

424A.016 DEFINED CONTRIBUTION VOLUNTEER FIREFIGHTERS' RELIEF ASSOCIATION SPECIFIC REGULATION.

Subdivision 1. **Defined contribution relief association authorization.** If the articles of incorporation or the bylaws governing the volunteer firefighters' relief association so provide exclusively, the relief association may pay a defined contribution lump-sum service pension instead of a defined benefit service pension governed by section 424A.02.

Subd. 2. **Defined contribution service pension eligibility.** (a) A relief association, when its articles of incorporation or bylaws so provide, may pay out of the assets of its special fund a defined contribution service pension to each of its members who:

- (1) separates from active service with the fire department;
- (2) reaches age 50;
- (3) completes at least five years of active service as an active member of the municipal fire department to which the relief association is associated;
- (4) completes at least five years of active membership with the relief association before separation from active service; and
- (5) complies with any additional conditions as to age, service, and membership that are prescribed by the bylaws of the relief association.

(b) In the case of a member who has completed at least five years of active service as an active member of the fire department to which the relief association is associated on the date that the relief association is established and incorporated, the requirement that the member complete at least five years of active membership with the relief association before separation from active service may be waived by the board of trustees of the relief association if the member completes at least five years of inactive membership with the relief association before the date of the payment of the service pension. During the period of inactive membership, the member is not entitled to receive any disability benefit coverage, is not entitled to receive additional individual account allocation of fire state aid or municipal contribution towards a service pension, and is considered to have the status of a person entitled to a deferred service pension.

(c) The service pension earned by a volunteer under this chapter and the articles of incorporation and bylaws of the relief association may be paid whether or not the municipality or nonprofit firefighting corporation to which the relief association is associated qualifies for the receipt of fire state aid under chapter 69.

Subd. 3. **Reduced vesting schedule.** If the articles of incorporation or bylaws of a defined contribution relief association so provide, a relief association may pay a reduced service pension not to exceed the nonforfeitable percentage of the account balance to a retiring member who has completed fewer than 20 years of service. The reduced service pension may be paid when the retiring member meets the minimum age and service requirements of subdivision 2. The nonforfeitable percentage of pension amounts are as follows:

| Completed Years of Service | Nonforfeitable Percentage of Pension Amount |
|----------------------------|---|
| 5 | 40 percent |
| 6 | 52 percent |

| | |
|-------------------|-------------|
| 7 | 64 percent |
| 8 | 76 percent |
| 9 | 88 percent |
| 10 and thereafter | 100 percent |

Subd. 4. **Individual accounts.** (a) An individual account must be established for each firefighter who is a member of the relief association.

(b) To each individual active member account must be credited an equal share of:

(1) any amounts of fire state aid received by the relief association;

(2) any amounts of municipal contributions to the relief association raised from levies on real estate or from other available municipal revenue sources exclusive of fire state aid; and

(3) any amounts equal to the share of the assets of the special fund to the credit of:

(i) any former member who terminated active service with the fire department to which the relief association is associated before meeting the minimum service requirement provided for in subdivision 2, paragraph (b), and has not returned to active service with the fire department for a period no shorter than five years; or

(ii) any retired member who retired before obtaining a full nonforfeitable interest in the amounts credited to the individual member account under subdivision 2, paragraph (b), and any applicable provision of the bylaws of the relief association. In addition, any investment return on the assets of the special fund must be credited in proportion to the share of the assets of the special fund to the credit of each individual active member account. Administrative expenses of the relief association payable from the special fund may be deducted from individual accounts in a manner specified in the bylaws of the relief association.

(c) If the bylaws so permit and as the bylaws define, the relief association may credit any investment return on the assets of the special fund to the accounts of inactive members.

(d) Amounts to be credited to individual accounts must be allocated uniformly for all years of active service and allocations must be made for all years of service, except for caps on service credit if so provided in the bylaws of the relief association. The allocation method may utilize monthly proration for fractional years of service, as the bylaws or articles of incorporation of the relief association so provide. The bylaws or articles of incorporation may define a "month," but the definition must require a calendar month to have at least 16 days of active service. If the bylaws or articles of incorporation do not define a "month," a "month" is a completed calendar month of active service measured from the member's date of entry to the same date in the subsequent month.

(e) At the time of retirement under subdivision 2 and any applicable provision of the bylaws of the relief association, a retiring member is entitled to that portion of the assets of the special fund to the credit of the member in the individual member account which is nonforfeitable under subdivision 3 and any applicable provision of the bylaws of the relief association based on the number of years of service to the credit of the retiring member.

(f) Annually, the secretary of the relief association shall certify the individual account allocations to the state auditor at the same time that the annual financial statement or financial report and audit of the relief association, whichever applies, is due under section 69.051.

Subd. 5. **Service pension installment payments.** A defined contribution relief association, if the governing bylaws so provide, may pay, at the option of the retiring member and in lieu of a single payment of a service pension, the service pension in installments. The election of installment payments is irrevocable and must be made by the retiring member in writing and filed with the secretary of the relief association no later than 30 days before the commencement of payment of the service pension. The amount of the installment payments must be the fractional portion of the remaining account balance equal to one divided by the number of remaining annual installment payments.

Subd. 6. **Deferred service pensions.** (a) A member of a relief association is entitled to a deferred service pension if the member:

(1) has completed the lesser of the minimum period of active service with the fire department specified in the bylaws or 20 years of active service with the fire department;

(2) has completed at least five years of active membership in the relief association; and

(3) separates from active service and membership before reaching age 50 or the minimum age for retirement and commencement of a service pension specified in the bylaws governing the relief association if that age is greater than age 50.

(b) The deferred service pension is payable when the former member reaches age 50, or the minimum age specified in the bylaws governing the relief association if that age is greater than age 50, and when the former member makes a valid written application.

(c) A defined contribution relief association may, if its governing bylaws so provide, credit interest or additional investment performance on the deferred lump-sum service pension during the period of deferral. If provided for in the bylaws, the interest must be paid:

(1) at the investment performance rate actually earned on that portion of the assets if the deferred benefit amount is invested by the relief association in a separate account established and maintained by the relief association or if the deferred benefit amount is invested in a separate investment vehicle held by the relief association; or

(2) the investment return on the assets of the special fund of the defined contribution volunteer firefighter relief association in proportion to the share of the assets of the special fund to the credit of each individual deferred member account through the date on which the investment return is recognized by and credited to the special fund.

(d) The deferred service pension is governed by and must be calculated under the general statute, special law, relief association articles of incorporation, and relief association bylaw provisions applicable on the date on which the member separated from active service with the fire department and active membership in the relief association.

Subd. 7. **Limitation on ancillary benefits.** (a) A defined contribution relief association may only pay an ancillary benefit which would constitute an authorized disbursement as specified in section 424A.05. The ancillary benefit for active members must equal the vested and nonvested amount of the individual account of the member.

(b) For deferred members, the ancillary benefit must equal the vested amount of the individual account of the member. For the recipient of installment payments of a service pension, the ancillary benefit must equal the remaining balance in the individual account of the recipient.

(c)(1) If a survivor or death benefit is payable under the articles of incorporation or bylaws, the benefit must be paid:

- (i) as a survivor benefit to the surviving spouse of the deceased firefighter;
- (ii) as a survivor benefit to the surviving children of the deceased firefighter if no surviving spouse;
- (iii) as a survivor benefit to a designated beneficiary of the deceased firefighter if no surviving spouse or surviving children; or
- (iv) as a death benefit to the estate of the deceased active or deferred firefighter if no surviving spouse, no surviving children, and no beneficiary designated.

(2) If there are no surviving children, the surviving spouse may waive, in writing, wholly or partially, the spouse's entitlement to a survivor benefit.

(d) For purposes of this section, for a defined contribution volunteer fire relief association, a trust created under chapter 501B may be a designated beneficiary. If a trust payable to the surviving children organized under chapter 501B has been established as authorized by this section and there is no surviving spouse, the survivor benefit may be paid to the trust, notwithstanding the requirements of this section.

Subd. 8. Filing of bylaw amendments. Each relief association to which this section applies must file a revised copy of its governing bylaws with the state auditor upon the adoption of any amendment to its governing bylaws by the relief association. Failure of the relief association to file a copy of the bylaws or any bylaw amendments with the state auditor disqualifies the municipality from the distribution of any future fire state aid until this filing requirement has been completed.

History: 2009 c 169 art 10 s 23; 2010 c 359 art 13 s 7,8
