

322B.41 RESTATEMENT OF VALUE OF PREVIOUS CONTRIBUTIONS.

Subdivision 1. **Definition.** As used in this section, an "old" contribution is a contribution reflected in the required records of a limited liability company before the time the limited liability company accepts a new contribution.

Subd. 2. **Restatement required.** Whenever a limited liability company accepts a new contribution, the board shall restate, as required by this section, the value of all old contributions.

Subd. 3. **Restatement as to the particular series or class to which the new contribution pertains.** Unless otherwise provided in the articles of organization or a member control agreement, this subdivision states the method of restating the value of old contributions that pertain to the same series or class to which the new contribution pertains:

(1) state the value the limited liability company has accorded to the new contribution under section 322B.40, subdivision 3, clause (1);

(2) determine what percentage the value stated under clause (1) will constitute, after the restatement required by this subdivision, of the total value of all contributions that pertain to the particular series or class to which the new contribution pertains;

(3) divide the value stated under clause (1) by the percentage determined under clause (2), yielding the total value, after the restatement required by this subdivision, of all contributions pertaining to the particular series or class;

(4) subtract the value stated under clause (1) from the value determined under clause (3), yielding the total value, after the restatement required by this subdivision, of all the old contributions pertaining to the particular series or class;

(5) subtract the value, as reflected in the required records before the restatement required by this subdivision, of the old contributions from the value determined under clause (4), yielding the value to be allocated among and added to the old contributions pertaining to the particular series or class; and

(6) allocate the value determined under clause (5) proportionally among the old contributions pertaining to the particular series or class, add the allocated values to those old contributions, and change the required records accordingly.

The values determined under clause (5) and allocated and added under clause (6) may be positive, negative, or zero.

Subd. 4. **Restatement method for other series or classes.** Unless otherwise provided in the articles of organization or a member control agreement, this subdivision states the method of

restating the value of old contributions that do not pertain to the same series or class to which the new contribution pertains;

(1) determine the percentage by which the restatement under subdivision 3 has changed the total contribution value reflected in the required records for the series or class to which the new contribution pertains; and

(2) as to each old contribution that does not pertain to the same series or class to which the new contribution pertains, change the value reflected in the required records by the percentage determined under clause (1). The percentage determined under clause (1) may be positive, negative, or zero.

Subd. 5. **New contributions may be aggregated.** If a limited liability company accepts more than one contribution pertaining to the same series or class at the same time, then for the purpose of the restatement required by this section the limited liability company may consider all those new contributions as if they were a single contribution.
