

**151.102 PHARMACY TECHNICIAN.**

Subdivision 1. **General.** A pharmacy technician may assist a pharmacist in the practice of pharmacy by performing nonjudgmental tasks and works under the personal and direct supervision of the pharmacist. A pharmacist may supervise two technicians, as long as the pharmacist assumes responsibility for all the functions performed by the technicians. A pharmacy may exceed the ratio of pharmacy technicians to pharmacists permitted in this subdivision or in rule by a total of one technician at any given time in the pharmacy, provided at least one technician in the pharmacy holds a valid certification from the Pharmacy Technician Certification Board or from another national certification body for pharmacy technicians that requires passage of a nationally recognized, psychometrically valid certification examination for certification as determined by the Board of Pharmacy. The Board of Pharmacy may, by rule, set ratios of technicians to pharmacists greater than two to one for the functions specified in rule. The delegation of any duties, tasks, or functions by a pharmacist to a pharmacy technician is subject to continuing review and becomes the professional and personal responsibility of the pharmacist who directed the pharmacy technician to perform the duty, task, or function.

Subd. 2. **Waivers by board permitted.** A pharmacist in charge in a pharmacy may petition the board for authorization to allow a pharmacist to supervise more than two pharmacy technicians. The pharmacist's petition must include provisions addressing the maintenance of patient care and safety. A petition filed with the board under this subdivision shall be deemed approved 90 days after the board receives the petition, unless the board denies the petition within 90 days of receipt and notifies the petitioning pharmacist of the petition's denial and the board's reasons for denial.
