

18B.04 PESTICIDE IMPACT ON ENVIRONMENT.

The commissioner shall:

- (1) determine the impact of pesticides on the environment, including the impacts on surface water and groundwater in this state;
- (2) develop best management practices involving pesticide distribution, storage, handling, use, and disposal; and
- (3) cooperate with and assist other state agencies and local governments to protect public health and the environment from harmful exposure to pesticides.

History: 1987 c 358 s 46; 1989 c 326 art 5 s 16
