

245A.11 SPECIAL CONDITIONS FOR RESIDENTIAL PROGRAMS.

Subdivision 1. **Policy statement.** It is the policy of the state that persons shall not be excluded by municipal zoning ordinances or other land use regulations from the benefits of normal residential surroundings.

Subd. 2. **Permitted single-family residential use.** Residential programs with a licensed capacity of six or fewer persons shall be considered a permitted single-family residential use of property for the purposes of zoning and other land use regulations, except that a residential program whose primary purpose is to treat juveniles who have violated criminal statutes relating to sex offenses or have been adjudicated delinquent on the basis of conduct in violation of criminal statutes relating to sex offenses shall not be considered a permitted use. This exception shall not apply to residential programs licensed before July 1, 1995. Programs otherwise allowed under this subdivision shall not be prohibited by operation of restrictive covenants or similar restrictions, regardless of when entered into, which cannot be met because of the nature of the licensed program, including provisions which require the home's occupants be related, and that the home must be occupied by the owner, or similar provisions.

Subd. 2a. **Adult foster care license capacity.** (a) The commissioner shall issue adult foster care licenses with a maximum licensed capacity of four beds, including nonstaff roomers and boarders, except that the commissioner may issue a license with a capacity of five beds, including roomers and boarders, according to paragraphs (b) to (f).

(b) An adult foster care license holder may have a maximum license capacity of five if all persons in care are age 55 or over and do not have a serious and persistent mental illness or a developmental disability.

(c) The commissioner may grant variances to paragraph (b) to allow a foster care provider with a licensed capacity of five persons to admit an individual under the age of 55 if the variance complies with section 245A.04, subdivision 9, and approval of the variance is recommended by the county in which the licensed foster care provider is located.

(d) The commissioner may grant variances to paragraph (b) to allow the use of a fifth bed for emergency crisis services for a person with serious and persistent mental illness or a developmental disability, regardless of age, if the variance complies with section 245A.04, subdivision 9, and approval of the variance is recommended by the county in which the licensed foster care provider is located.

(e) If the 2009 legislature adopts a rate reduction that impacts providers of adult foster care services, the commissioner may issue an adult foster care license with a capacity of five adults if the fifth bed does not increase the overall statewide capacity of licensed adult foster care beds in homes that are not the primary residence of the license holder, over the licensed capacity in such homes on July 1, 2009, as identified in a plan submitted to the commissioner by the county, when the capacity is recommended by the county licensing agency of the county in which the facility is located and if the recommendation verifies that:

(1) the facility meets the physical environment requirements in the adult foster care licensing rule;

(2) the five-bed living arrangement is specified for each resident in the resident's:

(i) individualized plan of care;

(ii) individual service plan under section 256B.092, subdivision 1b, if required; or

(iii) individual resident placement agreement under Minnesota Rules, part 9555.5105, subpart 19, if required;

(3) the license holder obtains written and signed informed consent from each resident or resident's legal representative documenting the resident's informed choice to living in the home and that the resident's refusal to consent would not have resulted in service termination; and

(4) the facility was licensed for adult foster care before March 1, 2009.

(f) The commissioner shall not issue a new adult foster care license under paragraph (e) after June 30, 2011. The commissioner shall allow a facility with an adult foster care license issued under paragraph (e) before June 30, 2011, to continue with a capacity of five adults if the license holder continues to comply with the requirements in paragraph (e).

Subd. 2b. Adult foster care; family adult day services. An adult foster care license holder licensed under the conditions in subdivision 2a may also provide family adult day care for adults age 55 or over if no persons in the adult foster or family adult day services program have a serious and persistent mental illness or a developmental disability. Family adult day services provided in a licensed adult foster care setting must be provided as specified under section 245A.143. Authorization to provide family adult day services in the adult foster care setting shall be printed on the license certificate by the commissioner. Adult foster care homes licensed under this section and family adult day services licensed under section 245A.143 shall not be subject to licensure by the commissioner of health under the provisions of chapter 144, 144A, 157, or any other law requiring facility licensure by the commissioner of health.

Subd. 3. Permitted multifamily residential use. Unless otherwise provided in any town, municipal, or county zoning regulation, a licensed residential program with a licensed capacity of seven to 16 persons shall be considered a permitted multifamily residential use of property for the purposes of zoning and other land use regulations. A town, municipal, or county zoning authority may require a conditional use or special use permit to assure proper maintenance and operation of a residential program. Conditions imposed on the residential program must not be more restrictive than those imposed on other conditional uses or special uses of residential property in the same zones, unless the additional conditions are necessary to protect the health and safety of the persons being served by the program. Nothing in this chapter shall be construed to exclude or prohibit residential programs from single-family zones if otherwise permitted by local zoning regulations.

Subd. 4. Location of residential programs. In determining whether to grant a license, the commissioner shall specifically consider the population, size, land use plan, availability of community services, and the number and size of existing licensed residential programs in the town, municipality, or county in which the applicant seeks to operate a residential program. The commissioner shall not grant an initial license to any residential program if the residential program will be within 1,320 feet of an existing residential program unless one of the following conditions apply: (1) the existing residential program is located in a hospital licensed by the commissioner of health; (2) the town, municipality, or county zoning authority grants the residential program a conditional use or special use permit; (3) the program serves six or fewer persons and is not located in a city of the first class; or (4) the program is foster care.

Subd. 5. Overconcentration and dispersal. (a) Before January 1, 1985, each county having two or more group residential programs within 1,320 feet of each other shall submit to

the Department of Human Services a plan to promote dispersal of group residential programs. In formulating its plan, the county shall solicit the participation of affected persons, programs, municipalities having highly concentrated residential program populations, and advocacy groups. For the purposes of this subdivision, "highly concentrated" means having a population in residential programs serving seven or more persons that exceeds one-half of one percent of the population of a recognized planning district or other administrative subdivision.

(b) Within 45 days after the county submits the plan, the commissioner shall certify whether the plan fulfills the purposes and requirements of this subdivision including the following requirements:

(1) a new program serving seven or more persons must not be located in any recognized planning district or other administrative subdivision where the population in residential programs is highly concentrated;

(2) the county plan must promote dispersal of highly concentrated residential program populations;

(3) the county plan shall promote the development of residential programs in areas that are not highly concentrated;

(4) no person in a residential program shall be displaced as a result of this section until a relocation plan has been implemented that provides for an acceptable alternative placement;

(5) if the plan provides for the relocation of residential programs, the relocation must be completed by January 1, 1990. If the commissioner certifies that the plan does not do so, the commissioner shall state the reasons, and the county has 30 days to submit a plan amended to comply with the requirements of the commissioner.

(c) After July 1, 1985, the commissioner may reduce grants under section 245.73 to a county required to have an approved plan under paragraph (a) if the county does not have a plan approved by the commissioner or if the county acts in disregard of its approved plan. The county board has the right to be provided with advance notice and to appeal the commissioner's decision. If the county requests a hearing within 30 days of the notification of intent to reduce grants, the commissioner shall not certify any reduction in grants until a hearing is conducted and a decision made in accordance with the contested case provisions of chapter 14.

Subd. 5a. Integration of residential programs. The commissioner of human services shall seek input from counties and municipalities on methods for integrating all residential programs into the community.

Subd. 6. Hospitals; exemption. Residential programs located in hospitals shall be exempt from the provisions of this section.

Subd. 7. Adult foster care; variance for alternate overnight supervision. (a) The commissioner may grant a variance under section 245A.04, subdivision 9, to rule parts requiring a caregiver to be present in an adult foster care home during normal sleeping hours to allow for alternative methods of overnight supervision. The commissioner may grant the variance if the local county licensing agency recommends the variance and the county recommendation includes documentation verifying that:

(1) the county has approved the license holder's plan for alternative methods of providing overnight supervision and determined the plan protects the residents' health, safety, and rights;

(2) the license holder has obtained written and signed informed consent from each resident or each resident's legal representative documenting the resident's or legal representative's agreement with the alternative method of overnight supervision; and

(3) the alternative method of providing overnight supervision, which may include the use of technology, is specified for each resident in the resident's: (i) individualized plan of care; (ii) individual service plan under section 256B.092, subdivision 1b, if required; or (iii) individual resident placement agreement under Minnesota Rules, part 9555.5105, subpart 19, if required.

(b) To be eligible for a variance under paragraph (a), the adult foster care license holder must not have had a licensing action under section 245A.06 or 245A.07 during the prior 24 months based on failure to provide adequate supervision, health care services, or resident safety in the adult foster care home.

(c) A license holder requesting a variance under this subdivision to utilize technology as a component of a plan for alternative overnight supervision may request the commissioner's review in the absence of a county recommendation. Upon receipt of such a request from a license holder, the commissioner shall review the variance request with the county.

Subd. 7a. Alternate overnight supervision technology; adult foster care license. (a) The commissioner may grant an applicant or license holder an adult foster care license for a residence that does not have a caregiver in the residence during normal sleeping hours as required under Minnesota Rules, part 9555.5105, subpart 37, item B, but uses monitoring technology to alert the license holder when an incident occurs that may jeopardize the health, safety, or rights of a foster care recipient. The applicant or license holder must comply with all other requirements under Minnesota Rules, parts 9555.5105 to 9555.6265, and the requirements under this subdivision. The license printed by the commissioner must state in bold and large font:

(1) that the facility is under electronic monitoring; and

(2) the telephone number of the county's common entry point for making reports of suspected maltreatment of vulnerable adults under section 626.557, subdivision 9.

(b) Applications for a license under this section must be submitted directly to the Department of Human Services licensing division. The licensing division must immediately notify the host county and lead county contract agency and the host county licensing agency. The licensing division must collaborate with the county licensing agency in the review of the application and the licensing of the program.

(c) Before a license is issued by the commissioner, and for the duration of the license, the applicant or license holder must establish, maintain, and document the implementation of written policies and procedures addressing the requirements in paragraphs (d) through (f).

(d) The applicant or license holder must have policies and procedures that:

(1) establish characteristics of target populations that will be admitted into the home, and characteristics of populations that will not be accepted into the home;

(2) explain the discharge process when a foster care recipient requires overnight supervision or other services that cannot be provided by the license holder due to the limited hours that the license holder is on site;

(3) describe the types of events to which the program will respond with a physical presence when those events occur in the home during time when staff are not on site, and how the license holder's response plan meets the requirements in paragraph (e), clause (1) or (2);

(4) establish a process for documenting a review of the implementation and effectiveness of the response protocol for the response required under paragraph (e), clause (1) or (2). The documentation must include:

- (i) a description of the triggering incident;
- (ii) the date and time of the triggering incident;
- (iii) the time of the response or responses under paragraph (e), clause (1) or (2);
- (iv) whether the response met the resident's needs;
- (v) whether the existing policies and response protocols were followed; and
- (vi) whether the existing policies and protocols are adequate or need modification.

When no physical presence response is completed for a three-month period, the license holder's written policies and procedures must require a physical presence response drill to be conducted for which the effectiveness of the response protocol under paragraph (e), clause (1) or (2), will be reviewed and documented as required under this clause; and

(5) establish that emergency and nonemergency phone numbers are posted in a prominent location in a common area of the home where they can be easily observed by a person responding to an incident who is not otherwise affiliated with the home.

(e) The license holder must document and include in the license application which response alternative under clause (1) or (2) is in place for responding to situations that present a serious risk to the health, safety, or rights of people receiving foster care services in the home:

(1) response alternative (1) requires only the technology to provide an electronic notification or alert to the license holder that an event is underway that requires a response. Under this alternative, no more than ten minutes will pass before the license holder will be physically present on site to respond to the situation; or

(2) response alternative (2) requires the electronic notification and alert system under alternative (1), but more than ten minutes may pass before the license holder is present on site to respond to the situation. Under alternative (2), all of the following conditions are met:

(i) the license holder has a written description of the interactive technological applications that will assist the license holder in communicating with and assessing the needs related to the care, health, and safety of the foster care recipients. This interactive technology must permit the license holder to remotely assess the well being of the foster care recipient without requiring the initiation of the foster care recipient. Requiring the foster care recipient to initiate a telephone call does not meet this requirement;

(ii) the license holder documents how the remote license holder is qualified and capable of meeting the needs of the foster care recipients and assessing foster care recipients' needs under item (i) during the absence of the license holder on site;

(iii) the license holder maintains written procedures to dispatch emergency response personnel to the site in the event of an identified emergency; and

(iv) each foster care recipient's individualized plan of care, individual service plan under section 256B.092, subdivision 1b, if required, or individual resident placement agreement under Minnesota Rules, part 9555.5105, subpart 19, if required, identifies the maximum response time, which may be greater than ten minutes, for the license holder to be on site for that foster care recipient.

(f) All placement agreements, individual service agreements, and plans applicable to the foster care recipient must clearly state that the adult foster care license category is a program without the presence of a caregiver in the residence during normal sleeping hours; the protocols in place for responding to situations that present a serious risk to the health, safety, or rights of foster care recipients under paragraph (e), clause (1) or (2); and a signed informed consent from each foster care recipient or the person's legal representative documenting the person's or legal representative's agreement with placement in the program. If electronic monitoring technology is used in the home, the informed consent form must also explain the following:

- (1) how any electronic monitoring is incorporated into the alternative supervision system;
- (2) the backup system for any electronic monitoring in times of electrical outages or other equipment malfunctions;
- (3) how the license holder is trained on the use of the technology;
- (4) the event types and license holder response times established under paragraph (e);
- (5) how the license holder protects the foster care recipient's privacy related to electronic monitoring and related to any electronically recorded data generated by the monitoring system. A foster care recipient may not be removed from a program under this subdivision for failure to consent to electronic monitoring. The consent form must explain where and how the electronically recorded data is stored, with whom it will be shared, and how long it is retained; and
- (6) the risks and benefits of the alternative overnight supervision system.

The written explanations under clauses (1) to (6) may be accomplished through cross-references to other policies and procedures as long as they are explained to the person giving consent, and the person giving consent is offered a copy.

(g) Nothing in this section requires the applicant or license holder to develop or maintain separate or duplicative policies, procedures, documentation, consent forms, or individual plans that may be required for other licensing standards, if the requirements of this section are incorporated into those documents.

(h) The commissioner may grant variances to the requirements of this section according to section 245A.04, subdivision 9.

(i) For the purposes of paragraphs (d) through (h), "license holder" has the meaning under section 245A.2, subdivision 9, and additionally includes all staff, volunteers, and contractors affiliated with the license holder.

(j) For the purposes of paragraph (e), the terms "assess" and "assessing" mean to remotely determine what action the license holder needs to take to protect the well-being of the foster care recipient.

Subd. 7b. **Adult foster care data privacy and security.** (a) An adult foster care license holder who creates, collects, records, maintains, stores, or discloses any individually identifiable

recipient data, whether in an electronic or any other format, must comply with the privacy and security provisions of applicable privacy laws and regulations, including:

(1) the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA), Public Law 104-1; and the HIPAA Privacy Rule, Code of Federal Regulations, title 45, part 160, and subparts A and E of part 164; and

(2) the Minnesota Government Data Practices Act as codified in chapter 13.

(b) For purposes of licensure, the license holder shall be monitored for compliance with the following data privacy and security provisions:

(1) the license holder must control access to data on foster care recipients according to the definitions of public and private data on individuals under section 13.02; classification of the data on individuals as private under section 13.46, subdivision 2; and control over the collection, storage, use, access, protection, and contracting related to data according to section 13.05, in which the license holder is assigned the duties of a government entity;

(2) the license holder must provide each foster care recipient with a notice that meets the requirements under section 13.04, in which the license holder is assigned the duties of the government entity, and that meets the requirements of Code of Federal Regulations, title 45, part 164.52. The notice shall describe the purpose for collection of the data, and to whom and why it may be disclosed pursuant to law. The notice must inform the recipient that the license holder uses electronic monitoring and, if applicable, that recording technology is used;

(3) the license holder must not install monitoring cameras in bathrooms;

(4) electronic monitoring cameras must not be concealed from the foster care recipients; and

(5) electronic video and audio recordings of foster care recipients shall be stored by the license holder for five days unless: (i) a foster care recipient or legal representative requests that the recording be held longer based on a specific report of alleged maltreatment; or (ii) the recording captures an incident or event of alleged maltreatment under section 626.556 or 626.557 or a crime under chapter 609. When requested by a recipient or when a recording captures an incident or event of alleged maltreatment or a crime, the license holder must maintain the recording in a secured area for no longer than 30 days to give the investigating agency an opportunity to make a copy of the recording. The investigating agency will maintain the electronic video or audio recordings as required in section 626.557, subdivision 12b.

(c) The commissioner shall develop, and make available to license holders and county licensing workers, a checklist of the data privacy provisions to be monitored for purposes of licensure.

Subd. 8. Community residential setting license. (a) The commissioner shall establish provider standards for residential support services that integrate service standards and the residential setting under one license. The commissioner shall propose statutory language and an implementation plan for licensing requirements for residential support services to the legislature by January 15, 2011.

(b) Providers licensed under chapter 245B, and providing, contracting, or arranging for services in settings licensed as adult foster care under Minnesota Rules, parts 9555.5105 to 9555.6265, or child foster care under Minnesota Rules, parts 2960.3000 to 2960.3340; and

meeting the provisions of section 256B.092, subdivision 11, paragraph (b), must be required to obtain a community residential setting license.

History: 1987 c 333 s 12; 1988 c 411 s 6; 1990 c 568 art 2 s 47; 1992 c 513 art 9 s 14; 1993 c 10 s 1; 1995 c 224 s 79; 1997 c 203 art 7 s 4; 1997 c 248 s 31; 2000 c 327 s 6; 2001 c 4 s 1,2; 1Sp2003 c 14 art 6 s 10-12; 2004 c 288 art 1 s 25; art 5 s 2; 2007 c 112 s 13; 2009 c 79 art 1 s 3-5; art 8 s 9; 2009 c 173 art 1 s 3; 2010 c 352 art 1 s 6
