423A.01 POLICE AND SALARIED FIREFIGHTERS' RELIEF ASSOCIATIONS.

Subdivision 1. **Membership of new police and salaried firefighters in the public employees police and fire fund.** Notwithstanding any law to the contrary, all persons first employed by any municipality as police officers or police officer trainees, salaried firefighters or firefighter trainees or public safety officers or public safety officer trainees after June 15, 1980 shall be members of the public employees police and fire fund established by sections 353.63 to 353.68, and shall not be members of any local police or paid firefighters' relief association established or maintained by the municipality, unless the municipality elects to retain the local relief association by the adoption of a municipal resolution approved by a majority of the governing body of the municipality following the holding of a public meeting at which the views of the public are considered and a copy of the municipal resolution is filed with the secretary of state, the commissioner of management and budget, the commissioner of commerce and the executive director of the Legislative Commission on Pensions and Retirement on or before August 15, 1980.

Subd. 2. **Operation of local relief association upon modification of retirement coverage for newly hired police officers and firefighters.** (a) The following provisions shall govern the operation of a local relief association upon the modification of retirement coverage for newly hired police officers or firefighters:

(1) The minimum obligation of a municipality in which the retirement coverage for newly hired police officers or salaried firefighters has been modified pursuant to subdivision 1 with respect to the local relief association shall be determined and governed in accordance with the

provisions of sections 69.77, 356.215, and 356.216, except that the normal cost calculation for the relief association shall be computed as a percentage of the compensation paid to the active members of the relief association. The compensation paid to persons with retirement coverage modified pursuant to subdivision 1 shall not be included in any of the computations made in determining the obligation of the municipality with respect to the local relief association.

(2) The contribution rate of members of the local relief association shall be governed by section 69.77, unless a special law establishing a greater member contribution rate is applicable whereupon it shall continue to govern. The member contribution rate of persons with retirement coverage modified pursuant to subdivision 1 shall be governed by section 353.65.

(3) Unless otherwise provided for by law, when every active member of the local relief association retires or terminates from active duty, the local relief association shall cease to exist as a legal entity and the assets of the special fund of the relief association shall be transferred to a trust fund to be established by the appropriate municipality for the purpose of paying service pensions and retirement benefits to recipient beneficiaries. Recipient beneficiaries who are competent to act on their own behalf shall be entitled to select the prescribed number of trustees of the trust fund as provided in this clause, subject to the approval of the governing body of the municipality. If there are at least five recipient beneficiaries, the trust fund shall be managed by a board of trustees composed of five persons selected by the recipient beneficiaries of the fund. When there are fewer than five recipient beneficiaries, the number of trustees selected by the recipient beneficiaries shall be equal to the number of the remaining recipient beneficiaries. The governing body of the municipality shall select the additional trustees. The term of the elected members of the board of trustees shall be indefinite and shall continue until a vacancy occurs in one of the board of trustee member positions. Board of trustee members shall not be compensated for their services, but shall be reimbursed for any expenses actually and necessarily incurred as a result of the performance of their duties in their capacity as board of trustee members. The municipality shall perform whatever services are necessary to administer the trust fund. When all obligations of the trust fund are paid, the balance of the assets remaining in the trust fund shall revert to the municipality for expenditure for law enforcement or firefighting purposes, whichever is applicable.

(4) The financial requirements of the trust fund and the minimum obligation of the municipality with respect to the trust fund shall be determined in accordance with sections 69.77, 356.215, and 356.216 until the unfunded accrued liability of the trust fund is fully amortized in accordance with section 69.77, subdivision 4. The municipality shall provide in its annual budget for at least the aggregate amount of service pensions, disability benefits, survivorship benefits, and refunds which are projected as payable for the following calendar year, as determined by the board of trustees of the trust fund, less the amount of assets in the trust fund as of the end of the most current calendar year for which figures are available, valued pursuant to section 356.20, subdivision 4, if the difference between those two figures is a positive number.

(5) In calculating the amount of service pensions and other retirement benefits payable from the local relief association and in calculating the amount of any automatic postretirement increases in those service pensions and retirement benefits based on the salary paid or payable to active members or escalated in any fashion, the salary for use as the base for the service pension or retirement benefit calculation and the postretirement increase calculation for the local relief association shall be the salary for the applicable position as specified in the articles of incorporation or bylaws of the relief association as of the date immediately prior to the effective date of the modification of retirement coverage for newly hired personnel pursuant to subdivision 1, as the applicable salary is reset by the municipality periodically, irrespective of whether retirement coverage for persons holding the applicable position used in calculations is provided by the relief association or by the public employees police and fire fund. If for a local salaried firefighters relief association, the specified position no longer exists because of a reorganization of the fire department as a volunteer fire department, the percentage increase in the salary of the position of a top grade patrol officer in the police department of the municipality must be the basis for service pension and retirement benefit postretirement increase calculations.

(6) If the modification of retirement coverage implemented pursuant to subdivision 1 is applicable to a local police relief association, the police state aid received by the municipality shall be disbursed pursuant to section 69.031, subdivision 5, clause (2)(c). If the modification of retirement coverage implemented pursuant to subdivision 1 is applicable to a local firefighters' relief association, the fire state aid received by the applicable municipality other than a city of the first class with a population of more than 300,000 shall be disbursed as the municipality at its option may elect. The municipality may elect: (a) to transmit the total fire state aid to the treasurer of the local relief association for immediate deposit in the special fund of the relief association; or (b) to apply the total fire state aid toward the employer contribution of the municipality to the public employees police and fire fund pursuant to section 353.65, subdivision 3; or (c) to allocate the total fire state aid proportionately between the special fund of the local relief association and employer contribution of the municipality to the public employees police and fire fund on the basis of the respective number of active full-time salaried firefighters receiving retirement coverage from each.

(b) For a city of the first class with a population of more than 300,000, in addition, the city may elect to allot the appropriate portion of the total fire state aid to apply toward the employer contribution of the city to the public employees police and fire fund based on the covered salary of firefighters covered by the fund each payroll period and to transmit the balance to the firefighters relief association.

Subd. 3. **Benefit increase for certain relief association members.** Notwithstanding any law to the contrary, any member of a local police or salaried firefighters' relief association located in a municipality which has not adopted a municipal resolution retaining the local relief

association pursuant to subdivision 1, except the city of Minneapolis, shall be entitled to receive, after the effective date for the modification of pension coverage for newly employed personnel, a retirement annuity in addition to the service pension to which the member may be eligible upon retirement. The additional retirement annuity shall be payable for the life of the retired member. The additional retirement annuity shall be equal to one-half of one percent of the salary upon which the service pension is calculated payable on the date of termination of active service per year of service credit acquired in excess of 25 years of service credit. The retirement annuity under this subdivision shall not be subject to any postretirement increases granted pursuant to increases in the salary payable to a certain employment category or in the salaries payable to active members or be in any other manner escalated or increased after retirement.

Subd. 4. Automatic postretirement adjustments for certain newly employed, active and retired members. (a) Notwithstanding any provision of law, municipal charter, municipal ordinance or resolution, or relief association articles of incorporation or bylaws to the contrary, any person who meets one of the following requirements for entitlement shall be entitled to an annual automatic postretirement adjustment in the amount of the service pension calculated pursuant to paragraph (b). A person meets the requirements for entitlement if:

(1) the person is a member of a covered local police or salaried firefighters' relief association enumerated in paragraph (c), commences receiving a service pension at an age no earlier than attaining the age of 55 years, and has met all applicable requirements for entitlement to a service pension specified in the applicable laws and relief association articles of incorporation or bylaws governing the local relief association;

(2) the person is a retired member of a covered local police or salaried firefighters' relief association enumerated in paragraph (c), retired on a service pension after June 15, 1980, after attaining the age of at least 50 years but prior to attaining the age of 55 years, and attains the age of 55 years subsequent to retirement; or

(3) the person was a retired member on June 15, 1980, of a covered local police or salaried firefighters' relief association or retirement trust fund enumerated in paragraph (c), is receiving a service pension, and has attained the age of at least 55 years.

(b) Any person who meets the requirements specified in paragraph (a), clause (1) or (2), shall be entitled to receive the annual automatic postretirement adjustment on the January 1 next following the date upon which the requirements for entitlement are met but in no event prior to the date upon which the person attains the age of 55 years. Any person who meets the requirements specified in paragraph (a), clause (3), shall be entitled to receive the adjustment on the January 1 next following the date upon which the person attains the age of 55 years. The amount of the adjustment shall be determined by the board of trustees of the local relief association on or before December 1 annually and the adjustment shall accrue each year as of January 1 next following

the determination date. The adjustment shall be first payable with the service pension payment made for January. Each adjustment in the amount of the service pension shall be based on the percentage increase in the salary upon which retirement coverage is credited during the prior year subject to the limitation provided for in this paragraph.

The percentage increase in the salary shall be applied to the amount of service pension payable to the person for the month immediately prior to the month in which the determination is made. The maximum percentage increase shall not exceed 3-1/2 percent in any year and any increase in the salary level of the applicable position used to govern the determination of adjustments in excess of 3-1/2 percent in any year shall not carry over to or be used to calculate the rate of salary increase for any succeeding year in which the increase in the salary of the applicable position does not exceed 3-1/2 percent.

(c) The provisions of this subdivision shall apply to the active members and retired members of a local police or salaried firefighters' relief association or to the retired members of a retirement trust fund contained in the following enumeration of covered relief associations:

- (1) Buhl Police Relief Association;
- (2) Eveleth joint retired police and firefighters' retirement trust fund;
- (3) Moorhead Firefighters' Relief Association;
- (4) Moorhead Police Relief Association;
- (5) Thief River Falls police retirement trust fund;
- (6) Virginia Firefighters' Relief Association;
- (7) West St. Paul Police Relief Association.

423A.02 LOCAL POLICE AND FIREFIGHTERS RELIEF ASSOCIATION AMORTIZATION STATE AID.

Subdivision 1. **Amortization state aid.** (a) A municipality in which is located a local police or salaried firefighters' relief association to which the provisions of section 69.77, apply, that had an unfunded actuarial accrued liability in the most recent relief association actuarial valuation, is entitled, upon application as required by the commissioner of revenue, to receive local police and salaried firefighters' relief association amortization state aid if the municipality and the appropriate relief association both comply with the applicable provisions of sections 69.031, subdivision 5, 69.051, subdivisions 1 and 3, and 69.77.

(b) The total amount of amortization state aid to all entitled municipalities must not exceed \$5,055,000.

(c) Subject to the adjustment for the city of Minneapolis provided in this paragraph, the amount of amortization state aid to which a municipality is entitled annually is an amount equal to the level annual dollar amount required to amortize, by December 31, 2010, the unfunded actuarial accrued liability of the special fund of the appropriate relief association as reported in the December 31, 1978, actuarial valuation of the relief association prepared under sections 356.215 and 356.216, reduced by the dollar amount required to pay the interest on the unfunded actuarial accrued liability of the special fund of the relief association for calendar year 1981 set at the rate specified in Minnesota Statutes 1978, section 356.215, subdivision 8. For the city of Minneapolis, the amortization state aid amount thus determined must be reduced by \$747,232 on account of the Minneapolis Police Relief Association and by \$772,768 on account of the Minneapolis Fire Department Relief Association. If the amortization state aid amounts determined under this paragraph exceed the amount appropriated for this purpose, the amortization state aid for actual allocation must be reduced pro rata.

(d) Payment of amortization state aid to municipalities must be made directly to the municipalities involved in three equal installments on July 15, September 15, and November 15 annually. Upon receipt of amortization state aid, the municipal treasurer shall transmit the aid amount to the treasurer of the local relief association for immediate deposit in the special fund of the relief association.

(e) The commissioner of revenue shall prescribe and periodically revise the form for and content of the application for the amortization state aid.

(f) The amount required under this section, as provided in subdivision 3a, is appropriated annually from the general fund to the commissioner of revenue.

Subd. 1a. Supplementary amortization state aid. In addition to the amortization state aid under subdivision 1, there is a distribution of supplementary amortization state aid among those municipalities that receive amortization state aid under subdivision 1. The amount of the distribution is that proportion of the appropriation that the unfunded actuarial accrued liability of each relief association bears to the total unfunded actuarial accrued liabilities of all relief associations as reported in the December 31, 1983, actuarial valuations of the relief associations receiving amortization state aid under subdivision 1. Money under this subdivision must be distributed at the same time that fire and police state aid is distributed under section 69.021.

Subd. 1b. Additional amortization state aid. (a) Annually, on October 1, the commissioner of revenue shall allocate the additional amortization state aid transferred under section 69.021, subdivision 11, to:

(1) all police or salaried firefighters relief associations governed by and in full compliance with the requirements of section 69.77, that had an unfunded actuarial accrued liability in the actuarial valuation prepared under sections 356.215 and 356.216 as of the preceding December 31;

(2) all local police or salaried firefighter consolidation accounts governed by chapter 353A that are certified by the executive director of the public employees retirement association as having for the current fiscal year an additional municipal contribution amount under section 353A.09, subdivision 5, paragraph (b), and that have implemented section 353A.083, subdivision 1, if the effective date of the consolidation preceded May 24, 1993, and that have implemented section 353A.083, subdivision 2, if the effective date of the consolidation preceded June 1, 1995; and

(3) the municipalities that are required to make an additional municipal contribution under section 353.665, subdivision 8, for the duration of the required additional contribution.

(b) The commissioner shall allocate the state aid on the basis of the proportional share of the relief association or consolidation account of the total unfunded actuarial accrued liability of all recipient relief associations and consolidation accounts as of December 31, 1993, for relief associations, and as of June 30, 1994, for consolidation accounts.

(c) Beginning October 1, 2000, and annually thereafter, the commissioner shall allocate the state aid, including any state aid in excess of the limitation in subdivision 4, on the following basis:

(1) 64.5 percent to the municipalities to which section 353.665, subdivision 8, paragraph (b), or 353A.09, subdivision 5, paragraph (b), apply for distribution in accordance with paragraph (b) and subject to the limitation in subdivision 4;

(2) 34.2 percent to the city of Minneapolis to fund any unfunded actuarial accrued liability in the actuarial valuation prepared under sections 356.215 and 356.216 as of the preceding December 31 for the Minneapolis Police Relief Association or the Minneapolis Fire Department Relief Association; and

(3) 1.3 percent to the city of Virginia to fund any unfunded actuarial accrued liability in the actuarial valuation prepared under sections 356.215 and 356.216 as of the preceding December 31 for the Virginia Fire Department Relief Association.

If there is no unfunded actuarial accrued liability in both the Minneapolis Police Relief Association and the Minneapolis Fire Department Relief Association as disclosed in the most recent actuarial valuations for the relief associations prepared under sections 356.215 and 356.216, the commissioner shall allocate that 34.2 percent of the aid as follows: 49 percent to the Teachers Retirement Association, 21 percent to the St. Paul Teachers Retirement Fund Association, and 30 percent as additional funding to support minimum fire state aid for volunteer firefighters relief associations. If there is no unfunded actuarial accrued liability in the Virginia Fire Department Relief Association as disclosed in the most recent actuarial valuation for the relief association

prepared under sections 356.215 and 356.216, the commissioner shall allocate that 1.3 percent of the aid as follows: 49 percent to the Teachers Retirement Association, 21 percent to the St. Paul Teachers Retirement Fund Association, and 30 percent as additional funding to support minimum fire state aid for volunteer firefighters relief associations. Upon the final payment to municipalities required by section 353.665, subdivision 8, paragraph (b), or 353A.09, subdivision 5, paragraph (b), the commissioner shall allocate that 64.5 percent of the aid as follows: 20 percent to the St. Paul Teachers Retirement Fund Association, 20 percent to the city of Minneapolis to fund any unfunded actuarial accrued liability in the actuarial valuation proposed under sections 356.215 and 356.216 as of the preceding December 31 for the Minneapolis Police Relief Association or the Minneapolis Firefighters Relief Association, 20 percent for the city of Duluth to pay for any costs associated with the police and firefighters pensions, and 40 percent as additional funding to support minimum fire state aid for volunteer firefighters relief associations. The allocation must be made by the commissioner at the same time and under the same procedures as specified in subdivision 3. With respect to the St. Paul Teachers Retirement Fund Association, annually, beginning on July 1, 2005, if the applicable teacher's association five-year average time-weighted rate of investment return does not equal or exceed the performance of a composite portfolio assumed passively managed (indexed) invested ten percent in cash equivalents, 60 percent in bonds and similar debt securities, and 30 percent in domestic stock calculated using the formula under section 11A.04, clause (11), the aid allocation to that retirement fund under this section ceases until the five-year annual rate of investment return equals or exceeds the performance of that composite portfolio.

(d) The amounts required under this subdivision are the amounts annually appropriated to the commissioner of revenue under section 69.021, subdivision 11, paragraph (e).

Subd. 2. **Continued eligibility.** A municipality that has qualified for amortization state aid under subdivision 1 on December 31, 1984, and has an additional municipal contribution payable under section 353A.09, subdivision 5, paragraph (b), as of the most recent December 31, continues upon application to be entitled to receive amortization state aid under subdivision 1 and supplementary amortization state aid under subdivision 1a, after the local police or salaried firefighters' relief association has been consolidated into the public employees police and fire fund. If a municipality loses entitlement for amortization state aid and supplementary amortization state aid in any year because of not having an additional municipal contribution under section 353A.09, subdivision 5, paragraph (b), the municipality is not entitled to the aid amounts in any subsequent year. A municipality that received amortization aid in 1999 and is required to make an additional municipal contribution under section 353.665, subdivision 8, continues to qualify for the amortization state aid and the supplemental amortization aid until December 31, 2009.

Subd. 3. **Reallocation of amortization or supplementary amortization state aid.** (a) Seventy percent of the difference between \$5,720,000 and the current year amortization aid and

supplemental amortization aid distributed under subdivisions 1 and 1a that is not distributed for any reason to a municipality for use by a local police or salaried fire relief association must be distributed by the commissioner of revenue according to this paragraph. The commissioner shall distribute 50 percent of the amounts derived under this paragraph to the Teachers Retirement Association, ten percent to the Duluth Teachers Retirement Fund Association, and 40 percent to the St. Paul Teachers Retirement Fund Association to fund the unfunded actuarial accrued liabilities of the respective funds. These payments shall be made on or before June 30 each fiscal year. If the St. Paul Teachers Retirement Fund Association becomes fully funded, its eligibility for this aid ceases. Amounts remaining in the undistributed balance account at the end of the biennium if aid eligibility ceases cancel to the general fund.

(b) In order to receive amortization and supplementary amortization aid under paragraph (a), Independent School District No. 625, St. Paul, must make contributions to the St. Paul Teachers Retirement Fund Association in accordance with the following schedule:

Fiscal Year	Amount
1996	\$ 0
1997	\$ 0
1998	\$ 200,000
1999	\$ 400,000
2000	\$ 600,000
2001 and thereafter	\$ 800,000

(c) Special School District No. 1, Minneapolis, and the city of Minneapolis must each make contributions to the Teachers Retirement Association in accordance with the following schedule:

Fiscal Year	City amount	School district amount
1996	\$ 0	\$ 0
1997	\$ 0	\$ 0
1998	\$ 250,000	\$ 250,000
1999	\$ 400,000	\$ 400,000
2000	\$ 550,000	\$ 550,000
2001	\$ 700,000	\$ 700,000
2002	\$ 850,000	\$ 850,000
2003 and thereafter	\$ 1,000,000	\$ 1,000,000

(d) Money contributed under paragraph (a) and either paragraph (b) or (c), as applicable, must be credited to a separate account in the applicable teachers retirement fund and may not be

used in determining any benefit increases. The separate account terminates for a fund when the aid payments to the fund under paragraph (a) cease.

(e) Thirty percent of the difference between \$5,720,000 and the current year amortization aid and supplemental amortization aid under subdivisions 1 and 1a that is not distributed for any reason to a municipality for use by a local police or salaried firefighter relief association must be distributed under section 69.021, subdivision 7, paragraph (d), as additional funding to support a minimum fire state aid amount for volunteer firefighter relief associations.

Subd. 3a. **Appropriations for amortization state aid; supplementary amortization state aid; and amortization state aid and supplementary state aid reallocations.** \$4,720,000 is annually appropriated from the general fund to the commissioner of revenue for amortization state aid under subdivision 1, and for the reallocation of amortization aid under subdivision 3. \$1,000,000 is annually appropriated from the general fund to the commissioner of revenue for supplementary amortization state aid under subdivision 1a, and for the reallocation of supplementary amortization state aid under subdivision 3.

Subd. 4. **Limit on certain total aid amounts.** (a) The total of amortization aid, supplemental amortization aid, and additional amortization aid under this section payable to a municipality to which section 353.665, subdivision 8, paragraph (b), applies, may not exceed the amount of the additional municipal contribution payable by an individual municipality under section 353.665, subdivision 8, paragraph (b).

(b) Any aid amount in excess of the limit under this subdivision for an individual municipality must be redistributed to the other municipalities to which section 353.665, subdivision 8, paragraph (b), applies. The excess aid must be distributed in proportion to each municipality's additional municipal contribution under section 353.665, subdivision 8, paragraph (b).

(c) When the total aid for each municipality under this section equals the limit under paragraph (a), any aid in excess of the limit must be redistributed under subdivision 1b.

Subd. 5. **Termination of state aid programs.** The amortization state aid, supplemental amortization state aid, and additional amortization state aid programs terminate as of the December 31, next following the date of the actuarial valuation when the assets of the St. Paul Teachers Retirement Fund Association equal the actuarial accrued liability of that plan or December 31, 2009, whichever is later.

423A.021 DEFINED POSTRETIREMENT BENEFITS.

Subdivision 1. **Pension unit increase.** For a salaried firefighters relief association in a city of the first class with a population greater than 300,000, when the actuarial value of assets of the special fund first exceeds 110 percent of the actuarial accrued liabilities, according to an annual actuarial valuation occurring after July 1, 2008, and performed in accordance with sections 356.215 and 356.216, each service pensioner, joint survivor annuitant, and surviving spouse member is entitled to a permanent benefit increase. The revised benefit is an increase of one unit for a service pensioner, not to exceed 43 units, an increase from 22 to 23 units for a surviving spouse benefit, and an increase from 42.3 to 43.2 units for unmarried service pensioners. The association shall pay the increased benefit beginning January 1 of the year following the year for which the valuation was prepared. If adding an additional unit results in raising total units past the maximum, a partial unit may be added to reach the maximum. For joint survivor annuities, this subdivision authorizes a benefit increase actuarially equivalent to one unit.

Subd. 2. **Unit precedence.** The additional benefit provided for in subdivision 1 shall take precedence over any other benefit provided when the fund reaches 110 percent funding. In preparing the actuarial valuation under sections 356.215 and 356.216, the actuary for the fund shall first account for the benefit provided in subdivision 1 in determining the plan's funded ratio. No other benefit payments may be made by the association until the actuarial impact of the benefit provided for in subdivision 1 has been determined and factored into the funding ratio.

Subd. 3. **Excess investment income.** For a salaried firefighters relief association in a city of the first class with a population greater than 300,000 that no longer is entitled to state general fund aid pursuant to section 423A.02, the association shall apply any assets that constitute excess investment income to the payment of a supplemental postretirement benefit to an eligible member notwithstanding any other limitation of law. Any amount of excess investment income not otherwise used for the payment of a supplemental postretirement benefit to an eligible member shall be applied to reduce the municipality's property tax levy to the association in the year following the payment of the postretirement benefit. A supplemental postretirement benefit is a lump sum payment equal to the monthly benefit provided to the benefit recipient in the month prior to payment of the supplemental postretirement benefit. A supplemental postretirement benefit payable under this section is in lieu of any benefit payable under section 423C.06, subdivision 2. No supplemental postretirement benefit is payable under this section if a benefit is payable under section 423C.06, subdivision 3.

423A.04 ALTERNATIVE BENEFIT INCREASE.

Notwithstanding any provision of law to the contrary, and in lieu of the benefit increase provided for in section 423A.01, subdivision 3, the governing body of a participating municipality, except the city of Minneapolis, is authorized by resolution approved by a majority of the members of the governing body, following consideration of an actuarial analysis of the effect of any change, to increase the service pension or retirement benefits provided by or modify any provision of the benefit plan of either a police relief association or a salaried firefighters' relief association unless the municipality elects to retain the local relief association by the adoption of a municipal resolution pursuant to section 423A.01, subdivision 1. The total cost of any increase or modification, including amortization by December 31, 2010, shall not exceed 1.26 percent of covered payroll.

423A.11 RECOMPUTATION OF A DISABILITY BENEFIT AS A SERVICE PENSION.

Subdivision 1. **Termination of disability benefit.** The disability benefit of any disabled member of a local police or salaried firefighters relief association, whichever is applicable, shall terminate when the disabled member attains:

(1) the minimum age for the receipt of a service pension specified in the articles of incorporation or the bylaws of the relief association, if the disabled member has credit for at least the number of years of service for active duty which would entitle the disabled member to a service pension in an amount equal to the amount of the disability benefit; or

(2) the age attained by the disabled member when the total number of years of service credited for active duty and of years of receipt of a disability benefit equals the number of years of service credit which would entitle the disabled member to a service pension in an amount equal to the amount of the disability benefit, if the disabled member has credit for less than the number of years of service for active duty which would entitle the disabled member to a service pension in an amount equal to the amount of the disability benefit when the disabled member attains the minimum age for the receipt of a service pension specified in the articles of incorporation or the bylaws of the relief association.

Subd. 2. **Amount of disability benefit recomputed as a service pension.** After the disability benefit terminates, the disabled member shall be deemed to be a service pensioner and

shall be entitled to receive a service pension in an amount equal to the disability benefit without any benefit offset required pursuant to any applicable provision of law, articles of incorporation or bylaws which was payable by the relief association immediately prior to the date when the disability benefit terminated pursuant to this section or the service pension otherwise payable based on the service credit for active duty of the person, whichever amount is greater. The disability benefit recomputed as a service pension shall be subject to any annual automatic postretirement adjustments or escalation applicable to any other service pension payable by the relief association.

Subd. 3. Limitation on disability benefit coverage. No relief association member who has attained the age and acquired the service credit for termination of a disability benefit specified in subdivision 1 shall be eligible for a disability benefit after that date. (b) The maximum service credit which a relief association member may obtain pursuant to this subdivision shall be that amount of service credit which, when added to the service credit of the member for active duty, equals the amount of service credit which would entitle the member to a service pension in an amount equal to the amount of the disability benefit provided by the relief association.

Subd. 2. **Limitation.** In no event shall the reduced disability benefit payable pursuant to the requirements of subdivision 1 exceed the amount of the disability benefit otherwise payable by the relief association without reference to subdivision 1 pursuant to the applicable statutes, special laws, articles of incorporation and bylaws.

Subd. 3. **No offset for recomputed disability benefit.** No offset pursuant to this section shall be required after a disability benefit is recomputed as a service pension pursuant to section 423A.11.

Subdivision 1. **Reduced vesting.** Notwithstanding any law to the contrary, for a police or salaried firefighters relief association that implements the provision with municipal approval as provided in subdivision 4, a person with at least five years of service credited by the relief association is entitled, upon termination of active service and reaching at least the required normal retirement age, to receive a pro rata monthly service pension. The pro rata monthly service pension must be calculated in the amount and manner specified by the board of trustees, but not to exceed that portion of the service pension payable upon meeting the minimum age and years of service requirements that bears the same relationship that the person's actual years and portions of years of service bear to the minimum service requirement.

Subd. 2. **Survivor benefit coverage.** A person entitled to or receiving a reduced vesting service pension as provided in subdivision 1 is entitled to surviving spouse benefit coverage, surviving child benefit coverage, or both, if all other qualification requirements are met. The survivor benefit must be calculated in the amount and manner specified by the board of trustees, but not to exceed that portion of survivor benefit payable to a survivor of a deceased retired member who had met the minimum years of service requirement that bears the same relationship that the actual years and portions of years of service of the person bear to the minimum service

The postretirement adjustment must be the same percentage increase as the postretirement adjustment for the comparable pension or benefit payable when the full minimum service requirement has been met.

Subd. 4. **Implementation.** The reduced vesting requirement must be implemented by a local relief association through an amendment to the bylaws of the relief association with approval by the governing body of the municipality as required by section 69.77, subdivision 11. (b) The retirement benefit is to commence at the later of either the minimum age for retirement or the date at which the member would have accumulated the minimum number of years of service for retirement if the member had remained on duty.

(c) The pro rata benefit shall be calculated by multiplying the amount of the benefit payable to a member who met the minimum age and years of service requirements for a normal pension by the ratio of the laid off member's actual years of service to the minimum years of service required for retirement. The initial benefit payable shall be subject to the same postretirement adjustments as other benefits payable from the relief association.
