

162.02 MS 1957 [Repealed, 1959 c 500 art 6 s 13]

162.02 COUNTY STATE-AID HIGHWAY SYSTEM.

Subdivision 1. **Creation.** There is created a county state-aid highway system which must be established, located, constructed, reconstructed, improved, and maintained as public highways by the counties under rules not inconsistent with this section made and promulgated by the commissioner as provided in this chapter. The counties are vested with the rights, title, easements, and their appurtenances, held by or vested in any of the towns or municipal subdivisions or dedicated to the public use prior to the time a road or portion of a road is taken over by the county as a county state-aid highway.

Subd. 2. **Rules; advisory committee.** (a) The rules shall be made and promulgated by the commissioner acting with the advice of a committee selected by the several county boards acting through the officers of the statewide association of county commissioners. The committee shall be composed of nine members so selected that each member shall be from a different state highway construction district. Not more than five of the nine members of the committee shall be county commissioners. The remaining members shall be county highway engineers. In the event that agreement cannot be reached on any rule, the commissioner's determination shall be final. The rules shall be printed and copies forwarded to the county engineers of the several counties.

(b) Notwithstanding section 15.059, subdivision 5, the committee does not expire.

Subd. 3. **Rules have force of law.** The rules have the force and effect of law as provided in chapter 14.

Subd. 3a. **Variances from rules and engineering standards.** (a) The commissioner may grant variances from the rules and from the engineering standards developed pursuant to section 162.021 or 162.07, subdivision 2. A political subdivision in which a county state-aid highway is located or is proposed to be located may submit a written request to the commissioner for a variance for that highway. The commissioner shall comply with section 174.75, subdivision 5, in evaluating a variance request related to a complete streets project.

(b) The commissioner shall publish notice of the request in the State Register and give notice to all persons known to the commissioner to have an interest in the matter. The commissioner may grant or deny the variance within 30 days of providing notice of the request. If a written objection to the request is received within seven days of providing notice, the variance shall be granted or denied only after a contested case hearing has been held on the request. If no timely objection is received and the variance is denied without hearing, the political subdivision may request, within 30 days of receiving notice of denial, and shall be granted a contested case hearing.

(c) For purposes of this subdivision, "political subdivision" includes (1) an agency of a political subdivision which has jurisdiction over parks, and (2) a regional park authority.

Subd. 3b. **Insurance standards.** When reviewing data and information for the development of safety improvements for trunk highways and state-aid projects, the commissioner of transportation may consider, among other things, the Insurance Institute for Highway Safety's findings in addition to standards contained in Department of Transportation manuals, American Association of State Highway and Transportation Officials manual on design of highways and streets, and other applicable federal publications.

Subd. 4. **Location and establishment; commissioner's review.** The county boards of the several counties shall by resolution and subject to the concurrence of the commissioner

locate and establish a system of county state-aid highways in accordance with the rules made and promulgated by the commissioner. It shall be the duty of the commissioner to review each system considering the availability of funds and the desirability of each system in relation to an integrated and coordinated system of highways. After review the commissioner shall by written order approve each system or any part thereof which in the commissioner's judgment is feasible and desirable. A certified copy of the order shall be filed with the county engineer.

Subd. 5. Acquisition of necessary property. The several county boards shall have power to acquire by purchase, gift, or condemnation in accordance with the provisions of chapter 117, and acts supplemental thereto, lands and properties necessary for the establishment, location, relocation, construction, reconstruction, improvement, and maintenance of the county state-aid highway system or as in section 163.12, subdivisions 1 to 10 inclusive.

Subd. 6. System includes certain roads. The system shall include all roads and extensions thereof which were designated on June 30, 1957, as state-aid roads, and which were on June 30, 1957, under the jurisdiction of the counties, and shall include all roads which were designated on June 30, 1957, as state-aid parkways; provided, that with the consent and approval of the commissioner, any roads made a part of the county state-aid highway system by the provision of this subdivision may be abandoned, changed, or revoked by the county board having jurisdiction over such roads.

Subd. 7. Establishment in new location or over established roads. The county board of any county may establish and locate any county state-aid highway on new location where there is no existing road, or it may establish and locate the highway upon or over any established road or street or a specified portion thereof within its limits. Except as provided in subdivision 8a, no county state-aid highway shall be established or located within the corporate limits of any city without the approval of the governing body of the city, except that when a county state-aid highway is relocated the approval of the plans by the governing body shall be deemed to be a transfer of the previous location of the highway to the jurisdiction of the city. The approval shall be in the manner and form required by the commissioner.

Subd. 7a. Prohibition against certain designations. Notwithstanding Laws 1997, chapter 238, section 3, a county must follow the procedures established in this chapter for the establishment and designation of a county state-aid highway.

Subd. 8. Approval by city. Except as provided in subdivision 8a, no portion of the county state-aid highway system lying within the corporate limits of any city shall be constructed, reconstructed, or improved nor the grade thereof changed without the prior approval of the plans by the governing body of such city and the approval shall be in the manner and form required by the commissioner.

Subd. 8a. Dispute resolution board. If a city has failed to approve establishment, construction, reconstruction, or improvement of a county state-aid highway within its corporate limits under subdivision 7 or 8, the county board may, by resolution, request the commissioner to appoint a dispute resolution board consisting of one county commissioner, one county engineer, one city council member or city mayor, one city engineer, and one representative of the Department of Transportation. The board shall review the proposed change and make a recommendation to the commissioner. Notwithstanding any other law, the commissioner may approve the establishment, construction, reconstruction, or improvement of a county state-aid highway recommended by the board.

Subd. 9. **Commissioner's power.** When it shall be made to appear to the commissioner that the county board of any county has refused to locate and establish a county state-aid highway which in the opinion of the commissioner is necessary to provide an integrated and coordinated highway system, the commissioner may, until the county state-aid highway is located and established, withhold from the county so much of the county's share of the county state-aid highway fund as the commissioner deems advisable.

Subd. 10. **Abandonment or revocation.** County state-aid highways may be abandoned, changed, or revoked by joint action of the county board and the commissioner. If a county state-aid highway is established or located within the limits of a city, it shall not be abandoned, changed, or revoked without the concurrence of the governing body of such city; provided, that any county state-aid highway established or located within a city may be abandoned, or revoked without concurrence if the city refuses or neglects for a period of one year after submittal to approve plans for the construction of such highway which plans conform to the construction standards provided in the commissioner's rules.

Subd. 11. **Reverted trunk highways.** The county state-aid highway system is hereby increased in extent by the addition thereto of the mileage of all trunk highways reverted or turned back to the jurisdiction of the counties pursuant to law on and after July 1, 1965.

Subd. 12. **Former municipal state-aid streets.** Former municipal state-aid streets located in a city that previously received money from the municipal state-aid street fund but whose population fell below 5,000 under the 1980 or 1990 federal census must be included in the county state-aid highway system, subject to the approval of the governing bodies of the city and the county. An action taken by a county board approving the inclusion of a former municipal state-aid street in the county state-aid highway system must also include a resolution taking over the street as a county highway under section 163.11. The county state-aid highway system is increased in extent by the addition of the mileage of municipal state-aid streets reverting or turned over to the jurisdiction of the counties under this subdivision.
