

## CHAPTER 62S

# QUALIFIED LONG-TERM CARE INSURANCE POLICIES

62S.23 REQUIREMENT TO OFFER INFLATION  
PROTECTION.

### 62S.23 REQUIREMENT TO OFFER INFLATION PROTECTION.

Subdivision 1. **Inflation protection feature.** (a) No insurer may offer a long-term care insurance policy unless the insurer also offers to the policyholder, in addition to any other inflation protection, the option to purchase a policy that provides for benefit levels to increase with benefit maximums or reasonable durations which are meaningful to account for reasonably anticipated increases in the costs of long-term care services covered by the policy. In addition to other options that may be offered, insurers must offer to each policyholder, at the time of purchase, the option to purchase a policy with an inflation protection feature no less favorable than one of the following:

(1) increases benefit levels annually in a manner so that the increases are compounded annually at a rate not less than five percent;

(2) guarantees the insured individual the right to periodically increase benefit levels without providing evidence of insurability or health status so long as the option for the previous period has not been declined. The amount of the additional benefit shall be no less than the difference between the existing policy benefit and that benefit compounded annually at a rate of at least five percent for the period beginning with the purchase of the existing benefit and extending until the year in which the offer is made; or

(3) covers a specified percentage of actual or reasonable charges and does not include a maximum specified indemnity amount or limit.

(b) A long-term care partnership policy must provide the inflation protection described in this subdivision. If the policy is sold to an individual who:

(1) has not attained age 61 as of the date of purchase, the policy must provide compound annual inflation protection;

(2) has attained age 61, but has not attained age 76 as of such date, the policy must provide some level of inflation protection; and

(3) has attained the age of 76 as of such date, the policy may, but is not required to, provide some level of inflation protection.
