

153.16 LICENSURE.

Subdivision 1. **License requirements.** The board shall issue a license to practice podiatric medicine to a person who meets the following requirements:

(a) The applicant for a license shall file a written notarized application on forms provided by the board, showing to the board's satisfaction that the applicant is of good moral character and satisfies the requirements of this section.

(b) The applicant shall present evidence satisfactory to the board of being a graduate of a podiatric medical school approved by the board based upon its faculty, curriculum, facilities, accreditation by a recognized national accrediting organization approved by the board, and other relevant factors.

(c) The applicant must have received a passing score on each part of the national board examinations, parts one and two, prepared and graded by the National Board of Podiatric Medical Examiners. The passing score for each part of the national board examinations, parts one and two, is as defined by the National Board of Podiatric Medical Examiners.

(d) Applicants graduating after 1986 from a podiatric medical school shall present evidence satisfactory to the board of the completion of (1) one year of graduate, clinical residency or preceptorship in a program accredited by a national accrediting organization approved by the board or (2) other graduate training that meets standards equivalent to those of an approved national accrediting organization or school of podiatric medicine.

(e) The applicant shall appear in person before the board or its designated representative to show that the applicant satisfies the requirements of this section, including knowledge of laws, rules, and ethics pertaining to the practice of podiatric medicine. The board may establish as internal operating procedures the procedures or requirements for the applicant's personal presentation.

(f) The applicant shall pay a fee established by the board by rule. The fee shall not be refunded.

(g) The applicant must not have engaged in conduct warranting disciplinary action against a licensee. If the applicant does not satisfy the requirements of this paragraph, the board may refuse to issue a license unless it determines that the public will be protected through issuance of a license with conditions and limitations the board considers appropriate.

(h) Upon payment of a fee as the board may require, an applicant who fails to pass an examination and is refused a license is entitled to reexamination within one year of the board's refusal to issue the license. No more than two reexaminations are allowed without a new application for a license.

Subd. 2. **Applicants licensed in another state.** The board shall issue a license to practice podiatric medicine to any person currently or formerly licensed to practice podiatric medicine in another state who satisfies the requirements of this section:

(a) The applicant shall satisfy the requirements established in subdivision 1.

(b) The applicant shall present evidence satisfactory to the board indicating the current status of a license to practice podiatric medicine issued by the first state of licensure and all other states and countries in which the individual has held a license.

(c) If the applicant has had a license revoked, engaged in conduct warranting disciplinary action against the applicant's license, or been subjected to disciplinary action, in another state, the board may refuse to issue a license unless it determines that the public will be protected through issuance of a license with conditions or limitations the board considers appropriate.

(d) The applicant shall submit with the license application the following additional information for the five-year period preceding the date of filing of the application: (1) the name and address of the applicant's professional liability insurer in the other state; and (2) the number, date, and disposition of any podiatric medical malpractice settlement or award made to the plaintiff relating to the quality of podiatric medical treatment.

(e) If the license is active, the applicant shall submit with the license application evidence of compliance with the continuing education requirements in the current state of licensure.

(f) If the license is inactive, the applicant shall submit with the license application evidence of participation in one-half the number of hours of acceptable continuing education required for biennial renewal, as specified under Minnesota Rules, up to five years. If the license has been inactive for more than two years, the amount of acceptable continuing education required must be obtained during the two years immediately before application or the applicant must provide other evidence as the board may reasonably require.

Subd. 3. **Temporary permit.** Upon payment of a fee and in accordance with the rules of the board, the board may issue a temporary permit to practice podiatric medicine to a podiatrist engaged in a clinical residency or preceptorship for a period not to exceed 12 months. A temporary permit may be extended under the following conditions:

(1) the applicant submits acceptable evidence that the training was interrupted by circumstances beyond the control of the applicant and that the sponsor of the program agrees to the extension;

(2) the applicant is continuing in a residency that extends for more than one year; or

(3) the applicant is continuing in a residency that extends for more than two years.
