To so consolidate and transfer its property it shall be necessary:

(1) that a resolution be passed by a two-thirds vote of the lot owners and members of such private cemetery, represented, present, and voting at a special meeting called for that purpose, which resolution shall recite what cemetery corporation or association it is proposed to consolidate with and transfer its property to, and the terms and conditions thereof; and 30 days' notice of such meeting shall be previously given by mail to each lot owner of such private cemetery whose address can be determined using reasonable diligence of the time and place when such meeting is to be held, reciting the purpose thereof, which notice shall be signed by at least five lot owners; and

307.08 DAMAGES; ILLEGAL MOLESTATION OF HUMAN REMAINS; BURIALS; CEMETERIES; PENALTY; AUTHENTICATION.

Subdivision 1. **Legislative intent; scope.** It is a declaration and statement of legislative intent that all human burials, human remains, and human burial grounds shall be accorded equal treatment and respect for human dignity without reference to their ethnic origins, cultural backgrounds, or religious affiliations. The provisions of this section shall apply to all human burials, human remains, or human burial grounds found on or in all public or private lands or waters in Minnesota.

Subd. 2. **Felony; gross misdemeanor.** (a) A person who intentionally, willfully, and knowingly does any of the following is guilty of a felony:

(1) destroys, mutilates, or injures human burials or human burial grounds; or

(2) without the consent of the appropriate authority, disturbs human burial grounds or removes human remains.

(b) A person who, without the consent of the appropriate authority and the landowner, intentionally, willfully, and knowingly does any of the following is guilty of a gross misdemeanor:

(1) removes any tombstone, monument, or structure placed in any public or private cemetery or authenticated human burial ground; or

(2) removes any fence, railing, or other work erected for protection or ornament, or any tree, shrub, or plant or grave goods and artifacts within the limits of a public or private cemetery or authenticated human burial ground; or

(3) discharges any firearms upon or over the grounds of any public or private cemetery or authenticated burial ground.

Subd. 3. **Protective posting.** Upon the agreement of the appropriate authority and the landowner, an authenticated or recorded human burial ground may be posted for protective purposes every 75 feet around its perimeter with signs listing the activities prohibited by subdivision 2 and the penalty for violation of it. Posting is at the discretion of the Indian affairs council in the case of Indian burials or at the discretion of the state archaeologist in the case of non-Indian burials. This subdivision does not require posting of a burial ground. The size, description, location, and information on the signs used for protective posting must be approved by the appropriate authority and the landowner.

Subd. 3a. **Authentication.** The state archaeologist shall authenticate all burial grounds for purposes of this section. The state archaeologist may retain the services of a qualified professional archaeologist, a qualified physical anthropologist, or other appropriate experts for the purpose of gathering information that the state archaeologist can use to authenticate or identify burial grounds. If probable Indian burial grounds are to be disturbed or probable Indian remains analyzed, the Indian Affairs Council must approve the professional archaeologist, qualified anthropologist, or other appropriate expert. Authentication is at the discretion of the state archaeologist based on the needs identified in this section or upon request by an agency, a landowner, or other appropriate authority.

Subd. 4. [Repealed by amendment, 2007 c 115 s 1]

Subd. 5. **Cost; use of data.** The cost of authentication, recording, surveying, and marking burial grounds and the cost of identification, analysis, rescue, and reburial of human remains on public lands or waters shall be the responsibility of the state or political subdivision controlling the lands or waters. On private lands or waters these costs shall be borne by the state, but may be borne by the landowner upon mutual agreement with the state. The data collected by this activity that has common value for resource planning must be provided and integrated into the Minnesota land management information system's geographic and summary databases according to published data compatibility guidelines. Costs associated with this data delivery must be borne by the state.

Subd. 6. [Repealed by amendment, 2007 c 115 s 1]

Subd. 7. **Remains found outside of recorded cemeteries.** All unidentified human remains

or burials found outside of recorded cemeteries or unplatted graves or burials found within recorded cemeteries and in contexts which indicate antiquity greater than 50 years shall be dealt with according to the provisions of this section. If such burials are not Indian or their ethnic identity cannot be ascertained, as determined by the state archaeologist, they shall be dealt with in accordance with provisions established by the state archaeologist and other appropriate authority. If such burials are Indian, as determined by the state archaeologist, efforts shall be made by the state archaeologist and the Indian Affairs Council to ascertain their tribal identity. If their probable tribal identity can be determined and the remains have been removed from their original context, such remains shall be turned over to contemporary tribal leaders for disposition. If tribal identity cannot be determined, the Indian remains must be dealt with in accordance with provisions established by the state archaeologist and the Indian Affairs Council if they are from public land. If removed Indian remains are from private land they shall be dealt with in accordance with provisions established by the Indian Affairs Council. If it is deemed desirable by the state archaeologist or the Indian Affairs Council, removed remains shall be studied in a timely and respectful manner by a qualified professional archaeologist or a qualified physical anthropologist before being delivered to tribal leaders or before being reburied. Application by a landowner for permission to develop or disturb nonburial areas within authenticated or recorded burial grounds shall be made to the state archaeologist and other appropriate authority in the case of non-Indian burials and to the Indian Affairs Council and other appropriate authority in the case of Indian burials. Landowners with authenticated or suspected human burial grounds on their property are obligated to inform prospective buyers of the burial ground.

Subd. 8. **Burial ground relocation.** No non-Indian burial ground may be relocated without the consent of the appropriate authority. No Indian burial ground may be relocated unless the request to relocate is approved by the Indian Affairs Council. When a burial ground is located on public lands or waters, any burial relocations must be duly licensed under section 138.36 and the cost of removal is the responsibility of and shall be paid by the state or political subdivision controlling the lands or waters. If burial grounds are authenticated on private lands, efforts may be made by the state to purchase and protect them instead of removing them to another location.

Subd. 9. **Interagency cooperation.** The Department of Natural Resources, the Department of Transportation, and all other state agencies and local governmental units whose activities may be affected, shall cooperate with the state archaeologist and the Indian Affairs Council to carry out the provisions of this section.

Subd. 10. **Construction and development plan review.** When human burials are known or suspected to exist, on public lands or waters, the state or political subdivision controlling the lands or waters or, in the case of private lands, the landowner or developer, shall submit construction and development plans to the state archaeologist for review prior to the time bids are

advertised and prior to any disturbance within the burial area. If the known or suspected burials are thought to be Indian, plans shall also be submitted to the Indian Affairs Council. The state archaeologist and the Indian Affairs Council shall review the plans within 30 days of receipt and make recommendations for the preservation in place or removal of the human burials or remains, which may be endangered by construction or development activities.

Subd. 11. **Burial sites data.** Burial sites locational and related data maintained by the Office of the State Archaeologist and accessible through the office's "Unplatted Burial Sites and Earthworks in Minnesota" Web site are security information for purposes of section 13.37. Persons who gain access to the data maintained on the site are subject to liability under section 13.08 and the penalty established by section 13.09 if they improperly use or further disseminate the data.

Subd. 12. **Right of entry.** The state archaeologist may enter on property for the purpose of authenticating burial sites. Only after obtaining permission from the property owner or lessee, descendants of persons buried in burial grounds covered by this section may enter the burial grounds for the purpose of conducting religious or commemorative ceremonies. This right of entry must not unreasonably burden property owners or unnecessarily restrict their use of the property.
