

**INDEX**

The index to Minnesota Statutes 2009 Supplement includes references to general and permanent law passed in the 2009 Regular Session. References in the index are to statutory section numbers.

For newly enacted statutory sections, the supplement index coverage is complete. For amended statutory sections, a reference is included in the supplement only if the existing references in the statutes index needed changes or additions to cover the amendments. Thus the user should always begin an index search with the main text volumes.

See the user's guide at the beginning of each index volume for more information about using the statutes index.
