries of state officers and employees shall be construed as inconsistent with this subdivision except as expressly provided in the subsequent act that subdivision 4 does not apply or is superseded, modified, amended, or repealed.

Subd. 5. **Payroll duties.** When the department prepares the payroll for an agency, the commissioner assumes the agency head's duties to make authorized or required deductions from, or employer contributions on, the pay of the agency's employees and to prepare and issue the necessary warrants.

Subd. 5a. **Voluntary deductions.** The commissioner may require an employee making a voluntary deduction and the recipient of the deduction to provide information on the amount of or a change in the amount of the deduction. The employee making a voluntary deduction must sign and send the deduction instructions to the intended recipient of the deduction. The intended recipient shall forward the original signed instruction and other required information to the employee's payroll preparer.

Subd. 6. **Branch payrolls.** The commissioner shall prepare the payroll for the executive branch. Upon request of the Rules Committee of the senate or house of representatives or the Supreme Court, as appropriate, the commissioner shall prepare the payrolls of the legislative and judicial branches in a similar way.

Subd. 7. **Certify hours.** The commissioner may authorize an official to certify the hours worked for payroll purposes in anticipation of the hours actually worked.

Subd. 8. MS 1974 [Repealed, 1975 c 273 s 3]

Subd. 8. **Exceptions.** The commissioner shall prescribe procedures to assure payment is made only for hours worked except:

- (1) for leave under a collective bargaining agreement;
- (2) for leave under a plan according to section 43A.18 or the rules of the Department of Employee Relations; or
- (3) to resolve a formal employee grievance permitted by law or collective bargaining agreement.

Subd. 8a. **Overpayment.** The head of an agency shall release to the commissioner money held for an employee when the commissioner certifies to the head that the money is required to correct an overpayment to an employee. An employee's contribution to a retirement fund may not be released until the person otherwise entitled to the employee's retirement account has been notified of the release certification and is eligible to apply for a refund. Released funds are the equivalent of a refund. Funds may not be released if the employee or a survivor is entitled to an immediate or deferred annuity or to a survivor's benefit.

Subd. 9. **Agencies share.** If a direct appropriation for payroll preparation is made, the commissioner shall bill an agency for its share of payroll costs. The billing shall be done through the indirect cost billing system. Money collected must be deposited in the general fund.

Subd. 10. **Direct deposit.** Notwithstanding section 177.23, the commissioner may require direct deposit for all state employees who are being paid by the state payroll system.

Subd. 2. **Use of carryforward.** No money shall be carried forward without the approval of the commissioner of finance.

Subd. 3. **Lapse.** Any portion of any appropriation not carried forward and remaining unexpended and unencumbered at the close of a fiscal year lapses to the fund from which it was originally appropriated. Any appropriation amounts not carried forward and remaining unexpended and unencumbered at the close of a biennium lapse to the fund from which the appropriation was made.

Subd. 4. **Reinstatement; final lapse.** The commissioner may reinstate a lapsed appropriation within three months of the lapse. A reinstated appropriation lapses again no later than three months after it first lapsed. A payment under a reinstated appropriation may be made only under section 16A.15, subdivision 3.

Subd. 5. **Permanent improvements.** An appropriation to acquire or better public land or buildings or other public improvements of a capital nature, including the acquisition of real property does not lapse until the purposes of the appropriation are determined by the commissioner, after consultation with the affected agencies, to be accomplished or abandoned. Encumbrances for grants issued by June 30 may be certified for a period of one year beyond the year in which the funds were originally appropriated. Services rendered under grant contracts may occur during the certification period. The commissioner may reinstate the part of the cancellation needed to meet the certified encumbrance or charge the certified encumbrance against the current year's appropriation.

Subd. 7. **Exceptions.** Except as otherwise expressly provided by law, subdivisions 1 to 6 apply to every appropriation of a stated sum for a specified purpose or purposes heretofore or hereafter made, but do not, unless expressly provided by law, apply to any fund or balance of a fund derived wholly or partly from special taxes, fees, earnings, fines, federal grants, or other sources that are by law appropriated for special purposes by standing, continuing, or revolving appropriations.

Subd. 8. **Historical Society.** Except as provided by law, an appropriation made to the Minnesota Historical Society, if not spent during the first year, may be spent during the second year of a biennium. An unexpended balance remaining at the end of a biennium lapses and shall be returned to the fund from which appropriated. An appropriation made to the society for all or part of a biennium may be spent in either year of the biennium.

An unexpended balance not carried forward and remaining unexpended and unencumbered at the end of a biennium lapses and shall be returned to the fund from which appropriated. Balances may be carried forward into the next biennium and credited to special accounts to be used only as follows: (1) for nonrecurring expenditures on investments that enhance efficiency or improve effectiveness; (2) to pay expenses associated with sessions, interim activities, public hearings, or other public outreach efforts and related activities; and (3) to pay severance costs of involuntary terminations. 16A.36 GRANTS FROM AND ADVANCES TO UNITED STATES.

Subdivision 1. Use of grants. Money received by the state from the federal government as federal assistance must be used only for the purpose for which the money is received. If required by the proper federal authorities, interest or income arising from the money received may be credited by the commissioner to the particular account for which the money is received and used only for the purpose of that federal assistance program, or may be repaid to the federal treasury. If not so required, the interest or income shall be credited to the general fund or to another fund authorized to receive the interest or income.

Subd. 2. Reciprocal interest policy. The commissioner may, if required by the federal government or by agreement with the proper federal authorities, establish an equitable policy

providing for the state to pay interest on undisbursed federal money, and providing for the federal government to pay interest to the state on state funds advanced for a federal assistance program. The amount needed to pay the interest is appropriated from the general fund or another fund earning the interest on undisbursed federal money. The interest received from the federal government shall be deposited in the fund that lost interest on state funds advanced for a federal assistance program.

The claim must be sent to the commissioner accompanied by a transmittal form as prescribed by the commissioner.

Subd. 1a. **Exception to certification.** When a claim against the state is made by a county, municipality, or other governmental subdivision, under an agreement with the commissioner of transportation, and that agreement provides for payment of the state's contractual obligations before commencing the work, certification that the services have been performed or that the goods or materials have been furnished is not required as a prerequisite to payment of the claim.

16A.626 ELECTRONIC PAYMENTS.

(a) For purposes of this section, the terms defined in this paragraph have the meaning given them. "Agency" means a state officer, employee, board, commission, authority, department, entity, or organization of the executive branch of state government. "Government services transaction" means the conduct of business between an agency and an individual or business entity where the individual or business entity is paying a license or permit fee or tax or purchasing goods or services.

(b) Notwithstanding any other provision of law, rule, or regulation to the contrary, an agency may accept credit cards, charge cards, debit cards, or other method of electronic funds transfer for payment in government services transactions, including electronic transactions.

(c) The commissioner of finance shall contract with one or more entities for the purpose of enabling agencies to accept and process credit cards and other electronic financial transactions. All agencies shall process their credit card and other electronic financial transactions through the contracts negotiated by the commissioner of finance, unless the commissioner of finance grants a waiver allowing an agency to negotiate its own contract with an entity. These contracts must be approved by the commissioner of finance.

(d) Agencies that accept credit cards, charge cards, debit cards, or other method of electronic funds transfer for payment may impose a convenience fee to be added to each transaction, except that the Department of Revenue shall not impose a fee under this section on any payment of tax that is required by law or rule to be made by electronic funds transfer. The total amount of such convenience fee must be equal to the transaction fee charged by a processing contractor for such credit services during the most recent collection period. An agency imposing a convenience fee must notify the person using the credit services of the fee before the transaction is processed. Fees collected under this section are appropriated to the agency collecting the fee for purposes of paying the processing contractor.

(e) A convenience fee imposed by an agency under this section is in addition to any tax, fee, charge, or cost otherwise imposed for a license, permit, tax, service, or good provided by the agency.

(f) Credit card, charge card, debit card, or other method of electronic funds transfer account numbers are nonpublic data not on individuals as defined in section 13.02, subdivision 9, or private data on individuals as defined in section 13.02, subdivision 12.

16A.631 BOND PROCEEDS FUND.

The bond proceeds fund is established to receive the proceeds of state bonds issued under the Constitution, article XI, section 5, clause (a). The commissioner shall establish in the fund accounts having titles that reflect the state purpose or program for which the bond proceeds are appropriated and authorized to be expended.

History: 1984 c 597 s 33; 1Sp1986 c 3 art 1 s 4; 1989 c 271 s 4; 1990 c 610 art 1 s 33

16A.632 CAPITAL ASSET PRESERVATION AND REPLACEMENT ACCOUNT.

Subdivision 1. **Establishment.** A capital asset preservation and replacement account is established in the state bond proceeds fund established by section 16A.631, separate from any other accounts maintained in that fund, to receive state bond proceeds appropriated to the commissioner of administration to be expended for the purpose and in accordance with the standards and criteria set forth in this section.

Subd. 2. **Standards.** Article XI, section 5, clause (a), of the Constitution states general obligation bonds may be issued to finance only the acquisition or betterment of state land, buildings, and improvements of a capital nature. In interpreting this and applying it to the purposes of the program contemplated in this section, the following standards are adopted for the disbursement of money from the capital asset preservation and replacement account:

(a) No new land, buildings, or major new improvements will be acquired. These projects, including all capital expenditures required to permit their effective use for the intended purpose on completion, will be estimated and provided for individually through a direct appropriation for each project.

(b) An expenditure will be made from the account only when it is a capital expenditure on a capital asset previously owned by the state, within the meaning of accepted accounting principles as applied to public expenditures. The commissioner of administration will consult with the commissioner of finance to the extent necessary to ensure this and will furnish the commissioner of finance a list of projects to be financed from the account in order of their priority. The commissioner shall also furnish each revision of the list. The legislature assumes that many provisions for preservation and replacement of portions of existing capital assets will constitute betterments and capital improvements within the meaning of the Constitution and capital expenditures under correct accounting principles, and will be financed more efficiently and economically under the program than by direct appropriations for specific projects. However, the purpose of the program is to accumulate data showing how additional costs may be saved by appropriating money from the general fund for preservation measures, the necessity of which is predictable over short periods.

(c) The commissioner of administration will furnish instructions to agencies to apply for funding of capital expenditures for preservation and replacement from the account, will review applications, will make initial allocations among types of eligible projects enumerated below, will determine priorities, and will allocate money in priority order until the available appropriation has been committed.

(d) Categories of projects considered likely to be most needed and appropriate for financing are the following:

(1) unanticipated emergencies of all kinds, for which a relatively small amount should be initially reserved, replaced from money allocated to low-priority projects, if possible, as emergencies occur, and used for stabilization rather than replacement if the cost would exhaust the account and should be specially appropriated;

(2) projects to remove life safety hazards, like replacement of mechanical systems, building code violations, or structural defects, at costs not large enough to require major capital requests to the legislature;

(3) elimination or containment of hazardous substances like asbestos or PCBs;

(4) moderate cost replacement and repair of roofs, windows, tuckpointing, and structural members necessary to preserve the exterior and interior of existing buildings; and

(5) up to ten percent of an appropriation awarded under this section may be used for design costs for projects eligible to be funded from this account in anticipation of future funding from the account.

Subd. 3. **Criteria for priority.** Criteria can be stated only in general terms, as it is the purpose of the program to improve the allocation of limited amounts of borrowed money by enlisting the engineering expertise of the Department of Administration and the closer knowledge and experience of this and all other agencies in determining relative needs as they develop. The following criteria must be considered:

(a) Urgency in ensuring the safety of use of existing buildings is the first criterion to be applied. It will require judgments, for example, about the useful life of electric and mechanical systems and roofs, in relation to the remaining useful life of each building, and about the presence of hazardous substances and structural defects in the light of present building regulations.

(b) Economy is also to be determined and may even reinforce a decision based on the first criterion, if the project would forestall a larger future capital expenditure or would reduce operating expense.

(c) Absolute cost must also be considered. It may be too high to warrant funding except by an additional appropriation, or so high as to warrant a recommendation to abandon or to replace the building. It may be so low as to permit payment out of an agency's operating budget.

Subd. 4. **Report.** By January 15 of each year the commissioner of administration, with respect to each state agency, shall submit to the commissioner of finance, the chairs of the finance divisions that oversee the appropriations to that state agency, and to the chairs of the senate Finance Committee and the house of representatives Capital Investment Committee, a list of the projects in the agency that have been funded with money from the capital asset preservation and replacement account during the preceding calendar year, as well as a list of those priority projects for which CAPRA appropriations will be sought for the agency in that year's legislative session.

16A.633 CAPITAL FUNDING CONTINGENT ON MAINTAINING DATA.

Subdivision 1. **State agencies.** Each state agency shall provide to the commissioner of administration the data necessary for the commissioner to maintain the department's database on the location, description, and condition of state-owned facilities. The data must be provided by September 1 each year. The commissioner of administration must maintain both the current inventory data and historical data. A state agency is not eligible to receive capital funding unless the agency has provided the data required.

Subd. 2. **Minnesota State Colleges and Universities.** The Board of Trustees of the Minnesota State Colleges and Universities shall establish and maintain data on the location, description, and condition of board-owned facilities that is comparable with the database established by the Department of Administration. The data must be updated annually and the board must maintain both current inventory data and historical data. The board is not eligible to receive capital funding unless the board has established and maintains the data required.

Subd. 3. **University of Minnesota.** The Board of Regents of the University of Minnesota is requested to establish and maintain data on the location, description, and condition of university-owned facilities that is comparable with the database established by the Department of Administration. The university is requested to update the data annually and maintain both current inventory data and historical data. The Board of Regents is not eligible to receive capital funding unless the board has established and maintains the data required.

16A.641 STATE BONDS; APPROPRIATIONS.

Subdivision 1. **Authority.** When authorized by a law enacted in accordance with the Constitution, article XI, sections 5 and 7, the commissioner shall sell and issue general obligation bonds of the state evidencing public debt incurred for any purpose stated in those sections. The full faith, credit, and taxing powers of the state are irrevocably pledged for the prompt and full payment of the bonds and interest. The decision of the commissioner on when to sell bonds must be based on the funding needs of the capital projects, the timing of the bond issue to achieve favorable interest rates, managing cash flow requirements for debt service, other state debt management considerations, and legal factors.

Subd. 2. **Report.** Before a sale of general obligation bonds, the commissioner shall report the amount of bonds to be issued and a detailed list of the projects or a statement of the program to be financed to the chairs of the house Ways and Means and Tax Committees and of the senate Finance and Tax Committees, and the minority leaders of the house and senate, for their advisory recommendation. The recommendation is positive if not received within ten days.

Subd. 3. **Series of bonds.** Bonds authorized by a law may be issued in more than one series, and bonds authorized by more than one law may be combined in a single series, as determined by order of the commissioner. The order must state the principal amount of the bonds to be issued under each law, and the aggregate principal amount and the maturity dates and amounts of the bonds included in the series that are to be issued for the purpose of each special fund.

At any time during the 18 months following the issuance of any series of bonds, the commissioner may, by amendment to the order authorizing their issuance, determine that any portion of the bonds were issued, or shall be deemed to have been issued, pursuant to a law other than the one specified in the original order and for a different purpose, and reallocate and transfer their proceeds to the appropriate account in the bond proceeds fund or the appropriate special fund, for expenditure pursuant to the law pursuant to which the amendment determines they were issued. No such amendment shall be adopted unless:

(1) on the date of the original order, the bonds could have been issued and their proceeds expended as determined in the amended order;

(2) all actions required for the issuance of the transferred bonds have been taken on or before the date of the amendment; and

(3) the commissioner determines upon advice of counsel that the taxability of the interest on the bonds for federal income tax purposes will not be affected by the amendment.

Subd. 4. **Sale and issuance.** State bonds must be sold and issued upon competitive bids in the manner and on the terms and conditions determined by the commissioner in accordance with the laws authorizing them and subject to the approval of the attorney general, but not subject to chapter 14, including section 14.386. For each series, in addition to provisions required by subdivision 3, the commissioner may determine:

(1) the time, place, and notice of sale and method of comparing bids;

(2) the price, not less than par for highway bonds;

(3) the principal amount and date of issue;

(4) the interest rates and payment dates;

(5) the maturity amounts and dates, not more than 20 years from the date of issue, subject to subdivision 5;

(6) the terms, if any, on which the bonds may or must be redeemed before maturity, including notice, times, and redemption prices; and

(7) the form of the bonds and the method of execution, delivery, payment, registration, conversion, and exchange, in accordance with section 16A.672.

Subd. 5. **Planning maturities.** In issuing each series of state bonds the commissioner shall try to establish the maturities and other terms so that transfers to the state bond fund required in each year of the then current biennium under subdivision 10 may be made with

the least practical effect on orderly spending plans for other appropriations from the general fund.

Subd. 6. Taxability; certification. The commissioner shall ascertain from state records and certify to the holders of each series of state bonds, subject to the approval of the attorney general, that all conditions exist and all actions have been taken that are needed to make the bonds valid and binding general obligations of the state in accordance with their terms.

The bonds may be issued with or without regard to whether the interest to be paid on them is includable in gross income for federal tax purposes. If it is intended that the interest on the bonds be exempt from federal income taxes, the commissioner shall certify for the state on the date of issue the facts, estimates, and circumstances that lead the commissioner reasonably to expect that the proceeds of the bonds and the projects financed by them will not be used in a way that would cause the interest on the bonds to be subject to federal income taxes. The commissioner may covenant with the holders of the bonds that the state will comply with the provisions of the United States Internal Revenue Code then or later enacted that apply or may apply to the bonds and that establish conditions under which the interest to be paid on the bonds will not be subject to federal income taxes. The commissioner and all other state officers shall act or refrain from acting as necessary to comply with the covenants. A sum sufficient to meet the cost of compliance is annually appropriated to the commissioner from the general fund.

Subd. 7. Credit of proceeds. (a) Proceeds of bonds issued under each law must be credited by the commissioner to a special fund, as provided in this subdivision.

(b) Accrued interest and any premium received on sale of the bonds must be credited to the state bond fund created by the Constitution, article XI, section 7.

(c) Except as otherwise provided by law, proceeds of state bonds issued under the Constitution, article XI, section 5, clause (a), must be credited to the bond proceeds fund established by section 16A.631.

(d) Proceeds of state highway bonds must be credited to the trunk highway fund under the Constitution, article XIV, section 6.

(e) Proceeds of bonds issued for programs of grants or loans to political subdivisions must be credited to special accounts in the bond proceeds fund or to special funds established by laws stating the purposes of the grants or loans, and the standards and criteria under which an executive agency is authorized to make them.

(f) Proceeds of refunding bonds must be credited to the state bond fund as provided in section 16A.66, subdivision 1.

(g) Proceeds of other bonds must be credited as provided in the law authorizing their issuance.

Subd. 8. Appropriation of proceeds. (a) The proceeds of bonds issued under each law are appropriated for the purposes described in the law and in this subdivision. This appropriation may never be canceled.

(b) Before the proceeds are received in the proper special fund, the commissioner may transfer to that fund from the general fund amounts not exceeding the expected proceeds from the next bond sale. The commissioner shall return these amounts to the general fund by transferring proceeds when received. The amounts of these transfers are appropriated from the general fund and from the bond proceeds.

(c) Actual and necessary travel and subsistence expenses of employees and all other nonsalary expenses incidental to the sale, printing, execution, and delivery of bonds must be paid from the proceeds. The proceeds are appropriated for this purpose. Bond proceeds must not be used to pay any part of the salary of a state employee involved in the sale, printing, execution, or delivery of the bonds.

(d) Bond proceeds remaining in a special fund after the purposes for which the bonds were issued are accomplished or abandoned, as certified by the head of the agency administering the special fund, or as determined by the commissioner, unless devoted under the ap-

propriation act to another purpose designated in the act, must be transferred to the state bond fund.

(e) Before the proceeds of state highway bonds are received in the trunk highway fund, the commissioner may either:

(1) transfer funds to the trunk highway fund from the general fund; or

(2) authorize the use of funds in the trunk highway fund, in an amount not exceeding the expected proceeds from the next state highway bond sale.

These funds must be used in accordance with the legislative authorization to sell state highway bonds. The commissioner shall return these funds to the general fund or replace the funds used from the trunk highway fund by transferring proceeds when received. The amounts of these transfers are appropriated from the general fund and from the state highway bond proceeds.

Subd. 9. Special accounts; appropriation. (a) The commissioner shall establish separate accounts in the state bond fund for:

(1) state building bonds, and for other state bonds issued for each program of grants to political subdivisions for a particular class of capital expenditures, to record debt service payments and receipts of amounts appropriated from the general fund under subdivision 10;

(2) state highway bonds, to record debt service payments, receipts of amounts appropriated for debt service from the trunk highway fund pursuant to the Constitution, article XIV, section 6, and additional receipts, if any, of amounts appropriated from the general fund under subdivision 10;

(3) state bonds issued for each capital loan and for each program of capital loans to agencies or political subdivisions, to record debt service payments, receipts of loan repayments appropriated for debt service or reimbursement of debt service by the law authorizing the loan or program, and any additional receipts of amounts appropriated from the general fund under subdivision 10; and

(4) refunding bonds, as provided in section 16A.66, subdivision 1.

(b) All money credited, transferred, or appropriated to the state bond fund and all income from the investment of that money is appropriated to the commissioner for the payment of principal and interest on state bonds.

Subd. 10. Appropriation from general fund. There is annually appropriated to the state bond fund from the general fund the amount that, added to the amount in the state bond fund on November 1 each year for state bonds issued by January 1, 1985, and the amount that added to the amount in the state bond fund on December 1 each year for state bonds issued after January 1, 1985, is needed to pay the principal of and interest on all state bonds due and to become due through July 1 in the second ensuing year. The money appropriated must be available in the state bond fund each year before the tax otherwise required by the Constitution, article XI, section 7, is levied.

Subd. 11. Constitutional tax levy. Under the Constitution, article XI, section 7, the state auditor must levy each year on all taxable property within the state a tax sufficient, with the amount then on hand in the state bond fund, to pay all principal and interest on state bonds due and to become due to and including July 1 in the second ensuing year. The tax is not subject to limitation of rate or amount. However, the amount of money appropriated from other sources as provided in subdivision 10, and actually received and on hand prior to the levy in any year, reduces the amount of the tax otherwise required to be levied. The proceeds of the tax must be credited to the state bond fund.

Subd. 12. Supplemental appropriation from general fund. If the proceeds of the tax levied under subdivision 11 are ever insufficient to make the principal and interest payments on state bonds when due, the balance must be paid out of the general fund. The amount needed to pay the balance is appropriated from the general fund to the commissioner.

Subd. 13. Application. This section applies to all state bonds issued after January 1, 1985, notwithstanding other laws relating to specific bonding programs.

16A.642 STATE BONDS: REPORTS; CANCELLATIONS.

Subdivision 1. **Reports.** (a) The commissioner of finance shall report to the chairs of the senate Committee on Finance and the house of representatives Committees on Ways and Means and on Capital Investment by January 1 of each odd-numbered year on the following:

(1) all laws authorizing the issuance of state bonds or appropriating general fund money for state or local government capital investment projects enacted more than four years before January 1 of that odd-numbered year; the projects authorized to be acquired and constructed for which less than 100 percent of the authorized total cost has been expended, encumbered, or otherwise obligated; the cost of contracts to be let in accordance with existing plans and specifications shall be considered expended for this report; and the amount of general fund money appropriated but not spent or otherwise obligated, and the amount of bonds not issued and bond proceeds held but not previously expended, encumbered, or otherwise obligated for these projects; and

(2) all laws authorizing the issuance of state bonds or appropriating general fund money for state or local government capital programs or projects other than those described in clause (1), enacted more than four years before January 1 of that odd-numbered year; and the amount of general fund money appropriated but not spent or otherwise obligated, and the amount of bonds not issued and bond proceeds held but not previously expended, encumbered, or otherwise obligated for these programs and projects.

(b) The commissioner shall also report on general fund appropriations for capital projects, bond authorizations or bond proceed balances that may be canceled because projects have been canceled, completed, or otherwise concluded, or because the purposes for which the money was appropriated or bonds were authorized or issued have been canceled, completed, or otherwise concluded. The general fund appropriations, bond authorizations or bond proceed balances that are unencumbered or otherwise not obligated that are reported by the commissioner under this subdivision are canceled, effective July 1 of the year of the report, unless specifically reauthorized by act of the legislature.

Subd. 2. **Cancellation.** If the commissioner determines that the purposes for which general obligation bonds of the state have been issued or for which general fund monies were appropriated are accomplished or abandoned, after consultation with the affected agencies, and there is a remaining authorization or appropriation for a specific project of \$500 or less, the commissioner may cancel the remaining authorization or appropriation for that project. The commissioner must notify the chairs of the senate Finance Committee and the house Capital Investment Committee of any bond authorizations or general fund appropriations canceled under this subdivision.

Subd. 3. **Application of unused bond proceeds.** All canceled bond proceeds shall be transferred to the state bond fund and used to pay or redeem bonds from which they were derived.

Subd. 4. **General fund cancellations.** All canceled general fund appropriations for capital improvement projects under this section are canceled to the general fund.

16A.643 ASSESSMENTS IF AGENCY MUST PAY DEBT SERVICE.

Subdivision 1. **When payment required.** The commissioner of finance shall assess each board, agency, or other public entity, other than the higher education systems described in Laws 1992, chapter 558, section 31, for the amount that would otherwise need to be paid for debt service with respect to general obligation bonds sold to finance capital improvement

projects for the entity if the law authorizing the project requires debt service for the project to be paid by the agency.

Subd. 2. **Method of payment.** After each sale of state general obligation bonds, the commissioner of finance shall notify the entity of the amounts for which the entity is responsible under subdivision 1 for each year for the life of the bonds. Each entity shall pay its assessment of debt service payments to the commissioner of finance by December 1 each year. If an entity fails to make an assessment payment when due, the commissioner of finance shall reduce allotments for appropriations from the appropriate accounts to be used by the entity to pay the assessment payment and apply the amount of the reduction to cover the missed payment. The commissioner of finance shall credit the payments received from the entities, or the amount of the reduction made, to the bond debt service account in the state bond fund each December 1 before money is transferred from the general fund under section 16A.641, subdivision 10.

History: 1992 c 558 s 32

16A.645 GOPHER STATE BONDS.

Subdivision 1. **Establishment of program.** The commissioner of finance, in consultation with the University of Minnesota, the Minnesota State Colleges and Universities, and the Private College Council, shall establish a college savings bond program, to be known as "gopher state bonds" to encourage individuals to save for higher education costs by investing in state general obligation bonds. The program consists of: (1) issuing a portion of the state general obligation bonds in zero coupon form and in denominations and maturities that will be attractive to individuals saving to pay for higher education costs; and (2) developing a program for marketing the bonds to investors who are saving to pay for higher education costs. The commissioner of finance may designate all or a portion of each state general obligation bond sale as "gopher state bonds."

Subd. 2. **Denominations; maturities.** The commissioner shall determine the appropriate denominations and maturities for gopher state bonds. It is the intent of the legislature to make bonds available in as small denominations as is feasible given the costs of marketing and administering the bond issue. Minimum denominations of \$500 must be made available. The minimum denomination bonds need not be made available for bonds of all maturities. For purposes of this section, "denomination" means the compounded maturity amount of the bond.

Subd. 3. **Direct sale permitted.** Notwithstanding the provisions of section 16A.646, subdivision 5, the commissioner may sell any series of gopher state bonds directly to the public or to financial institutions for prompt resale to the public upon the terms and conditions and the restrictions the commissioner prescribes. The commissioner may enter into all contracts deemed necessary or desirable to accomplish the sale in a cost-effective manner including a private or negotiated sale, but the commissioner may contract for investment banking and banking services only after receiving competitive proposals for the services.

Subd. 4. **Marketing plan.** The commissioner and the Higher Education Advisory Council shall develop a plan for marketing gopher state bonds.

The plan must include strategies to:

- (1) inform parents and relatives about the availability of the bonds;
- (2) take orders for the bonds;
- (3) target the sale of the bonds to Minnesota residents, especially parents and relatives of children who are likely to seek higher education;
- (4) ensure that purchase of the bonds by corporations will not prevent individuals and relatives of future students from buying them; and
- (5) market the bonds at the lowest cost to the state.

Subd. 5. **Effect on student grants.** The first \$25,000 of gopher state bonds purchased for the benefit of a student must not be considered in determining the financial need of an

MINNESOTA STATUTES 2006

applicant for the state grant program under section 136A.121. This \$25,000 is in addition to any other asset exclusion authorized under chapter 136A.

16A.646 ZERO COUPON BONDS.

Subdivision 1. **Authority to issue.** When authorized by law to issue state general obligation bonds, the commissioner may issue all or part of the bonds as serial maturity bonds or as zero coupon bonds or a combination of the two.

Subd. 2. **Definitions.** For purposes of this section and section 16A.645, the following terms have the meanings given them.

(a) "Compounded maturity" means the amount of principal and interest payable at maturity on zero coupon bonds.

(b) "Serial maturity bonds" means bonds maturing on a specified day in two or more consecutive years and bearing interest at a specified rate payable periodically to maturity or prior redemption.

(c) "Zero coupon bonds" means bonds in a stated principal amount, maturing on a specified date or dates, and bearing interest that accrues and compounds to and is payable only at maturity or upon prior redemption of the bonds.

Subd. 3. **Method of sale; principal amount.** Except as otherwise provided by this section or section 16A.645, any series of bonds including zero coupon bonds must be issued and sold under the provisions of section 16A.641. The stated principal amount of zero coupon bonds must be used to determine the principal amount of bonds issued under the laws authorizing issuance of state general obligation bonds.

Subd. 4. **Sinking fund.** The commissioner's order authorizing the issuance of zero coupon bonds shall establish a separate sinking fund account for the zero coupon bonds in the state bond fund. There is annually appropriated from the general fund to each zero coupon bond account, beginning in the year in which the zero coupon bonds are issued, an amount not less than the sum of:

(1) the total stated principal amount of the zero coupon bonds that would have matured from their date of issue to and including the second July 1 following the transfer of appropriated money, if the bonds matured serially in an equal principal amount in each year during their term and in the same month as their stated maturity date; plus

(2) the total amount of interest accruing on the stated principal amount of the bonds and on interest previously accrued, from bonds date of issue to and including the second July 1 following the transfer of appropriated money; less

(3) the amount in the sinking fund account for the payment of the compounded maturity amount of the bonds, including interest earnings on amounts in the account. This appropriation is in lieu of all other appropriations made with respect to zero coupon bonds. The appropriated amounts must be transferred from the general fund to the sinking fund account in the state bond fund by December 1 of each year.

Subd. 5. **Sale.** Except as otherwise provided in section 16A.645, zero coupon bonds, or a series of bonds including zero coupon bonds, must be sold at public sale at a price not less than 98 percent of their stated principal amount. No state trunk highway bond may be sold for a price of less than par and accrued interest.

16A.66 REFUNDING BONDS.

Subdivision 1. **Authority; reduction of tax and appropriation for refunded bonds.** The commissioner may, with the approval by resolution of the Executive Council, issue state bonds in accordance with section 16A.641 to refund any outstanding state bonds and interest on them. The proceeds of refunding bonds shall be credited to the account established within the state bond fund for the bonds to be refunded, and shall be credited only against the appropriations in section 16A.641, subdivisions 9 and 10 and the tax required by the Constitution with respect to the refunded bonds and interest.

Subd. 2. **Special provisions for sale and issuance.** Refunding bonds may be sold publicly, or directly to the State Board of Investment without bids, or may be exchanged for bonds refunded by agreement with their holders. The refunding bonds must be prepared, executed, delivered, and secured in the same way as the refunded bonds. The proceeds of refunding bonds may be deposited, invested, and applied to accomplish the refunding as provided in section 475.67, subdivisions 5 to 10. The interest rate on refunding bonds may exceed that on the refunded bonds if the purpose of refunding is to extend the maturities and to reduce the amount needed annually to pay and to secure the debt.

Subd. 3. **Appropriation.** The money needed to carry out this section is appropriated annually.

16A.661 GENERAL OBLIGATION SPECIAL TAX BONDS.

Subdivision 1. **Authority.** When authorized by law enacted in accordance with the Constitution, article XI, sections 5 and 7, the commissioner may by order sell and issue general obligation special tax bonds of the state evidencing public debt incurred for any purpose stated in the law. The bonds are payable primarily from the proceeds of special taxes appropriated to special tax bond debt service accounts established in subdivision 3 and other money on hand in that fund from time to time; however, the bonds are general obligations of the state, and the full faith and credit of the state are pledged for their payment.

Subd. 2. **Manner of issuance; maturities.** The bonds must be issued and sold in accordance with section 16A.641, except that the maturities of the bonds and the interest rates applicable to the bonds must be fixed so that the principal and interest coming due in the 1987-1989 biennium on all bonds outstanding at any time does not exceed \$46,750,000. Sections 16A.672 and 16A.675 apply to the bonds.

Subd. 3. **Establishment of debt service fund; appropriation of debt service fund money.** (a) There is established within the state bond fund a separate and special account designated as a general obligation special tax bond debt service account. There must be credited to this debt service account in each fiscal year from the tobacco tax revenue fund established in section 297F.10 an amount sufficient to increase the balance on hand in the debt service account on each December 1 to an amount equal to the full amount of principal and interest to come due on all outstanding bonds whose debt service is payable primarily from proceeds of the tax to and including the second following July 1. The money on hand in the debt service account must be used solely for the payment of the principal of, and interest on, the bonds, and is appropriated for this purpose. This appropriation does not cancel as long as any of the bonds remain outstanding.

(b) There is established within the state bond fund a separate and special account designated as a general obligation special tax bond debt service account. There must be credited to this debt service account in each fiscal year from the sports and health club sales tax revenue fund established in section 297A.94 an amount sufficient to increase the balance on hand in the debt service account on each December 1 to an amount equal to the full amount of principal and interest to come due on all outstanding bonds whose debt service is payable primarily from proceeds of the tax to and including the second following July 1. The money on hand in the debt service account must be used solely for the payment of the principal of, and interest

on, the bonds, and is appropriated for this purpose. This appropriation does not cancel as long as any of the bonds remain outstanding.

Subd. 4. **Appropriation from general fund.** There is annually appropriated to the general obligation special tax bond debt service accounts from the general fund the amount that, added to the amount in the general obligation special tax bond debt service accounts on December 1 each year, after giving effect to subdivision 3, is equal to the full amount of principal and interest to come due on all bonds to and including July 1 in the second ensuing year.

Subd. 5. **Constitutional tax levy.** Under the Constitution, article XI, section 7, the state auditor must levy each year on all taxable property within the state a tax sufficient, with the amount then on hand in the general obligation special tax bond debt service accounts, to pay all principal and interest on the bonds due and to become due to and including July 1 in the second ensuing year. The tax is not subject to limit as to rate or amount. However, the amount of money appropriated from other sources as provided in subdivisions 3 and 4, and actually received and on hand before the levy in any year, reduces the amount of the tax otherwise required to be levied. The proceeds of the tax must be credited to the appropriate general obligation special tax bond debt service account.

Subd. 6. [Repealed, 1990 c 610 art 1 s 59]

Subd. 7. **Application and appropriation of proceeds.** The proceeds of the bonds must be deposited and spent as provided in this subdivision and are appropriated for those purposes. Any accrued interest and any premium received on the sale of the bonds, and any amount of bond proceeds determined by the commissioner to be needed to pay interest payable on the bonds up to 18 months following their issuance, must be credited to the appropriate general obligation special tax bond debt service account. Except as otherwise required by law, the balance of the bond proceeds shall be credited to the bond proceeds fund and spent for the purposes specified in the law authorizing the issuance of the bonds. So much of the proceeds as is necessary must be used to pay costs incurred in issuing and selling the bonds.

16A.662 INFRASTRUCTURE DEVELOPMENT BONDS.

Subdivision 1. **Infrastructure development fund.** The infrastructure development fund is created as an account in the state treasury. The commissioner of finance shall credit to the fund income from the sources provided by law. The commissioner of finance shall from time to time certify to the State Board of Investment the assets of the fund not currently needed. The amount certified must be invested by the State Board of Investment subject to section 11A.24. Investment income and investment losses attributable to investment of fund assets must be credited to or borne by the fund.

Subd. 2. **Bonds authorized.** When authorized by law enacted in accordance with the Constitution, article XI, sections 5 and 7, the commissioner may by order sell and issue bonds of the state evidencing public debt incurred for any purpose stated in the law. The bonds are general obligations of the state, and the full faith and credit of the state are pledged for their payment.

Subd. 3. **Manner of issuance; maturities.** The bonds must be issued and sold in accordance with section 16A.641. Sections 16A.672 and 16A.675 apply to the bonds.

Subd. 4. **Establishment of debt service account; appropriation of debt service account money.** There is established within the state bond fund a separate and special account designated as the infrastructure development bond debt service account. The money on hand in the debt service account must be used solely for the payment of the principal of and interest on bonds issued under Laws 1990, chapter 610, article 1, section 30, subdivision 2, and is appropriated for this purpose. This appropriation does not cancel as long as any of the bonds remain outstanding.

Subd. 5. **Assessment to higher education systems.** (a) In order to reduce the amount otherwise required to be transferred to the state bond fund with respect to bonds heretofore or

hereafter issued under Laws 1990, chapter 610, article 1, section 30, subdivision 2, the commissioner of finance shall assess each higher education system for one-third the amount that would otherwise need to be transferred with respect to those bonds sold to finance capital improvement projects at institutions under the control of the system; provided that, to the extent that the amount to be transferred is for payment of principal and interest on bonds sold to finance life safety improvements, the commissioner must not assess the higher education systems for the transfer.

(b) After each sale of the bonds, the commissioner of finance shall notify the Board of Trustees of the Minnesota State Colleges and Universities and the regents of the University of Minnesota of the amounts for which each system is responsible for each year for the life of the bonds. The amounts payable each year are reduced by one-third of the net income from investment of those bond proceeds that must be allocated among the systems in proportion to the amount of principal and interest otherwise required to be paid by each. Each higher education system shall pay its annual share of debt service payments to the commissioner of finance by December 1 each year. If a higher education system fails to make a payment when due, the commissioner of finance shall reduce allotments for appropriations from the general fund otherwise payable to the system to cover the amount of the missed debt service payment. The commissioner of finance shall credit the payments received from the higher education systems to the infrastructure development bond debt service account in the state bond fund each December 1 before the transfer is made under subdivision 4.

Subd. 6. Appropriation from general fund. There is annually appropriated from the general fund for transfer to the infrastructure development bond debt service account the amount that, added to the amount in the infrastructure development bond debt service account on December 1 each year, after giving effect to subdivisions 4 and 5, is equal to the full amount of principal and interest to come due on all bonds to and including July 1 in the second ensuing year.

Subd. 7. Constitutional tax levy. Under the Constitution, article XI, section 7, the state auditor must levy each year on all taxable property within the state a tax sufficient, with the amount then on hand in the infrastructure development bond debt service account, to pay all principal and interest on the bonds due and to become due to and including July 1 in the second ensuing year. The tax is not subject to limit as to rate or amount. However, the amount of money appropriated from other sources as provided in subdivisions 4, 5, and 6, and actually received and on hand before the levy in any year, reduces the amount of the tax otherwise required to be levied. The proceeds of the tax must be credited to the infrastructure development bond debt service account.

Subd. 8. Application and appropriation of proceeds. The proceeds of the bonds must be deposited and spent as provided in this subdivision and are appropriated for those purposes. Any accrued interest and any premium received on the sale of the bonds must be credited to the infrastructure development bond debt service account. Except as otherwise required by law, the balance of the bond proceeds shall be credited to the infrastructure development fund and spent for the purposes specified in the law authorizing the issuance of the bonds. So much of the proceeds as is necessary must be used to pay costs incurred in issuing and selling the bonds.

16A.671 CERTIFICATES OF INDEBTEDNESS.

Subdivision 1. Authority; advisory recommendation. To ensure that cash is available when needed to pay warrants drawn on the general fund under appropriations and allotments,

the commissioner may (1) issue certificates of indebtedness in anticipation of the collection of taxes levied for and other revenues appropriated to the general fund for expenditure during each biennium; and (2) issue additional certificates to refund outstanding certificates and interest on them, under the Constitution, article XI, section 6.

Subd. 2. Advisory recommendation. Before certificates are initially sold by any of the methods authorized in subdivision 6, the commissioner shall seek the advisory recommendation of the Legislative Advisory Commission, or if there is no commission, the Executive Council, on (1) the necessity of issuing them, (2) the terms and conditions of the sale, and (3) the maximum amount to be issued and outstanding under the authorization. If the commission or council does not make a recommendation promptly, the recommendation is negative. An additional recommendation is not required for refunding outstanding certificates or for each issuance of certificates in accordance with an approved line of credit, underwriting, or placement agreement.

Subd. 3. Definitions. As used in this section, the terms defined in this subdivision have the meanings given them:

(a) "General fund" means all cash and investments from time to time received and held in the treasury, except proceeds of state bonds and amounts received and held in special or dedicated funds created by the Constitution, or by or pursuant to federal laws or regulations, or by bond or trust instruments, pension contracts, or other agreements of the state or its agencies with private persons, entered into under state law.

(b) "Maximum current cash flow requirement" means the commissioner's written estimate of the largest of the amounts by which, on a particular designated date in each month of the term for which certificates are to be issued, the sum of (1) the warrants then outstanding against the general fund plus (2) an amount equal to five percent of the actual working capital expenditures from the general fund in the preceding fiscal year, will exceed the amount of cash or cash equivalent assets held in the general fund, excluding the proceeds of the certificates to be issued.

Subd. 4. Limitations of amount. The principal amount of certificates to be issued at any time must not exceed the lesser of the following:

(1) an amount which, with interest thereon to maturity, added to the then outstanding amount of certificates not simultaneously paid and retired, will equal the then unexpended balance of all money which will be credited to the general fund during the current biennium under existing laws, as estimated by the commissioner; or

(2) the maximum current cash flow requirement.

Subd. 5. Terms. The commissioner may establish by order with the approval of the attorney general, but not subject to chapter 14, including section 14.386, the terms of each series of certificates of indebtedness including:

(1) the manner of sale under subdivision 6;

(2) the price, principal amount, and date of issue;

(3) the interest rate or rates and payment dates, or the basis of computation of a variable rate;

(4) the maturity date or dates, within the current biennium except as provided in subdivision 10;

(5) the terms, if any, of redemption before maturity;

(6) the form and method of execution, delivery, payment, registration, conversion, and exchange, under section 16A.672.

Subd. 6. Sale. Certificates of indebtedness may be sold in any of the ways listed in paragraphs (a) to (e).

(a) The commissioner may advertise for competitive bids.

(b) The commissioner may negotiate contracts with suitable banks in or out of state to establish lines of credit, for an agreed compensation. The contracts must provide that the commissioner may issue certificates of indebtedness up to a maximum outstanding amount

within an agreed period, bearing interest at a fixed or variable rate. The certificates must be subject to redemption at par plus accrued interest at any time at the commissioner's option.

(c) The commissioner may negotiate contracts with firms of underwriters that will purchase or act as agents in the placement of certificates of indebtedness issued within an agreed period, up to a maximum amount outstanding. The certificates may be sold to the underwriters or investors (1) at an agreed discount with the interest included in the face amount payable at maturity, or (2) bearing interest at a stated interest rate on the face amount, payable on one or more dates. For the further security of these certificates the commissioner may negotiate agreements for lines of credit under paragraph (b) to pay the certificates with interest to maturity, if necessary, by the issuance of new certificates under the lines of credit.

(d) The commissioner may make contracts for agreed fees with suitable banks in or out of state to authenticate, issue, pay principal and interest on, cancel, and otherwise deal as fiscal agents of the state with certificates of indebtedness issued under paragraph (a), (b), or (c).

(e) The commissioner may sell certificates of indebtedness to the State Board of Investment without advertising for bids. The board must determine that the terms are not less favorable than those available at the time for the purchase of direct obligations of the federal government or its agencies, of comparable maturities. The board may purchase the certificates with any money under its control except money in a pension fund.

Subd. 6a. Fiscal agent bank. The commissioner may enter into an agreement with a suitable bank or banks located within or outside the state to authenticate, issue, pay principal and interest on, cancel or otherwise deal with certificates of indebtedness issued pursuant to this section, for an agreed compensation.

Subd. 7. Appropriation of proceeds. The proceeds of all certificates of indebtedness must be deposited in the general fund, and shall be available for spending under any appropriation from that fund for any purpose, subject to subdivision 9.

Subd. 8. Appropriation and accounting for payment of certificates and expenses from the general fund. The amounts needed for the purposes in this subdivision are appropriated and must be paid from the general fund. These appropriations are irrevocable and shall not be canceled. They must be included in the computation of current cash flow requirements and of amounts available for allotment. The purposes of the appropriations are:

(1) payment of the principal of and interest and premium, if any, on all certificates when due;

(2) actual and necessary travel and subsistence expenses of state officers and employees and other expenses incidental to the sale or placement, printing, execution, and delivery of certificates; and

(3) costs of lines of credit.

Subd. 9. Priority of certificate payments; covenants. (a) The proceeds of certificates of indebtedness issued in whole or in part to refund outstanding certificates and interest as authorized in the Constitution are available only for that purpose until the refunded certificates and interest are paid.

(b) The commissioner may covenant by order, on behalf of the state, for the security of the holders of any certificates, to segregate cash and cash equivalent assets in a special account within the general fund in the amounts and at the times in advance of the due dates that the commissioner determines to be advisable for marketing the certificates, and to act under section 16A.152, subdivision 4, to perform the covenant. The amount in the account is available only to pay the principal of and interest and premium, if any, on the certificates referred to in the order.

Subd. 10. Covenant to refund. If cash and cash equivalent assets in the general fund in excess of the amount of outstanding warrants is not sufficient to pay any certificates of indebtedness or interest when due, the commissioner may issue refunding certificates maturing not later than December 1 in the next calendar year to pay the deficiency. With the approval of the governor, the commissioner may covenant on behalf of the state, in the order issuing any certificates, to offer refunding certificates for sale if a deficiency is expected.

Subd. 11. **Constitutional tax levy.** If cash and cash equivalent assets in the general fund in excess of the amount of outstanding warrants, on December 1 immediately following the close of a biennium, is not sufficient to pay:

- (1) all refunding certificates of indebtedness;
- (2) all other certificates outstanding at the end of the biennium and not refunded; and
- (3) all interest accrued on the certificates referred to in clauses (1) and (2);

the state auditor shall levy upon all taxable property in the state the tax required by the Constitution, article XI, section 6, collectible in the next calendar year and sufficient to pay all amounts described in clauses (1), (2), and (3) on or before December 1 in the collection year with interest to the date or dates of payment.

16A.672 BONDS AND CERTIFICATES OF INDEBTEDNESS.

Subdivision 1. **Authority.** The commissioner may issue, execute, deliver, register, and pay bonds and certificates of indebtedness in the form and manner provided in this section, when authorized under section 16A.641 or 16A.671.

Subd. 2. **Application of commercial code.** All bonds and certificates are securities under sections 336.8-101 to 336.8-603. The commissioner may do for the state whatever may or must be done under those sections to comply with the orders authorizing them. The bonds or certificates may be issued:

- (1) in one or more denominations;
- (2) in bearer form, with interest coupons attached; and
- (3) with provision for registration as to principal only; or
- (4) in fully registered form; and
- (5) with provision for registration of conversion and exchange of forms and denominations, transfer of ownership, and replacement of lost or damaged bonds.

Subd. 3. **Preparation and execution.** (a) Bonds and certificates of indebtedness may be printed or otherwise reproduced in the style and form the commissioner prescribes. They may state in a general way the purpose for which they are issued and the security provided for their payment or may incorporate the authorizing order by reference.

(b) They must be executed by the commissioner under the commissioner's official seal. The signature may be a reproduced facsimile, but no bond or certificate is valid for any purpose unless it is manually signed on its face by the commissioner or by a duly authorized representative of a bank or trust company named by the commissioner as an agent of the state to authenticate it.

Subd. 4. **Delivery.** The commissioner may name a bank or trust company in or out of the state to act as the state's agent to deliver bonds or certificates to the initial purchaser upon payment of the purchase price.

Subd. 5. **Registrar.** The commissioner, in order to issue any bonds or certificates, may name a registrar to act for the state under sections 336.8-101 to 336.8-603, and to authenticate and deliver obligations upon initial issuance and registration of transfer, exchange, or conversion. The registrar must be an incorporated bank or trust company, in or out of the state, authorized by the laws of the United States or the state in which it is located to perform these duties.

Subd. 6. **Payment.** The order authorizing bonds or certificates to be issued may contain provisions that the commissioner considers necessary to ensure full and prompt payment of principal and interest when due. The order may provide for payment at the office of a bank or trust company in or out of the state. The order may provide that interest due on any interest payment date is payable to the person or entity shown as the owner of the bond or certificate in the register on a specified date preceding the interest payment date, by check, draft, or other transfer to the order of that owner.

Subd. 7. **Agreements.** The commissioner may make agreements to carry out orders issued under this section. The agreements may provide for the paying for services performed and expenses incurred on behalf of the state, from:

- (1) proceeds of the bonds or certificates;
- (2) other money appropriated to the commissioner;
- (3) charges to holders of the bonds or certificates; or
- (4) a combination of sources in clauses (1), (2), and (3).

Subd. 8. **Bond proceeds; appropriation.** The proceeds of the bonds or certificates under subdivision 7 are appropriated as necessary to pay expenses incurred under that subdivision.

Subd. 9. **General fund; appropriation.** The money needed to pay when due the compensation and expenses of registrars, delivery agents, and paying agents, and the expenses of other agreements under subdivision 7 is appropriated annually to the commissioner from the general fund.

Subd. 9a. **Taxability; certification.** Certificates may be issued with or without regard to whether the interest to be paid on them is includable in gross income for federal tax purposes. If it is intended that the interest on the certificates be exempt from federal income taxes, the commissioner shall certify for the state on the date of issue the facts, estimates, and circumstances that lead the commissioner reasonably to expect that the proceeds of the certificates will not be used in a way that would cause the interest on the certificates to be subject to federal income taxes. The commissioner may covenant with the holders of the certificates that the state will comply with the provisions of the United States Internal Revenue Code then or later enacted that apply or may apply to the certificates and that establish conditions under which the interest to be paid on the certificates will not be subject to federal income taxes. The commissioner and all other state officers shall act or refrain from acting as necessary to comply with the covenants. A sum sufficient to meet the cost of compliance is annually appropriated to the commissioner from the general fund.

Subd. 10. **Approval by attorney general.** An agreement under subdivision 7 is not effective until approved as to form and execution by the attorney general or a designee.

Subd. 11. **Registration not public information.** Information in any register of ownership of bonds or certificates is nonpublic data under section 13.02, subdivision 9, or private data on individuals under section 13.02, subdivision 12. The information is open only to the subject of it, except as disclosure:

- (1) is necessary for the registrar, the commissioner, or the legislative auditor to perform a duty; or
- (2) is requested by an authorized representative of the state commissioner of revenue, the state attorney general, or the United States commissioner of internal revenue to determine the application of a tax; or
- (3) is required under section 13.03, subdivision 4.

Subd. 12. **Exchange listing.** The commissioner may provide for listing of any bonds or certificates of indebtedness on an exchange or similar arrangement to facilitate their sale and exchange in the secondary market.

Subd. 13. **Continuing disclosure agreements.** The commissioner and any other officer of a state department or state agency charged with the responsibility of issuing bonds for or on behalf of the state department or agency, may enter into written agreements or contracts relating to the continuing disclosure of information necessary to comply with, or facilitate the issuance of bonds in accordance with, federal securities laws, rules, and regulations, including securities and exchange commission rules and regulations, section 240.15c2-12. An agreement may be in the form of covenants with purchasers and holders of bonds set forth in the order or resolution authorizing the issuance of the bonds, or a separate document authorized by the order or resolution.

16A.69 APPROPRIATIONS INTO SINGLE PROJECT ACCOUNT.

Subdivision 1. **Appropriations into single project account.** The commissioner shall place the money from two or more appropriations for the same or related projects in one account if all the appropriations do not lapse until their purposes are accomplished or abandoned. The agency to whom the appropriation was made shall first certify which accounts are involved to the commissioner.

Subd. 2. **Transfer between accounts.** Upon the awarding of final contracts for the completion of a project for construction or other permanent improvement, or upon the abandonment of the project, the agency to whom the appropriation was made may transfer the unencumbered balance in the project account to another project enumerated in the same section of that appropriation act, or may transfer unencumbered balances from agency operating funds. The transfer must be made only to cover bids for the other project that were higher than was estimated when the appropriation for the other project was made and not to cover an expansion of the other project. The money transferred under this section is appropriated for the purposes for which transferred. For transfers for technical colleges by the Board of Trustees of the Minnesota State Colleges and Universities, the total cost of both projects and the required local share for both projects are adjusted accordingly. The agency proposing a transfer shall obtain approval from the commissioner of finance and the chair of the senate Finance Committee and the chair of the house of representatives Ways and Means Committee before the transfer is made under this subdivision.

Subd. 3. **Capitol Area planning.** The department shall set aside from a state appropriation available for that purpose funds for the planning and consulting services of the Capitol Area Architectural and Planning Board when a state agency or the Minnesota Historical Society plans and constructs any capital improvement in the Capitol Area as defined in section 15B.02.

16A.695 PROPERTY PURCHASED WITH STATE BOND PROCEEDS.

Subdivision 1. **Definitions.** (a) The definitions in this subdivision apply to this section.

(b) "State bond financed property" means property acquired or bettered in whole or in part with the proceeds of state general obligation bonds authorized to be issued under article XI, section 5, clause (a), of the Minnesota Constitution.

(c) "Public officer or agency" means a state officer or agency, the University of Minnesota, the Minnesota Historical Society, and any county, home rule charter or statutory city, school district, special purpose district, or other public entity, or any officer or employee thereof.

(d) "Fair market value" means, with respect to the sale of state bond financed property, the price that would be paid by a willing and qualified buyer to a willing and qualified seller as determined by an appraisal of the property, or the price bid by a purchaser under a public bid procedure after reasonable public notice.

(e) "Outstanding state bonds" means the dollar amount certified by the commissioner, upon the request of a public officer or agency, to be the principal amount of state bonds, including any refunding bonds, issued with respect to the state bond financed property, less the principal amount of state bonds paid or defeased before the date of the request.

Subd. 2. **Leases and management contracts.** (a) A public officer or agency that is authorized by law to lease or enter into a management contract with respect to state bond financed property shall comply with this subdivision.

(b) The lease or management contract may be entered into for the express purpose of carrying out a governmental program established or authorized by law and established by official action of the contracting public officer or agency, in accordance with orders of the commissioner intended to ensure the legality and tax-exempt status of bonds issued to finance the property, and with the approval of the commissioner. A lease or management contract, including any renewals that are solely at the option of the lessee, must be for a term substantially less than the useful life of the property, but may allow renewal beyond that term upon a determination by the lessor that the use continues to carry out the governmental program. A lease or management contract must be terminable by the contracting public officer or agency if the other contracting party defaults under the contract or if the governmental program is terminated or changed, and must provide for program oversight by the contracting public officer or agency. Money received by the public officer or agency under the lease or management contract that is not needed to pay and not authorized to be used to pay operating costs of the property, or to pay the principal, interest, redemption premiums, and other expenses when due on debt related to the property other than state bonds, must be:

(1) paid to the commissioner in the same proportion as the state bond financing is to the total public debt financing for the property, excluding debt issued by a unit of government for which it has no financial liability;

(2) deposited in the state bond fund; and

(3) used to pay or redeem or defease bonds issued to finance the property in accordance with the commissioner's order authorizing their issuance.

The money paid to the commissioner is appropriated for this purpose.

(c) With the approval of the commissioner, a lease or management contract between a city and a nonprofit corporation under section 471.191, subdivision 1, need not require the lessee to pay rentals sufficient to pay the principal, interest, redemption premiums, and other expenses when due with respect to state bonds issued to acquire and better the facilities.

Subd. 3. **Sale of property.** A public officer or agency shall not sell any state bond financed property unless the public officer or agency determines by official action that the property is no longer usable or needed by the public officer or agency to carry out the governmental program for which it was acquired or constructed, the sale is made as authorized by law, the sale is made for fair market value, and the sale is approved by the commissioner. If

any state bonds issued to purchase or better the state bond financed property that is sold remain outstanding on the date of sale, the net proceeds of sale must be applied as follows:

(1) if the state bond financed property was acquired and bettered solely with state bond proceeds, the net proceeds of sale must be paid to the commissioner, deposited in the state bond fund, and used to pay or redeem or defease the outstanding state bonds in accordance with the commissioner's order authorizing their issuance, and the proceeds are appropriated for this purpose; or

(2) if the state bond financed property was acquired or bettered partly with state bond proceeds and partly with other money, the net proceeds of sale must be used: first, to pay to the state the amount of state bond proceeds used to acquire or better the property; second, to pay in full any outstanding public or private debt incurred to acquire or better the property; and third, any excess over the amount needed for those purposes must be divided in proportion to the shares contributed to the acquisition or betterment of the property and paid to the interested public and private entities, other than any private lender already paid in full, and the proceeds are appropriated for this purpose. In calculating the share contributed by each entity, the amount to be attributed to the owner of the property shall be the fair market value of the property that was bettered by state bond proceeds at the time the betterment began.

When all of the net proceeds of sale have been applied as provided in this subdivision, this section no longer applies to the property.

Subd. 3a. Involuntary sale of property. Notwithstanding subdivision 3, this subdivision applies to the sale of state bond financed property by a lender that has provided money to acquire or better the property. Purchase by the lender in a foreclosure sale, acceptance of a deed in lieu of foreclosure, or enforcement of a security interest in personal property, by the lender, is not a sale. Following purchase by the lender, the lender shall not operate the property in a manner inconsistent with the governmental program established as provided in subdivision 2, paragraph (b). The lender shall exercise its best efforts to sell the property to a third party as soon as feasible following acquisition of marketable title to the property by the lender. A sale by the lender must be made as authorized by law and must be made for fair market value.

Subd. 4. Relation to other laws. This section applies to all state bond financed property unless otherwise provided by law.

Subd. 5. Program funding. Recipients of grants from money appropriated from the bond proceeds fund must demonstrate to the commissioner of the agency making the grant that the recipient has the ability and a plan to fund the program intended for the facility. A private nonprofit organization that leases or manages a facility acquired or bettered with grant money appropriated from the bond proceeds fund must demonstrate to the commissioner of the agency making the grant that the organization has the ability and a plan to fund the program intended for the facility.

16A.721 STATE SEMINAR FEES, APPROPRIATION.

Subdivision 1. **Account, rules.** The commissioner may make rules for charging fees for seminars and workshops conducted by agencies. The commissioner may keep accounts for deposit of the seminar and workshop fee receipts. The commissioner shall deposit to the credit of the fund money made available to the fund. (b) For fiscal years 2006 to 2009, MinnesotaCare shall be a forecasted program, and, if necessary, the commissioner shall reduce these transfers from the health care access fund to the general fund to meet annual MinnesotaCare expenditures or, if necessary, transfer sufficient funds from the general fund to the health care access fund to meet annual MinnesotaCare expenditures.

16A.80 [Repealed, 1993 c 192 s 110]**16A.85 MASTER LEASE.**

Subdivision 1. **Authorization.** The commissioner of administration may determine, in conjunction with the commissioner of finance, the personal property needs of the various state departments, agencies, boards, commissions and the legislature that may be economically funded through a master lease program and request the commissioner of finance to execute a master lease.

The commissioner of finance may authorize the sale and issuance of certificates of participation relative to a master lease in an amount sufficient to fund these personal property needs. The term of the certificates must be less than the expected useful life of the equipment whose purchase is financed by the certificates. The commissioner of administration may use the proceeds from the master lease or the sale of the certificates of participation to acquire the personal property through the appropriate procurement procedure in chapter 16C. Money appropriated for the lease or acquisition of this personal property is appropriated to the commissioner of finance to make master lease payments.

Subd. 2. **Covenants.** The commissioner of finance may covenant in a master lease that the state will abide by the terms and provisions that are customary in net lease or lease-purchase transactions including, but not limited to, covenants providing that the state:

- (1) will maintain insurance as required under the terms of the lease agreement;
- (2) is responsible to the lessor for any public liability or property damage claims or costs related to the selection, use, or maintenance of the leased equipment, to the extent of insurance or self-insurance maintained by the lessee, and for costs and expenses incurred by the lessor as a result of any default by the lessee;
- (3) authorizes the lessor to exercise the rights of a secured party with respect to the equipment subject to the lease in the event of default by the lessee and, in addition, for the present recovery of lease rentals due during the current term of the lease as liquidated damages.

Subd. 3. **Master leases not debt.** The commissioner of finance may not enter into a master lease unless the commissioner of finance has conducted a demand survey of the amount of projected rentals and determines that money has been appropriated and allotted for the payment of the maximum amount of rentals that are projected to be payable from state money and that are projected to be due or to become due during the appropriation period in which the lease contract is entered into. A master lease does not constitute or create a general or moral obligation or indebtedness of the state in excess of the money from time to time appropriated or otherwise available for the payment of rent coming due under the lease, and the state has no continuing obligation to appropriate money for the payment of rent or other obligations under the lease. Rent due under a master lease during a current lease term for which money has been appropriated is a current expense of the state.

Subd. 4. **Tax exemption.** Property subject to a master lease is not subject to personal property taxes. Property purchased by a lessor for lease to the state under a valid master lease and rent due under the lease are not subject to sales tax.

Subd. 5. **Investment income.** The net income from investment of the proceeds of the certificates of participation, as estimated by the commissioner of finance, must be credited to the fund whose assets will be used to pay off the certificates of participation.

Subd. 6. **Budget offset.** The commissioner of finance shall reduce the operating budgets of state agencies that use the master lease program. The amount of the reduction is the

difference between the budgeted purchase price of the equipment and the actual master lease payments.

16A.86 CAPITAL PROJECT GRANTS TO POLITICAL SUBDIVISIONS.

Subdivision 1. **Projects covered.** The capital improvement projects covered by this section are only those not covered by another state program of assistance to political subdivisions.

Subd. 2. **Budget request.** A political subdivision that requests an appropriation of state money for a local capital improvement project is encouraged to submit the request to the commissioner of finance by July 15 of an odd-numbered year to ensure its full consideration. The requests must be submitted in the form and with the supporting documentation required by the commissioner of finance. All requests timely received by the commissioner must be forwarded to the legislature, along with agency requests, by the deadline established in section 16A.11, subdivision 1.

Subd. 3. **Evaluation.** (a) The commissioner shall evaluate all requests from political subdivisions for state assistance based on the following criteria:

(1) the political subdivision has provided for local, private, and user financing for the project to the maximum extent possible;

(2) the project helps fulfill an important state mission;

(3) the project is of regional or statewide significance;

(4) the project will not require new or any additional state operating subsidies;

(5) the project will not expand the state's role in a new policy area;

(6) state funding for the project will not create significant inequities among local jurisdictions;

(7) the project will not compete with other facilities in such a manner that they lose a significant number of users to the new project;

(8) the governing bodies of those political subdivisions primarily benefiting from the project have passed resolutions in support of the project and have established priorities for all projects within their jurisdictions for which bonding appropriations are requested when submitting multiple requests; and

(9) if a predesign that meets the requirements of section 16B.335 has been completed and is available at the time the project request is submitted to the commissioner of finance, the applicant has submitted the project predesign to the commissioner of administration.

(b) The commissioner's evaluation of each request, including whether it meets each of the criteria in paragraph (a), must be submitted to the legislature along with the governor's recommendations under section 16A.11, subdivision 1, whether or not the governor recommends that the request be funded.

Subd. 4. **Funding.** (a) The state share of a project covered by this section must be no more than half the total cost of the project, including predesign, design, construction, furnishings, and equipment, except as provided in paragraph (b). This subdivision does not apply to a project proposed by a school district or other school organization.

(b) The state share may be more than half the total cost of a project if the project is deemed needed as a result of a disaster or to prevent a disaster or is located in a political subdivision with a very low average net tax capacity.

(c) Nothing in this section prevents the governor from recommending, or the legislature from considering or funding, projects that do not meet the deadline in subdivision 2 or the criteria in this subdivision or subdivision 3 when the governor or the legislature determines that there is a compelling reason for the recommendation or funding.
