

256B.0911 LONG-TERM CARE CONSULTATION SERVICES.

Subdivision 1. **Purpose and goal.** (a) The purpose of long-term care consultation services is to assist persons with long-term or chronic care needs in making long-term care decisions and selecting options that meet their needs and reflect their preferences. The availability of, and access to, information and other types of assistance, including assessment and support planning, is also intended to prevent or delay certified nursing facility placements and to provide transition assistance after admission. Further, the goal of these services is to contain costs associated with unnecessary certified nursing facility admissions. Long-term consultation services must be available to any person regardless of public program eligibility. The commissioner of human services shall seek to maximize use of available federal and state funds and establish the broadest program possible within the funding available.

(b) These services must be coordinated with long-term care options counseling provided under section 256.975, subdivision 7, and section 256.01, subdivision 24, for telephone assistance and follow up and to offer a variety of cost-effective alternatives to persons with disabilities and elderly persons. The county or tribal agency or managed care plan providing long-term care consultation services shall encourage the use of volunteers from families, religious organizations, social clubs, and similar civic and service organizations to provide community-based services.

Subd. 1a. **Definitions.** For purposes of this section, the following definitions apply:

(a) "Long-term care consultation services" means:

(1) assistance in identifying services needed to maintain an individual in the most inclusive environment;

(2) providing recommendations on cost-effective community services that are available to the individual;

(3) development of an individual's person-centered community support plan;

(4) providing information regarding eligibility for Minnesota health care programs;

(5) face-to-face long-term care consultation assessments, which may be completed in a hospital, nursing facility, intermediate care facility for persons with developmental disabilities (ICF/DDs), regional treatment centers, or the person's current or planned residence;

(6) federally mandated screening to determine the need for an institutional level of care under subdivision 4a;

(7) determination of home and community-based waiver service eligibility including level of care determination for individuals who need an institutional level of care as determined under section 256B.0911, subdivision 4a, paragraph (d), or 256B.092, service eligibility including state plan home care services identified in sections 256B.0625, subdivisions 6, 7, and 19, paragraphs (a) and (c), and 256B.0657, based on assessment and support plan development with appropriate referrals, including the option for consumer-directed community supports;

(8) providing recommendations for nursing facility placement when there are no cost-effective community services available; and

(9) assistance to transition people back to community settings after facility admission.

(b) "Long-term care options counseling" means the services provided by the linkage lines as mandated by sections 256.01 and 256.975, subdivision 7, and also includes telephone assistance and follow up once a long-term care consultation assessment has been completed.

(c) "Minnesota health care programs" means the medical assistance program under chapter 256B and the alternative care program under section 256B.0913.

(d) "Lead agencies" means counties or a collaboration of counties, tribes, and health plans administering long-term care consultation assessment and support planning services.

Subd. 2. [Repealed, 1Sp2001 c 9 art 4 s 34]

Subd. 2a. [Repealed, 1Sp2001 c 9 art 4 s 34]

Subd. 2b. **Certified assessors.** (a) Beginning January 1, 2011, each lead agency shall use certified assessors who have completed training and the certification processes determined by the commissioner in subdivision 2c. Certified assessors shall demonstrate best practices in assessment and support planning including person-centered planning principals and have a common set of skills that must ensure consistency and equitable access to services statewide. Assessors must be part of a multidisciplinary team of professionals that includes public health nurses, social workers, and other professionals as defined in paragraph (b). For persons with complex health care needs, a public health nurse or registered nurse from a multidisciplinary team must be consulted. A lead agency may choose, according to departmental policies, to contract with a qualified, certified assessor to conduct assessments and reassessments on behalf of the lead agency.

(b) Certified assessors are persons with a minimum of a bachelor's degree in social work, nursing with a public health nursing certificate, or other closely related field with at least one year of home and community-based experience or a two-year registered nursing degree with at least three years of home and community-based experience that have received training and certification specific to assessment and consultation for long-term care services in the state.

Subd. 2c. **Assessor training and certification.** The commissioner shall develop a curriculum and an assessor certification process to begin no later than January 1, 2010. All existing lead agency staff designated to provide the services defined in subdivision 1a must be certified by December 30, 2010. Each lead agency is required to ensure that they have sufficient numbers of certified assessors to provide long-term consultation assessment and support planning within the timelines and parameters of the service by January 1, 2011. Certified assessors are required to be recertified every three years.

Subd. 3. **Long-term care consultation team.** (a) Until January 1, 2011, a long-term care consultation team shall be established by the county board of commissioners. Each local consultation team shall consist of at least one social worker and at least one public health nurse from their respective county agencies. The board may designate public health or social services as the lead agency for long-term care consultation services. If a county does not have a public health nurse available, it may request approval from the commissioner to assign a county registered nurse with at least one year experience in home care to participate on the team. Two or more counties may collaborate to establish a joint local consultation team or teams.

(b) The team is responsible for providing long-term care consultation services to all persons located in the county who request the services, regardless of eligibility for Minnesota health care programs.

(c) The commissioner shall allow arrangements and make recommendations that encourage counties to collaborate to establish joint local long-term care consultation teams to ensure that long-term care consultations are done within the timelines and parameters of the service. This includes integrated service models as required in subdivision 1, paragraph (b).

Subd. 3a. **Assessment and support planning.** (a) Persons requesting assessment, services planning, or other assistance intended to support community-based living, including persons who need assessment in order to determine waiver or alternative care program eligibility, must be visited by a long-term care consultation team within 15 calendar days after the date on which an assessment was requested or recommended. After January 1, 2011, these requirements also apply to personal care assistance services, private duty nursing, and home health agency services, on timelines established in subdivision 5. Face-to-face assessments must be conducted according to paragraphs (b) to (i).

(b) The county may utilize a team of either the social worker or public health nurse, or both. After January 1, 2011, lead agencies shall use certified assessors to conduct the assessment in a face-to-face interview. The consultation team members must confer regarding the most appropriate care for each individual screened or assessed.

(c) The assessment must be comprehensive and include a person-centered assessment of the health, psychological, functional, environmental, and social needs of referred individuals and provide information necessary to develop a support plan that meets the consumers needs, using an assessment form provided by the commissioner.

(d) The assessment must be conducted in a face-to-face interview with the person being assessed and the person's legal representative, as required by legally executed documents, and other individuals as requested by the person, who can provide information on the needs, strengths, and preferences of the person necessary to develop a support plan that ensures the person's health and safety, but who is not a provider of service or has any financial interest in the provision of services.

(e) The person, or the person's legal representative, must be provided with written recommendations for community-based services, including consumer-directed options, or institutional care that include documentation that the most cost-effective alternatives available were offered to the individual, and alternatives to residential settings, including, but not limited to, foster care settings that are not the primary residence of the license holder. For purposes of this requirement, "cost-effective alternatives" means community services and living arrangements that cost the same as or less than institutional care.

(f) If the person chooses to use community-based services, the person or the person's legal representative must be provided with a written community support plan, regardless of whether the individual is eligible for Minnesota health care programs. A person may request assistance in identifying community supports without participating in a complete assessment. Upon a request for assistance identifying community support, the person must be transferred or referred to the services available under sections 256.975, subdivision 7, and 256.01, subdivision 24, for telephone assistance and follow up.

(g) The person has the right to make the final decision between institutional placement and community placement after the recommendations have been provided, except as provided in subdivision 4a, paragraph (c).

(h) The team must give the person receiving assessment or support planning, or the person's legal representative, materials, and forms supplied by the commissioner containing the following information:

- (1) the need for and purpose of preadmission screening if the person selects nursing facility placement;
- (2) the role of the long-term care consultation assessment and support planning in waiver and alternative care program eligibility determination;
- (3) information about Minnesota health care programs;
- (4) the person's freedom to accept or reject the recommendations of the team;
- (5) the person's right to confidentiality under the Minnesota Government Data Practices Act, chapter 13;
- (6) the long-term care consultant's decision regarding the person's need for institutional level of care as determined under criteria established in section 144.0724, subdivision 11, or 256B.092; and
- (7) the person's right to appeal the decision regarding the need for nursing facility level of care or the county's final decisions regarding public programs eligibility according to section 256.045, subdivision 3.

(i) Face-to-face assessment completed as part of eligibility determination for the alternative care, elderly waiver, community alternatives for disabled individuals, community alternative care, and traumatic brain injury waiver programs under sections 256B.0915, 256B.0917, and 256B.49 is valid to establish service eligibility for no more than 60 calendar days after the date of assessment. The effective eligibility start date for these programs can never be prior to the date of assessment. If an assessment was completed more than 60 days before the effective waiver or alternative care program eligibility start date, assessment and support plan information must be updated in a face-to-face visit and documented in the department's Medicaid Management Information System (MMIS). The effective date of program eligibility in this case cannot be prior to the date the updated assessment is completed.

Subd. 3b. **Transition assistance.** (a) A long-term care consultation team shall provide assistance to persons residing in a nursing facility, hospital, regional treatment center, or intermediate care facility for persons with developmental disabilities who request or are referred for assistance. Transition assistance must include assessment, community support plan development, referrals to long-term care options counseling under section 256B.975, subdivision 10, for community support plan implementation and to Minnesota health care programs, including home and community-based waiver services and consumer-directed options through the waivers, and referrals to programs that provide assistance with housing. Transition assistance must also include information about the Centers for Independent Living and the Senior LinkAge Line, and about other organizations that can provide assistance with relocation efforts, and information about contacting these organizations to obtain their assistance and support.

(b) The county shall develop transition processes with institutional social workers and discharge planners to ensure that:

- (1) persons admitted to facilities receive information about transition assistance that is available;

(2) the assessment is completed for persons within ten working days of the date of request or recommendation for assessment; and

(3) there is a plan for transition and follow-up for the individual's return to the community. The plan must require notification of other local agencies when a person who may require assistance is screened by one county for admission to a facility located in another county.

(c) If a person who is eligible for a Minnesota health care program is admitted to a nursing facility, the nursing facility must include a consultation team member or the case manager in the discharge planning process.

Subd. 3c. Consultation for housing with services. (a) The purpose of long-term care consultation for registered housing with services is to support persons with current or anticipated long-term care needs in making informed choices among options that include the most cost-effective and least restrictive settings. Prospective residents maintain the right to choose housing with services or assisted living if that option is their preference.

(b) Registered housing with services establishments shall inform all prospective residents of the availability of long-term care consultation and the need to receive and verify the consultation prior to signing a lease or contract. Long-term care consultation for registered housing with services is provided as determined by the commissioner of human services. The service is delivered under a partnership between lead agencies as defined in subdivision 1a, paragraph (d), and the Area Agencies on Aging, and is a point of entry to a combination of telephone-based long-term care options counseling provided by Senior LinkAge Line and in-person long-term care consultation provided by lead agencies. The point of entry service must be provided within five working days of the request of the prospective resident as follows:

(1) the consultation shall be performed in a manner that provides objective and complete information;

(2) the consultation must include a review of the prospective resident's reasons for considering housing with services, the prospective resident's personal goals, a discussion of the prospective resident's immediate and projected long-term care needs, and alternative community services or housing with services settings that may meet the prospective resident's needs;

(3) the prospective resident shall be informed of the availability of a face-to-face visit at no charge to the prospective resident to assist the prospective resident in assessment and planning to meet the prospective resident's long-term care needs; and

(4) verification of counseling shall be generated and provided to the prospective resident by Senior LinkAge Line upon completion of the telephone-based counseling.

(c) Housing with services establishments registered under chapter 144D shall:

(1) inform all prospective residents of the availability of and contact information for consultation services under this subdivision;

(2) except for individuals seeking lease-only arrangements in subsidized housing settings, receive a copy of the verification of counseling prior to executing a lease or service contract with the prospective resident, and prior to executing a service contract with individuals who have previously entered into lease-only arrangements; and

(3) retain a copy of the verification of counseling as part of the resident's file.

Subd. 4. [Repealed, 1Sp2001 c 9 art 4 s 34]

Subd. 4a. Preadmission screening activities related to nursing facility admissions. (a)

All applicants to Medicaid certified nursing facilities, including certified boarding care facilities, must be screened prior to admission regardless of income, assets, or funding sources for nursing facility care, except as described in subdivision 4b. The purpose of the screening is to determine the need for nursing facility level of care as described in paragraph (d) and to complete activities required under federal law related to mental illness and developmental disability as outlined in paragraph (b).

(b) A person who has a diagnosis or possible diagnosis of mental illness or developmental disability must receive a preadmission screening before admission regardless of the exemptions outlined in subdivision 4b, paragraph (b), to identify the need for further evaluation and specialized services, unless the admission prior to screening is authorized by the local mental health authority or the local developmental disabilities case manager, or unless authorized by the county agency according to Public Law 101-508.

The following criteria apply to the preadmission screening:

(1) the county must use forms and criteria developed by the commissioner to identify persons who require referral for further evaluation and determination of the need for specialized services; and

(2) the evaluation and determination of the need for specialized services must be done by:

(i) a qualified independent mental health professional, for persons with a primary or secondary diagnosis of a serious mental illness; or

(ii) a qualified developmental disability professional, for persons with a primary or secondary diagnosis of developmental disability. For purposes of this requirement, a qualified developmental disability professional must meet the standards for a qualified developmental disability professional under Code of Federal Regulations, title 42, section 483.430.

(c) The local county mental health authority or the state developmental disability authority under Public Law Numbers 100-203 and 101-508 may prohibit admission to a nursing facility if the individual does not meet the nursing facility level of care criteria or needs specialized services as defined in Public Law Numbers 100-203 and 101-508. For purposes of this section, "specialized services" for a person with developmental disability means active treatment as that term is defined under Code of Federal Regulations, title 42, section 483.440 (a)(1).

(d) The determination of the need for nursing facility level of care must be made according to criteria developed by the commissioner, and in section 256B.092, using forms developed by the commissioner. Effective no sooner than on or after July 1, 2012, for individuals age 21 and older, and on or after October 1, 2019, for individuals under age 21, the determination of need for nursing facility level of care shall be based on criteria in section 144.0724, subdivision 11. In assessing a person's needs, consultation team members shall have a physician available for consultation and shall consider the assessment of the individual's attending physician, if any. The individual's physician must be included if the physician chooses to participate. Other personnel may be included on the team as deemed appropriate by the county.

Subd. 4b. Exemptions and emergency admissions. (a) Exemptions from the federal screening requirements outlined in subdivision 4a, paragraphs (b) and (c), are limited to:

(1) a person who, having entered an acute care facility from a certified nursing facility, is returning to a certified nursing facility;

(2) a person transferring from one certified nursing facility in Minnesota to another certified nursing facility in Minnesota; and

(3) a person, 21 years of age or older, who satisfies the following criteria, as specified in Code of Federal Regulations, title 42, section 483.106(b)(2):

(i) the person is admitted to a nursing facility directly from a hospital after receiving acute inpatient care at the hospital;

(ii) the person requires nursing facility services for the same condition for which care was provided in the hospital; and

(iii) the attending physician has certified before the nursing facility admission that the person is likely to receive less than 30 days of nursing facility services.

(b) Persons who are exempt from preadmission screening for purposes of level of care determination include:

(1) persons described in paragraph (a);

(2) an individual who has a contractual right to have nursing facility care paid for indefinitely by the veterans' administration;

(3) an individual enrolled in a demonstration project under section 256B.69, subdivision 8, at the time of application to a nursing facility; and

(4) an individual currently being served under the alternative care program or under a home and community-based services waiver authorized under section 1915(c) of the federal Social Security Act.

(c) Persons admitted to a Medicaid-certified nursing facility from the community on an emergency basis as described in paragraph (d) or from an acute care facility on a nonworking day must be screened the first working day after admission.

(d) Emergency admission to a nursing facility prior to screening is permitted when all of the following conditions are met:

(1) a person is admitted from the community to a certified nursing or certified boarding care facility during county nonworking hours;

(2) a physician has determined that delaying admission until preadmission screening is completed would adversely affect the person's health and safety;

(3) there is a recent precipitating event that precludes the client from living safely in the community, such as sustaining an injury, sudden onset of acute illness, or a caregiver's inability to continue to provide care;

(4) the attending physician has authorized the emergency placement and has documented the reason that the emergency placement is recommended; and

(5) the county is contacted on the first working day following the emergency admission.

Transfer of a patient from an acute care hospital to a nursing facility is not considered an emergency except for a person who has received hospital services in the following situations:

hospital admission for observation, care in an emergency room without hospital admission, or following hospital 24-hour bed care.

(e) A nursing facility must provide written information to all persons admitted regarding the person's right to request and receive long-term care consultation services as defined in subdivision 1a. The information must be provided prior to the person's discharge from the facility and in a format specified by the commissioner.

Subd. 4c. **Screening requirements.** (a) A person may be screened for nursing facility admission by telephone or in a face-to-face screening interview. Consultation team members shall identify each individual's needs using the following categories:

(1) the person needs no face-to-face screening interview to determine the need for nursing facility level of care based on information obtained from other health care professionals;

(2) the person needs an immediate face-to-face screening interview to determine the need for nursing facility level of care and complete activities required under subdivision 4a; or

(3) the person may be exempt from screening requirements as outlined in subdivision 4b, but will need transitional assistance after admission or in-person follow-along after a return home.

(b) Persons admitted on a nonemergency basis to a Medicaid-certified nursing facility must be screened prior to admission.

(c) The county screening or intake activity must include processes to identify persons who may require transition assistance as described in subdivision 3b.

Subd. 4d. **Preadmission screening of individuals under 65 years of age.** (a) It is the policy of the state of Minnesota to ensure that individuals with disabilities or chronic illness are served in the most integrated setting appropriate to their needs and have the necessary information to make informed choices about home and community-based service options.

(b) Individuals under 65 years of age who are admitted to a nursing facility from a hospital must be screened prior to admission as outlined in subdivisions 4a through 4c.

(c) Individuals under 65 years of age who are admitted to nursing facilities with only a telephone screening must receive a face-to-face assessment from the long-term care consultation team member of the county in which the facility is located or from the recipient's county case manager within 40 calendar days of admission.

(d) Individuals under 65 years of age who are admitted to a nursing facility without preadmission screening according to the exemption described in subdivision 4b, paragraph (a), clause (3), and who remain in the facility longer than 30 days must receive a face-to-face assessment within 40 days of admission.

(e) At the face-to-face assessment, the long-term care consultation team member or county case manager must perform the activities required under subdivision 3b.

(f) For individuals under 21 years of age, a screening interview which recommends nursing facility admission must be face-to-face and approved by the commissioner before the individual is admitted to the nursing facility.

(g) In the event that an individual under 65 years of age is admitted to a nursing facility on an emergency basis, the county must be notified of the admission on the next working day, and

a face-to-face assessment as described in paragraph (c) must be conducted within 40 calendar days of admission.

(h) At the face-to-face assessment, the long-term care consultation team member or the case manager must present information about home and community-based options, including consumer-directed options, so the individual can make informed choices. If the individual chooses home and community-based services, the long-term care consultation team member or case manager must complete a written relocation plan within 20 working days of the visit. The plan shall describe the services needed to move out of the facility and a time line for the move which is designed to ensure a smooth transition to the individual's home and community.

(i) An individual under 65 years of age residing in a nursing facility shall receive a face-to-face assessment at least every 12 months to review the person's service choices and available alternatives unless the individual indicates, in writing, that annual visits are not desired. In this case, the individual must receive a face-to-face assessment at least once every 36 months for the same purposes.

(j) Notwithstanding the provisions of subdivision 6, the commissioner may pay county agencies directly for face-to-face assessments for individuals under 65 years of age who are being considered for placement or residing in a nursing facility.

Subd. 5. Administrative activity. The commissioner shall streamline the processes, including timelines for when assessments need to be completed, required to provide the services in this section and shall implement integrated solutions to automate the business processes to the extent necessary for community support plan approval, reimbursement, program planning, evaluation, and policy development.

Subd. 6. Payment for long-term care consultation services. (a) The total payment for each county must be paid monthly by certified nursing facilities in the county. The monthly amount to be paid by each nursing facility for each fiscal year must be determined by dividing the county's annual allocation for long-term care consultation services by 12 to determine the monthly payment and allocating the monthly payment to each nursing facility based on the number of licensed beds in the nursing facility. Payments to counties in which there is no certified nursing facility must be made by increasing the payment rate of the two facilities located nearest to the county seat.

(b) The commissioner shall include the total annual payment determined under paragraph (a) for each nursing facility reimbursed under section 256B.431 or 256B.434 according to section 256B.431, subdivision 2b, paragraph (g).

(c) In the event of the layaway, delicensure and decertification, or removal from layaway of 25 percent or more of the beds in a facility, the commissioner may adjust the per diem payment amount in paragraph (b) and may adjust the monthly payment amount in paragraph (a). The effective date of an adjustment made under this paragraph shall be on or after the first day of the month following the effective date of the layaway, delicensure and decertification, or removal from layaway.

(d) Payments for long-term care consultation services are available to the county or counties to cover staff salaries and expenses to provide the services described in subdivision 1a. The county shall employ, or contract with other agencies to employ, within the limits of available funding, sufficient personnel to provide long-term care consultation services while meeting the state's long-term care outcomes and objectives as defined in section 256B.0917, subdivision 1.

The county shall be accountable for meeting local objectives as approved by the commissioner in the biennial home and community-based services quality assurance plan on a form provided by the commissioner.

(e) Notwithstanding section 256B.0641, overpayments attributable to payment of the screening costs under the medical assistance program may not be recovered from a facility.

(f) The commissioner of human services shall amend the Minnesota medical assistance plan to include reimbursement for the local consultation teams.

(g) The county may bill, as case management services, assessments, support planning, and follow-along provided to persons determined to be eligible for case management under Minnesota health care programs. No individual or family member shall be charged for an initial assessment or initial support plan development provided under subdivision 3a or 3b.

(h) The commissioner shall develop an alternative payment methodology for long-term care consultation services that includes the funding available under this subdivision, and sections 256B.092 and 256B.0659. In developing the new payment methodology, the commissioner shall consider the maximization of federal funding for this activity.

Subd. 6a. **Withholding.** If any provider obligated to pay the long-term care consultation amount as described in subdivision 6 is more than two months delinquent in the timely payment of the monthly installment, the commissioner may withhold payments, penalties, and interest in accordance with the methods outlined in section 256.9657, subdivision 7a. Any amount withheld under this provision must be returned to the county to whom the delinquent payments were due.

Subd. 7. **Reimbursement for certified nursing facilities.** (a) Medical assistance reimbursement for nursing facilities shall be authorized for a medical assistance recipient only if a preadmission screening has been conducted prior to admission or the county has authorized an exemption. Medical assistance reimbursement for nursing facilities shall not be provided for any recipient who the local screener has determined does not meet the level of care criteria for nursing facility placement in section 144.0724, subdivision 11, or, if indicated, has not had a level II OBRA evaluation as required under the federal Omnibus Budget Reconciliation Act of 1987 completed unless an admission for a recipient with mental illness is approved by the local mental health authority or an admission for a recipient with developmental disability is approved by the state developmental disability authority.

(b) The nursing facility must not bill a person who is not a medical assistance recipient for resident days that preceded the date of completion of screening activities as required under subdivisions 4a, 4b, and 4c. The nursing facility must include unreimbursed resident days in the nursing facility resident day totals reported to the commissioner.
