

423B.23 RECOMPUTATION OF DISABLED BENEFIT PROHIBITED.

Notwithstanding section 423A.11, the Board of Directors of the Minneapolis Police Relief Association shall not recompute the disability benefit of a member who became permanently disabled as the result of a service-related disease or injury. Any prior recomputation of a disabled member's service-related disability pension must be revoked upon the member's request and upon the member's signed and sworn agreement to waive any right to a recomputation of that benefit in the future. Non-service-related disability pension benefits that were recomputed as full 25-year service pensions remain in effect.
