

256B.5013 PAYMENT RATE ADJUSTMENTS.

Subdivision 1. **Variable rate adjustments.** (a) For rate years beginning on or after October 1, 2000, when there is a documented increase in the needs of a current ICF/MR recipient, the county of financial responsibility may recommend a variable rate to enable the facility to meet the individual's increased needs. Variable rate adjustments made under this subdivision replace payments for persons with special needs under section 256B.501, subdivision 8, and payments for persons with special needs for crisis intervention services under section 256B.501, subdivision 8a. Effective July 1, 2003, facilities with a base rate above the 50th percentile of the statewide average reimbursement rate for a Class A facility or Class B facility, whichever matches the facility licensure, are not eligible for a variable rate adjustment. Variable rate adjustments may not exceed a 12-month period, except when approved for purposes established in paragraph (b), clause (1). Variable rate adjustments approved solely on the basis of changes on a developmental disabilities screening document will end June 30, 2002.

(b) A variable rate may be recommended by the county of financial responsibility for increased needs in the following situations:

(1) a need for resources due to an individual's full or partial retirement from participation in a day training and habilitation service when the individual: (i) has reached the age of 65 or has a change in health condition that makes it difficult for the person to participate in day training and habilitation services over an extended period of time because it is medically contraindicated; and (ii) has expressed a desire for change through the developmental disability screening process under section 256B.092;

(2) a need for additional resources for intensive short-term programming which is necessary prior to an individual's discharge to a less restrictive, more integrated setting;

(3) a demonstrated medical need that significantly impacts the type or amount of services needed by the individual; or

(4) a demonstrated behavioral need that significantly impacts the type or amount of services needed by the individual.

(c) The county of financial responsibility must justify the purpose, the projected length of time, and the additional funding needed for the facility to meet the needs of the individual.

(d) The facility shall provide an annual report to the county case manager on the use of the variable rate funds and the status of the individual on whose behalf the funds were approved. The county case manager will forward the facility's report with a recommendation to the commissioner to approve or disapprove a continuation of the variable rate.

(e) Funds made available through the variable rate process that are not used by the facility to meet the needs of the individual for whom they were approved shall be returned to the state.

Subd. 2. [Repealed, 2009 c 159 s 112]

Subd. 3. [Repealed, 2009 c 159 s 112]

Subd. 4. [Repealed, 1Sp2003 c 14 art 3 s 60]

Subd. 5. [Repealed, 2009 c 159 s 112]

Subd. 6. **Commissioner's responsibilities.** The commissioner shall:

(1) make a determination to approve, deny, or modify a request for a variable rate adjustment within 30 days of the receipt of the completed application;

(2) notify the ICF/MR facility and county case manager of the duration and conditions of variable rate adjustment approvals; and

(3) modify MMIS II service agreements to reimburse ICF/MR facilities for approved variable rates.

Subd. 7. **Rate adjustments; short-term admissions; crisis or specialized medical care.** Beginning July 1, 2003, the commissioner may designate up to 25 beds in ICF/MR facilities statewide for short-term admissions due to crisis care needs or care for medically fragile individuals. The commissioner shall adjust the monthly facility rate to provide payment for vacancies in designated short-term beds by an amount equal to the rate for each recipient residing in a designated bed for up to 15 days per bed per month. The commissioner may designate short-term beds in ICF/MR facilities based on the short-term care needs of a region or county as provided in section 252.28. Nothing in this section shall be construed as limiting payments for short-term admissions of eligible recipients to an ICF/MR that is not designated for short-term admissions for crisis or specialized medical care under this subdivision and does not receive a temporary rate adjustment.
