

222.28 EXTENSION OR BRANCH.

Any railroad corporation may extend its road from any point named in its charter or certificate of incorporation, or may build branch railroads from any point on its own line, or on the line of any other railroad connecting or to be connected with its road, whenever it shall have secured the use of such other road between such points and the connection with its own road by lease or agreement for a term not less than ten years from its date. Before making such extension or building such branch road, such corporation shall designate the route thereof by resolution of its board of directors or as provided in section 222.32. Such resolution shall be entered in its records, and a duly certified copy thereof and a plat or map signed and verified by its president and secretary filed for record with the secretary of state; whereupon such corporation shall have and exercise all the rights, powers, franchises, and privileges over such extension or branch that it has over its main line. Nothing herein shall apply to street railways.
