103B.701 STAR LAKES.

Subdivision 1. **Definition.** For the purposes of this section, the term "lake association" means an association organized for the purpose of addressing issues on a specific lake or river, a lake improvement district, or a lake conservation district.

- Subd. 2. **Application.** (a) A lake association may apply to the Star Lake Board for designation as a star lake or river. The applicant must include a copy of a star lake or river management plan for the lake or river.
- (b) After review of the application, the Star Lake Board shall determine whether designation as a star lake or river will be granted. The designation as a star lake or river becomes effective the day following designation by the board. The board shall publish the decision on a star lake or river designation in the State Register, including the effective date of the designation.
 - (c) The star lake or river designation is effective until the earlier of:
 - (1) five years after the date of designation; or
- (2) when the Star Lake Board finds that the lake association is not fulfilling the requirements of this section or of the star lake or river management plan submitted.
- (d) Within six months before the expiration date of the designation as a star lake or river, a lake association may apply to continue the star lake or river designation under this section.
 - Subd. 3. Eligibility. A lake association applying for designation as a star lake or river must:
 - (1) develop and update a star lake or river management plan as provided in subdivision 4;
- (2) maintain a membership or participation of at least 50 percent of the private shoreland owners;
- (3) participate in a water quality monitoring program under section 115.06, subdivision 4, or other programs meeting Pollution Control Agency standards; and
- (4) meet at least annually to review the plan and notify appropriate state agencies and local government units in the development and monitoring of the star lake or river management plan.
- Subd. 4. **Star lake or river management plan.** (a) A star lake or river management plan must contain a baseline of the current condition of the lake or river based on scientific information and plans for addressing the following issues:
 - (1) increases in native vegetation in the littoral area of the lake or river, where appropriate;
- (2) increases in native vegetation on the shoreline areas of the lake or river, where appropriate;
 - (3) prevention, reduction, or elimination of aquatic invasive species in the lake or river;
 - (4) increasing or maintaining a healthy diverse fishery that is appropriate for the lake or river;
- (5) how the association will work with state agencies and local government units to identify water pollution sources and impairments;
- (6) how the association will assist state and local programs to generate data needed by state agencies and local government units in an appropriate format;

- (7) promoting compliance with adopted shoreland zoning standards and shoreland best management practices;
- (8) how the lake association will ensure its involvement in public input opportunities for various local comprehensive and project-specific planning and zoning processes;
- (9) education and recognition opportunities for shoreland owners and other entities that conduct activities affecting the quality of the lake or river; and
- (10) other activities that will coordinate with or enhance other state and local water management efforts.
- (b) The star lake or river management plan shall be updated within five years of adoption by the lake association.
- Subd. 5. **State resources.** State agencies may consider star lake or river designation in determining the allocation of financial and staff resources.
