"Meat food product" or "poultry food product" does not include products which contain meat, poultry, or other portions of the carcasses of cattle, sheep, swine, farmed cervidae, llamas, ratitae, or goats only in a relatively small proportion or

that historically have not been considered by consumers as products of the meat food industry, and which are exempted from definition as a meat food product or poultry food product by the commissioner under the conditions the commissioner prescribes to assure that the meat or other portions of carcasses contained in the products are not adulterated and that the products are not represented as meat food products or poultry food products.

"Meat food product," as applied to products of equines, has a meaning comparable to that for cattle, sheep, swine, farmed cervidae, llamas, ratitae, and goats.

Subd. 11. **Usable as human food.** "Usable as human food" means that a carcass, or part or product of a carcass, of an animal (1) is not denatured or otherwise identified as required by rules of the commissioner to deter its use as human food, or (2) is not naturally inedible by humans.

Subd. 13. **Adulterated.** "Adulterated" means a carcass, part of a carcass, meat, poultry, poultry food product, or meat food product under one or more of the following circumstances:

(a) if it bears or contains a poisonous or harmful substance which may render it injurious to health; but if the substance is not an added substance, the article is not adulterated if the quantity of the substance in or on the article does not ordinarily make it injurious to health;

(b) if it bears or contains, by administration of a substance to the live animal or otherwise, an added poisonous or harmful substance, other than (1) a pesticide chemical in or on a raw agricultural commodity; (2) a food additive; or (3) a color additive, which may, in the judgment of the commissioner, make the article unfit for human food;

(c) if it is, in whole or in part, a raw agricultural commodity that bears or contains a pesticide chemical which is unsafe within the meaning of section 408 of the Federal Food, Drug, and Cosmetic Act;

(d) if it bears or contains a food additive which is unsafe within the meaning of section 409 of the Federal Food, Drug, and Cosmetic Act;

(e) if it bears or contains a color additive which is unsafe within the meaning of section 706 of the Federal Food, Drug, and Cosmetic Act;

(f) if it contains a filthy, putrid, or decomposed substance or is for any other reason unfit for human food;

(g) if it has been prepared, packed, or held under unsanitary conditions so that it may be contaminated with filth or harmful to health;

(h) if it is wholly or partly the product of an animal which has died otherwise than by slaughter;

(i) if its container is wholly or partly composed of a poisonous or harmful substance which may make the contents harmful to health;

(j) if it has been intentionally subjected to radiation, unless the use of the radiation conformed with a regulation or exemption in effect under section 409 of the Federal Food, Drug, and Cosmetic Act;

(k) if a valuable constituent has been wholly or partly omitted or removed from it; if a substance has been wholly or partly substituted for it; if damage or inferiority has been concealed; or if a substance has been added to it or mixed or packed with it so as to increase its bulk or weight, reduce its quality or strength, or make it appear better or of greater value than it is; or

(l) if it is margarine containing animal fat and any of the raw material used in it wholly or partly consisted of a filthy, putrid, or decomposed substance.

Subd. 14. **Misbranded.** "Misbranded" means a carcass, part of a carcass, meat, poultry, poultry food product, or meat food product under one or more of the following circumstances:

(a) if its labeling is false or misleading;

(b) if it is offered for sale under the name of another food;

(c) if it is an imitation of another food, unless its label bears, in type of uniform size and prominence, the word "imitation" followed immediately by the name of the food imitated;

(d) if its container is made, formed, or filled so as to be misleading;

(e) if its package or other container does not have a label showing (1) the name and place of business of the manufacturer, packer, or distributor; and (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count subject to reasonable variations permitted and exemptions for small packages established in rules of the commissioner;

(f) if a word, statement, or other information required by or under authority of this chapter to appear on the label or other labeling is not prominently and conspicuously placed on the label or labeling in terms that make it likely to be read and understood by the ordinary individual under customary conditions of purchase and use;

(g) if it is represented as a food for which a definition and standard of identity or composition has been prescribed by rules of the commissioner under section 31A.07, unless (1) it conforms to the definition and standard, and (2) its label bears the name of the food specified in the definition

and standard and, if required by the rules, the common names of optional ingredients, other than spices, flavoring, and coloring, present in the food;

(h) if it is represented as a food for which a standard of fill of container has been prescribed by rules of the commissioner under section 31A.07, and it falls below the applicable standard of fill of container, unless its label bears, in the manner and form the rules specify, a statement that it falls below the standard;

(i) if it is not subject to paragraph (g), unless its label bears (1) the usual name of the food, if there is one, and (2) in case it is fabricated from two or more ingredients, the common or usual name of each ingredient; except that spices, flavorings, and colorings may, when authorized by the commissioner, be designated as spices, flavorings, and colorings without naming each. To the extent that compliance with clause (2) is impracticable, or results in deception or unfair competition, the commissioner shall establish exemptions by rule;

(j) if it purports to be or is represented for special dietary uses, unless its label bears the information concerning its vitamin, mineral, and other dietary properties that the commissioner, after consultation with the Secretary of Agriculture of the United States, determines by rule to be necessary to inform purchasers of its value for special dietary uses;

(k) if it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact;

(l) if it fails to bear, directly or on its container, as the commissioner by rule prescribes, the inspection legend and other information the commissioner may require by rule to assure that it will not have false or misleading labeling and that the public will be told how to keep the article wholesome.
