

245A.144 SUDDEN INFANT DEATH AND SHAKEN BABY SYNDROME FOR CHILD FOSTER CARE PROVIDERS.

(a) Licensed child foster care providers that care for infants or children through five years of age must document that before staff persons and caregivers assist in the care of infants or children through five years of age, they are instructed on the standards in section 245A.1435 and receive training on reducing the risk of sudden infant death syndrome and shaken baby syndrome for infants and young children. This section does not apply to emergency relative foster care under section 245A.035. The training on reducing the risk of sudden infant death syndrome and shaken baby syndrome may be provided as:

(1) orientation training to child foster care providers, who care for infants or children through five years of age, under Minnesota Rules, part 2960.3070, subpart 1; or

(2) in-service training to child foster care providers, who care for infants or children through five years of age, under Minnesota Rules, part 2960.3070, subpart 2.

(b) Training required under this section must be at least one hour in length and must be completed at least once every five years. At a minimum, the training must address the risk factors related to sudden infant death syndrome and shaken baby syndrome, means of reducing the risk of sudden infant death syndrome and shaken baby syndrome, and license holder communication with parents regarding reducing the risk of sudden infant death syndrome and shaken baby syndrome.

(c) Training for child foster care providers must be approved by the county licensing agency and fulfills, in part, training required under Minnesota Rules, part 2960.3070.
